Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Distribution	Known to occur
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Migration	Known to occur

Caveat

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected. Please see the caveat for interpretation of information provided here.

Report created: 11-Sep-2023

[Summary](#)

[Details](#)

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance (Ramsar)	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	3
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	19
Listed Migratory Species:	34

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Lands:	None
Commonwealth Heritage Places:	None
Listed Marine Species:	63
Whales and Other Cetaceans:	26
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Australian Marine Parks:	3
Habitat Critical to the Survival of Marine Turtles:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have

State and Territory Reserves:	None
Regional Forest Agreements:	None
Nationally Important Wetlands:	None
EPBC Act Referrals:	25
Key Ecological Features (Marine):	2
Biologically Important Areas:	5
Bioregional Assessments:	None
Geological and Bioregional Assessments:	None

Balaenoptera physalus Fin Whale [37]	Vulnerable	Species or species habitat likely to occur within area
REPTILE		
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat likely to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat likely to occur within area
Lepidochelys olivacea Olive Ridley Turtle, Pacific Ridley Turtle [1767]	Endangered	Species or species habitat likely to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat likely to occur within area
SHARK		
Carcharodon carcharias White Shark, Great White Shark [64470]	Vulnerable	Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Pristis zijsron Green Sawfish, Dindagubba, Narrowsnout Sawfish [68442]	Vulnerable	Species or species habitat known to occur within area
Rhincodon typus Whale Shark [66680]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Sphyrna lewini Scalloped Hammerhead [85267]	Conservation Dependent	Species or species habitat may occur within area

Listed Migratory Species [[Resource Information](#)]

Scientific Name	Threatened Category	Presence Text
Migratory Marine Birds		
Anous stolidus Common Noddy [825]		Species or species habitat may occur within area
Calonectris leucomelas Streaked Shearwater [1077]		Species or species habitat known to occur within area
Fregata ariel Lesser Frigatebird, Least Frigatebird [1012]		Species or species habitat likely to occur within area
Fregata minor Great Frigatebird, Greater Frigatebird [1013]		Species or species habitat may occur within area
Phaethon lepturus White-tailed Tropicbird [1014]		Species or species habitat likely to occur within area
Sternula albifrons Little Tern [82849]		Congregation or aggregation known to occur within area
Migratory Marine Species		
Anoxypristis cuspidata Narrow Sawfish, Knifetooth Sawfish [68448]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Balaenoptera borealis Sei Whale [34]	Vulnerable	Species or species habitat likely to occur within area
Balaenoptera edeni Bryde's Whale [35]		Species or species habitat likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Species or species habitat likely to occur within area
Carcharhinus longimanus Oceanic Whitetip Shark [84108]		Species or species habitat may occur within area
Carcharodon carcharias White Shark, Great White Shark [64470]	Vulnerable	Species or species habitat may occur within area
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat likely to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat likely to occur within area
Isurus oxyrinchus Shortfin Mako, Mako Shark [79073]		Species or species habitat likely to occur within area

Scientific Name	Threatened Category	Presence Text
Isurus paucus Longfin Mako [82947]		Species or species habitat likely to occur within area
Lepidochelys olivacea Olive Ridley Turtle, Pacific Ridley Turtle [1767]	Endangered	Species or species habitat likely to occur within area
Megaptera novaeangliae Humpback Whale [38]		Species or species habitat known to occur within area
Mobula alfredi as Manta alfredi Reef Manta Ray, Coastal Manta Ray [90033]		Species or species habitat known to occur within area
Mobula birostris as Manta birostris Giant Manta Ray [90034]		Species or species habitat may occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat likely to occur within area
Orcinus orca Killer Whale, Orca [46]		Species or species habitat may occur within area
Physeter macrocephalus Sperm Whale [59]		Species or species habitat may occur within area
Pristis zijsron Green Sawfish, Dindagubba, Narrowsnout Sawfish [68442]	Vulnerable	Species or species habitat known to occur within area
Rhincodon typus Whale Shark [66680]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Tursiops aduncus (Arafura/Timor Sea populations) Spotted Bottlenose Dolphin (Arafura/Timor Sea populations) [78900]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Actitis hypoleucos Common Sandpiper [59309]		Species or species habitat may occur within area
Calidris acuminata Sharp-tailed Sandpiper [874]		Species or species habitat may occur within area
Calidris canutus Red Knot, Knot [855]	Endangered	Species or species habitat may occur within area
Calidris melanotos Pectoral Sandpiper [858]		Species or species habitat may occur within area
Numenius madagascariensis Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected. Please see the caveat for interpretation of information provided here.

Report created: 11-Sep-2023

[Summary](#)

[Details](#)

[Matters of NES](#)

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance (Ramsar)	3
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	7
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	36
Listed Migratory Species:	42

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Lands:	88
Commonwealth Heritage Places:	21
Listed Marine Species:	76
Whales and Other Cetaceans:	25
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	2
Australian Marine Parks:	6
Habitat Critical to the Survival of Marine Turtles:	1

Extra Information

This part of the report provides information that may also be relevant to the area you have

State and Territory Reserves:	None
Regional Forest Agreements:	None
Nationally Important Wetlands:	3
EPBC Act Referrals:	94

Key Ecological Features

[\[Resource Information \]](#)

Key Ecological Features are the parts of the marine ecosystem that are considered to be important for the biodiversity or ecosystem functioning and integrity of the Commonwealth Marine Area.

Name	Region
Continental Slope Demersal Fish Communities	North-west

Biologically Important Areas

Scientific Name	Behaviour	Presence
-----------------	-----------	----------

Scientific Name	Behaviour	Presence
Seabirds		
Ardena pacifica Wedge-tailed Shearwater [84292]	Breeding	Known to occur
Fregata ariel Lesser Frigatebird [1012]	Breeding	Known to occur
Fregata minor Greater Frigatebird [1013]	Breeding	Known to occur
Phaethon lepturus White-tailed Tropicbird [1014]	Breeding	Known to occur
Sula leucogaster Brown Booby [1022]	Breeding	Known to occur
Sula sula Red-footed Booby [1023]	Breeding	Known to occur
Whales		
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Distribution	Known to occur
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Migration	Known to occur

Caveat

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected. Please see the caveat for interpretation of information provided here.

Report created: 11-Sep-2023

[Summary](#)

[Details](#)

[Matters of NES](#)

[Other Matters Protected by the EPBC Act](#)

[Extra Information](#)

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance (Ramsar)	3
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	7
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	36
Listed Migratory Species:	42

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Lands:	88
Commonwealth Heritage Places:	21
Listed Marine Species:	76
Whales and Other Cetaceans:	25
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	2
Australian Marine Parks:	6
Habitat Critical to the Survival of Marine Turtles:	1

Extra Information

This part of the report provides information that may also be relevant to the area you have

State and Territory Reserves:	None
Regional Forest Agreements:	None
Nationally Important Wetlands:	3

Key Ecological Features (Marine):	1
Biologically Important Areas:	8
Bioregional Assessments:	None
Geological and Bioregional Assessments:	None

Details

Matters of National Environmental Significance

Wetlands of International Importance (Ramsar Wetlands) [\[Resource Information \]](#)

Ramsar Site Name	Proximity
Hosnies spring	Within Ramsar site
Pulu keeling national park	Within Ramsar site
The dales	Within Ramsar site

Commonwealth Marine Area [\[Resource Information \]](#)

Approval is required for a proposed activity that is located within the Commonwealth Marine Area which has, will have, or is likely to have a significant impact on the environment. Approval may be required for a proposed action taken outside a Commonwealth Marine Area but which has, may have or is likely to have a significant impact on the environment in the Commonwealth Marine Area.

Listed Threatened Species [\[Resource Information \]](#)

Status of Conservation Dependent and Extinct are not MNES under the EPBC Act.
Number is the current name ID.

Scientific Name	Threatened Category	Presence Text
-----------------	---------------------	---------------

BIRD

[Accipiter hiogaster natalis](#)

Christmas Island Goshawk [82408]	Endangered	Species or species habitat known to occur within area
----------------------------------	------------	---

[Anous tenuirostris melanops](#)

Australian Lesser Noddy [26000]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
---------------------------------	------------	---

Scientific Name	Threatened Category	Presence Text
Calidris canutus Red Knot, Knot [855]	Endangered	Species or species habitat may occur within area
Calidris ferruginea Curlew Sandpiper [856]	Critically Endangered	Species or species habitat known to occur within area
Chalcophaps indica natalis Christmas Island Emerald Dove, Emerald Dove (Christmas Island) [67030]	Endangered	Species or species habitat known to occur within area
Charadrius leschenaultii Greater Sand Plover, Large Sand Plover [877]	Vulnerable	Species or species habitat likely to occur within area
Fregata andrewsi Christmas Island Frigatebird, Andrew's Frigatebird [1011]	Endangered	Breeding known to occur within area
Hypotaenidia philippensis andrewsi Buff-banded Rail (Cocos (Keeling) Islands), Ayam Hutan [88994]	Endangered	Species or species habitat known to occur within area
Ninox natalis Christmas Island Hawk-Owl, Christmas Boobook [66671]	Vulnerable	Species or species habitat known to occur within area
Numenius madagascariensis Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area
Papasula abbotti Abbott's Booby [59297]	Endangered	Species or species habitat known to occur within area
Phaethon lepturus fulvus Christmas Island White-tailed Tropicbird, Golden Bosunbird [26021]	Endangered	Species or species habitat known to occur within area
Turdus poliocephalus erythropleurus Christmas Island Thrush [67122]	Endangered	Species or species habitat likely to occur within area

FISH

Scientific Name	Threatened Category	Presence Text
Thunnus maccoyii Southern Bluefin Tuna [69402]	Conservation Dependent	Breeding known to occur within area
MAMMAL		
Balaenoptera borealis Sei Whale [34]	Vulnerable	Species or species habitat likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Species or species habitat likely to occur within area
Crocidura trichura Christmas Island Shrew [86568]	Critically Endangered	Species or species habitat likely to occur within area
Pteropus natalis Christmas Island Flying-fox, Christmas Island Fruit-bat [87611]	Critically Endangered	Species or species habitat known to occur within area
PLANT		
Asplenium listeri Christmas Island Spleenwort [65865]	Critically Endangered	Species or species habitat known to occur within area
Pneumatopteris truncata fern [68812]	Critically Endangered	Species or species habitat known to occur within area
Tectaria devexa Cave Fern [14767]	Endangered	Species or species habitat likely to occur within area
REPTILE		
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area

Scientific Name	Threatened Category	Presence Text
Cryptoblepharus egeriae Christmas Island Blue-tailed Skink, Blue-tailed Snake-eyed Skink [1526]	Critically Endangered	Species or species habitat likely to occur within area
Cyrtodactylus sadleiri Christmas Island Giant Gecko [86865]	Endangered	Species or species habitat known to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat known to occur within area
Lepidochelys olivacea Olive Ridley Turtle, Pacific Ridley Turtle [1767]	Endangered	Species or species habitat likely to occur within area
Lepidodactylus listeri Christmas Island Gecko, Lister's Gecko [1711]	Critically Endangered	Species or species habitat known to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area
Ramphotyphlops exocoeti Christmas Island Blind Snake, Christmas Island Pink Blind Snake [1262]	Vulnerable	Species or species habitat likely to occur within area
SHARK		
Carcharodon carcharias White Shark, Great White Shark [64470]	Vulnerable	Species or species habitat may occur within area
Glyphis garricki Northern River Shark, New Guinea River Shark [82454]	Endangered	Species or species habitat may occur within area
Rhincodon typus Whale Shark [66680]	Vulnerable	Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Sphyrna lewini Scalloped Hammerhead [85267]	Conservation Dependent	Species or species habitat likely to occur within area
Listed Migratory Species [Resource Information]		
Scientific Name	Threatened Category	Presence Text
Migratory Marine Birds		
Anous stolidus Common Noddy [825]		Species or species habitat likely to occur within area
Ardenna pacifica Wedge-tailed Shearwater [84292]		Breeding known to occur within area
Calonectris leucomelas Streaked Shearwater [1077]		Species or species habitat known to occur within area
Fregata andrewsi Christmas Island Frigatebird, Andrew's Frigatebird [1011]	Endangered	Breeding known to occur within area
Fregata ariel Lesser Frigatebird, Least Frigatebird [1012]		Breeding known to occur within area
Fregata minor Great Frigatebird, Greater Frigatebird [1013]		Breeding known to occur within area
Phaethon lepturus White-tailed Tropicbird [1014]		Breeding known to occur within area
Phaethon rubricauda Red-tailed Tropicbird [994]		Breeding known to occur within area
Sula dactylatra Masked Booby [1021]		Breeding known to occur within area
Sula leucogaster Brown Booby [1022]		Breeding known to occur within area
Sula sula Red-footed Booby [1023]		Breeding known to occur within area

Migratory Marine Species

Scientific Name	Threatened Category	Presence Text
Balaenoptera borealis Sei Whale [34]	Vulnerable	Species or species habitat likely to occur within area
Balaenoptera edeni Bryde's Whale [35]		Species or species habitat likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Species or species habitat likely to occur within area
Carcharhinus longimanus Oceanic Whitetip Shark [84108]		Species or species habitat may occur within area
Carcharodon carcharias White Shark, Great White Shark [64470]	Vulnerable	Species or species habitat may occur within area
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat known to occur within area
Isurus oxyrinchus Shortfin Mako, Mako Shark [79073]		Species or species habitat likely to occur within area

Scientific Name	Threatened Category	Presence Text
Isurus paucus Longfin Mako [82947]		Species or species habitat likely to occur within area
Lepidochelys olivacea Olive Ridley Turtle, Pacific Ridley Turtle [1767]	Endangered	Species or species habitat likely to occur within area
Megaptera novaeangliae Humpback Whale [38]		Species or species habitat likely to occur within area
Mobula birostris as Manta birostris Giant Manta Ray [90034]		Species or species habitat known to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area
Orcinus orca Killer Whale, Orca [46]		Species or species habitat may occur within area
Physeter macrocephalus Sperm Whale [59]		Species or species habitat may occur within area
Rhincodon typus Whale Shark [66680]	Vulnerable	Species or species habitat may occur within area
Migratory Terrestrial Species		
Cecropis daurica Red-rumped Swallow [80610]		Species or species habitat known to occur within area
Cuculus optatus Oriental Cuckoo, Horsfield's Cuckoo [86651]		Species or species habitat known to occur within area
Hirundo rustica Barn Swallow [662]		Species or species habitat known to occur within area

Scientific Name	Threatened Category	Presence Text
Motacilla cinerea Grey Wagtail [642]		Species or species habitat known to occur within area
Motacilla flava Yellow Wagtail [644]		Species or species habitat known to occur within area
Migratory Wetlands Species		
Actitis hypoleucos Common Sandpiper [59309]		Species or species habitat known to occur within area
Calidris acuminata Sharp-tailed Sandpiper [874]		Species or species habitat known to occur within area
Calidris canutus Red Knot, Knot [855]	Endangered	Species or species habitat may occur within area
Calidris ferruginea Curlew Sandpiper [856]	Critically Endangered	Species or species habitat known to occur within area
Calidris melanotos Pectoral Sandpiper [858]		Species or species habitat may occur within area
Charadrius leschenaultii Greater Sand Plover, Large Sand Plover [877]	Vulnerable	Species or species habitat likely to occur within area
Numenius madagascariensis Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area

Other Matters Protected by the EPBC Act

Commonwealth Lands [\[Resource Information \]](#)

The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.

Fregata minor Great Frigatebird, Greater Frigatebird [1013]		Breeding known to occur within area
Hirundo rustica Barn Swallow [662]		Species or species habitat known to occur within area overfly marine area
Motacilla cinerea Grey Wagtail [642]		Species or species habitat known to occur within area overfly marine area
Motacilla flava Yellow Wagtail [644]		Species or species habitat known to occur within area overfly marine area
Numenius madagascariensis Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat may occur within area
Papasula abbotti Abbott's Booby [59297]	Endangered	Species or species habitat known to occur within area

Scientific Name	Threatened Category	Presence Text
Phaethon lepturus White-tailed Tropicbird [1014]		Breeding known to occur within area
Phaethon lepturus fulvus Christmas Island White-tailed Tropicbird, Golden Bosunbird [26021]	Endangered	Species or species habitat known to occur within area
Phaethon rubricauda Red-tailed Tropicbird [994]		Breeding known to occur within area
Sula dactylatra Masked Booby [1021]		Breeding known to occur within area
Sula leucogaster Brown Booby [1022]		Breeding known to occur within area
Sula sula Red-footed Booby [1023]		Breeding known to occur within area
Fish		
Choeroichthys brachysoma Pacific Short-bodied Pipefish, Short-bodied Pipefish [66194]		Species or species habitat may occur within area
Choeroichthys sculptus Sculptured Pipefish [66197]		Species or species habitat may occur within area
Corythoichthys amplexus Fijian Banded Pipefish, Brown-banded Pipefish [66199]		Species or species habitat may occur within area
Corythoichthys flavofasciatus Reticulate Pipefish, Yellow-banded Pipefish, Network Pipefish [66200]		Species or species habitat may occur within area
Corythoichthys haematopterus Reef-top Pipefish [66201]		Species or species habitat may occur within area
Corythoichthys intestinalis Australian Messmate Pipefish, Banded Pipefish [66202]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Corythoichthys schultzi Schultz's Pipefish [66205]		Species or species habitat may occur within area
Cosmocampus banneri Roughridge Pipefish [66206]		Species or species habitat may occur within area
Cosmocampus maxweberi Maxweber's Pipefish [66209]		Species or species habitat may occur within area
Doryrhamphus baldwini Redstripe Pipefish [66718]		Species or species habitat may occur within area
Doryrhamphus dactyliophorus Banded Pipefish, Ringed Pipefish [66210]		Species or species habitat may occur within area
Doryrhamphus excisus Bluestripe Pipefish, Indian Blue-stripe Pipefish, Pacific Blue-stripe Pipefish [66211]		Species or species habitat may occur within area
Doryrhamphus janssi Cleaner Pipefish, Janss' Pipefish [66212]		Species or species habitat may occur within area
Doryrhamphus negrosensis Flagtail Pipefish, Masthead Island Pipefish [66213]		Species or species habitat may occur within area
Halicampus brocki Brock's Pipefish [66219]		Species or species habitat may occur within area
Halicampus dunckeri Red-hair Pipefish, Duncker's Pipefish [66220]		Species or species habitat may occur within area
Halicampus macrorhynchus Whiskered Pipefish, Ornate Pipefish [66222]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Halicampus mataafae Samoan Pipefish [66223]		Species or species habitat may occur within area
Halicampus nitidus Glittering Pipefish [66224]		Species or species habitat may occur within area
Halicampus spinostris Spiny-snout Pipefish [66225]		Species or species habitat may occur within area
Hippichthys cyanospilos Blue-speckled Pipefish, Blue-spotted Pipefish [66228]		Species or species habitat may occur within area
Hippichthys heptagonus Madura Pipefish, Reticulated Freshwater Pipefish [66229]		Species or species habitat may occur within area
Hippichthys penicillus Beady Pipefish, Steep-nosed Pipefish [66231]		Species or species habitat may occur within area
Hippichthys spicifer Belly-barred Pipefish, Banded Freshwater Pipefish [66232]		Species or species habitat may occur within area
Hippocampus histrix Spiny Seahorse, Thorny Seahorse [66236]		Species or species habitat may occur within area
Hippocampus kuda Spotted Seahorse, Yellow Seahorse [66237]		Species or species habitat may occur within area
Hippocampus spinosissimus Hedgehog Seahorse [66239]		Species or species habitat may occur within area
Hippocampus trimaculatus Three-spot Seahorse, Low-crowned Seahorse, Flat-faced Seahorse [66720]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Micrognathus brevirostris thorntail Pipefish, Thorn-tailed Pipefish [66254]		Species or species habitat may occur within area
Micrognathus micronotopterus Tidepool Pipefish [66255]		Species or species habitat may occur within area
Phoxocampus belcheri Black Rock Pipefish [66719]		Species or species habitat may occur within area
Solegnathus lettiensis Gunther's Pipehorse, Indonesian Pipefish [66273]		Species or species habitat may occur within area
Syngnathoides biaculeatus Double-end Pipehorse, Double-ended Pipehorse, Alligator Pipefish [66279]		Species or species habitat may occur within area
Trachyrhamphus bicoarctatus Bentstick Pipefish, Bend Stick Pipefish, Short-tailed Pipefish [66280]		Species or species habitat may occur within area
Trachyrhamphus longirostris Straightstick Pipefish, Long-nosed Pipefish, Straight Stick Pipefish [66281]		Species or species habitat may occur within area
Reptile		
Acalyptophis peronii Horned Seasnake [1114]		Species or species habitat may occur within area
Aipysurus duboisii Dubois' Seasnake [1116]		Species or species habitat may occur within area
Aipysurus laevis Olive Seasnake [1120]		Species or species habitat may occur within area
Astrotia stokesii Stokes' Seasnake [1122]		Species or species habitat may occur within area

Scientific Name	Threatened Category	Presence Text
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat known to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat known to occur within area
Chitulia ornata as Hydrophis ornatus Spotted Seasnake, Ornate Reef Seasnake [87377]		Species or species habitat may occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Disteira kingii Spectacled Seasnake [1123]		Species or species habitat may occur within area
Disteira major Olive-headed Seasnake [1124]		Species or species habitat may occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat known to occur within area
Hydrophis elegans Elegant Seasnake [1104]		Species or species habitat may occur within area
Leioselasma coggeri as Hydrophis coggeri Black-headed Sea Snake, Slender-necked Seasnake [87373]		Species or species habitat may occur within area
Lepidochelys olivacea Olive Ridley Turtle, Pacific Ridley Turtle [1767]	Endangered	Species or species habitat likely to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat known to occur within area

Scientific Name	Threatened Category	Presence Text
Pelamis platurus Yellow-bellied Seasnake [1091]		Species or species habitat may occur within area

Whales and Other Cetaceans [[Resource Information](#)]

Current Scientific Name	Status	Type of Presence
Mammal		
Balaenoptera borealis Sei Whale [34]	Vulnerable	Species or species habitat likely to occur within area
Balaenoptera edeni Bryde's Whale [35]		Species or species habitat likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Species or species habitat likely to occur within area
Delphinus delphis Common Dolphin, Short-beaked Common Dolphin [60]		Species or species habitat may occur within area
Feresa attenuata Pygmy Killer Whale [61]		Species or species habitat may occur within area
Globicephala macrorhynchus Short-finned Pilot Whale [62]		Species or species habitat may occur within area
Grampus griseus Risso's Dolphin, Grampus [64]		Species or species habitat may occur within area
Indopacetus pacificus Longman's Beaked Whale [72]		Species or species habitat may occur within area

Current Scientific Name	Status	Type of Presence
Kogia breviceps Pygmy Sperm Whale [57]		Species or species habitat may occur within area
Kogia sima Dwarf Sperm Whale [85043]		Species or species habitat may occur within area
Lagenodelphis hosei Fraser's Dolphin, Sarawak Dolphin [41]		Species or species habitat may occur within area
Megaptera novaeangliae Humpback Whale [38]		Species or species habitat likely to occur within area
Mesoplodon densirostris Blainville's Beaked Whale, Dense-beaked Whale [74]		Species or species habitat may occur within area
Mesoplodon ginkgodens Ginkgo-toothed Beaked Whale, Ginkgo-toothed Whale, Ginkgo Beaked Whale [59564]		Species or species habitat may occur within area
Orcinus orca Killer Whale, Orca [46]		Species or species habitat may occur within area
Peponocephala electra Melon-headed Whale [47]		Species or species habitat may occur within area
Physeter macrocephalus Sperm Whale [59]		Species or species habitat may occur within area
Pseudorca crassidens False Killer Whale [48]		Species or species habitat likely to occur within area
Stenella attenuata Spotted Dolphin, Pantropical Spotted Dolphin [51]		Species or species habitat may occur within area

Current Scientific Name	Status	Type of Presence
Stenella coeruleoalba Striped Dolphin, Euphrosyne Dolphin [52]		Species or species habitat may occur within area
Stenella longirostris Long-snouted Spinner Dolphin [29]		Species or species habitat may occur within area
Steno bredanensis Rough-toothed Dolphin [30]		Species or species habitat may occur within area
Tursiops truncatus s. str. Bottlenose Dolphin [68417]		Species or species habitat may occur within area
Ziphius cavirostris Cuvier's Beaked Whale, Goose-beaked Whale [56]		Species or species habitat may occur within area

Key Ecological Features

[\[Resource Information \]](#)

Key Ecological Features are the parts of the marine ecosystem that are considered to be important for the biodiversity or ecosystem functioning and integrity of the Commonwealth Marine Area.

Name	Region
Continental Slope Demersal Fish Communities	North-west

Biologically Important Areas

Scientific Name	Behaviour	Presence
-----------------	-----------	----------

Scientific Name	Behaviour	Presence
Seabirds		
Ardena pacifica Wedge-tailed Shearwater [84292]	Breeding	Known to occur
Fregata ariel Lesser Frigatebird [1012]	Breeding	Known to occur
Fregata minor Greater Frigatebird [1013]	Breeding	Known to occur
Phaethon lepturus White-tailed Tropicbird [1014]	Breeding	Known to occur
Sula leucogaster Brown Booby [1022]	Breeding	Known to occur
Sula sula Red-footed Booby [1023]	Breeding	Known to occur
Whales		
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Distribution	Known to occur
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Migration	Known to occur

Caveat

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance (Ramsar)	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	None
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	None
Listed Migratory Species:	None

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Lands:	None
Commonwealth Heritage Places:	None

Details

Matters of National Environmental Significance

Other Matters Protected by the EPBC Act

Extra Information

Caveat

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Importance (Ramsar)	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	2
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	16
Listed Migratory Species:	28

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected. Please see the caveat for interpretation of information provided here.

Report created: 11-Sep-2023

[Summary](#)

[Details](#)

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the [Administrative Guidelines on Significance](#).

World Heritage Properties:	None
National Heritage Places:	1
Wetlands of International Importance (Ramsar)	None
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	3
Listed Threatened Ecological Communities:	None
Listed Threatened Species:	29
Listed Migratory Species:	41

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <https://www.dcceew.gov.au/parks-heritage/heritage>

A [permit](#) may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species.

Commonwealth Lands:	None
Commonwealth Heritage Places:	1
Listed Marine Species:	34
Whales and Other Cetaceans:	38
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Australian Marine Parks:	7
Habitat Critical to the Survival of Marine Turtles:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have

State and Territory Reserves:	None
Regional Forest Agreements:	None
Nationally Important Wetlands:	None
EPBC Act Referrals:	21
Key Ecological Features (Marine):	4
Biologically Important Areas:	8

Onychoprion fuscatus as Sterna fuscata Sooty Tern [90682]		Foraging, feeding or related behaviour likely to occur within area
Pachyptila turtur Fairy Prion [1066]		Species or species habitat may occur within area
Phaethon lepturus White-tailed Tropicbird [1014]		Species or species habitat may occur within area
Phaethon lepturus fulvus Christmas Island White-tailed Tropicbird, Golden Bosunbird [26021]	Endangered	Species or species habitat may occur within area
Phoebastria fusca Sooty Albatross [1075]	Vulnerable	Species or species habitat may occur within area
Pterodroma macroptera Great-winged Petrel [1035]		Foraging, feeding or related behaviour known to occur within area
Pterodroma mollis Soft-plumaged Petrel [1036]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Puffinus assimilis Little Shearwater [59363]		Foraging, feeding or related behaviour known to occur within area
Stercorarius antarcticus as Catharacta skua Brown Skua [85039]		Species or species habitat may occur within area
Thalassarche carteri Indian Yellow-nosed Albatross [64464]	Vulnerable	Species or species habitat likely to occur within area

Scientific Name	Threatened Category	Presence Text
Thalassarche cauta Shy Albatross [89224]	Endangered	Foraging, feeding or related behaviour likely to occur within area
Thalassarche impavida Campbell Albatross, Campbell Black-browed Albatross [64459]	Vulnerable	Species or species habitat may occur within area
Thalassarche melanophris Black-browed Albatross [66472]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Thalassarche steadi White-capped Albatross [64462]	Vulnerable	Species or species habitat may occur within area
Reptile		
Caretta caretta Loggerhead Turtle [1763]	Endangered	Species or species habitat likely to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Species or species habitat likely to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Species or species habitat likely to occur within area
Disteira kingii Spectacled Seasnake [1123]		Species or species habitat may occur within area
Eretmochelys imbricata Hawksbill Turtle [1766]	Vulnerable	Species or species habitat likely to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Species or species habitat likely to occur within area

Whales and Other Cetaceans		[Resource Information]
Current Scientific Name	Status	Type of Presence
Mammal		

Current Scientific Name	Status	Type of Presence
Balaenoptera acutorostrata Minke Whale [33]		Species or species habitat may occur within area
Balaenoptera bonaerensis Antarctic Minke Whale, Dark-shoulder Minke Whale [67812]		Species or species habitat likely to occur within area
Balaenoptera borealis Sei Whale [34]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Balaenoptera edeni Bryde's Whale [35]		Species or species habitat likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Berardius arnuxii Arnoux's Beaked Whale [70]		Species or species habitat may occur within area
Caperea marginata Pygmy Right Whale [39]		Foraging, feeding or related behaviour may occur within area
Delphinus delphis Common Dolphin, Short-beaked Common Dolphin [60]		Species or species habitat may occur within area
Eubalaena australis Southern Right Whale [40]	Endangered	Species or species habitat may occur within area
Feresa attenuata Pygmy Killer Whale [61]		Species or species habitat may occur within area

Current Scientific Name	Status	Type of Presence
Globicephala macrorhynchus Short-finned Pilot Whale [62]		Species or species habitat may occur within area
Globicephala melas Long-finned Pilot Whale [59282]		Species or species habitat may occur within area
Grampus griseus Risso's Dolphin, Grampus [64]		Species or species habitat may occur within area
Hyperoodon planifrons Southern Bottlenose Whale [71]		Species or species habitat may occur within area
Indopacetus pacificus Longman's Beaked Whale [72]		Species or species habitat may occur within area
Kogia breviceps Pygmy Sperm Whale [57]		Species or species habitat may occur within area
Kogia sima Dwarf Sperm Whale [85043]		Species or species habitat may occur within area
Lagenodelphis hosei Fraser's Dolphin, Sarawak Dolphin [41]		Species or species habitat may occur within area
Lagenorhynchus obscurus Dusky Dolphin [43]		Species or species habitat likely to occur within area
Lissodelphis peronii Southern Right Whale Dolphin [44]		Species or species habitat may occur within area
Megaptera novaeangliae Humpback Whale [38]		Species or species habitat likely to occur within area

Current Scientific Name	Status	Type of Presence
Mesoplodon bowdoini Andrew's Beaked Whale [73]		Species or species habitat may occur within area
Mesoplodon densirostris Blainville's Beaked Whale, Dense-beaked Whale [74]		Species or species habitat may occur within area
Mesoplodon ginkgodens Ginkgo-toothed Beaked Whale, Ginkgo-toothed Whale, Ginkgo Beaked Whale [59564]		Species or species habitat may occur within area
Mesoplodon grayi Gray's Beaked Whale, Scamperdown Whale [75]		Species or species habitat may occur within area
Mesoplodon layardii Strap-toothed Beaked Whale, Strap-toothed Whale, Layard's Beaked Whale [25556]		Species or species habitat may occur within area
Mesoplodon mirus True's Beaked Whale [54]		Species or species habitat may occur within area
Orcinus orca Killer Whale, Orca [46]		Species or species habitat may occur within area
Peponocephala electra Melon-headed Whale [47]		Species or species habitat may occur within area
Physeter macrocephalus Sperm Whale [59]		Species or species habitat may occur within area
Pseudorca crassidens False Killer Whale [48]		Species or species habitat likely to occur within area
Stenella attenuata Spotted Dolphin, Pantropical Spotted Dolphin [51]		Species or species habitat may occur within area

Current Scientific Name	Status	Type of Presence
Stenella coeruleoalba Striped Dolphin, Euphrosyne Dolphin [52]		Species or species habitat may occur within area
Stenella longirostris Long-snouted Spinner Dolphin [29]		Species or species habitat may occur within area
Steno bredanensis Rough-toothed Dolphin [30]		Species or species habitat may occur within area
Tursiops truncatus s. str. Bottlenose Dolphin [68417]		Species or species habitat may occur within area
Ziphius cavirostris Cuvier's Beaked Whale, Goose-beaked Whale [56]		Species or species habitat may occur within area

Key Ecological Features

[\[Resource Information \]](#)

Key Ecological Features are the parts of the marine ecosystem that are considered to be important for the biodiversity or ecosystem functioning and integrity of the Commonwealth Marine Area.

Name	Region
Naturaliste Plateau	South-west
Perth Canyon and adjacent shelf break, and other west coast canyons	South-west
Wallaby Saddle	North-west
Western demersal slope and associated fish communities	South-west

Biologically Important Areas

Scientific Name	Behaviour	Presence
Seabirds		

Scientific Name	Behaviour	Presence
Onychoprion fuscata Sooty Tern [82847]	Foraging	Known to occur
Pelagodroma marina White-faced Storm petrel [1016]	Foraging (in high numbers)	Known to occur
Pterodroma macroptera macroptera Great-winged Petrel (macroptera race) [1035]	Foraging (provisioning young)	Known to occur
Pterodroma mollis Soft-plumaged Petrel [1036]	Foraging (in high numbers)	Known to occur
Puffinus assimilis tunneyi Little Shearwater [59363]	Foraging (in high numbers)	Known to occur
Whales		
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Distribution	Known to occur
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Known Foraging Area	Known to occur
Balaenoptera musculus brevicauda Pygmy Blue Whale [81317]	Migration	Known to occur

Caveat

1 PURPOSE

This report is designed to assist in identifying the location of matters of national environmental significance (MNES) and other matters protected by the Environment Protection and Biodiversity Conservation Act 1999 (Cth) (EPBC Act) which may be relevant in determining obligations and requirements under the EPBC Act.

The report contains the mapped locations of:

- World and National Heritage properties;
- Wetlands of International and National Importance;
- Commonwealth and State/Territory reserves;
- distribution of listed threatened, migratory and marine species;
- listed threatened ecological communities; and
- other information that may be useful as an indicator of potential habitat value.

2 DISCLAIMER

This report is not intended to be exhaustive and should only be relied upon as a general guide as mapped data is not available for all species or ecological communities listed under the EPBC Act (see below). Persons seeking to use the information contained in this report to inform the referral of a proposed action under the EPBC Act should consider the limitations noted below and whether additional information is required to determine the existence and location of MNES and other protected matters.

Where data are available to inform the mapping of protected species, the presence type (e.g. known, likely or may occur) that can be determined from the data is indicated in general terms. It is the responsibility of any person using or relying on the information in this report to ensure that it is suitable for the circumstances of any proposed use. The Commonwealth cannot accept responsibility for the consequences of any use of the report or any part thereof. To the maximum extent allowed under governing law, the Commonwealth will not be liable for any loss or damage that may be occasioned directly or indirectly through the use of, or reliance

3 DATA SOURCES

Threatened ecological communities

For threatened ecological communities where the distribution is well known, maps are generated based on information contained in recovery plans, State vegetation maps and remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species

Threatened, migratory and marine species distributions have been discerned through a variety of methods. Where distributions are well known and if time permits, distributions are inferred from either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc.) together with point locations and described habitat; or modelled (MAXENT or BIOCLIM habitat modelling) using

Where little information is available for a species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc.).

In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More detailed distribution mapping methods are used to update these distributions

4 LIMITATIONS

The following species and ecological communities have not been mapped and do not appear in this report:

- threatened species listed as extinct or considered vagrants;
- some recently listed species and ecological communities;
- some listed migratory and listed marine species, which are not listed as threatened species; and
- migratory species that are very widespread, vagrant, or only occur in Australia in small numbers.

The following groups have been mapped, but may not cover the complete distribution of the species:

- listed migratory and/or listed marine seabirds, which are not listed as threatened, have only been mapped for recorded
- seals which have only been mapped for breeding sites near the Australian continent

The breeding sites may be important for the protection of the Commonwealth Marine environment.

Refer to the metadata for the feature group (using the Resource Information link) for the currency of the information.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

Coordinates

Map coordinates are based on the GDA 94 Datum.

Disclaimer

The Aboriginal Cultural Heritage Act 2021 (Act) recognises, protects, conserves, and preserves Aboriginal cultural heritage (ACH), and recognises the fundamental importance of ACH to Aboriginal people and its role in Aboriginal communities past, present and future. The Act recognises the value of ACH to Aboriginal people as well as to the wider Western Australian community.

Aboriginal cultural heritage in Western Australia is protected, whether or not the ACH has been reported to the ACH Council or exists on the Directory.

The information provided is made available in good faith and is predominately based on the information provided to the Department of Planning, Lands and Heritage by third parties. The information is provided solely on the basis that readers will be responsible for making their own assessment as to the accuracy of the information. If you find any errors or omissions in our records, including our maps, it would be appreciated if you email the details to the Department at AboriginalHeritage@dplh.wa.gov.au and we will make every effort to rectify it as soon as possible.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

Coordinates

Map coordinates are based on the GDA 94 Datum.

Disclaimer

The Aboriginal Cultural Heritage Act 2021 (Act) recognises, protects, conserves, and preserves Aboriginal cultural heritage (ACH), and recognises the fundamental importance of ACH to Aboriginal people and its role in Aboriginal communities past, present and future. The Act recognises the value of ACH to Aboriginal people as well as to the wider Western Australian community.

Aboriginal cultural heritage in Western Australia is protected, whether or not the ACH has been reported to the ACH Council or exists on the Directory.

The information provided is made available in good faith and is predominately based on the information provided to the Department of Planning, Lands and Heritage by third parties. The information is provided solely on the basis that readers will be responsible for making their own assessment as to the accuracy of the information. If you find any errors or omissions in our records, including our maps, it would be appreciated if you email the details to the Department at AboriginalHeritage@dplh.wa.gov.au and we will make every effort to rectify it as soon as possible.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

Coordinates

Map coordinates are based on the GDA 94 Datum.

Disclaimer

The Aboriginal Cultural Heritage Act 2021 (Act) recognises, protects, conserves, and preserves Aboriginal cultural heritage (ACH), and recognises the fundamental importance of ACH to Aboriginal people and its role in Aboriginal communities past, present and future. The Act recognises the value of ACH to Aboriginal people as well as to the wider Western Australian community.

Aboriginal cultural heritage in Western Australia is protected, whether or not the ACH has been reported to the ACH Council or exists on the Directory.

The information provided is made available in good faith and is predominately based on the information provided to the Department of Planning, Lands and Heritage by third parties. The information is provided solely on the basis that readers will be responsible for making their own assessment as to the accuracy of the information. If you find any errors or omissions in our records, including our maps, it would be appreciated if you email the details to the Department at AboriginalHeritage@dplh.wa.gov.au and we will make every effort to rectify it as soon as possible.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

Disclaimer

The Aboriginal Cultural Heritage Act 2021 (Act) recognises, protects, conserves, and preserves Aboriginal cultural heritage (ACH), and recognises the fundamental importance of ACH to Aboriginal people and its role in Aboriginal communities past, present and future. The Act recognises the value of ACH to Aboriginal people as well as to the wider Western Australian community.

Aboriginal cultural heritage in Western Australia is protected, whether or not the ACH has been reported to the ACH Council or exists on the Directory.

The information provided is made available in good faith and is predominately based on the information provided to the Department of Planning, Lands and Heritage by third parties. The information is provided solely on the basis that readers will be responsible for making their own assessment as to the accuracy of the information. If you find any errors or omissions in our records, including our maps, it would be appreciated if you email the details to the Department at AboriginalHeritage@dplh.wa.gov.au and we will make every effort to rectify it as soon as possible.

South West Settlement ILUA Disclaimer

Your heritage enquiry is on land within or adjacent to the following Indigenous Land Use Agreement(s): Wagyl Kaip & Southern Noongar Indigenous Land Use Agreement, Gnaala Karla Booja Indigenous Land Use Agreement, South West Boojarah #2 Indigenous Land Use Agreement, Yued Indigenous Land Use Agreement, Whadjuk People Indigenous Land Use Agreement.

On 8 June 2015, six identical Indigenous Land Use Agreements (ILUAs) were executed across the South West by the Western Australian Government and, respectively, the Yued, Whadjuk People, Gnaala Karla Booja, Ballardong People, South West Boojarah #2 and Wagyl Kaip & Southern Noongar groups, and the South West Aboriginal Land and Sea Council (SWALSC).

The ILUAs bind the parties (including 'the State', which encompasses all State Government Departments and certain State Government agencies) to enter into a Noongar Standard Heritage Agreement (NSHA) when conducting Aboriginal Heritage Surveys in the ILUA areas, unless they have an existing heritage agreement. It is also intended that other State agencies and instrumentalities enter into the NSHA when conducting Aboriginal Heritage Surveys in the ILUA areas. It is recommended a NSHA is entered into, and an 'Activity Notice' issued under the NSHA, if there is a risk that an activity will 'impact' (i.e. by excavating, damaging, destroying or altering in any way) an Aboriginal heritage site. The Aboriginal Heritage Due Diligence Guidelines, which are referenced by the NSHA, provide guidance on how to assess the potential risk to Aboriginal heritage.

Likewise, from 8 June 2015 the Department of Mines, Industry Regulation and Safety (DMIRS) in granting Mineral, Petroleum and related Access Authority tenures within the South West Settlement ILUA areas, will place a condition on these tenures requiring a heritage agreement or a NSHA before any rights can be exercised.

If you are a State Government Department, Agency or Instrumentality, or have a heritage condition placed on your mineral or petroleum title by DMIRS, you should seek advice as to the requirement to use the NSHA for your proposed activity. The full ILUA documents, maps of the ILUA areas and the NSHA template can be found at <https://www.wa.gov.au/organisation/department-of-the-premier-and-cabinet/south-west-native-title-settlement>.

Further advice can also be sought from the Department of Planning, Lands and Heritage at AboriginalHeritage@dplh.wa.gov.au.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

11 Aboriginal Cultural Heritage (ACH) Directory in Shapefile - 20230830_NY_ConsultationArea_PMST_8

Disclaimer

The Aboriginal Cultural Heritage Act 2021 (Act) recognises, protects, conserves, and preserves Aboriginal cultural heritage (ACH), and recognises the fundamental importance of ACH to Aboriginal people and its role in Aboriginal communities past, present and future. The Act recognises the value of ACH to Aboriginal people as well as to the wider Western Australian community.

Aboriginal cultural heritage in Western Australia is protected, whether or not the ACH has been reported to the ACH Council or exists on the Directory.

The information provided is made available in good faith and is predominately based on the information provided to the Department of Planning, Lands and Heritage by third parties. The information is provided solely on the basis that readers will be responsible for making their own assessment as to the accuracy of the information. If you find any errors or omissions in our records, including our maps, it would be appreciated if you email the details to the Department at AboriginalHeritage@dplh.wa.gov.au and we will make every effort to rectify it as soon as possible.

List of Aboriginal Cultural Heritage (ACH) Directory

Terminology

ID: Reported ACH is assigned a unique ID by the Department of Planning, Lands and Heritage using the format: ACH-00000001. For ACH places on the former Register the ID numbers remain unchanged and use the new format. For example the ACH ID of the place Swan River was previously '3536' and is now 'ACH-00003536'.

Access and Restrictions:

- Boundary Reliable (Yes/No): Indicates whether the location and extent of the ACH boundary is considered reliable.
- Boundary Restricted = No: ACH location is shown as accurately as the information submitted allows.
- Boundary Restricted = Yes: To preserve confidentiality the exact location and extent of the place is not displayed on the map. However, the shaded region (generally with an area of at least 4km²) provides a general indication of where the ACH is located. If you are a landowner and wish to find out more about the exact location of the place, please contact the Department of Planning, Lands and Heritage.
- Culturally Sensitive = No: Availability of information that the Department of Planning, Lands and Heritage holds in relation to the ACH is not restricted in any way.
- Culturally Sensitive = Yes: Some of the information that the Department of Planning, Lands and Heritage holds in relation to the ACH is restricted if it is considered culturally sensitive information. This information will only be made available if the Department of Planning, Lands and Heritage receives written approval from the people who provided the information. To request access please contact AboriginalHeritage@dplh.wa.gov.au.
- Culturally Sensitive Nature:
 - No Gender / Initiation Restrictions: Anyone can view the information.
 - Men only: Only males can view restricted information.
 - Women only: Only females can view restricted information.

Status:

- ACH Directory: Aboriginal cultural heritage place or cultural landscape.
- Pending: Aboriginal cultural heritage place or cultural landscape with information in a verification stage.
- Historic: Aboriginal heritage places determined to not meet the criteria of Section 5 of the Aboriginal Heritage Act 1972. Includes places that no longer exist as a result of land use activities with existing approvals.

ACH Type:

- Cultural Landscape: a group of areas interconnected through the tangible elements of Aboriginal culture heritage present.
- Place: an area in which tangible elements of Aboriginal cultural heritage are present.

Place Type: The type of Aboriginal cultural heritage place. For example an artefact scatter place or engravings place.

Legacy Place Status: A status determined under the previous Aboriginal Heritage Act 1972:

- Registered Site: the place was assessed as meeting Section 5 of the Aboriginal Heritage Act 1972.
- Lodged: Information was received in relation to the place, but an assessment was not completed to determine if it met section 5 of the Aboriginal Heritage Act 1972.
- Stored Data/Not a Site: The place was assessed as not meeting Section 5 of the Aboriginal Heritage Act 1972.

Legacy ID: This is the former unique number that the former Department of Aboriginal Sites assigned to the place.

APPENDIX E NATIONAL OFFSHORE PETROLEUM SAFETY AND ENVIRONMENTAL MANAGEMENT AGENCY REPORT FORM

Recordable Environmental Incident Monthly Report

Document No: N-03300-FM0928 A198750

Date: 10/01/2024

Due Date: By the 15th day of the following month.

Send completed form to: submissions@nopsema.gov.au via secure file transfer at <https://securefile.nopsema.gov.au/filedrop/submissions>

Reference: Regulation 50

Please check the following boxes if applicable to this report		Nil Incident Report: <input type="checkbox"/>		Final report for this activity: <input type="checkbox"/>	
Titleholder name:		Titleholder business address:		Title of environment plan for the activity:	
Activity type: <small>(e.g. drilling, seismic, production)</small>		Month, Year:		Facility name and type : <small>(e.g. MODU, Seismic Vessel, FPSO)</small>	
Contact person:		Email:		Phone:	
Incident date	All material facts and circumstances <small>(including release volumes to environment if applicable)</small>	Performance outcome(s) and/or standard(s) breached	Action taken to avoid or mitigate any adverse environmental impacts of the incident	Corrective action taken, or proposed, to stop, control or remedy this incident	Action taken, or proposed, to prevent a similar incident occurring in future

Note 1: As at 28 February 2014, amendments to the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations changed from environmental performance objective to environmental performance outcome. If you are reporting against an EP accepted under the old Regulations please report against the environmental performance objective for that activity.

Note 2: This form may be submitted in conjunction with the 'Injuries and Fatalities – Monthly Summary Report' Form available at www.nopsema.gov.au

Privacy Notice

NOPSEMA collects your contact details for the purpose of administering the OPGGSA and associated regulations. NOPSEMA will not use or disclose your personal information for any other purpose without your consent, unless it is required or authorised by law, or relates to NOPSEMA's enforcement activities. Your personal information may be disclosed to the following organisations, entities or individuals:

- individuals who make a request under the *Freedom of Information Act 1982*
- the Australian National Audit Office and other privately appointed auditors
- NOPSEMA's legal advisors.

NOPSEMA may occasionally be required to disclose information to overseas recipients in order to discharge its functions or exercise its powers, or to perform its necessary business activities. Information about how you can access, or seek correction to, your personal information is contained in NOPSEMA's APP Privacy Policy at www.nopsema.gov.au/privacy. If you have an enquiry or a complaint about your privacy, please contact NOPSEMA's Privacy Contact Officer on 08 6188 8700 or by email at privacy@nopsema.gov.au.

Report of an accident, dangerous occurrence or environmental incident

Document No: N-03300-FM0831 A159980

Date: 07/09/2023

For instructions and general guidance in the use of this form, please see the last page.

Part 1 is required within 3 days of a notified incident.

Part 2 is required within 30 days of notified incident.

What was the date and time of the initial verbal incident notification to NOPSEMA?

Date		Time	

NOTE: It is a requirement to request permission to interfere with the site of an accident or dangerous occurrence. Refer OPGGS(S)R, Reg. 2.49.

What is the date and time of this written incident report?

Date		Time	

What type of incident is being reported? *Please tick appropriate incident type*

Accident or dangerous occurrence		Complete parts 1A, 1B & part 2
Environmental Incident		Complete parts 1A, 1C
BOTH (Accident or dangerous occurrence AND environmental incident)		Complete ALL parts (1A, 1B, 1C, 2)

Please tick all applicable (one or more categories)

To use electronically: MS Word 2007-10 – click in check box

Categories <i>Please select one or more</i>	Accidents	Death or Serious injury	<input type="checkbox"/>
		Lost time injury ≥3 days	<input type="checkbox"/>
	Dangerous occurrences	Hydrocarbon release >1 kg or ≥80 L (gas or liquid)	<input type="checkbox"/>
		Fire or explosion	<input type="checkbox"/>
		Collision marine vessel and facility	<input type="checkbox"/>
		Could have caused death, serious injury or LTI	<input type="checkbox"/>
		Damage to safety-critical equipment	<input type="checkbox"/>
		Unplanned event – implement ERP	<input type="checkbox"/>
		Pipeline incident	<input type="checkbox"/>
		Well kick >50 barrels	<input type="checkbox"/>
	Other _____	<input type="checkbox"/>	
Environmental incidents	Hydrocarbon release	<input type="checkbox"/>	
	Chemical release	<input type="checkbox"/>	
	Drilling fluid/mud release	<input type="checkbox"/>	
	Fauna Incident	<input type="checkbox"/>	
	Other _____	<input type="checkbox"/>	

Part 1A – Information required within 3 days of an accident, dangerous occurrence or environmental incident

General information – all incidents

1.	Where did the incident occur?	Facility / field / title name		
		Site name and location <i>Latitude/longitude</i>		
2.	Who is the registered operator/titleholder or other person that controls the works site or activity?	Name		
		Business address		
		Business phone no.		
3.	When did the incident occur?	Time and time zone		
		Date		
4.	Did anyone witness the incident?	Yes or No <i>If yes, provide details below</i>		
	Witness details	Witness no. 1	Witness no. 2	Witness no. 3
	Full name			
	Phone no. (Business hours)			
	Phone no. (Home) (Mobile)			
	Email (Business) (Private)			
	Postal address			
	<i>NB: If more witnesses, copy and insert this section (4) here, and add extra witness numbers appropriately</i>			
5.	Details of person submitting this information	Name		
		Position		
		Email		
		Telephone no.		
6.	Brief description of incident			
7.	Work or activity being undertaken at time of incident			

Part 1A – Information required within 3 days of an accident, dangerous occurrence or environmental incident
General information – all incidents

8.	What are the internal investigation arrangements?				
9.	Was there any loss of containment of any fluid (liquid or gas)?	Yes or No <i>If Yes, provide details below</i>			
Type of fluid (liquid or gas) <i>If hydrocarbon release, please complete item no.15 as well</i>		Please specify _____ Hydrocarbon	<input type="checkbox"/>	Please specify _____ Non-hydrocarbon	<input type="checkbox"/>
Estimated quantity <i>Liquid (L), Gas (kg)</i>					
Estimation details		Calculation	<input type="checkbox"/>	Measurement	<input type="checkbox"/>
		<i>Please specify _____</i>			
Composition <i>Percentage and description</i>					
Known toxicity to people and/or environment		Toxicity to people			
		Toxicity to environment			
How was the leak/spill detected?		F&G detection	<input type="checkbox"/>	Visual	<input type="checkbox"/>
		CCTV	<input type="checkbox"/>	Other	<input type="checkbox"/>
Did ignition occur?	No	<input type="checkbox"/>	Immediate	<input type="checkbox"/>	
	Yes	<input type="checkbox"/>	Delayed	<input type="checkbox"/>	
	If yes, what was the likely ignition source	Hotwork	<input type="checkbox"/>		
		Spark electrical source	<input type="checkbox"/>		
		Spark metallic contact	<input type="checkbox"/>		
		Hot surface	<input type="checkbox"/>		
		Other	<input type="checkbox"/>		
10.	Has the release been stopped and/or contained?	Yes or No			
Duration of the release <i>hh:mm:ss</i>					
Estimated rate of release <i>Litres or kg per hour</i>					
11.	Location of release	What or where is the location of the release?			
What equipment was involved in the release?					
Is this functional location listed as safety-critical equipment?					

Part 1A – Information required within 3 days of an accident, dangerous occurrence or environmental incident
General information – all incidents

12.	Weather conditions <i>Please complete as appropriate</i>	Ambient temperature °C				
		Relative humidity %				
		Wind speed m/s <i>NB: for enclosed areas use</i> Air change per hour				
		Wind direction e.g. from SW				
		Significant wave height m				
		Swell m				
		Current speed m/s				
		Current direction e.g. from SW				
13.	Hydrocarbon release details <i>If hydrocarbon fluid (liquid or gas) was released, please complete this section as well</i>	System of hydrocarbon release	Process <input type="checkbox"/> Drilling <input type="checkbox"/> Subsea / Pipeline <input type="checkbox"/>	Utilities <input type="checkbox"/> Well related <input type="checkbox"/> Marine <input type="checkbox"/>		
		Estimated inventory in the isolatable system <i>Litres or kg</i>				
		System pressure and size of piping or vessel <i>diameter (d in mm)</i> <i>length (l in m)</i> <i>or volume (V in L)</i>	Pressure MPag			
		Estimated equivalent hole diameter <i>d in mm</i>	Size Piping (d) and Piping (l) or Vessel (V)			

Part 1B - Complete for accidents or dangerous occurrences
Accidents and dangerous occurrences information

	Was NOPSEMA notified through the dedicated notification phone line? Phone No. 1300 674 472	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	
15.	Action taken to make the work-site safe	Was permission given by a NOPSEMA inspector to interfere with the site? OPGGS(S)R 2.49.	Yes	<input type="checkbox"/>	No	<input type="checkbox"/>
		Action taken				
		Details of any disturbance of the work site				

Part 1B - Complete for accidents or dangerous occurrences
Accidents and dangerous occurrences information

16.	Was an emergency response initiated?		Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	
	Type of response	Manual	<input type="checkbox"/>	Automatic alarm	<input type="checkbox"/>	Muster Evacuation	<input type="checkbox"/> <input type="checkbox"/>
	How effective was the emergency response?						
17.	Was anyone killed or injured? Provide details below		Yes	<input type="checkbox"/>	No	<input type="checkbox"/>	
	Injured persons (IP) <i>If different from item 2.</i>	Casualty no. 1					
	Employer name	Employer address					
	Employer phone no.	Employer email					
	IP full name						
	IP date of birth		Sex	M	<input type="checkbox"/>	F	<input type="checkbox"/>
	IP residential address						
	IP phone no. (Work)	IP phone no. (Home) (Mobile)					
	IP occupation/job title	Contractor or core crew					
	Details of injury						
	<i>Based on TOOCS (refer last page)</i> Nature of injury	a. Intracranial injury b. Fractures c. Wounds, lacerations, amputations, internal organ damage	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	d. Burn e. Nerve or spinal cord injury f. Joint, ligament, muscle or tendon injury g. Other _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		
	Part of body	G1. Head or face G2. Neck G3. Trunk G4. Shoulder or arm	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	G5. Hip or leg G6. Multiple locations G7. Internal systems G8. Other _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		
	Mechanism of injury	G0. Falls, stepping, kneeling, sitting on object G1. Hitting object G2. Being hit or trapped	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	G3. Exposure to sound or pressure G4. Muscular stress G5. Heat, cold or radiation G6/7 Chemical, biological substance G8. Other _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		
	Agency of injury	1. Machinery or fixed plant 2. Mobile plant or transport 3. Powered equipment 4. Non-power equipment	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	5/6. Chemicals, materials, substances 7. Environmental agencies 8. Human or animal agencies 9. Other _____	<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>		

Part 1B - Complete for accidents or dangerous occurrences

Accidents and dangerous occurrences information

Details of job being undertaken

Part 2 – Information required within 30 days of accident or dangerous occurrence

NOPSEMA acknowledges that in many circumstances an operator may not have completed an investigation within 3 days of an accident or first detection of a dangerous occurrence and agrees that these items must be provided within 30 days unless otherwise agreed, in writing with NOPSEMA. In circumstances where an investigation has been completed within 3 days, and these items are available (supplemented, as required by any attachments) this part should also be completed at that time.

32.	Has the investigation been completed?	Yes or No		
	Root cause analysis <i>What were the root causes?</i>	Root cause 1		
		Root cause 2		
		Root cause 3		
		Other root causes		
Full report <i>Describe investigation in detail, including who conducted the investigation and in accordance with what standard/procedure with reference to attachments listed in the 'attachments table' (following) as applicable</i>				
33.	Actions to prevent recurrence of same or similar incident	Action	Responsible party	Completion date <i>Actual or intended</i>

NB: Add or delete rows as appropriate

Instructions and general guidance for use:

1. The use of this form is voluntary and is provided to assist operators and titleholders to comply with their obligations to give notice and provide reports of incidents to NOPSEMA under the applicable legislation.
2. Accidents, dangerous occurrences or environmental incidents can all be reported using this same form.
3. The applicable legislation for incident reporting is:
 - a. Offshore Petroleum and Greenhouse Gas Storage (Safety) Regulations 2009 [OPGGS(S)R]; and
 - b. Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 [OPGGS(E)R], for facilities located in Commonwealth waters; or
 - c. for facilities located in designated coastal waters, the relevant State or Territory Act and associated Regulations where there is a current conferral of powers to NOPSEMA.
4. In the context of this form an incident is a reportable incident as defined under:
 - a. OPGGSA, Schedule 3, Clause 82.
 - b. OPGGS(E)R, regulation 4.
5. This form should be used in conjunction with NOPSEMA Guidance Notes available on the NOPSEMA website:
 - a. N-03300-GN0099 Notification and Reporting of Accidents and Dangerous Occurrences
 - b. N-03300-GN0926 Notification and Reporting of Environmental Incidents
6. Part 1 requires completion for all incidents; then ALSO complete part 2 if the incident is an accident or dangerous occurrence.
7. NOPSEMA considers that a full report will contain copies of documentary material referenced and/or relied on in the course of completing this form, which may include (but not be limited to) as appropriate: witness statements, management system documents, drawings, diagrams and photographs, third party reports (audit, inspection, material analysis etc.), internal records and correspondence.
8. This form is intended to be completed electronically using Microsoft Word by completing the unshaded cells which will expand as required to accept the information required and the check boxes where relevant (NB: check boxes may appear shaded and have reduced functionality in MS Word versions prior to 2010).
9. The completed version of this form (and any attachments, where applicable) should be emailed to:
submissions@nopsema.gov.au
or submitted via secure file transfer at: <https://securefile.nopsema.gov.au/filedrop/submissions> as soon as practicable, but in any case, within three days of the incident.

CONSULTATION APPROACH

For the Ngujima-Yin Floating Production Storage and Offloading Facility Operations Environment Plan (EP), Woodside has taken a broad and proactive tiered consultation approach over a period of up to 15 months.

This approach was aimed at raising public awareness of the consultation opportunity and to enable self-identification. It included a social media campaign and advertising in national, state, regional and Indigenous newspapers.

The tiered consultation approach discharges regulation 25 of the Environment Regulations' requirements. The approach is proactive, extended, has enabled self-identification, and has raised broad awareness of Woodside's activities related to this EP.

Consultation for this EP was also combined with another operations EP.

Tiered Consultation Approach

Regulation 25	Woodside's consultation approach assessed and identified relevant persons, enabled two-way dialogue and engagement, and included email and phone call follow up. The approach taken comfortably satisfies the requirements of regulation 25: to give relevant persons sufficient information and allow a reasonable period of time for consultation (see: Section 5).
Proactive	To raise awareness of the consultation process, and to enable grass-roots consultation, Woodside undertook advertised regional consultation roadshows and facilitated consultation at regional community events.
Extended	A reasonable consultation period was provided to enable an informed assessment of possible consequences on functions, interests or activities and associated supportive communication activities.
Self-Identification	Broad communication activities were undertaken to build awareness of consultation and enable self-identification, supported by targeted education materials.
Broad Understanding	Broad proactive communication activities were undertaken with the public to raise awareness of Woodside's activities.

Building on the Existing Consultation Approach

For this EP, Woodside has built on its consultation methodology and undertaken additional consultation activities throughout the consultation period to ensure a reasonable period of time and sufficient information has been provided to relevant persons so that they can make an informed assessment of the possible consequences of the activity on their functions, interests or activities.

The approach for this included:

- a consultation period of up to 15 months
- undertaking proactive consultation activities to provide sufficient information to relevant persons
- raising awareness of the consultation process and opportunity to provide feedback

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- driving participation in the consultation process.

An overview of this approach is shown below:

CONSULTATION TIMELINE

Figure 1: Ngujima-Yin FPSO Facility Operations Consultation Activities

Traditional Custodian Consultation Approach

Woodside has meaningful long-term relationships with relevant Traditional Custodians specifically tailored to provide for effective engagement which is continuous and is not confined to individual EPs, instead covering all EPs and other issues that are relevant at the time of engagement.

To this end, consultation on any particular EP, including this EP, happens before, during and after the designated consultation period in a more holistic manner allowing for an understanding of the bigger picture and accommodating cultural requirements.

For the past 15 months, where requested, Woodside has been working with nominated representative bodies to develop Consultation Agreement Frameworks which aim to enable each group to be consulted in a manner appropriate to their needs.

eNGO Consultation Approach

Woodside has an established history of consulting with environmental non-government organisations (eNGOs) as part of its EP consultation. In its methodology (Section 5.3.4, Table 5-2), eNGOs are considered “Other non-government groups or organisations” and “Research institutes and local conservation groups or organisations”. Relevant person identification for these categories is based on registered non-government groups or organisations with current targeted public website material specific to the proposed activity at the time of developing the EP and who have demonstrated functions, interests or activities relevant to the potential risks and impacts associated with planned activities in accordance with the intended outcome of consultation.

So that eNGOs were given sufficient information and a reasonable period of time to consult, Woodside:

- advertised the consultation period (social and traditional media)

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- directly consulted eNGOs
- participated in regional community events (which were advertised) in the Pilbara and Gascoyne, which could be attended by any eNGOs including local groups (if eNGOs attended these sessions, they did not identify themselves).

eNGO Response

For this EP, Woodside identified six eNGOs as not relevant but which Woodside nevertheless chose to contact. None of the six eNGOs provided feedback on this EP.

RELEVANCY ASSESSMENT

Assessment of Relevant Persons for the Proposed Activity

The result of Woodside’s assessment of relevant persons in accordance with regulation 25(1) of the Environment Regulations is outlined below at **Table 1** and **Table 2**.

Persons or organisations that Woodside assessed as not relevant but nonetheless chose to contact at its discretion in accordance with **Section 5.3.4** or self-identified and Woodside assessed as not relevant are summarised below at **Table 1** and **Table 3**.

As per Woodside’s methodology (Section 5), assessment of relevant persons is based on the EMBA. In the case of this EP, the original EMBA (Figure 1) determined Woodside’s consultation. After consultation had been completed, Woodside applied new modelling based on a different credible hydrocarbon spill scenario which resulted in a reduced EMBA (Figure 2). The result is that Woodside’s original approach to consultation applied an inclusive approach and involved a consultation which was broader than is defined in its methodology. This has meant that, because of the change in the EMBA, some stakeholders previously assessed as relevant are now included in **Table 3** as a chose to contact.

Table 1: Assessment of Relevancy

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Commonwealth, Western Australian and Northern Territory Government Departments or Agencies – Marine			
Australian Border Force (ABF)	Responsible for coordinating maritime security	Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(a) of the Environment Regulations. ABF’s responsibilities may be relevant to the activity as there are proposed vessel activities.	Yes
Department of Foreign Affairs and Trade (DFAT)	Responsible for promoting and protecting Australia’s interests internationally and contributes to global stability and economic growth. DFAT manages Australia’s relationships and interaction with the governments of our neighbouring countries.	Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(a) of the Environment Regulations. DFAT has no direct role in the management of the Commonwealth marine area, but has an interest in ensuring that consultation with foreign entities, both private and government, is effective and is aligned with Australia’s interests. DFAT manages Australia’s relationships and interaction with the governments of our neighbouring countries. The proposed activity does not have the potential to impact DFAT’s functions, interests or activities as the revised EMBA does not overlap Indonesian and Timor Leste waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult DFAT based on overlap with the initial EMBA.	No
Department of Infrastructure, Transport, Regional Development, Communications and the Arts (DITRDCA)	Responsible for managing fisheries within 12 nm of Christmas Island and Cocos (Keeling) Island	Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(a) of the Environment Regulations. The Christmas Island Line Fishery is active in the EMBA. DITRDCA’s responsibilities may be relevant to the activity as the Christmas Island Line Fishery is active in the EMBA.	Yes

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Australian Fisheries Management Authority (AFMA)	Responsible for managing Commonwealth fisheries	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(a) of the Environment Regulations. The Western Deepwater Trawl Fishery is active in the Operational Area. The North West Slope Trawl Fishery, Western Deepwater Trawl Fishery, Western Tuna and Billfish Fishery and Christmas Island Line Fishery are active in the EMBA. AFMA's responsibilities may be relevant to the activity as the Western Deepwater Trawl Fishery is active in the Operational Area and the North West Slope Trawl Fishery, Western Deepwater Trawl Fishery, Western Tuna and Billfish Fishery and Christmas Island Line Fishery are active in the EMBA.	Yes
Australian Hydrographic Office (AHO)	Responsible for maritime safety and Notices to Mariners	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(a) of the Environment Regulations. AHO's responsibilities may be relevant to the activity as there are proposed vessel activities.	Yes
Australian Maritime Safety Authority (AMSA) – Marine Safety	Statutory agency for vessel safety and navigation	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(a) of the Environment Regulations AMSA – Marine Safety's responsibilities may be relevant to the activity as there are proposed vessel activities.	Yes
Australian Maritime Safety Authority (AMSA) – Marine Pollution	Legislated responsibility for oil pollution response in Commonwealth waters	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(a) of the Environment Regulations. AMSA – Marine Pollution's responsibilities may be relevant to the activity as the proposed activity has a hydrocarbon spill risk which may require AMSA response in Commonwealth waters.	Yes
Department of Agriculture, Fisheries and Forestry (DAFF) – Fisheries	Responsible for implementing Commonwealth policies and programs to support agriculture, fishery, food and forestry industries	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(a) of the Environment Regulations.	Yes

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
		<p>The Western Deepwater Trawl Fishery is active in the Operational Area. The North West Slope Trawl Fishery, Western Deepwater Trawl Fishery, Western Tuna and Billfish Fishery and Christmas Island Line Fishery are active in the EMBA.</p> <p>DAFF – Fisheries responsibilities may be relevant to the activity as the Western Deepwater Trawl Fishery is active in the Operational Area and the North West Slope Trawl Fishery, Western Deepwater Trawl Fishery, Western Tuna and Billfish Fishery and Christmas Island Line Fishery are active in the EMBA.</p>	
Department of Defence (DoD)	Responsible for defending Australia and its national interests.	<p>Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(a) of the Environment Regulations.</p> <p>DoD’s responsibilities may be relevant to the activity as defence training areas lie within the EMBA.</p>	Yes
Department of Primary Industries and Regional Development (DPIRD)	Responsible for managing State fisheries	<p>Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(a) of the Environment Regulations.</p> <p>The Mackerel Managed Fishery (Schedule 2 – Area 2), Pilbara Line Fishery (Condition) and West Coast Deep Sea Crustacean Managed Fishery are active in the Operational Area.</p> <p>The Abalone Managed Fishery, Abrolhos Islands and Mid West Trawl Managed Fishery, Cockburn Sound (Fish Net) Managed Fishery, Cockburn Sound (Line and Pot) Managed Fishery, Exmouth Gulf Beach Seine and Mesh Net Managed Fish, Exmouth Gulf Prawn Managed Fishery, Gascoyne Demersal Scalefish Managed Fishery, Hermit Crab Fishery, Joint Authority Southern Demersal Gillnet and Demersal Longline Managed Fishery, Mackerel Managed Fishery (Schedule 2 - Areas of the Fishery (Area 1, 2, & 3), Schedule 3), Mandurah to Bunbury Developing Crab Fishery, Marine Aquarium Fish Managed Fishery, Nickol Bay Prawn Managed Fishery, Octopus Interim Managed Fishery, Onslow Prawn Managed Fishery, Open Access in the North Coast, Gascoyne Coast, Pilbara Crab Managed Fishery, Pilbara Fish Trawl (Interim) Managed Fishery, Pilbara Line Fishery (Condition),</p>	Yes

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
		<p>Pilbara Trap Managed Fishery, Shark Bay Beach Seine and Mesh Net Managed Fishery, Shark Bay Crab Managed Fishery, Shark Bay Prawn Managed Fishery, Shark Bay Scallop Managed Fishery, South Coast Crustacean Managed Fishery, South Coast Estuarine Managed Fishery, South Coast Line and Fish Trap Managed Fishery, South Coast Nearshore Net Managed Fishery, South Coast Purse-Seine Managed Fishery, South Coast Salmon Managed Fishery, South West Coast Beach Net Fishery (Order), South West Coast Salmon Managed Fishery, South West Trawl Fishery, Specimen Shell Managed Fishery, Trochus Fishery, West Coast (Beach Bait Fish Net) Managed Fishery, West Coast Deep Sea Crustacean Managed Fishery, West Coast Demersal Gillnet and Demersal Longline, West Coast Demersal Scalefish (Interim) Managed Fishery, West Coast Estuarine Managed Fishery, West Coast Purse Seine Fishery, West Coast Rock Lobster Managed Fishery have been active in the EMBA within the last 5 years.</p> <p>DPIRD's responsibilities may be relevant to the activity as the government department responsible for State fisheries.</p>	
<p>Department of Transport (DoT)</p>	<p>Legislated responsibility for oil pollution response in State waters</p>	<p>Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations.</p> <p>The proposed activity has a hydrocarbon spill risk, which may require DoT response in State waters.</p>	<p>Yes</p>
<p>Department of Planning, Lands and Heritage (DPLH)</p>	<p>Responsible for state level land use planning and management, and oversight of Aboriginal cultural heritage and built heritage matters.</p>	<p>Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations.</p> <p>There is known Maritime Cultural Heritage overlapping the EMBA.</p>	<p>Yes</p>
<p>Western Australian Museum</p>	<p>Manages 200 shipwreck sites of the 1,500 known to be located off the Western Australian coast.</p>	<p>Woodside has applied its methodology for 'Historical cultural heritage groups or organisations' under regulation 25(1)(b) of the Environment Regulations.</p> <p>There are known shipwrecks overlapping the EMBA which the Western Australian Museum may be responsible for.</p>	<p>Yes</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Northern Territory Department of Industry, Tourism and Trade (DITT) – NT Fisheries	Responsible for managing State fisheries in the Northern Territory.	<p>Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(b) of the Environment Regulations.</p> <p>The Northern Territory Aquarium Fish/Display Fish Fishery, Northern Territory Spanish Mackerel Fishery, Northern Territory Offshore Net & Line Fishery, Northern Territory Demersal Fishery, Northern Territory Mud Crab Fishery, Northern Territory Mollusc Fishery, Northern Territory Aquaculture Fishery do not overlap the revised EMBA.</p> <p>Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult NT Fisheries based on the above fisheries’ overlap with the initial EMBA.</p>	No
Northern Territory Department of Infrastructure, Planning and Logistics (DIPL) (Marine Safety)	Responsible for marine safety in Northern Territory waters.	<p>Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(b) of the Environment Regulations.</p> <p>The revised EMBA does not overlap Northern Territory waters.</p> <p>Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult DIPL (Marine Safety) based on overlap with the initial EMBA.</p>	No
Pilbara Ports Authority	Responsible for the operation of the Port of Dampier and Port of Port Hedland.	<p>Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(b) of the Environment Regulations.</p> <p>The proposed activity has the potential to impact Pilbara Ports Authority’s responsibilities as the EMBA overlaps the Pilbara Ports Authority’s area of responsibility.</p>	Yes
Kimberley Ports Authority	Responsible for the operation of the Port of Broome.	Woodside has applied its methodology for ‘Government departments / agencies – marine’ under regulation 25(1)(b) of the Environment Regulations.	Yes

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
		The proposed activity has the potential to impact Kimberley Ports Authority's responsibilities as the EMBA overlaps Kimberley Ports Authority's area of responsibility.	
Mid West Ports Authority	Responsible for the operation of the Port of Geraldton.	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations. The proposed activity has the potential to impact Mid West Ports Authority's responsibilities as the EMBA overlaps Mid West Ports Authority's area of responsibility.	Yes
Fremantle Port Authority	Responsible for the operation of Port of Fremantle.	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations. The proposed activity has the potential to impact Fremantle Port Authority's responsibilities as the EMBA overlaps Fremantle Port Authority's area of responsibility.	Yes
Southern Ports	Responsible for the operation of the Port of Albany, and Port of Bunbury	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations. The proposed activity has the potential to impact Southern Ports' responsibilities as the EMBA overlaps Southern Ports' area of responsibility.	Yes
Port of Christmas Island	Responsible for the operation of the Port of Christmas Island.	Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations. The proposed activity has the potential to impact Port of Christmas Island's responsibilities as the EMBA overlaps Port of Christmas Island's area of responsibility.	Yes

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Port of Cocos (Keeling) Island	Responsible for the operation of the Port of Cocos (Keeling) Island.	<p>Woodside has applied its methodology for 'Government departments / agencies – marine' under regulation 25(1)(b) of the Environment Regulations.</p> <p>The proposed activity does not have the potential to impact Port of Cocos (Keeling) Island's responsibilities as the revised EMBA does not overlap Port of Cocos (Keeling) Island's area of responsibility.</p> <p>Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult Port of Cocos (Keeling) Island based on overlap with the initial EMBA.</p>	No
Commonwealth, Western Australian and Northern Territory Government Departments or Agencies – Environment			
Department of Agriculture, Fisheries and Forestry (DAFF) – Biosecurity (marine pests, vessels, aircraft and personnel)	<p>DAFF administers, implements and enforces the Biosecurity Act 2015. The Department requests to be consulted where an activity has the potential to transfer marine pests.</p> <p>DAFF also has inspection and reporting requirements to ensure that all conveyances (vessels, installations and aircraft) arriving in Australian territory comply with international health regulations and that any biosecurity risk is managed.</p> <p>The Department requests to be consulted where an activity involves the movement of aircraft or vessels between Australia and offshore petroleum activities either inside or outside Australian territory.</p>	<p>Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(a) of the Environment Regulations.</p> <p>DAFF – Biosecurity's responsibilities may be relevant to the proposed activities in the EMBA in the prevention of introduced marine species.</p>	Yes
Department of Climate Change, Energy, the Environment and Water (DCCEEW)	Responsible for implementing Commonwealth policies and programs to support climate change, sustainable energy use, water resources, the environment and our heritage.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(a) of the Environment Regulations.	Yes

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
	Administers the <i>Underwater Cultural Heritage Act 2018</i> in collaboration with the States, Northern Territory and Norfolk Island, which is responsible for the protection of shipwrecks, sunken aircraft and other types of underwater heritage and their associated artefacts in Commonwealth waters.	DCCEEW's responsibilities may be relevant to the proposed activities in the EMBA as there are potential environmental impacts from the proposed activity. There is known Maritime Cultural Heritage overlapping the EMBA.	
Director of National Parks (DNP)	Responsible for the management of Commonwealth parks and conservation zones.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(a) of the Environment Regulations. DNP's responsibilities may be relevant to the activity as DNP requires an awareness of activities that occur within AMPs, and an understanding of potential impacts and risks to the values of parks (NOPSEMA guidance note: N-04750-GN1785 A620236, June 2020). Titleholders are required to consult DNP on offshore petroleum and greenhouse gas exploration activities if they occur in, or may impact on the values of marine parks, including where potential spill response activities may occur in the event of a spill (i.e. scientific monitoring).	Yes
Ningaloo Coast World Heritage Advisory Committee (NCWHAC)	Supports the DBCA to manage the Ningaloo Coast World Heritage Area.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(a) of the Environment Regulations. The NCWHAC's responsibilities may be relevant to the activity as the EMBA overlaps the Ningaloo Marine Park.	Yes
Department of Biodiversity, Conservation and Attractions (DBCA)	Responsible for managing WA's parks, forests and reserves to achieve wildlife conservation and provide sustainable recreation and tourism opportunities.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(b) of the Environment Regulations. The DBCA's responsibilities may be relevant to the activity as EMBA overlaps WA parks, forests or reserves. Activities have the potential to impact marine tourism in the EMBA.	Yes
Northern Territory Department of Industry,	Monitors and manages the risk of new marine pests arriving in the Northern Territory.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(b) of the Environment Regulations.	No

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Tourism and Trade (DITT) (Aquatic Biosecurity)		The revised EMBA does not overlap Northern Territory waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult DITT – Aquatic Biosecurity based on overlap with the initial EMBA.	
Northern Territory Department of Environment, Parks and Water Security (DEPWS)	Responsible for managing the Northern Territory's policies to protect the environment and natural resources.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(b) of the Environment Regulations. The revised EMBA does not overlap Northern Territory waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult DEPWS based on overlap with the initial EMBA.	No
Northern Territory Environment Protection Agency (NTEPA)	Responsible for promoting the ecologically sustainable development of the Northern Territory.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(b) of the Environment Regulations. The revised EMBA does not overlap Northern Territory waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult NTEPA based on overlap with the initial EMBA.	No
Department of Territory Families, Housing and Communities (Heritage Branch)	Responsible for working with the community to preserve the heritage of the Northern Territory, including maritime heritage.	Woodside has applied its methodology for 'Government departments / agencies – environment' under regulation 25(1)(b) of the Environment Regulations. The revised EMBA does not overlap Northern Territory waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult TFHC – Heritage Branch based on overlap with the initial EMBA.	No
Commonwealth, Western Australian and Northern Territory Government Departments or Agencies – Industry			
Department of Industry, Science and Resources (DISR)	Department of relevant Commonwealth Minister.	Required to be consulted under regulation 25(1)(a) of the Environment Regulations.	Yes

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Department of Mines, Industry Regulation and Safety (DEMIRS)	Department of relevant State Minister	Required to be consulted under regulation 25(1)(c) of the Environment Regulations.	Yes
Northern Territory Department of Industry, Tourism and Trade (DITT) (Mining and Energy)	Department of relevant State Minister.	Required to be consulted under regulation 25(1)(c) of the Environment Regulations. The revised EMBA does not overlap Northern Territory waters. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult DITT (Mining and Energy) based on overlap with the initial EMBA.	No
Commonwealth Commercial fisheries and representative bodies			
North West Slope and Trawl Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. Although the fishery overlaps the Operational Area, the fishery has not been active in the Operational Area within the last 5 years. The fishery overlaps the EMBA and has been active in the EMBA within the last 5 years.	Yes
Southern Bluefin Tuna Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. Woodside does not consider that the proposed activity will present a risk to licence holders, given since 1992, the majority of Australian catch has concentrated in south-eastern Australia. (Patterson et al., 2022). In addition, given fishing methods by licence holders for species fished in this fishery (Australia has a 35% share of total global allowable catch of Southern Bluefin Tuna, which is value-added through tuna ranching near Port Lincoln (South Australia), or fishing effort in New South Wales (Australian Southern Bluefin Tuna Industry Association).	No

Person or Organisation	Summary of responsibilities and/or functions, interests or activities	Assessment of relevance	Relevant person
Western Deepwater Trawl Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. The fishery overlaps the Operational Area and EMBA and has been active in the Operational Area and EMBA within the past 5 years.	Yes
Western Skipjack Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. Woodside does not consider that the activity will present a risk to licence holders, given the fishery spans the Australian Fishing Zone west of Victoria and the Torres Strait. The Fishery is not currently active and no fishing has occurred since 2009 (Patterson et al., 2022). In addition, interactions are not expected given the species' pelagic distribution fishing methods for species fished by licence holders.	No
Western Tuna and Billfish Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. Although the fishery overlaps the Operational Area, the fishery has not been active in the Operational Area within the last 5 years. The fishery overlaps the EMBA and has been active in the EMBA within the last 5 years.	Yes
Northern Prawn Fishery	Commonwealth commercial fishery	Woodside has applied its methodology for 'Commercial fisheries (Commonwealth and State) and peak representative bodies' under regulation 25(1)(d) of the Environment Regulations. The fishery does not overlap the Operational Area or revised EMBA. Nevertheless, to take an inclusive approach and to consult more widely, Woodside chose to consult Northern Prawn Fishery based on overlap with the initial EMBA.	No

		<p>NLC is the Native Title Representative Body for the northern region of the Northern Territory. As such, they are not a Prescribed or Registered Native Title Body Corporate but exist to assist native title claimants and holders.</p> <p>NLC's functions are no longer relevant to the proposed activity in relation to its facilitation and coordination function as a Native Title Representative Body under applicable federal legislation.</p> <p>NLC was relevant based on the original EMBA and had already been included as part of the consultation. Accordingly, to take an inclusive approach and to consult more widely, Woodside has included the NLC in Table 3.</p>	
Self-identified First Nations Groups			
Ngarluma Yindjibarndi Foundation Ltd (NYFL)	Traditional Custodian - entity	<p>Woodside has applied its methodology for 'Traditional Custodians' under regulation 25(1)(d) of the Environment Regulations.</p> <p>Prior to the resolution of the Ngarluma and Yindjibarndi native title claim, the Ngarluma and Yindjibarndi registered native title claimants, the NWS JVs and Woodside entered into the Northwest Shelf Agreement 1998. In 1999 the Ngarluma and Yindjibarndi native title claim was settled with the Federal Court appointing, at the request of the common law native title holders, the Ngarluma Aboriginal Corporation (NAC) as PBC to represent the communal interests of the Ngarluma people and the Yindjibarndi Aboriginal Corporation (YAC) as PBC to represent the communal interests of the Yindjibarndi people.</p> <p>Both NAC and YAC are relevant people.</p> <p>NYFL was subsequently created to act as Trustee for the Trust under the Agreement and to carry on the business of enterprise development, investment and social welfare.</p> <p>NYFL self-identified and has advised it is relevant for this EP.</p>	Yes
Local government and elected Parliamentary representatives, community groups or organisations

CONSULTATION ACTIVITIES

Ngujima-Yin Floating Production Storage and Offloading Facility Operations EP Consultation Activities

Woodside has been conducting extensive consultation with relevant persons and other parties for this EP since September 2023 when consultation commenced with interested and affected stakeholders as part of a planned, integrated and consistent approach to stakeholder engagement for Woodside's proposed opportunities. A broad consultation process has been undertaken with relevant persons for the Ngujima-Yin Floating Production Storage and Offloading Facility Operations. Consultation aims to be inclusive, transparent, voluntary, respectful and two-way. Consultation was undertaken by email, letter, phone call and/or meeting.

- Woodside advertised the planned activities proposed for this EP in national, state and relevant local newspapers (see **Record of Consultation, reference 3.1**). Regional newspapers do not require subscription and are available (and in some cases delivered) directly to households. All communities within or adjacent to the EMBA had access to this information via this media. No direct comments or feedback were received from the advertisements.

- A Consultation Information Sheet was provided to relevant persons and persons Woodside chose to contact (see **Section 5.3.4**), which included details such as an activity overview, maps, a summary of key risks and/or impacts and management measures (**Record of Consultation, reference 1.1**).
- Since the commencement of the initial consultation period (September 2023), the stakeholder Consultation Information Sheet (**Record of Consultation, reference 1.1**) has been available on Woodside’s website. The Woodside Consultation Information Sheets include a toll-free 1800 phone number and Woodside’s feedback email address (feedback@woodside.com.au).
- Additional targeted information was provided to relevant marine users including AHO and AMSA – Marine Safety (**Record of Consultation, reference 1.14**). This information included maps and additional information relevant to the specific category of persons. The relevant persons had a 42-day period in which to provide feedback.
- Where appropriate, Woodside conducted phone calls and meetings with relevant persons.
- Where appropriate, targeted follow-up emails were sent to relevant persons who had not provided a response prior to the close of the target feedback period.
- Woodside considered relevant person responses and assessed the merits and relevance of objections and claims about the potential adverse impact of the proposed activity set out in the EP, in accordance with the intended outcome of consultation (see **Section 5.2**).
- Consultation activities undertaken with relevant persons are summarised at **Record of Consultation, Table 2**.
- Engagement undertaken with persons or organisations Woodside assessed as not relevant but chose to contact (see **Section 5.3.4**) or self-identified and Woodside assessed as not relevant are summarised at **Record of Consultation, Table 3**.

Social media

- From 13 September 2023, Woodside commenced a sponsored social media campaign (**Record of Consultation, reference 3.2**) geotargeting local government authorities in Perth Metro, regional areas in the north of WA and regional areas in the south of WA, which are within or coastally adjacent to the EMBA for the proposed activities. The

Traditional Custodian Specific Consultation

In addition to the approaches above including community information sessions, additional activities were undertaken with relevant Traditional Custodians, which were specifically designed to provide for effective engagement with Traditional Custodians so that information was provided in a form that was readily accessible and appropriate (**Section 5.5**).

Consultation undertaken specifically with Traditional Custodians for this Environment Plan includes direct engagement with nominated representative bodies via the contact listed on the ORIC website, requesting advice on how they would like to be engaged and asking whether other members and/or individuals should be consulted. This has resulted in:

- Meetings with directors, elders and any nominated representatives, on country or in Perth.
- Requests and offers of resourcing to enable and support consultation
- Exchange of written feedback and correspondence
- Summary Consultation Information Sheet, developed and reviewed by Indigenous representatives in collaboration with technical experts to ensure content is appropriate to the intended recipients, was provided to relevant Traditional Custodian groups (**Record of Consultation, reference 1.2**) and phone calls to provide context to the consultation made.

Ongoing efforts were made to engage and develop relationships with these bodies via a variety of means such as email, phone calls, alternative contacts, texts, social media and in some cases physical visits.

Consultation meetings with attendees decided by Traditional Custodian groups, supported by senior Woodside representatives, subject matter experts, First Nations Relations advisers with skills and experience in community engagement. Meetings are developed through a two-way consultation process to ensure effective information sharing via:

- Mutually agreed agenda avoiding time pressure

Page 103 of
979

Uncontrolled when printed. Refer to electronic version for most up to date information.

- Encouraging Traditional Custodian attendees to control the pace of the meeting and pause at any time to ask questions, seek clarification or provide feedback
- Visual aids such as posters, presentations, simplified technical videos and real-world pictures and footage
- Emphasis on potential planned and unplanned risks and impacts of the activity
- Ample opportunity for questions and feedback
- Discussion about ongoing relationship development and opportunities
- Distribution of hard-copy Consultation Information Sheets (**Record of Consultation, reference 1.1**) and Summary Consultation Information Sheets (**Record of Consultation, reference 1.2**)
- Meeting all costs such as sitting fees, travel, legal support and executive support and other support required
- Advertising in Indigenous publications such as the Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) (**Record of Consultation, reference 3.1**).
- Woodside has a geotargeted sponsored social media campaign (**Record of Consultation, reference 3.2**) to various communities that are coastally adjacent to the EMBA for the proposed activities.

The wide-reaching campaign brought the proposed activity to the attention of persons who may be interested and advised persons or organisations how they can find out about Woodside's proposed activities by visiting Woodside's website, which details the intent of consultation with relevant persons under the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2023 (Cth). The campaign reached around 1,369,350 people and was viewed more than 7 million times across various regions as shown in **Record of Consultation, reference 3.2**.

These social media posts were developed with input from Indigenous representatives. Social media is a highly effective means to engage Indigenous audiences as outlined in Indigenous Digital Life (Professor Carlson, 2021). Advertisements used language and information appropriate to Indigenous audiences. Feedback from community engagements indicates a high level of penetration for this technique.

Woodside has employed a diverse range of techniques to allow relevant persons to become aware of the proposed activity and how it may affect their functions, activities or interests, and to understand their ability to provide feedback. The combination of PBC engagement meetings, traditional print media, social media and face-to face community interaction was designed with input from Indigenous representatives and adapted to the audience, so that it provides a wide-ranging opportunity to consult.

TABLE 2: Consultation Report with Relevant Persons or Organisations

The black numbering in the Summary of information provided and record of consultation for this EP section in Table 2 denotes an item raised by a relevant person. The green numbering denotes Woodside's response to that item.

Commonwealth and WA State Government Departments or Agencies – Marine

Australian Border Force (ABF)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 13 September 2023, Woodside emailed ABF advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to ABF following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has addressed maritime security-related issues in Section 6 of the EP based on previous offshore activities. No additional measures or controls are required.
<p>Outcomes of Consultation</p> <p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Australian Border Force (ABF) for the purpose of regulation 25 is complete. Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to ABF on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided ABF with the opportunity to provide feedback over a 15-month period.

Department of Infrastructure, Transport, Regional Development, Communications and the Arts (DITRDCA)

Summary of information provided and record of consultation:

- On 15 December 2023, Woodside emailed DITRDCA advising of the proposed activity (Record of Consultation, reference 1.102) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 9 January 2024, Woodside sent a reminder email to DITRDCA following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with DITRDCA for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DITRDCA on 15 December 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activity.
- Woodside has provided the DITRDCA with the opportunity to provide feedback over a 12-month period.

Australian Fisheries Management Authority (AFMA)

Summary of information provided and record of consultation:

- On 20 September 2023, Woodside emailed AFMA advising of the proposed activity (Record of Consultation, reference 1.34) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 10 October 2023, AFMA emailed to thank Woodside for the advice (SI Report, reference 1.1) and:
 - (1) Advised it had no specific comments on the proposal.
 - (2) Encouraged Woodside, if it had not already done so, to engage directly with Commonwealth fishing operators in the area and included contact details for relevant industry associations.
- (1, 2) On 27 October 2023, Woodside responded thanking AFMA for its email and confirmed it had provided information to relevant fishery licence holders as well as the relevant representative organisations and fishing industry associations (SI Report, reference 1.2).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
(1) AFMA advised it had no specific comments on the proposal.	(1) Woodside assessment: Woodside accepts that AFMA has no comments on the proposed activities.	(1) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside noted AFMA had no comments on the proposal.	
(2) AFMA encouraged Woodside to consult directly with fishing operators who have entitlements to fish within the proposed area.	(2) Woodside assessment: Woodside has consulted individual Commonwealth fishing operators in the area, as well as relevant representative bodies and fishing industry associations. Woodside response: Woodside confirmed it had consulted relevant individual Commonwealth fishing operators in the area, as well as representative bodies and fishing industry associations recommended by AFMA.	(2) Woodside has assessed the potential for interaction with Commonwealth fisheries issues in Section 4.10.1 of the EP.
Whilst feedback has been received, there were no objections or claims.	Woodside has consulted AFMA, DAFF - Fisheries, CFA, Tuna Australia, ASBTIA, Northern Prawn Fishery Industry Pty Ltd and individual relevant licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional controls or measures are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Australian Fisheries Management Authority (AFMA) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Consultation Information provided to AFMA on 20 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to AFMA over a 15-month period.

Australian Hydrographic Office (AHO)

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed AHO advising of the proposed activity (Record of Consultation, reference 1.14) and provided a Consultation Information Sheet, shipping lanes map (Record of Consultation, reference 1.13) and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to AHO (Record of Consultation, reference 2.1) following up on the proposed activity and provided the shipping lanes map and a link to the Consultation Information Sheet on Woodside's website.
- **(1)** On 17 October 2023, AHO responded acknowledging receipt of Woodside's email and noting the data would be registered, assessed, prioritised and validated in preparation for updating navigational charting products (SI Report, reference 2.1). **(1)** Woodside noted AHO's standard response to the information.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plans
(1) AHO acknowledged receipt of consultation emails.	(1) Woodside assessment: Woodside noted AHO's acknowledgement of its consultation information and that it had no specific feedback for this EP. Woodside response: Woodside noted the AHO would use Woodside's data to update navigational charting products but had no specific feedback on the EP.	(1) Not required.
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside will notify AHO where vessels will be in the Operational Area >3 weeks, as referenced as PS 1.3 in this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide

--	--	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Australian Maritime Safety Authority (AMSA) – Marine Safety for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to AMSA – Marine Safety on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to AMSA – Marine Safety over a 15-month period.

Australian Maritime Safety Authority (AMSA) – Marine Pollution

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed AMSA – Marine Pollution advising of the proposed activity (Record of Consultation, reference 1.15) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 16 October 2023, Woodside sent a reminder email to AMSA – Marine Pollution following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside’s website.
- On 21 December 2023, Woodside emailed AMSA – Marine Pollution (Record of Consultation, reference 1.108) and provided a copy of the Oil Pollution First Strike Plan (FSP) (Appendix I) and invited AMSA – Marine Pollution to comment on the activity.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has addressed oil pollution planning and response in Appendix H. No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Australian Maritime Safety Authority (AMSA) – Marine Pollution for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to AMSA – Marine Pollution on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided AMSA - Marine Pollution with the opportunity to provide feedback over a 15-month period.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Department of Agriculture, Fisheries and Forestry (DAFF) – Fisheries

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 September 2023, Woodside emailed DAFF – Fisheries advising of the proposed activity (Record of Consultation, reference 1.33) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to DAFF – Fisheries following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>No feedback, objections or claims received despite follow-up.</p>	<p>Woodside has consulted AFMA, CFA and individual relevant licence holders.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP.</p> <p>Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.</p> <p>Woodside will provide notification of significant change, as appropriate, to AFMA, DAFF – Fisheries, CFA, DPIRD, Recfishwest and WAFIC, as referenced in Section 7.10 of the EP.</p> <p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Agriculture, Fisheries and Forestry (DAFF) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to DAFF - Fisheries on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided DAFF - Fisheries with the opportunity to provide feedback over a 15-month period.

Department of Defence (DoD)

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed DoD advising of the proposed activity (Record of Consultation, reference 1.7) and provided a Consultation Information Sheet, defence map (Record of Consultation, reference 1.8) and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website as well as the defence map.
- On 25 October 2023, DoD thanked Woodside for its email (SI Report, reference 4.1) and provided feedback regarding:
 - (1) The location of the activity areas within an exercise area and restricted airspace.
 - (2) Unexploded ordinance (UXO) that may be present on and in the seafloor, and that Woodside must inform itself as to the risks associated with conducting activities in that area, with the Commonwealth of Australia taking no responsibility for reporting the UXO in the area, identifying or removing UXO from the area, or any loss or damage suffered or incurred by Woodside or any third party arising out of, or directly related to, UXO in the area.
 - (3) DoD's notification requirements including liaison with the Australian Hydrographic Service/Office (AHS/AHO).
- On 1 November 2023, Woodside thanked DoD for its feedback (SI Report, reference 4.2) and confirmed:
 - (1) It had noted the location of activity areas and the presence of exercise areas and restricted airspace.
 - (2) It had noted the advice regarding location, identification, removal or damage to equipment from unexploded ordinances (UXO)s.
 - (3) The Australian Hydrographic Service/Office (AHS/AHO) had been engaged for this activity and was part of the activity notification protocols.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
---	--	-------------------------------

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(1) The location of exercise areas and restricted airspace.</p>	<p>(1) Woodside assessment: Woodside is aware of the exercise area and restricted airspace. Woodside response: Woodside confirmed it had noted DoD's advice on the location of activity areas within an exercise area and restricted airspace.</p>	<p>(1) Woodside has recorded the defence areas, facilities and UXOs overlapping the Operational Area and/or EMBA in Section 4.10.9 of the EP.</p>
<p>(2) The risk of unexploded ordnance (UXO) in the area.</p>	<p>(2) Woodside assessment: Woodside is aware of the risks associated with UXO in the activity area. Woodside response: Woodside confirmed it had noted the DoD's advice with respect to the risk, location, identification, removal or damage from UXO.</p>	<p>(2) Woodside has recorded the defence areas, facilities and UXOs overlapping the Operational Area and/or EMBA in Section 4.10.9 of the EP.</p>
<p>(3) The need for Woodside to continue liaison with AHO and ensure AHO is notified three weeks prior to the actual commencement of activities.</p>	<p>(3) Woodside assessment: Woodside recognises the need to liaise with the AHO. Woodside response: Woodside advised the AHO had been engaged by Woodside for these activities and was included in Woodside's activity notification protocols.</p>	<p>(3) Woodside will notify AHO where vessels will be in the Operational Area >3 weeks, as referenced as PS 1.3 in this EP. Notifying the AHO provides DoD with information of the PAP through maritime safety information.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Defence (DoD) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p>

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DoD on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside sent a follow up email seeking feedback on the proposed activities.
- Woodside has addressed and responded to DoD over a 15-month period.

Department of Primary Industries and Regional Development (DPIRD)

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed DPIRD advising of the proposed activity (Record of Consultation, reference 1.38) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to DPIRD following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted DPIRD, WAFIC, and relevant individual licence holders (via WAFIC). Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has assessed the potential for interaction with State fisheries issues in Section 4.10.1 of the EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

		<p>Woodside will provide notification of significant change, as appropriate, to AFMA, DAFF – Fisheries, CFA, DPIRD, Recfishwest and WAFIC, as referenced in Section 7.10 of the EP.</p> <p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Primary Industries and Regional Development (DPIRD) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to DPIRD on 22 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside sent follow-up email seeking feedback on the proposed activities. • Woodside has provided DPIRD with the opportunity to provide feedback over a 15-month period. 		

Department of Transport (DoT)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> • On 13 September 2023, Woodside emailed DoT advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • (1) On 02 October 2023, DoT responded to Woodside's email and asked to be consulted if there was a risk of a spill impacting State waters (SI Report, reference 5.1).
--

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1) On 04 October 2023, Woodside responded thanking DoT for its email and confirming DoT would be consulted if there was a risk of a spill impacting State waters from the proposed activities (SI Report, reference 5.2).
- On 21 December 2023, Woodside emailed DoT (Record of Consultation, reference 1.107) and provided a copy of the Oil Pollution First Strike Plan (FSP) (Appendix I) and invited DoT to comment on the activity.
- On 1 January 2024, DoT responded thanking Woodside for providing the Oil Pollution First Strike Plan for the Ngujima-Yin operations (SI Report, reference 5.3). DoT advised the plan had been reviewed. DoT also:
 - (2) Provided a comment on whether any dispersant efficacy testing had been done on the Ngujima-Yin topsides blend, and if so, what were the efficacy results.
- On 14 February 2024, Woodside responding thanking DoT for its email (SI Report, reference 5.4). Woodside:
 - (2) Advised the topsides blend at Ngujima-Yin changed depending on which of the wells were being produced from in a greater proportion at any time.
 - (2) Provided results of the historical dispersant efficacy testing data used for the blend.
 - (2) Advised it was currently planning on refreshing its dispersant efficacy testing for operating assets and, at that time, would endeavour to take a sample of a “heavier” blend from Ngujima-Yin topsides for testing purposes.
- (2) On 6 March 2024, DoT thanked Woodside for its response and advised it had no further comment at this time (SI Report, reference 5.5).
- (2) On 6 March 2024, Woodside thanked DoT for confirming its review of the First Strike Plan was complete (SI Report, reference 5.6).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) DoT requested to be consulted if there was a risk of a spill impacting State waters.</p>	<p>(1) Woodside assessment: Woodside agrees with DoT’s request and has incorporated DoT in its hydrocarbon release response plan. Woodside response: Woodside confirmed DoT would be consulted if there was a risk of a spill impacting State waters.</p>	<p>(1) Woodside will consult DoT if there is a spill impacting State water from the proposed activity, as referenced in the Oil Pollution First Strike Plan (Appendix I).</p>
<p>(2) DoT commented on the First Strike Plan and whether dispersant efficacy testing had been done on the Ngujima-Yin topsides blend, and what the results were.</p>	<p>(2) Woodside assessment: The topsides blend at Ngujma-Yin changes depending on which well is being produced from in a greater proportion at any one time and Woodside will</p>	<p>(2) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>endeavour to take a sample of a 'heavier' blend when it refreshes its dispersant efficiency testing.</p> <p>Woodside response: Woodside provided results of historical dispersant efficacy testing data used for the blend and advised the topsides blend at Ngujima-Yin changed depending on well production. Woodside also advised it was currently planning to refresh its dispersant efficacy testing for operating assets. Following this response to DoT, Woodside noted DoT had no further questions.</p>	
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 in this EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Transport (DoT) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to DoT on 13 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has addressed and responded to DoT over a 15-month period.

Department of Planning, Lands and Heritage (DPLH)

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed DPLH advising of the proposed activity (Record of Consultation, reference 1.11) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to DPLH following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 18 October 2023, DPLH thanked Woodside for the opportunity to provide feedback (SI Report, reference 6.1) and:
 - (1) Confirmed it administered Crown land within the boundaries of the State of Western Australia, including coastal waters out to three nautical miles offshore.
 - (2) Recommended consultation with the Department of Biodiversity, Conservation and Attractions (DBCA), given the proximity of the proposal to Marine Reserve 2.
 - (3) Noted that due to the proposal's location outside of coastal waters, it had no further comment to make.
- On 6 November 2023, Woodside responded thanking DPLH for its feedback (SI Report, reference 6.2). Woodside:
 - (1) Noted DPLH's area of administration.
 - (2) Confirmed it had consulted DBCA for the EP.
 - (3) Acknowledged that, due to the operation's location outside of coastal waters, DPLH had no further comment.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
(1) DPLH confirmed it administered Crown land in WA, including coastal waters out to three nautical miles offshore.	(1) Woodside assessment: Woodside acknowledges DPLH's area of administration. Woodside response: Woodside confirmed it had noted DPLH's area of administration.	(1) Not required.
(2) Due to the proximity of the proposal to Marine Reserve 2, DPLH recommended Woodside consult the Department of Biosecurity, Conservation and Attractions (DBCA).	(2) Woodside assessment: Woodside has consulted DBCA for this EP. Woodside response: Woodside confirmed to DPLH that DBCA had also been consulted for this EP.	(2) Woodside has assessed DBCA as a relevant person for this EP (see Appendix F, Table 1) in accordance with regulation 25(1) of the Environment Regulations and consulted it alongside DPLH.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(3) DPLH advised it had no further comment given the operation's location outside coastal waters.</p>	<p>(3) Woodside assessment: Woodside accepts that DPLH has no further comment. Woodside response: Woodside acknowledged that DPLH had no further comment on the proposal.</p>	<p>(3) Not required.</p>
<p>While feedback has been received, there have been no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 in this EP).</p>	<p>The Environment Plan demonstrates that there are no known underwater heritage sites or shipwrecks within the Petroleum Activities Area and identifies that there are no credible impacts to the values of any underwater heritage or shipwrecks as a result of planned activities (Sections 4.10.4 and 6.6). While impacts to underwater heritage sites or shipwrecks are possible in the event of an unplanned hydrocarbon spill, Woodside considers it adopts appropriate controls to prevent a hydrocarbon spill and controls to respond in the highly unlikely event of a hydrocarbon spill, as demonstrated in Section 6.8. No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Planning, Lands and Heritage (DPLH) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DPLH on 13 September 2023 based on their functions, interests or activities.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to DPLH over a 15-month period.

Western Australian Museum

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed WA Museum advising of the proposed activity (Record of Consultation, reference 1.10) and provided a Consultation Information Sheet, list of shipwrecks and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 9 October 2023, WA Museum responded thanking Woodside for the information (SI Report, reference 7.1). WA Museum:
 - **(1)** Advised that under the Underwater Heritage Act 2018, proponents should, in the first place, contact DCCEEW as the Commonwealth regulator.
 - **(2)** Directed Woodside to refer to the Commonwealth Government's Underwater Cultural Heritage Guidance for Offshore Developments regarding UCH assessments and draft Guidelines for Working in the Near and Offshore Environment to Protect Underwater Cultural Heritage.
 - **(3)** Recommended that Woodside engaged a suitably qualified and experienced maritime archaeologist to undertake a UCH Desktop Assessment to identify Aboriginal and non-Aboriginal UCH within the project area.
 - **(4)** Recommended that Woodside consult with Traditional Owners where appropriate if the project involved seabed disturbance in water shallower than 130 metres.
- On 15 November 2023, Woodside responded and thanked WA Museum for its feedback (SI Report, reference 7.2). Woodside:
 - **(1)** Confirmed it had consulted the Commonwealth regulator, DCCEEW, for this EP.
 - **(2)** Confirmed it referred to the Commonwealth Government's Underwater Cultural Heritage Guidance for Offshore Developments regarding UCH assessments and draft Guidelines for Working in the Near and Offshore Environment to Protect Underwater Cultural Heritage.
 - **(3)** Noted that as this EP involved ongoing operations, mapping and identification for non-Aboriginal UCH within the project area had previously been completed.
 - **(3)** Advised that Woodside engaged a desktop review by qualified and experienced maritime archaeologists for seabed disturbing activities to a depth of approximately 130m. As the shallowest water depth for the Operational Area of this activity is 180m, Woodside considered the projects area to be beyond the depth contours for potential Aboriginal UCH.
 - **(4)** Confirmed that while this activity did not involve seabed disturbance in water shallower than 130m, Woodside consulted with Traditional Owners in the course of preparing EPs and also engaged in ongoing consultation subsequent to the approval of EPs.
 - **(4)** As per Woodside's ongoing consultation approach, feedback and comments received continued to be assessed and responded to, as required, through the life of an EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Contacting DCCEEW as the Commonwealth regulator.</p>	<p>(1) Woodside assessment: Woodside assessed DCCEEW as relevant and has consulted it for this EP. Woodside response: Woodside confirmed it had consulted DCCEEW, as the Commonwealth regulator, for this EP.</p>	<p>(1) Woodside assessed DCCEEW as a relevant person for this EP (see Appendix F, Table 1) in accordance with regulation 25(1) of the Environment Regulations and consulted it as described in Appendix F, Table 2.</p>
<p>(2) Reference to the Commonwealth Government's Underwater Cultural Heritage Guidance for Offshore Developments regarding UCH assessments and draft Guidelines for Working in the Near and Offshore Environment to Protect Underwater Cultural Heritage.</p>	<p>(2) Woodside assessment: Woodside refers to the Commonwealth Government's relevant underwater cultural guidance and draft guidelines. Woodside response: Woodside confirmed it referred to the Commonwealth Government's Underwater Cultural Heritage Guidance for Offshore Developments regarding UCH assessments and draft Guidelines for Working in the Near and Offshore Environment to Protect Underwater Cultural Heritage.</p>	<p>(2) Not required.</p>
<p>(3) Recommends Woodside engages a maritime archaeologist to undertake a UCH Desktop Assessment.</p>	<p>(3) Woodside assessment: Mapping has been completed for the ongoing operations associated with this EP and the water depth of the Operational Area is considered too deep for potential Aboriginal UCH. Woodside response: Woodside noted that as this EP involved ongoing operations, mapping had already been completed for non-Aboriginal UCH. As the shallowest water depth for the Operational Area of this activity is 180m, Woodside considers the project area to be beyond the depth contour for potential Aboriginal UCH.</p>	<p>(3) Not required.</p>
<p>(4)</p>	<p>(4)</p>	<p>(4)</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>Recommends Woodside consults Traditional Owners where appropriate if the project involves seabed disturbance in water shallower than 130m.</p>	<p>Woodside assessment: This activity does not involve seabed disturbances in water shallower than 130m. Woodside response: Woodside confirmed that although this activity did not involve seabed disturbance in water shallower than 130m, Woodside consulted with Traditional Owners in the course of preparing EPs and also engaged in ongoing consultation subsequent to the approval of the EP.</p>	<p>Consultation with Traditional Owners is described in Appendix F, Tables 2 and 3 of the EP.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>The Environment Plan demonstrates that there are no known underwater heritage sites or shipwrecks within the Petroleum Activities Area and identifies that there are no credible impacts to the values of any underwater heritage or shipwrecks as a result of planned activities (Sections 4.10.4 and 6.6). While impacts to underwater heritage sites or shipwrecks are possible in the event of an unplanned hydrocarbon spill, Woodside considers it adopts appropriate controls to prevent a hydrocarbon spill and controls to respond in the highly unlikely event of a hydrocarbon spill, as demonstrated in Section 6.8. As part of ongoing consultation engagements as set out in Table 7-5 of the EP, Woodside will notify WAM of any unexpected finds of potential Underwater Cultural Heritage under the Unexpected Finds Procedure (as described in Section 7.5 of the EP). No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with WA Museum for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to WA Museum on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to WA Museum over a 15-month period.

Pilbara Ports Authority

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed Pilbara Ports Authority advising of the proposed activity (Record of Consultation, reference 1.29) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Pilbara Ports Authority following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Pilbara Ports Authority for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to Pilbara Ports Authority on 19 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Pilbara Ports Authority with the opportunity to provide feedback over a 15-month period.

Kimberley Ports Authority

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed Kimberley Ports Authority advising of the proposed activity (Record of Consultation, reference 1.29) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Kimberley Ports Authority following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Kimberley Ports Authority for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Kimberley Ports Authority on 19 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Kimberley Ports Authority with the opportunity to provide feedback over a 15-month period.

Mid West Ports Authority

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed Mid West Ports Authority advising of the proposed activity (Record of Consultation, reference 1.29) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Mid West Ports Authority following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Mid West Ports Authority for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Mid West Ports Authority on 19 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided the Mid West Ports Authority with the opportunity to provide feedback over a 15-month period.

Fremantle Port Authority

Summary of information provided and record of consultation:

- On 21 September 2023, Woodside emailed Fremantle Ports advising of the proposed activity (Record of Consultation, reference 1.36 and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Fremantle Ports following up on the proposed activity (Record of Consultation, reference 2.2) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Fremantle Ports for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Fremantle Ports on 21 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Fremantle Ports with the opportunity to provide feedback over a 15-month period.

Southern Ports – Albany, Bunbury

Summary of information provided and record of consultation:

- On 21 September 2023, Woodside emailed Southern Ports – Albany and Bunbury advising of the proposed activity (Record of Consultation, reference 1.36) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 18 October 2023, Woodside sent a reminder email to Southern Ports – Albany and Bunbury following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate,	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Agriculture, Fisheries and Forestry (DAFF) - Biosecurity for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Department of Agriculture, Fisheries and Forestry (DAFF) – Biosecurity on 16 October 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure Consultation on offshore petroleum environment plans: Information for the community.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided DAFF - Biosecurity with the opportunity to provide feedback over a 14-month period.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Department of Climate Change, Energy, the Environment and Water (DCCEE)

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed DCCEE advising of the proposed activity (Record of Consultation, reference 1.9) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 9 October 2023, DCCEE responded thanking Woodside for contacting the Department in relation to this EP (SI Report, reference 8.1). DCCEE:
 - (1) Advised Underwater Cultural Heritage (UCH) may potentially be impacted by planned or unplanned activities or events in relation to offshore petroleum activities.
 - (2) Noted Woodside was already aware of the *Underwater Cultural Heritage Act 2018* (UCH Act 2018) and its requirements based on communication received during previous EP consultations.
 - (3) Provided a summary of legislation and protections, key requirements and obligations, and management considerations and recommendations from the UCH Act 2018.
- On 15 November 2023, Woodside responded and thanked DCCEE for its email (SI Report, reference 8.2). Woodside:
 - (1) Confirmed it was aware of the legislative requirements of the Underwater Cultural Heritage Act 2018.
 - (1) Noted the Department's summary of legislation and protections, key responsibilities and obligations for proponents, and management recommendations.
 - (2) Confirmed it referred to the Department's UCH Guidance for Offshore Developments document and draft Guidelines for Working in the Near and Offshore Environment to Protect Underwater Cultural Heritage.
 - (2) Confirmed mapping and identification for non-Aboriginal UCH with the project area had previously been completed for these ongoing activities.
 - (3) Advised the shallowest water depths in the Operational Area, at 180m, were considered beyond the 130m depth contours for potential Aboriginal UCH.
 - (3) Confirmed it consulted with communities and Traditional Owners in the course of preparing EPs and engaged in ongoing consultation subsequent to the approval of EPs.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) UCH may potentially be impacted by planned or unplanned activities related to offshore petroleum activities.</p>	<p>(1) Woodside assessment: Mapping has already been completed for the ongoing operations associated with this EP, and the water depth of the Operational Area is considered too deep for potential Aboriginal UCH. Woodside response: Woodside noted that as these were ongoing operations, mapping for non-Aboriginal</p>	<p>(1) The EP demonstrates that there are no known underwater heritage sites or shipwrecks within the Petroleum Activities Area and identifies that there are no credible impacts to the values of any underwater heritage or shipwrecks as a result of planned activities (Section 4.10.4 and Section 6.6). While impacts to underwater heritage sites or</p>

	UCH had previously been completed. Woodside noted that the shallowest water depths for this activity were 180m, which was considered beyond the depth contours for potential Aboriginal UCH.	shipwrecks are possible in the event of an unplanned hydrocarbon spill, Woodside considers it adopts appropriate controls to prevent a hydrocarbon spill and controls to respond in the highly unlikely event of a hydrocarbon spill, as demonstrated in Section 6.8 of this EP.
(2) It noted Woodside is already aware of the Underwater Cultural Heritage Act 2018.	(2) Woodside assessment: Woodside is aware of the Underwater Cultural Heritage Act 2018. Woodside response: Woodside confirmed it was aware of the legislative requirements of the Underwater Cultural Heritage Act 2018.	(2) Not required.
(3) A summary of legislation and protections, key responsibilities and obligations, and management considerations and recommendations from the UCH Act 2018.	(3) Woodside assessment: Woodside adheres to the Underwater Cultural Act 2018. Woodside response: Woodside confirmed it had noted the Department's summary of key legislation and protections, responsibilities and obligations, and management considerations and recommendations from the UCH Act 2018.	(3) Not required.
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

Outcomes of Consultation

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Climate Change, Energy, the Environment and Water (DCCEEW) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DCCEEW on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to DCCEEW over a 15-month period.

Director of National Parks (DNP)

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed DNP advising of the proposed activity (Record of Consultation, reference 1.30) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to DNP following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 9 November 2023, Woodside sent a second reminder email to DNP following up on the proposed activity (Record of Consultation, reference 2.17) and included a link to the Consultation Information Sheet on Woodside's website.
- On 7 December 2023, DNP responded to Woodside and apologised for the delayed response (SI Report, reference 9.1). DNP noted that:
 - **(1)** Based on the information provided, the planned activity did not overlap any Australian Marine Parks (AMPs) therefore there were no authorisation requirements from the DNP.
 - **(2)** To assist in the preparation of an EP for petroleum activities, NOPSEMA has worked closely with Parks Australia to develop and publish a guidance note that outlines what titleholders need to consider and evaluate. Titleholders should ensure the EP:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Identified and managed all impacts and risks on Australian marine park values (including ecosystem values) and had considered all options to avoid or reduce them to as low as reasonably practicable.
- Clearly demonstrated the activity would not be inconsistent with the North-west Marine Parks Network Management Plan 2018.
- (3) It did not require further notification of progress made in relation to this activity unless details regarding the activity changed and resulted in an overlap with a marine park or new impact, or for emergency responses.
- On 14 December 2023, Woodside responded thanking DNP for its email (SI Report, reference 9.2) and:
 - (1) Noted DNP's confirmation that planned activities did not overlap any AMPs and there were no authorisation requirements.
 - (2) Confirmed Woodside had taken into consideration the Petroleum Activities and Australian Marine Parks guidance note to ensure the EP:
 - Identified and managed all impacts and risks on AMP values (including ecosystem values) to an acceptable level.
 - Clearly demonstrated that the activities would not be inconsistent with the North-west Marine Parks Network Management Plan 2018.
 - (3) Confirmed Woodside would notify DNP in relation to these activities if details regarding the activities changed and resulted in an overlap with or new impact to a marine park, or for emergency responses.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Planned activities do not overlap any Australian Marine Parks and there are therefore no authorisation requirements from the DNP.</p>	<p>(1) Woodside assessment: Woodside notes there are no authorisation requirements from DNP. Woodside response: Woodside noted the DNP's confirmation that planned activities did not overlap AMPs and there were no authorisation requirements.</p>	<p>(1) Not required.</p>
<p>(2) Woodside should ensure EPs identify and manage all impacts and risks on AMP values, and clearly demonstrate that activities will not be inconsistent with the management plan.</p>	<p>(2) Woodside assessment: Woodside has considered the Petroleum Activities and Australian Marine Parks guidance note to assess and manage impacts and risks to AMPs. Woodside response: Woodside confirmed it had taken into consideration the Petroleum Activities and Marine Parks guidance note to ensure the EP identified and managed all risks on AMP values, and clearly</p>	<p>(2) The EP demonstrates how Woodside will identify and manage all impacts and risks on Australian marine park values (including ecosystem values) to an ALARP and acceptable level and that the activity is not inconsistent with the management plan (see Section 6.8 of the EP).</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	demonstrated that activities would not be inconsistent with the management plan.	
(3) It does not require further notification of progress unless details regarding the activity change and result in an overlap with a marine park or new impact, or for emergency responses.	(3) Woodside assessment: Woodside will notify DNP in the event of relevant changes to the activity, or for emergency responses. Woodside response: Woodside confirmed it would notify DNP if activities changed and resulted in an overlap with or new impact to a marine park, or for emergency responses.	(3) Woodside will provide notification of significant change, as appropriate, to relevant persons as referenced in Section 7.10 of the EP. Woodside will ensure DNP is made aware of any incidences within a marine park for the activity, as per the commitment in the Oil Pollution First Strike Plan (Appendix I).
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Director of National Parks (DNP) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DNP on 19 September 2023 based on their functions, interests or activities.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent follow up emails seeking feedback on the proposed activities.
- Woodside has provided Director of National Parks with the opportunity to provide feedback over a 15-month period.

Ningaloo Coast World Heritage Advisory Committee (NCWHAC)

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed NCWHAC advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to NCWHAC following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 9 November 2023, Woodside sent a second reminder email to NCWHAC following up on the proposed activity (Record of Consultation, reference 2.17) and included a link to the Consultation Information Sheet on Woodside's website. No response was received.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Ningaloo Coast World Heritage Advisory Committee (NCWHAC) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to NCWHAC on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent follow up emails seeking feedback on the proposed activities.
- Woodside has provided NCWHAC with the opportunity to provide feedback over a 15-month period.

Department of Biodiversity, Conservation and Attractions (DBCA)

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed DBCA advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 23 October 2023, DBCA responded thanking Woodside for the email and consultation information (SI Report, reference 10.1). DBCA noted:
 - **(1)** The operations were in vicinity of reserves managed by DBCA under the CALM act and given the ecological importance of areas potentially affected by a hydrocarbon release from the proposed activities, it was considered important that the baseline values and state of the potentially affected environment were appropriately understood and documented prior to operations commencing.
 - **(2)** It would like to have confidence that Woodside had established appropriate baseline survey data on the current state of areas supporting important ecological values and any current contamination if present within the area of potential impact of hydrocarbon releases.
 - **(3)** It undertakes monitoring in marine parks and reserves and published monitoring reports which are available on its website, however Woodside should be aware this monitoring is targeted to inform DBCA's values and objectives and is not necessarily suitable to provide baseline information for oil spill risk assessment and management planning.
 - **(4)** It recommended Woodside refer to the Department of Climate Change, Energy, the Environment and Water's National Light Pollution Guidelines for Wildlife as a best-practice industry standard for managing potential impacts of light pollution on marine fauna.
 - **(5)** In the event of a hydrocarbon release, it was requested that Woodside notify DBCA's Pilbara regional office as soon as practicable on (08) 9182 2000.
 - **(6)** It would not implement an oiled wildlife management response on behalf of a petroleum operator except as part of a whole of government response mandated by regulatory decision makers.
 - **(7)** Woodside should refer to the Department of Transport's web content regarding marine pollution and the Offshore Petroleum Industry Guidance Note of 2020 titled Marine Oil Pollution: Response and Consultation Arrangements. **(7)** No response required. Woodside refers to DoT's marine pollution resources.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 31 October 2023, following feedback from the Shire of Shark Bay that the DBCA’s Shark Bay office may also wish to provide feedback, Woodside emailed DBCA Shark Bay advising of the proposed activity (Record of Consultation, reference 1.61) and provided a Consultation Information Sheet. Woodside noted in the email that DBCA’s main department had already provided feedback on the activity.
- On 15 November 2023, Woodside responded thanking DBCA’s main department for its feedback on 23 October 2023 (SI Report, reference 10.2). Woodside:
 - (1, 2) Confirmed it maintained knowledge and an understanding of areas of ecological importance within and adjacent to operational areas.
 - (3) Advised its oil spill scientific monitoring program would provide for a quantitative assessment of the overall environmental impacts in the event of an unplanned hydrocarbon release.
 - (4) Confirmed the lighting associated with the Ngujima-Yin FPSO Facility Operations EP and any associated activity vessels was required as a priority for safe operation.
 - (4) Confirmed it had considered DCCEEW’s National Light Pollution Guidelines with respect to vessel activities. The impact assessment determined that the impacts of lighting were as low as reasonably practicable.
 - (5) Advised it had incorporated the DBCA Pilbara regional office telephone number as part of the notifications listed in the Oil Pollution First Strike Plan, which describes the incident management structure, notification and reporting requirements, the Operational Area, activity specific credible spill scenarios, and the hydrocarbon spill response strategies available.
 - (6) Noted that DBCA would not implement an oiled wildlife management response on behalf of a petroleum operator.
- On 15 December 2023, Woodside sent a reminder email to the DBCA’s Shark Bay office following up on the proposed activity (Record of Consultation, reference 2.19) and included a link to the Consultation Information Sheet on Woodside’s website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) Ecologically important areas including marine parks and coastal conservation reserves in the vicinity of the proposed operations.</p>	<p>(1) Woodside assessment: Woodside is aware of ecologically important areas and has ensured there are no credible impacts from planned activities. Woodside response: Woodside confirmed that areas of ecological importance in the proximity of the Environment Plan Operational Areas would not be impacted by planned activities.</p>	<p>(1) The Environment Plan demonstrates that the proposed activities are outside the boundaries of a proclaimed State Marine Park and identifies that there are no credible impacts to the values of any State Marine Parks as a result of planned activities (Section 4.9.4 and Section 6.8 of the EP). While impacts to Commonwealth Marine Parks are possible in the event of an unplanned hydrocarbon spill, Woodside considers it adopts appropriate controls to prevent a hydrocarbon spill and controls to respond in the highly unlikely event of a hydrocarbon spill, as demonstrated in Sections 6.8.3-6.8.10 of the EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(2) The establishment of appropriate baseline survey data on the current state of areas.</p>	<p>(2) Woodside assessment: Woodside maintains knowledge of areas of ecological importance adjacent to the Operational Area and assesses the existing environment that may be affected in the EP. Woodside response: Woodside confirmed it maintained knowledge and an understanding of areas of ecological importance adjacent to Operational Areas.</p>	<p>(2) Under the Oil Spill Scientific Monitoring Program preparedness, an annual review and update to environmental baseline studies database is completed and documented as described in Section 7.7.2 of this EP.</p>
<p>(3) Encouraging Woodside to acquire the necessary information to implement a Before-After Control Impact (BACI) framework.</p>	<p>(3) Woodside assessment: Woodside has the necessary information to assess environmental impacts in the event of an unplanned hydrocarbon release. Woodside response: Woodside confirmed its oil spill scientific monitoring program (SMP) would provide for a quantitative assessment of the overall environmental impacts in the event of an unplanned hydrocarbon release, or any release event with the potential to contact sensitive environmental receptors.</p>	<p>(3) Under the Oil Spill Scientific Monitoring Program preparedness, an annual review and update to environmental baseline studies database is completed and documented as described in Section 7.7.2 of this EP.</p>
<p>(4) Recommending Woodside refers to DCCEEW's National Light Pollution Guidelines for Wildlife.</p>	<p>(4) Woodside assessment: Woodside referred to DCCEEW's National Light Pollution Guidelines for Wildlife in the preparation of this EP. Woodside response: Woodside confirmed it had considered DCCEEW's National Light Pollution Guidelines for Wildlife and that lighting associated with this EP was required as a priority for safe operation.</p>	<p>(4) Woodside's impact assessment for light emissions is based on recommendations of the National Light Pollution Guidelines for Wildlife (see Section 6.6.7).</p>
<p>(5) Noted its 'Incidents and Emergency process, including that Woodside notify DBCA's Pilbara office as soon as practicable in the event of a hydrocarbon release.</p>	<p>(5) Woodside assessment: Woodside will incorporate the DBCA Pilbara number into its First Strike Plan.</p>	<p>(5) DBCA's Pilbara phone number has been incorporated into the Oil Pollution First Strike Plan for this EP (see Appendix I).</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside noted DBCA's Incidents and Emergency Response and confirmed the DBCA Pilbara number had been incorporated as part of the Oil Pollution First Strike Plan.	
(6) The implementation of an oiled wildlife management response.	(6) Woodside assessment: Woodside acknowledges DBCA will not implement an oiled wildlife management response on behalf of an operator. Woodside response: Woodside noted DBCA would not implement an oiled wildlife management response on behalf of a petroleum operator.	(6) Woodside's Oiled Wildlife Response is included in the Oil Spill Preparedness and Response Mitigation Assessment (OSPRMA) for this EP (see Appendix H).
(7) Woodside should refer to the DoT's web content on marine pollution, and the guidance note Marine Oil Pollution: Response and Consultation Arrangements.	(7) Woodside assessment: Woodside refers to DoT's marine pollution content in the development of its response plans. Woodside response: Woodside noted DBCA's reference to DoT's marine oil pollution content.	(7) Woodside refers to the specified marine oil pollution content and guidance note in its First Strike Plan for this activity (Appendix I).
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Biodiversity, Conservation and Attractions (DBCA) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley

Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Consultation Information provided to DBCA on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure Consultation on offshore petroleum environment plans: Information for the community.
- Woodside has addressed and responded to DBCA over a 12-month period.

Commonwealth and State Government Departments or Agencies – Industry

Department of Industry, Science and Resources (DISR)

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed DISR advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to DISR following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Industry, Science and Resources (DISR) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DISR on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided DISR with the opportunity to provide feedback over a 15-month period.

Department of Energy, Mines, Industry Regulation and Safety (DEMIRS)

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed DEMIRS advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to DEMIRS following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).	No additional measures or controls are required.
Outcomes of Consultation		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to DEMIRS on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided DEMIRS with the opportunity to provide feedback over a 15-month period.

Commonwealth Commercial fisheries and representative bodies

North West Slope and Trawl Fishery

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed North West Slope and Trawl Fishery advising of the proposed activity (Record of Consultation, reference 1.37) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 18 October 2023, Woodside sent a reminder email to North West Slope and Trawl Fishery following up on the proposed activity (Record of Consultation, reference 2.3) and included a link to the Consultation Information Sheet on Woodside's website.

- On 18 October 2023, Woodside sent a reminder email to Western Deepwater Trawl Fishery following up on the proposed activity (Record of Consultation, reference 2.3) and included a link to the Consultation Information Sheet on Woodside’s website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted AFMA, DAFF - Fisheries, CFA and individual relevant licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Western Deepwater Trawl Fishery for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Western Deepwater Trawl Fishery on 22 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided the Western Deepwater Trawl Fishery with the opportunity to provide feedback over a 15-month period.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Western Tuna and Billfish Fishery

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed Western Tuna and Billfish Fishery advising of the proposed activity (Record of Consultation, reference 1.37) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 18 October 2023, Woodside sent a reminder email to Western Tuna and Billfish Fishery following up on the proposed activity (Record of Consultation, reference 2.3) and included a link to the Consultation Information Sheet on Woodside's website.
- (1) On 19 October 2023, a licence holder from the Western Tuna and Billfish Fishery responded asking to be removed from Woodside's mailing list and for Woodside to consult with Tuna Australia (SI Report, reference 11.1).
- (1) On 2 November 2023, Woodside responded thanking the licence holder for their email and confirming they would be removed from Woodside's mailing list and correspondence would be directed to Tuna Australia (SI Report, reference 11.2).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's Response	Inclusion in Environment Plan
<p>(1) A licence holder from the Western Tuna and Billfish Fishery asked to be removed from Woodside's mailing list and for Woodside to consult with Tuna Australia.</p>	<p>(1) Woodside assessment: Woodside respects that consultation is voluntary. Woodside response: Woodside confirmed it had removed the licence holder from mailing lists and would direct correspondence to Tuna Australia.</p>	<p>(1) Not required.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside has consulted Tuna Australia, AFMA, DAFF - Fisheries, CFA, ASBTIA and relevant individual licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Western Tuna and Billfish Fishery for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Western Tuna and Billfish Fishery on 22 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has addressed and responded to Western Tuna and Billfish Fishery over a 15-month period.

Christmas Island Line Fishery

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed/sent a letter to Christmas Island Line Fishery advising of the proposed activity (Record of Consultation, reference 1.37 and 1.43) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 and 18 October 2023, Woodside sent a reminder letter/email to Christmas Island Line Fishery following up on the proposed activity (Record of Consultation, reference 2.3 and 2.18) and included a link/QR code to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted AFMA, DAFF - Fisheries, CFA, DITRDCA, and individual relevant licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has	Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.</p>
--	--	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Christmas Island Line Fishery for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Christmas Island Line Fishery on 22 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email/letter seeking feedback on the proposed activities.
- Woodside has provided Christmas Island Line Fishery with the opportunity to provide feedback over a 15-month period.

Commonwealth Fisheries Association (CFA)

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed CFA advising of the proposed activity (Record of Consultation, reference 1.37) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 18 October 2023, Woodside sent a reminder email to CFA following up on the proposed activity (Record of Consultation, reference 2.3) and included a link to the Consultation Information Sheet on Woodside’s website.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>No feedback, objections or claims received despite follow-up.</p>	<p>Woodside has consulted AFMA and DAFF – Fisheries. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Commonwealth Fisheries Association (CFA) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to CFA on 22 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up email seeking feedback on the proposed activities. • Woodside has provided CFA with the opportunity to provide feedback over a 15-month period. 		

Tuna Australia

<p>Historical Engagement:</p>
<p>This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.</p> <p>Controlled Ref No: V0000AH0500 Revision: 2 Page 152 of 979</p> <p style="text-align: center;">Uncontrolled when printed. Refer to electronic version for most up to date information.</p>

- Between 15 March 2023 and 4 September 2023, in relation to other Woodside EPs, Tuna Australia:
 - Provided its position statement for engaging on EPs and project proposals.
 - Advised that due to increased activity of proponents seeking to access offshore areas for various maritime developments, Tuna Australia could no longer coordinate consultation with offshore energy activities on behalf of its members without a services agreement in place.
 - Advised it did not agree with proposed amendments made by Woodside to a draft services agreement.

Summary of information provided and record of consultation for this EP:

- On 22 September 2023, Woodside emailed Tuna Australia advising of the proposed activity (Record of Consultation, reference 1.37) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 31 October 2023, Woodside sent a reminder email to Tuna Australia following up on the proposed activity (Record of Consultation, reference 2.11) and included a link to the Consultation Information Sheet on Woodside's website.
- On 6 November 2023, Tuna Australia emailed Woodside regarding this EP (SI Report, reference 12.1) and stated:
 - (1) It could assist to help Woodside reach concession owners and licence holders of potentially impacted fisheries to meet regulatory consultation requirements.
 - (2) Proponents must address planned fishing effort and development of the fishery, and focussing on historical fishing effort as the basis for validating the EP was a flawed assessment.
 - (3) Concern about recent consultation by energy companies using outdated mailing lists sourced from AFMA or elsewhere, while Tuna Australia's database was up to date and actively managed.
 - (2) It assisted energy companies to meet genuine and comprehensive consultation and reporting requirements. Its view was that consultation not conducted through its services was highly likely to be incomplete. Tuna Australia could not support this EP as it believed Woodside had fallen short of genuine and comprehensive consultation.
 - (4) Woodside should advise if it wished to progress with a services agreement.
- On 22 November 2023, Woodside responded thanking Tuna Australia for its email (SI Report, reference 12.2) and advised:
 - (1) Offshore proponents must consult relevant persons under the Commonwealth Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009.
 - (1) Woodside's consultation process identified relevant persons and provided them sufficient information and a reasonable period to make an informed assessment of the possible consequences of the proposed activity on their functions, interests and activities.
 - (3) Woodside obtained contact details of individual Commonwealth fishing statutory fishing rights and fishing permit holders so that consultation was consistent with the Environment Regulations. As noted on its website, AFMA's expectation was that petroleum operators consulted with fishing operators about all activities and projects which may affect day-to-day fishing activities.
 - (1, 3) In addition to consulting individual licence holders, Woodside consulted relevant fishing industry associations and representative bodies such as Tuna Australia and Commonwealth Fisheries Association, and referred to the AFMA website to help inform which associations and bodies were relevant.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1, 2, 3) While the management area for the Western Tuna and Billfish Fishery overlapped the Operational Area, based on AFMA data, no recent fishing effort had occurred within the Operational Area for at least the past 10 years. Despite this, Woodside chose to consult licence holders in this fishery.
- (4) The Offshore Environment Regulations did not require entry into services agreements in order to meet EP consultation requirements. Woodside has met its consultation obligations under the Environment Regulations and given Tuna Australia sufficient time and information.
- On 5 December 2023, Tuna Australia responded and thanked Woodside for its advice (SI Report, reference 12.3) and noted:
 - (2) It was concerned Woodside was electing to cherry-pick on how to meet statutory requirements, for example by focussing on fishing effort and disregarding important information in the OPGGS Act 2006 and Regulations.
 - (5) To progress consultation, it wished to pause the process while it took advice.
 - (1) It could assist Woodside to develop an EP that was improved and met regulatory requirements.
- On 20 December 2023, Woodside responded and thanked Tuna Australia for its response. (SI Report, reference 12.4). Woodside advised:
 - (2) Woodside met its legislative and regulatory requirements in the development and implementation of an EP.
 - (5) Woodside would continue to consult Tuna Australia and individual Commonwealth licence holders for proposed activities where relevant and as appropriate.
 - (1) Consultation was voluntary, and Tuna Australia could decide whether it wished to engage in the process or not.
- On 21 December 2023, Tuna Australia responded and thanked Woodside for its response (SI Report, reference 12.5). It noted:
 - (1, 4) The OPGGS Act 2006 clearly stated that when developing an EP, the proponent must demonstrate they could “carry on those activities in a manner that does not interfere with navigation, fishing or the conservation of the resources of the sea and seabed”. It had provided its industry position statement and, it was prepared to provide services to ensure the EP met legislative and regulatory requirements. Tuna Australia would ensure thorough and comprehensive consultation on the proposed EP and without this advice, any EP submitted to NOPSEMA would be incomplete, inadequate and would not meet regulatory requirements.
 - (1, 4) Tuna Australia would welcome comment from NOPSEMA on the content required in an EP to meet regulatory requirements when considering potential impacts on Australian tuna fisheries, especially in the context of knowing that it could comprehensively provide this information through a services agreement and Woodside has chosen not to engage.
 - (4) Tuna Australia was breaking for the festive season but urged Woodside to consider whether it would like to enter a services agreement and to advise accordingly in the week of 8 January 2024.

Ongoing engagement:

- Between February 2024 and August 2024, ongoing discussions between Woodside and Tuna Australia regarding other EPs included:
 - Concern from Tuna Australia regarding the provision and frequency of industry data from AFMA.
 - Reiteration from Woodside that it was willing to have a working relationship with Tuna Australia and that it had previously engaged on a draft agreement, however Tuna Australia had not been willing to make amendments to the draft agreement.
 - Tuna Australia providing an amended draft services agreement.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- A meeting during which Woodside and Tuna Australia discussed fishing effort, Woodside’s methodology for determining relevancy, and an agreement that both parties were committed to genuine consultation.
- Woodside providing activities when a service agreement might be used due to the potential impact on the Western Tuna and Billfish Fishery.
- Woodside confirming it would continue to consult Tuna Australia where historical catch effort overlapped the EMBA, but this wouldn’t be under a services agreement. Woodside was willing to enter a services agreement that would be deployed where there was historical catch effort in the Operational Area.
- Tuna Australia advising it did not agree with the proposed way forward for managing consultation as its view was that catch history was only one factor that must be considered when planning activities.
- A further meeting between Tuna Australia and Woodside to discuss consultation approaches.
- Woodside advising that moving forward it would continue to consult Tuna Australia when it was relevant to a specific Environment Plan.
- Tuna Australia noting it was still committed to assisting Woodside with EPs following the execution of a services agreement.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) Tuna Australia could provide comprehensive consultation for EPs and without its support, consultation was likely to be incomplete.</p>	<p>(1) Woodside assessment: Woodside disagrees that consultation would be incomplete without Tuna Australia support. Woodside has developed a methodology for identifying relevant persons, in accordance with regulation 25 of the Environment Regulations that is consistent with NOPSEMA’s guideline. Woodside response: Woodside advised Tuna Australia that Woodside’s consultation process identified relevant persons and provided them with sufficient information and a reasonable period in which to provide feedback.</p>	<p>(1) Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP and identified relevant persons in Appendix F, Table 1 of the EP in accordance with regulation 25 of the Environment Regulations.</p>
<p>(2) Noted that focusing on historical fishing effort was a flawed assessment for relevancy.</p>	<p>(2) Woodside assessment: Woodside disagrees that considering historical fishing effort, sourced from government agencies, in determining relevant fisheries is flawed. This information helps to determine where a fisher could typically fish and that this location could be impacted by a proposed activity.</p>	<p>(2) Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP and identified relevant persons in Appendix F, Table 1 of this EP in accordance with regulation 25 of the Environment Regulations.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside determined and advised that although the Western Tuna and Billfish Fishery management area overlapped the Operational Area, there had been no fishing effort in the Operational Area for at least the past 10 years. Despite this, Woodside chose to consult licence holders in the fishery.</p>	
<p>(3) Concern about energy companies sourcing mailing lists from AFMA or elsewhere.</p>	<p>(3) Woodside assessment: Woodside considers purchasing contact details from a relevant Government agency is an appropriate means in which to contact relevant licence holders. Woodside response: Woodside advised it obtained contact details of Commonwealth statutory fishing rights and fishing permit holders so that consultation was consistent with the Regulations, as per the expectation from AFMA that petroleum operators consulted with fishing operators about all activities and projects which may affect day-to-day fishing activities. In addition to consulting individual licence holders, Woodside consulted relevant fishing industry associations and representative bodies such as Tuna Australia and Commonwealth Fisheries Association, and referred to the AFMA website to help inform which associations and bodies were relevant.</p>	<p>(3) Not required.</p>
<p>(4) Recommended entering into a services agreement to support consultation.</p>	<p>(4) Woodside assessment: The Offshore Environment Regulations do not require the entry into a fee-for- service agreement in order to meet EP consultation requirements. Given Tuna Australia was not willing to make any amendments to the agreement to address Woodside's concerns, Woodside has not agreed to enter into an agreement. Outside of a fee-for-service agreement, Woodside is willing to explore options on how best to consult Tuna Australia and licence holders.</p>	<p>(4) Consultation with Tuna Australia is complete as reflected in Table 2 of Appendix F.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside advised that consultation regulations did not require entry into a services agreement in order to engage in consultation or for an EP to be complete.</p> <p>Woodside confirmed it respected that, for a relevant person, consultation was voluntary. Woodside advised Tuna Australia the level of feedback provided by an organisation, if any, was at the person or organisation's discretion, and Woodside was open to suggestions from Tuna Australia on ways to improve efficiency and simplicity for feedback.</p>	
<p>(5) Wished to pause discussions on the consultation process while it took advice.</p>	<p>(5) Woodside assessment: Woodside has provided sufficient information and a reasonable period for Tuna Australia to make an informed assessment of the possible consequences of the activity on its functions, interests or activities. Woodside will continue to consult Tuna Australia when relevant.</p> <p>Woodside response: Woodside noted Tuna Australia's wish to pause the consultation process and advised it would continue to consult Tuna Australia and Commonwealth licence holders for proposed activities where relevant and as appropriate, and that consultation was voluntary, and Tuna Australia could decide whether it wished to engage in the process or not.</p>	<p>(5) Not required.</p>
<p>Woodside has addressed objections and claims as noted above.</p>	<p>Woodside has consulted AFMA, DAFF – Fisheries, CFA, ASBTIA and relevant individual licence holders.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.</p> <p>Woodside considers the measures and controls in the EP address Tuna Australia's functions, interests or activities.</p> <p>No additional controls or measures are required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Tuna Australia for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to Tuna Australia on 22 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up email seeking feedback on the proposed activities. • Woodside has addressed and responded to Tuna Australia over a 15-month period. 		

Pearl Producers Association

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> • On 26 September 2023, Woodside emailed Pearl Producers Australia advising of the proposed activity (Record of Consultation, reference 1.45) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • On 17 October 2023, Woodside sent a reminder email to Pearl Producers Australia following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Pearl Producers Association (PPA) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to Pearl Producers Association on 26 September 2023 based on their function, interest and activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up email seeking feedback on the proposed activities. • Woodside has provided Pearl Producers Association with the opportunity to provide feedback over a 15-month period. 		

Western Australian Commercial fisheries and representative bodies

Western Australian Fishing Industry Council (WAFIC)

Summary of information provided and record of consultation:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 159 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

- On 20 September 2023, Woodside emailed WAFIC advising of the proposed activity (Record of Consultation, reference 1.31) and provided an overview and Consultation Information Sheet for distribution to licence holders in four State fisheries relevant to the Operational Area of the proposed activity.
- On 21 September 2023, WAFIC responded thanking Woodside for its email (SI Report, reference 13.1) and:
 - (1) Advised it would send out the consultation material under its agreement with Woodside.
 - (2) Asked Woodside to confirm the relevance of the Marine Aquarium Fish Managed Fishery, on the basis that the hand collection and diving methods used in this fishery were not applicable at the water depths of the proposed activity.
- (2) On 21 September 2023, Woodside responded thanking WAFIC for its email and confirmed that on the basis of the activity water depths, it would remove Marine Aquarium Fish Managed Fishery from relevant fisheries for this activity (SI Report, reference 13.2).
- (1) On 21 September 2023, Woodside emailed WAFIC with an amendment to the information intended for distribution to the relevant fisheries, including an additional line regarding notification of activities (SI Report, reference 13.3).
- (1) On 21 September 2023, WAFIC emailed Woodside confirming it had sent the amended version of the consultation information to licence holders in the three fisheries relevant to the Operational Area for this EP: Mackerel Managed Fishery (Area 2), Pilbara Line Fishery and West Coast Deep Sea Crustacean Managed Fishery (SI Report, reference 13.4).
- On 18 October 2023, Woodside sent a reminder email to WAFIC following up on the proposed activity (Record of Consultation, reference 2.4). Woodside noted that it understood WAFIC may not consider it necessary to send a reminder email to individual licence holders but provided a link to the Consultation Information Sheet on Woodside's website for WAFIC's information and for distribution to licence holders at WAFIC's discretion.
- On 19 October 2023, WAFIC thanked Woodside for its email (SI Report, reference 13.5) and confirmed that:
 - (3) As per WAFIC's protocol to avoid consultation fatigue, it did not consider it necessary to issue a consultation reminder to commercial licence holders.
 - (4) WAFIC would take time to review the consultation material ahead of the closure of the consultation period.
- (3, 4) On 31 October 2023, Woodside sent an email thanking WAFIC for its response regarding reminders and for reviewing the consultation material (SI Report, reference 13.6).
- On 31 October 2023, WAFIC emailed Woodside to confirm it had not received any feedback or concerns from licence holders regarding this EP (SI Report, reference 13.7). WAFIC also:
 - (1) Confirmed it had not received any feedback or concerns from licence holders regarding this EP.
 - (5) Confirmed that given the activity in this EP was standard business for Woodside, it had no further comment at this stage.
 - (6) Confirmed and agreed that Woodside would send all notifications regarding activities to WAFIC.
 - (7) Requested to be consulted on any future development activities considered for the Ngujima-Yin facility that was subject to a separate EP.
- On 1 November 2023, Woodside responded thanking WAFIC for its email (SI Report, reference 13.8) and:
 - (1, 5) Noted there was no feedback or concerns from licence holders and no further comment from WAFIC.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (6) Noted that as the EP included ongoing operations no activity notifications were expected, but confirmed it would provide WAFIC with start and end activity notifications for the associated drilling, construction and installation activities which would be subject to a separate EP.
- (7) Confirmed it would consult WAFIC on these future EPs related to the Ngujima-Yin FPSO Facility.
- On 6 November 2023, WAFIC responded thanking Woodside for its confirmation email regarding this EP (SI Report, reference 13.9).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) WAFIC advised it would send consultation material to relevant stakeholders.</p>	<p>(1) Woodside assessment: Woodside notes relevant licence holders received the consultation information via WAFIC and accepts there was no feedback or concerns raised. Woodside response: Woodside thanked WAFIC for distributing the consultation information to relevant licence holders and for confirming no feedback or concerns were raised by the licence holders.</p>	<p>(1) Not required.</p>
<p>(2) Asked Woodside to clarify the relevance to the Operational Area of two fisheries based on the collection and diving methods.</p>	<p>(2) Woodside assessment: Woodside has considered WAFIC's feedback regarding the relevancy of two fisheries and determined that, based on WAFIC's expertise on water depths and the methods of hand collection and diving, Woodside will not consider the Marine Aquarium and Specimen Shell fisheries relevant to the Operational Area for this EP. Woodside response: Woodside confirmed that it would not consider the Marine Aquarium and Specimen Shell fisheries relevant to the Operational Area for this EP, based on WAFIC's advice.</p>	<p>(2) Woodside has assessed the potential for interaction with State managed commercial fisheries in Section 4.10.1 of this EP. Woodside has updated its assessment of relevancy for consultation purposes (see Record of Consultation, Table 1) to reflect WAFIC's advice and consultation guidelines.</p>
<p>(3) Advised it did not consider it necessary to send reminder emails to licence holders for this activity.</p>	<p>(3)</p>	<p>(3) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside assessment: Woodside accepts WAFIC's advice that reminder emails are not necessary for individual licence holders.</p> <p>Woodside response: Woodside acknowledged WAFIC's advice that it was not necessary to send reminder emails to individual licence holders.</p>	
<p>(4) Confirmed it would take time to review the consultation material before the end of the consultation period.</p>	<p>(4) Woodside assessment: Woodside noted WAFIC would review the consultation information. Woodside response: Woodside thanked WAFIC for reviewing the consultation information.</p>	<p>(4) Not required.</p>
<p>(5) Noted it had no further comment on the EP at this stage.</p>	<p>(5) Woodside assessment: Woodside accepts that WAFIC has no comment on the EP at this time. Woodside response: Woodside noted WAFIC had reviewed the consultation material and did not have further comment on the EP at this stage.</p>	<p>(5) Not required.</p>
<p>(6) Confirmed Woodside should send all notifications regarding activities to WAFIC.</p>	<p>(6) Woodside assessment: As this EP involves ongoing operations, no activity notifications are expected. Woodside response: Woodside confirmed that while there were not expected to be activity notifications for the ongoing operations involved with this EP, it would provide WAFIC with start and end activity notifications for the associated drilling, construction and installation activities which would be subject to a separate EP.</p>	<p>(6) Woodside engages in ongoing consultation and will provide notifications of significant change, as appropriate, to WAFIC as referenced in Section 7.10 of the EP.</p>
<p>(7) Requested to be consulted on future EPs regarding the Ngujima-Yin FPSO Facility.</p>	<p>(7) Woodside assessment: Woodside will consult WAFIC on future EPs related to the Ngujima-Yin FPSO Facility.</p>	<p>(7) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside confirmed it would consult WAFIC on future EPs related to the Ngujima-Yin FPSO Facility.	
While feedback has been received, there were no objections or claims.	Woodside has consulted DPIRD, WAFIC and individual licence holders (via WAFIC). Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
Outcomes of Consultation		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Western Australian Fishing Industry Council (WAFIC) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to WAFIC on 20 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up email seeking feedback on the proposed activities. • Woodside has addressed and responded to WAFIC over a 15-month period.

Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

Outcomes of Consultation

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Gascoyne Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Gascoyne Recreational Marine Users on 22 September 2023 based on their functions, interests or activities.
- Woodside has referred Gascoyne Recreational Marine Users to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up letter seeking feedback on the proposed activities.
- Woodside has provided Gascoyne Recreational Marine Users with the opportunity to provide feedback over a 14-month period.

Pilbara/Kimberley Recreational Marine Users

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside sent a letter to Pilbara/Kimberley Recreational Marine Users advising of the proposed activity (Record of Consultation, reference 1.41) and provided a Consultation Information Sheet and referred to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder letter to Pilbara/Kimberley Recreational Marine Users following up on the proposed activity (Record of Consultation, reference 2.6) and included a QR code link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted Recfishwest, Marine Tourism WA, WA Game Fishing Association and individual recreational marine users.	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Pilbara/Kimberley Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to Pilbara/Kimberley Recreational Marine Users on 22 September 2023 based on their functions, interests or activities. • Woodside has referred Pilbara/Kimberley Recreational Marine Users to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up letter seeking feedback on the proposed activities. • Woodside has provided Pilbara/Kimberley Recreational Marine Users with the opportunity to provide feedback over a 14-month period. 		

Lombadina Aboriginal Corporation (LAC)

LAC have been identified as a relevant person through their functions, activities or interests as a Pilbara/Kimberley Recreational Marine User, as identified in Table 1. LAC is not a Prescribed Body Corporate under the Native Title Act 1993 and associated regulations.

Historical engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 25 July 2023, Woodside emailed LAC NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information (SI Report, reference 14.1). This email also reiterated Woodside’s request that LAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult. No response was received to this email.

Summary of information provided and record of consultation for this EP:

- On 6 October 2023, Woodside emailed LAC advising of the proposed activity (Record of Consultation, reference 1.98) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that lac and its members may have within the EMBA, information on how LAC would like to engage, and requested that LAC provide information to other individuals as required.
- On 10 October 2023, Woodside met with LAC in person for a consultation meeting on this activity (SI Report, reference 14.2). Woodside explained the activity, noting that it is a 5-year submission review and had been operating since 2008 and was located near Exmouth. Woodside described the EMBA and how the EMBA is created. Woodside talked through the NOPSEMA guidelines.
 - (1) LAC asked a question about how Woodside drilled into the ocean floor. Woodside said they would provide an animation drilling video that demonstrated the process.
 - Woodside asked LAC if there were any cultural values that they would like Woodside to know about noting that there is the option to require information to be kept confidential. Woodside asked whether LAC had any further questions or concerns in relation to this EP. LAC responded no to both queries.
 - Woodside said it was able to fund future meetings.
- (1) On 17 October 2023, Woodside emailed LAC thanking them for the 10 October 2023 meeting and reaffirmed that feedback on EPs can be provided over the life of the EP and does not need to occur before the activity commences. Woodside also provided a drilling video as requested by LAC at the meeting (SI Report, reference 14.3). No response has been received.
- Woodside continues to pursue an ongoing two-way relationship with LAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) During face-to-face engagement related to this activity and others, LAC requested further information on a topic related to the proposed activity which was responded to during the meeting:</p> <ul style="list-style-type: none"> How Woodside drills into the ocean floor. 	<p>(1) Woodside assessment: Woodside acknowledged LAC’s request for more information about drilling. Woodside response: Woodside responded to LAC’s requests for information by explaining the process and providing a video. No further information was requested on this topic.</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>While feedback has been received, there were no objections or claims.</p>	<p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with LAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to LAC will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with LAC as part of ongoing engagement (Section 7.10 of the EP).</p>
--	--	---

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with LAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside Sought direction on LAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to LAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals.
- Woodside has provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan”.
- Advised that LAC’s can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with LAC in October 2023. Woodside has addressed and responded to LAC over 14-months, demonstrating a “reasonable” period of consultation.
- Woodside asked LAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on LAC’S functions, interests or activities.

Karratha Recreational Marine Users

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Karratha Recreational Marine Users advising of the proposed activity (Record of Consultation, reference 1.6) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Karratha Recreational Marine Users following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside’s website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted Recfishwest, Marine Tourism WA, WA Game Fishing Association and individual recreational marine users. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Karratha Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. --	--	---

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with West Coast Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to West Coast Recreational Marine Users on 22 September 2023 based on their functions, interests or activities.
- Woodside has referred West Coast Recreational Marine Users to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up letter seeking feedback on the proposed activities.
- Woodside has provided West Coast Recreational Marine Users with the opportunity to provide feedback over a 14-month period.

South Coast Recreational Marine Users

Summary of information provided and record of consultation:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 22 September 2023, Woodside sent a letter to South Coast Recreational Marine Users advising of the proposed activity (Record of Consultation, reference 1.41) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder letter to South Coast Recreational Marine Users advising of the proposed activity (Record of Consultation, reference 2.6).
- On 4 October 2023, a fishing charter operator consulted as part of the South Coast Recreational Marine Users emailed Woodside and commented they were vehemently against the proposal of FPSOs in the Carnarvon Basin due to the risks to marine and shore environments which, in their opinion, outweighed the projects (SI Report, reference 15.1). Their concerns regarded:
 - (1) The drilling of two new wells and the impact on the World Heritage-listed reef and coast.
 - (2) Seismic blasting carried out to search for the new wells and the impact on the natural environment including fauna.
 - (3) The potential of a crude oil spill and/or the release of hydrocarbons and the effect on marine life, Ningaloo Reef, and coastline.
 - (4) The impact on shoreline bird life and marine mammals such as whales.
- On 12 October 2023, Woodside emailed the fishing charter operator thanking them for their email, and to confirm they were referencing activities relating to this EP, and which stakeholder group they were part of (SI Report, reference 15.2).
- On 12 October 2023, the fishing charter operator responded to Woodside confirming their comments were in relation to this EP and that they were part of the coastal tourism stakeholder group (SI Report, reference 15.3).
- On 27 November 2023, Woodside responded thanking the fishing charter operator for their feedback (SI Report, reference 15.4) and advised:
 - (1) The five-year revision of the Ngujima-Yin FPSO Facility Operations EP included production from a proposed additional two wells via subsea tieback to existing infrastructure. There were no planned impacts on the nearby World Heritage area or coastline as a result of the proposed additional wells or ongoing activities proposed under the Ngujima-Yin FPSO Facility Operations EP. The proposed activity to drill the two wells would be subject to a separate and future EP, for which Woodside would undertake consultation.
 - (2) There were no seismic activities associated with the five-year revision of the Ngujima-Yin FPSO Facility Operations EP.
 - (3) In accordance with Woodside’s risk assessment for this EP, a worst-case loss of well containment had been defined as a ‘highly unlikely’ event. In the highly unlikely event of a hydrocarbon release, Woodside had a well-developed oil response management framework, including specific responses for sensitive areas such as Ningaloo Marine Park, and an Oil Pollution First Strike Plan which would guide the immediate response.
 - (4) The potential impacts on bird life and marine animals depended on the timing, duration and extent of a spill in the highly unlikely event this occurred. Response options to mitigate environmental impacts included tracking the spill, the use of protective barriers, shoreline clean-up techniques, prevention of the spill contacting wildlife where feasible and rehabilitation of wildlife where contact occurred, and long-term monitoring of sensitive species and sites after a spill event.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan

	barriers, shoreline clean-up techniques, prevention of contact with wildlife and rehabilitation of wildlife where contact occurs, and long-term monitoring of species and sites after a spill.	
Woodside has addressed objections and claims as noted above.	<p>Woodside has consulted Recfishwest, Marine Tourism WA, WA Game Fishing Association and relevant individual recreational marine users.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>Woodside has consulted South Coast Recreational Marine Users in the course of preparing this EP. Woodside has assessed the claims or objections raised by a South Coast Recreational Marine User. No additional measures or controls have been put in place.</p> <p>Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP.</p> <p>Woodside considers the measures and controls described within this EP address the potential impact from the proposed activities on the South Coast Recreational Marine Users' functions, interests or activities.</p> <p>No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with South Coast Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to South Coast Recreational Marine Users on 22 September 2023 based on their functions, interests or activities.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has referred South Coast Recreational Marine Users to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up letter seeking feedback on the proposed activities.
- Woodside has provided South Coast Recreational Marine Users with the opportunity to provide feedback over a 14-month period.

Christmas Island Recreational Marine Users

Summary of information provided and record of consultation:

- On 14 September 2023 and 03 October 2023, Woodside emailed/sent a letter to Christmas Island Recreational Marine Users advising of the proposed activity (Record of Consultation, reference 1.6 and 1.53) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023 and 24 October 2023, Woodside sent a reminder email or letter to Christmas Island Recreational Marine Users following up on the proposed activities (Record of Consultation, reference 2.1 and 2.9) and included a link/QR code to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted Recfishwest, Marine Tourism WA, WA Game Fishing Association and relevant individual recreational marine users. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Christmas Island Recreational Marine Users for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Christmas Island Recreational Marine Users on 14 September/03 October 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email/letter seeking feedback on the proposed activities.
- Woodside has provided the Christmas Island Recreational Marine Users with the opportunity to provide feedback over a 14-month period.

Recfishwest

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Recfishwest advising of the proposed activity (Record of Consultation, reference 1.6) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Recfishwest following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 25 October 2023, Recfishwest responded thanking Woodside for its email (SI Report, reference 16.1) and confirmed:
 - (1) It had no objection to the proposed activities.
 - (2) It requested to be kept informed as activities progressed, given that the areas surrounding the operations were accessed by recreational fishers.
 - (3) It noted the EP would include production from an additional two wells and the operation of a new fuel gasline, with associated drilling, construction and installation activities to be subject to a separate EP.
- On 1 November 2023, Woodside responded thanking Recfishwest for its feedback (SI Report, reference 16.2). Woodside:
 - (1) Noted Recfishwest had no objections.
 - (2) Confirmed it would continue to inform Recfishwest on the activities' progression.
 - (3) Confirmed it would consult Recfishwest on future EPs related to the Ngujima-Yin FPSO facility.

Titleholders and Operators

Chevron Australia/ Osaka Gas Gorgon/ Tokyo Gas Gorgon/ JERA Gorgon

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed Chevron Australia advising of the proposed activity (Record of Consultation, reference 1.12) and provided a Consultation Information Sheet, GIS shape files and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*. Woodside asked that the consultation information be forwarded to Chevron's Joint Venture participants Osaka Gas Gorgon, Tokyo Gas Gorgon and Jera Gorgon for feedback.
- On 16 October 2023, Woodside sent a reminder email to Chevron Australia following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 31 October 2024, Woodside emailed Chevron Australia advising that in addition to consultation regarding this EP in September/October 2023, Woodside was providing further clarity to adjacent titleholders on the Operational Area for the EP (SI Report, reference 83.1). Woodside attached a map of adjacent titleholders. Woodside noted that:
 - The PAP for the EP included IMMR activities and the Operational Area extended a radius of 1500m around from the FPSO and subsea infrastructure, therefore vessel surface activity may temporarily occur within titles adjacent to Woodside titles due to the proximity of infrastructure to the title boundary. All activities on the seabed would be undertaken within Woodside-operated titles.
 - To reduce impact on adjacent titleholders, Woodside was proposing to include relevant titleholders in activity notifications related to IMMR activities and was seeking feedback on any other control measures Chevron Australia may have related to vessel movements on the periphery of its titles.
- On 18 November 2024, after no response was received, Woodside proactively sent a follow-up email to Chevron (SI Report, reference 83.2). Woodside asked Chevron to advise Woodside if Chevron did wish to receive activity notifications, or if it had any other feedback or requirements related to vessel movements on the periphery of its title. Woodside confirmed it would notify AHO where vessels would be in the Operational Area for more than three weeks at a time. No response was received from Chevron.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Chevron Australia for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Chevron Australia on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Chevron Australia with the opportunity to provide feedback over a 15-month period.

Western Gas

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed Western Gas advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Western Gas following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Finder Energy No 16 for the purpose of 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Finder Energy on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has addressed and responded to Finder Energy No 16 over a 15-month period.

Jadestone

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Jadestone advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Jadestone following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Jadestone for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Jadestone on 14 September 2023 based on their functions, interests or activities.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided the Jadestone with the opportunity to provide feedback over a 15-month period.

KUFPEC

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed KUFPEC advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to KUFPEC following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with KUFPEC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Consultation Information provided to KUFPEC on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided KUFPEC with the opportunity to provide feedback over a 15-month period.

Santos NA Energy Holdings / Santos Ltd / Santos WA Northwest / Santos Offshore / Santos WA Southwest / Santos (BOL) / Santos WA PVG

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Santos advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- **(1)** On 20 September 2023, Santos responded thanking Woodside for its email and advising it had no comments or objections to the proposed activities (SI Report, reference 21.1).
- **(1)** On 22 September 2023, Woodside responded thanking Santos for its email and noted it had no comments or objections (SI Report, reference 21.2).
- On 31 October 2024, Woodside emailed Santos advising that in addition to consultation regarding this EP in September/October 2023, Woodside was providing further clarity on the Operational Area for the EP (SI Report, reference 21.3). Woodside attached a map of adjacent titleholders. Woodside noted that:
 - The PAP for the EP included IMMR activities and the Operational Area extended a radius of 1500m around from the FPSO and subsea infrastructure, therefore vessel surface activity may temporarily occur within titles adjacent to Woodside titles due to the proximity of infrastructure to the title boundary. All activities on the seabed would be undertaken within Woodside-operated titles.
 - To reduce impact on adjacent titleholders, Woodside was proposing to include relevant titleholders in activity notifications related to IMMR activities and was seeking feedback on any other control measures Santos may have related to vessel movements for on the periphery of its titles.
- **(1)** On 6 November 2024, Santos responded and confirmed it had no objections to or comments regarding the activity.
- On 11 November 2024, Woodside thanked Santos for its response (SI Report, reference 21.4). Woodside:
 - **(1)** Noted Santos had no comments or objections to the activity and confirmed Woodside would provide activity notifications to Santos in relation to IMMR activities where vessels would be the Operational Area for more than three weeks.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plans
---	--	--------------------------------

<p>(1) Santos advised it had no comments or objections regarding the proposed activities, including in relation to temporary vessel movements over its titles.</p>	<p>(1) Woodside assessment: Woodside accepts that Santos has no comments or objections. Woodside response: Woodside thanked Santos and noted Santos had no comments or objections. Woodside confirmed it would provide Santos with Start of Activity notifications regarding relevant IMMR activities.</p>	<p>(1) Woodside will notify Santos of IMMR activities where vessels will be in the Operational Area for more than three weeks, as referenced as PS 1.3 in the EP.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Santos for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Santos on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to Santos over a 15-month period.

Coastal Oil and Gas

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 14 September 2023, Woodside emailed Coastal Oil and Gas advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to Coastal Oil and Gas following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

INPEX Alpha

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed INPEX Alpha advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to INPEX Alpha following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 31 October 2024, Woodside emailed INPEX Alpha advising that in addition to consultation regarding this EP in September/October 2023, Woodside was providing further clarity on the Operational Area for the EP (SI Report, reference 82.1). Woodside attached a map of adjacent titleholders. Woodside noted that:
 - The PAP for the EP included IMMR activities and the Operational Area extended a radius of 1500m around from the FPSO and subsea infrastructure, therefore vessel surface activity may temporarily occur within titles adjacent to Woodside titles due to the proximity of infrastructure to the title boundary. All activities on the seabed would be undertaken within Woodside-operated titles.
 - To reduce impact on adjacent titleholders, Woodside was proposing to include relevant titleholders in activity notifications related to IMMR activities and was seeking feedback on any other control measures INPEX Alpha may have related to vessel movements on the periphery of its titles.
- On 18 November 2024, after no response was received, Woodside proactively sent a follow-up email to INPEX (SI Report, reference 82.2). Woodside asked INPEX to advise Woodside if INPEX did wish to receive activity notifications, or if it had any other feedback or requirements related to vessel movements on the periphery of its title. Woodside confirmed it would notify AHO where vessels would be in the Operational Area for more than three weeks at a time. No response was received from INPEX.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with INPEX Alpha for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to INPEX Alpha on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided INPEX Alpha with the opportunity to provide feedback over a 15-month period.

JX Nippon O&G Exploration (Australia)

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed JX Nippon O&G Exploration (Australia) advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to JX Nippon O&G Exploration (Australia) following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of Consultation		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with JX Nippon O&G Exploration (Australia) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to JX Nippon O&G Exploration (Australia) on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided JX Nippon O&G Exploration (Australia) with the opportunity to provide feedback over a 15-month period.

AGI Tubridgi Pty Ltd

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed AGI Tubridgi Pty Ltd advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to AGI Tubridgi Pty Ltd following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with AGI Tubridgi Pty Ltd for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to AGI Tubridgi Pty Ltd on 14 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided AGI Tubridgi Pty Ltd with the opportunity to provide feedback over a 15-month period.

Allasso Energy Pty Ltd

Summary of information provided and record of consultation:

- On 26 September 2023, Woodside sent a letter to Allasso Energy Pty Ltd advising of the proposed activity (Record of Consultation, reference 1.46) and provided a Consultation Information Sheet and referred to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder letter to Allasso Energy Pty Ltd following up on the proposed activity (Record of Consultation, reference 2.7 and included a QR code link to the Consultation Information Sheet on Woodside's website).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate,	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	
Outcomes of Consultation

Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to Pilot Energy Ltd on 14 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has sent a follow up email seeking feedback on the proposed activities. • Woodside has provided Pilot Energy Ptd Ltd with the opportunity to provide feedback over a 15-month period. 		

Skye Napoleon / Skye Petroleum / Skye Resources

Summary of information provided and record of consultation:

- On 27 September 2023, Woodside emailed Skye Napoleon; Petroleum; Resources advising of the proposed activity (Record of Consultation, reference 1.47) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 16 October 2023, Woodside sent a reminder email to Skye Napoleon; Petroleum; Resources following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Skye Napoleon; Petroleum; Resources for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Skye Napoleon; Petroleum; Resources on 27 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Skye Napoleon; Petroleum; Resources with the opportunity to provide feedback over a 15-month period.

Triangle Energy

- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided AEP with the opportunity to provide feedback over a 15-month period.

Traditional Custodians and nominated representative corporations

Murujuga Aboriginal Corporation (MAC)

MAC is established under the Burrup and Maitland Industrial Estates Agreement and is the representative body for the Traditional Custodians for Murujuga being the Ngarluma, the Mardudhunera, the Yaburara, the Yindjibarndi and the Wong-Goo-Tt-Oo peoples (collectively Ngarda-Ngarli). MAC is the cultural authority for Murujuga and is responsible for the management and protection of its cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed MAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that MAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 22.1).
- On 26 July 2023, Woodside emailed MAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 22.2).
- **(1)** On 1 September 2023, MAC emailed a letter to Woodside noting the following in response to Woodside's query regarding consultation on another activity unrelated to this EP (SI Report, reference 22.3):
 - MAC consulted with women appointed to their Circle of Elders regarding the query.
 - MAC is comfortable that the women in the Circle of Elders are the right people to be consulted about these matters.
 - MAC notes that it would be extremely unusual for knowledge to be held by an individual without surrounding groups knowing about it.
 - The Circle of Elders themselves represent the Ngarda-Ngarli; the collective term for the Traditional Custodians who look after Murujuga Country.

Summary of information provided and record of consultation for this EP:

- On 17 November 2023, Woodside emailed MAC advising of the proposed activity (Record of Consultation, reference 1.63) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that MAC and its members may have within the EMBA, information on how MAC would like to engage, and requested that MAC provide information to other individuals as required.
- On 17 November 2023, MAC emailed Woodside confirming receipt of materials and informed that they would send off for review (SI Report, reference 22.4).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 14 December 2023, Woodside met with MAC and its Circle of Elders to discuss accepted EPs as well as upcoming EPs being submitted in 2024 (SI Report, reference 22.5). At the meeting:
 - (1) Woodside acknowledged MAC as the cultural authority over Murujuga.
 - MAC reconfirmed the specific authority of its senior law men and women.
- On 5 January 2024, Woodside emailed MAC a table displaying the status of Woodside's outstanding EP consultations with MAC. Woodside offered to set up a consultation meeting to work through this table with MAC (SI Report, reference 22.6). No response has been received.

Ongoing Engagement:

- On 23 April 2024, MAC emailed Woodside about another activity (SI Report, reference 22.7) and raised the following:
 - (2) The lack of broader-scale bathymetric information on the submerged landscape and the potential for impact on jinna (songlines).
 - (3) That EPs capture a process for engaging with MAC to protect cultural, heritage and Outstanding Universal Values in the event of an incident.
- On 8 May 2024, Woodside emailed MAC regarding another activity and provided further information in response to MAC's queries (SI Report, reference 22.8) including:
 - (2) Woodside's continued support to work with MAC to undertake mapping of areas significant to MAC.
 - (2) Woodside's continued support to undertake further ethnographic surveys focused on jinna at MAC's convenience.
 - (2) That Woodside welcomed MAC's advice on identifying cultural features and values in the absence of information from further surveys and mapping.
 - (3) How Woodside uses modelling to develop response plans in the unlikely event of an incident, including notification requirements to Traditional Custodians.
- On 2 August 2024, MAC emailed Woodside in response to another activity and attached a letter (SI Report, reference 22.9), that broadly noted:
 - (4) Any development could potentially affect the natural movement, migration and/or other behaviour of marine species, and may have an impact on the cultural interpretation of the seasonal landscape, seascape and associated cultural behaviours.
 - (4) The nature and threshold of protecting environmental and cultural values, must be assessed separately – and that the standard of protection, while meeting acceptable scientific or environmental standards, may still have consequences for Aboriginal people.
 - (5) Requested Woodside contact MAC for comment and review, in the event of an environmental incident affecting Murujuga.
 - That MAC will be consulted regarding Woodside activities located close to Murujuga.
- (5) On 2 August 2024, Woodside emailed MAC stating that in the unlikely case of an environmental incident, Woodside would communicate with MAC (SI Report, reference 22.10).
- On 9 September 2024, Woodside invited MAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 22.11).

- (4) On 17 September 2024, Woodside emailed MAC following up on MAC’s correspondence from 2 August 2024. Woodside noted that consideration of the potential cultural impacts on marine species, including impacts and associated controls for marine mammal migration paths and behaviour have been assessed collaboratively with the environmental impacts and controls (SI Report, reference 22.12).
- On 25 September 2024, Traditional Owner members from MAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 22.13).
- On 3 October 2024, Woodside invited MAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 22.14).
- On 23 October 2024, Traditional Owner members from MAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 22.15).

Ongoing relationship:

- Woodside continues to pursue an ongoing two-way relationship with MAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) On 1 September 2023, MAC confirmed that they were the appropriate body corporate and cultural authority over Murujuga.</p>	<p>(1) Woodside assessment: Woodside accepts and respects MAC’s position as the appropriate body corporate and cultural authority over Murujuga. Woodside response: Woodside will engage with MAC in future EPs.</p>	<p>(1) Not required.</p>
<p>(2) On 23 April 2024, MAC raised that there was a lack of broader-scale bathymetric information for the trunkline area and the impact on jinna (songlines).</p>	<p>(2) Woodside assessment: Woodside acknowledges MAC’s position that there is a lack of bathymetric information. Woodside notes that the EP is for continued operation of existing infrastructure. The EP includes the Unexpected Finds Procedure (Section 7.6) which addresses the risk of discovery of potential underwater cultural material.</p>	<p>(2) Cultural features and heritage values including jinna (songlines) are identified and assessed in Sections 4.9 and 6.10 of the EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside has previously proposed to MAC that MAC work to determine a scope of works to determine further bathymetric information on the area. This proposal is under consideration by MAC and Woodside remains supportive of undertaking this work. Woodside also remains supportive of conducting further ethnographic surveys with MAC, following the initial phase of works in 2020 which focused on jinna and their connection from Murujuga to inland areas.</p>	
<p>(3) On 23 April 2024, MAC advocated for a process for engagement to protect cultural heritage and Outstanding Universal values in the event of an incident.</p>	<p>(3) Woodside assessment: Woodside accepts MAC's advice on the need for engagement in the event of an incident. Woodside response: Consultation with relevant Traditional Custodian representatives, including MAC, in the event of an incident is already anticipated under our oil spill response plan.</p>	<p>(3) Woodside has addressed oil spill preparedness and response strategy in Appendix H.</p>
<p>(4) On 1 September 2024 MAC stated that any development could potentially affect the natural movement, migration and/or other behaviour of marine species, and may have an impact on the cultural interpretation of the seasonal landscape, seascape and associated cultural behaviours. The nature and threshold of protecting environmental and cultural values, must be assessed separately – and that the standard of protection, while meeting acceptable scientific or environmental standards, may still have consequences for Aboriginal people..</p>	<p>(4) Woodside assessment: Woodside notes flora/fauna concerns are appropriately controlled for by environmental controls in Sections 6.7 and 6.8 of the EP. Woodside response: Woodside has advised MAC it would inform it in the unlikely case of an environmental incident and the consideration of the potential cultural impacts have been assessed collaboratively with the environmental impacts and controls outlined in Section 4 and Section 6.10.</p>	<p>(4) Woodside notes flora/fauna concerns are appropriately controlled for by environmental controls in Sections 6.7 and 6.8 of the EP. Woodside notes cultural heritage impacts in relation to environmental controls are considered in Section 6.10 of the EP.</p>
<p>(5) MAC has requested Woodside contact it in the event of environmental incident that may affect Murujuga.</p>	<p>(5) Woodside assessment: Woodside's acknowledges MAC's request and notes an environmental incident is unlikely.</p>	<p>(5) Woodside's commitment to inform MAC in the unlikely case of an environmental incident is included in Appendix H.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside has advised MAC it would inform it in the unlikely case of an environmental incident.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Based on the engagement to date, no additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with MAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on MAC’s preferred method of consultation.
- Provided Consultation Information Sheets and Consultation Summary Sheets developed by Indigenous staff to MAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what was being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals.
- Woodside has provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that MAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside commenced consultation with MAC in November 2023. Woodside has addressed and responded to MAC over 12-months, demonstrating a “reasonable period” of consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside asked MAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on MAC's functions, interests or activities.

Nganhurra Thanardi Garrbu Aboriginal Corporation (NTGAC)

NTGAC is established under the Native Title Act 1993 by the Baiyungu people to represent the Baiyungu people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 19 July 2023, Woodside emailed NTGAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information (SI Report, reference 23.1). This email also reiterated Woodside's request that NTGAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult.
- On 26 July 2023, Woodside emailed NTGAC/YMAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 23.2).

Summary of information provided and record of consultation for this EP:

- On 23 October 2023, Woodside emailed NTGAC (via YMAC) advising of the proposed activity (Record of Consultation, reference 1.64) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website). The email requested information on the interests that NTGAC and its members may have within the EMBA, information on how NTGAC would like to engage, and requested that NTGAC provide information to other individuals as required.
- On 13 November 2023, Woodside emailed NTGAC (via YMAC) noting that the previous email had included the Consultation Information Sheet, not the Summary Information Sheet (SI Report, reference 23.3). Woodside attached a copy of the Summary Information Sheet.
- (1) On 14 December 2023, Woodside emailed YMAC attaching the Program of Ongoing Consultation and advised that Woodside wanted to progress negotiations on consultation frameworks with groups represented by YMAC (including NTGAC) (SI Report, reference 23.4). Woodside proposed the protocol would include (among other things):
 - The procedures Woodside will follow when a submission requires consultation.
 - Initial and ongoing consultation in relation to activities.
 - Agreement as to how Woodside will provide NTGAC with the information NTGAC requires to make free, prior and informed decisions about Woodside's EPs.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Agreement as to how NTGAC will provide feedback and how that can best be represented in EPs.
- An agreed schedule of rates for NTGAC’s participation in consultation.
- How the outputs of the consultations will be managed.
- On 21 December 2023, Woodside emailed NTGAC a schedule of upcoming EP activities(SI Report, reference 23.5).

Ongoing engagement:

- (1) On 28 February 2024, Woodside emailed NTGAC/YMAC with a letter (SI Report, reference 23.6) setting out the draft terms of an agreement between NTGAC and Woodside, the agreement (among other things) included the following topics:
 - Sufficient Information
 - Reasonable Period.
 - Provision of Information
 - Objection or claims
 - Publications
 - Cost and termination.
- On 29 February 2024, NTGAC/YMAC emailed Woodside acknowledging receipt of the information (SI Report, reference 23.7).
- On 27 June 2024, Woodside emailed NTGAC via YMAC seeking an update on its review of the draft consultation agreement sent in February 2024 (SI Report, reference 23.8).
- (1) On 28 June 2024, NTGAC via YMAC emailed Woodside (SI Report, reference 23.9) to advise:
 - NTGAC was keen to progress the Consultation Agreement and would revise the draft provided by Woodside.
 - A meeting date for the Board was being sought at which the Agreement and upcoming EPs could be discussed.
 - A cost estimate was provided.
- Between 30 July 2024 and 20 August 2024 Woodside and NTGAC via YMAC exchanged emails relating to setting a meeting date and a cost estimate for meeting (SI Report, references 23.10 – 23.14).
- On 6 September 2024, Woodside phoned NTGAC to discuss engagement and meeting (SI Report, reference 23.15).
- On 9 September 2024, Woodside invited NTGAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 23.16).
- Between 10 September 2024 and 11 September 2024, Woodside exchanged emails with NTGAC via YMAC regarding the meeting scheduled for 12 September 2024 (SI Report, references 23.17 – 23.22).
- On 3 October 2024, Woodside invited NTGAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 23.23).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 2 November 2024, Woodside hosted a stall at the Dampier community Markets. The stall enabled the community to provide input on EPs. Members of NTGAC participated in discussions about Woodside's activities during the event (Record of Consultation, reference 3.3.12).

Ongoing relationship:

- Woodside continues to pursue an ongoing two-way relationship with NTGAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) NTGAC via YMAC to develop first draft of a Consultation Framework Agreement.</p>	<p>(1) Woodside assessment: Woodside is supportive of a sustainable consultation framework and has a commitment to ongoing consultation with Traditional Custodians for the life of an EP. Woodside response: Separate from consultation for this activity under regulation 25 of the Environment Regulations, Woodside has sent a draft agreement to NTGAC via YMAC in February 2024. This would be used to frame ongoing consultation to occur as part of Woodside's commitment to consultation post regulation 25 of the Environment Regulations. The draft agreement is under review by NTGAC/YMAC.</p>	<p>(1) Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on EPs (Appendix G). This includes continued engagement regarding NTGAC and Woodside's proposed draft Framework Agreement and potential opportunities for alignment with NTGAC's Strategic Plan. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, as identified in Section 7.10 of this EP, Woodside will continue to consult following acceptance of the EP, as required by the implementation strategy as set out in regulation 35(7) of the Environment Regulations.</p>
<p>No feedback, objections or claims have been received for this activity since consultation commenced in October 2023, despite follow up.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NTGAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside sought direction on NTGAC's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheet and Summary Information Sheets developed by Indigenous staff to NTGAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Woodside has provided NOPSEMA's brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan".
- Advised that NTGAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with NTGAC in October 2023. Woodside has addressed and responded to NTGAC over 13 months, demonstrating a "reasonable" period of consultation.

Woodside asked NTGAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NTGAC's functions, interests or activities.

Buurabalayji Thalanyji Aboriginal Corporation (BTAC)

BTAC is established under the Native Title Act 1993 by the Thalanyji people to represent the Thalanyji people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Historical Engagement:

- On 20 February 2023, BTAC emailed Woodside (SI Report reference 24.1) a letter in relation to another project but relevant to all Woodside activities, including the footprint of this activity. BTAC stated that the Thalanyji people:
 - (1) Had interests extending out to islands off the Pilbara coast such as the Montebello Islands, Barrow Island and the Mackerel Islands.
 - (2) Had an enduring deep connection to Sea Country north of Onslow but needed support to articulate this in a format suitable for consultation.
 - (3) Required support from Woodside to obtain technical advice about risks to Sea Country.
 - (4) Requested Woodside support BTAC's ranger program to carry out response planning and management activities.
 - (5) Required a consultation or engagement framework with Woodside that included resourcing for BTAC's participation in consultation and management planning processes.
- (5) On 19 June 2023, BTAC emailed Woodside on another activity and discussed draft consultation framework principles and consultation rates. (SI Report reference 24.2)
- (5) On 10 July 2023, Woodside emailed BTAC acknowledging that Woodside commits to a program of ongoing consultation and will be governed by a framework agreement. (SI Report reference 24.3)
- (5) On 26 July 2023, Woodside emailed BTAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians. (SI Report reference 24.4)
- On 28 July 2023, Woodside and BTAC met virtually. The outcomes of this meeting were captured in an email (SI Report, reference 24.5). Matters included:
 - (5) Woodside's agreement to prepare a draft framework agreement for consideration.
 - (5) Funding for future engagement.
 - (2) Cultural values mapping of offshore areas and capacity building.
- On 31 July 2023, Woodside emailed three letters to BTAC, two of which related to other Woodside activities (SI Report reference 24.6). The third letter outlined support for an ethnographic assessment to:
 - (2) identify Sea Country values generally sufficient to inform all Woodside EPs.
 - (1) Support any work necessary to clarify or define the offshore areas that are relevant to the Thalanyji People.
 - Propose the delivery of interim reports if this will enable prioritising matters considered most critical by BTAC.
 - (2) Confirm Woodside will be responsible for all reasonable costs to complete the assessment.
 - Confirm BTAC retains intellectual property.
- (5) On 14 September 2023, BTAC emailed two letters to Woodside (SI reference 24.7):
 - Support for ongoing engagement and consultation for Environment Plan through a consultation agreement.
 - Cost recovery to assist consultation for NOPSEMA-related matters. (5) Woodside replied, acknowledging receipt of the letter.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (5) On 20 September 2023, BTAC emailed Woodside twice, requesting a response from Woodside to its letter of 14 September 2023 and seeking an update on the status of the consultation agreement (SI Report reference 24.8).
- (5) On 22 September 2023, Woodside emailed BTAC a signed copy of its costs recovery letter, the list of activities for which Woodside has consulted BTAC and advised that the draft consultation agreement was under review (SI Report reference 24.9).
- (5) On 26 September 2023, BTAC responded to Woodside's email of 22 September 2023 and confirmed BTAC would be assisted by a legal representative. (SI Report reference 24.10)

Summary of information provided and record of consultation for this EP:

- On 11 October 2023, Woodside emailed BTAC advising of the proposed activity (Record of Consultation, reference 1.65) and provided a Summary Information Sheet (including a link to the detailed information sheet on Woodside's website). The email requested information on the interests that BTAC and its members may have within the EMBA.
- (5) On 13 October 2023, BTAC's legal representative emailed Woodside and, among other things, advised BTAC required an indemnity clause in the proposed consultation agreement against any court action arising from its consultation on Woodside EPs. (SI Report reference 24.11)
- (5) On 2 November 2023, Woodside emailed BTAC's legal representative noting it would not agree to the request to indemnify BTAC against any court proceedings resulting from consultation. Woodside re-iterated its wish to progress the consultation agreement and deliver on its commitment to map BTAC's Sea Country values. (SI Report reference 24.12)
- (5) On 18 November 2023, in response to requests from BTAC's legal representative, Woodside provided further information about its response to BTAC'S indemnification request. Among other things, Woodside explained that it could harm genuine engagement. Woodside again noted its commitment to build an ongoing relationship with BTAC. (SI Report reference 24.13)
- On 27 November 2023, Woodside attended and presented to the BTAC Common Law Holders meeting (SI Report, reference 24.14). Matters discussed included:
 - (2) Woodside's offer to fund Sea Country mapping, which BTAC had yet to take up.
 - (5) Progress of a consultation agreement between BTAC and Woodside.
- (5) On 7 December 2023, Woodside emailed BTAC and attached correspondence sent to the previous CEO (SI Report, reference 24.15). The correspondence included information about:
 - (2) Woodside's support for articulating and understanding Sea Country values, including ethnographic/anthropological mapping.
 - (4) Woodside's commitment to engage in ongoing consultation for the purpose of ongoing monitoring, management and emergency response.
 - (3) Woodside's support for BTAC to obtain independent environmental management advice.
 - (1) Information about BTAC's interest in archaeological sites on nearshore islands including the Montebello and Barrow Islands,
- (2, 3) On 7 December 2023, BTAC emailed Woodside accepting the offer to take up Sea Country mapping and research. BTAC requested a meeting in the week of 15 January 2024 to plan for upcoming activities. (SI Report reference 24.16)

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Between 8 - 11 December 2023, Woodside exchanged emails about financial matters relating to the consultation agreement. Woodside noted it required itemised estimates for services (SI Report, references 24.17 – 24.18).
- On 17 January 2024, Woodside met with BTAC (SI Report reference 24.19) and discussed (among other things):
 - (2) Sea Country mapping.
 - BTAC's preference for early notice on EPs.
 - (4) BTAC's interest in employment/training opportunities and opportunities for rangers.
 - BTAC to form a committee for consultation on EPs.
- (4) On 17 January 2024, Woodside emailed BTAC information about training pathways as discussed at the meeting with BTAC on 17 January 2024 (SI Report reference 24.20).
- (2) On 8 February 2024, Woodside emailed BTAC following up on a quote for Woodside to support BTAC articulating Sea Country values (SI Report reference 24.21).
- (5) On 8 February 2024, BTAC emailed Woodside noting that it had a consultant generating a scope of work for articulating Sea Country values which will allow BTAC to understand costings (SI Report reference 24.22).
- On 8 February 2024, Woodside emailed BTAC acknowledging its response. (SI Report reference 24.23)
- (5) On 28 February 2024, Woodside emailed BTAC a letter (SI Report reference 24.24) setting out the draft terms of a consultation agreement between BTAC and Woodside. The agreement (among other things) included the following topics:
 - Sufficient Information.
 - Reasonable Period.
 - Provision of Information.
 - Objection or claims.
 - Publications.
 - Cost and termination.
- On 28 February 2024, BTAC's legal representative emailed Woodside querying funding for legal advice for BTAC (SI Report reference 24.25).
- (5) On 28 February 2024, Woodside emailed BTAC's legal representative, noting that BTAC had been seeking a draft Framework Agreement from Woodside, apologising for the delay in providing the draft to BTAC, and that the rate for engagement could be set out in the agreement. In relation to legal advice, Woodside re-iterated that a cost estimate was required and noted that the legal representative's refusal to provide an estimate could be interfering with progressing matters with BTAC (SI Report reference 24.26).
- On 22 May 2024, Woodside and BTAC met (SI Report, reference 24.27). Matters discussed included:
 - (2) Woodside's ongoing commitment to support BTAC articulate its Sea Country values. Woodside is awaiting BTAC's advice on its vision for this work.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (4) BTAC's interest in training and employment opportunities, particularly for mature candidates. BTAC will provide a list of people seeking employment while Woodside committed to providing information on training opportunities.
- (4) On 27 May 2024, Woodside and BTAC exchanged emails on training and employment opportunities, following the 22 May meeting (SI Report, references 24.28 – 24.30).
- (2) On 13 June 2024, Woodside emailed BTAC to request an update on how Woodside can assist BTAC to articulate Sea Country values and offering continued support for this work and an ethnographic survey (SI Report, reference 24.31).
- (4) On 18 June 2024, Woodside emailed BTAC with a contact for employment opportunities (SI Report, reference 24.32).
- (3) On 19 June 2024, BTAC emailed Woodside a proposed scope for a cultural mapping project (SI Report, reference 24.33).
- (3) On 19 June 2024, Woodside replied to BTAC's email and advised who the Woodside focal would be for the work (SI Report, reference 24.34).
- (3), (3) Between 5 July 2024 and 23 July 2024 Woodside and BTAC exchanged emails relating to Woodside's review of BTAC's proposed scope for cultural mapping (SI Report, references 24.35 – 24.37).
- On 29 July 2024, BTAC's legal representative emailed Woodside requesting a face-to-face consultation about this EP (SI Report, reference, 24.38).
- On 30 July 2024, Woodside emailed BTAC's legal representative with suggested meeting dates (SI Report, reference 24.39).
- (3) On 31 July 2024, Woodside emailed BTAC a response to its proposal for a cultural mapping project (SI Report, reference 24.40). Woodside stated the proposal was broader than expected and broader than Woodside could support. Woodside requested a meeting with BTAC to discuss briefing for an ethnographic assessment, focused on clarifying or defining the offshore areas that are relevant to BTAC, and recording Sea Country values to inform EPs, and stated Woodside would support an initial agreement to brief an anthropologist agreed by the parties for this purpose, and would consider further phases upon completion.
- On 31 July 2024, BTAC's legal representative emailed Woodside about a review of an Indigenous Land Use Agreement (ILUA) requesting a meeting on the ILUA review be held prior to setting a date for a meeting regarding this EP (SI Report, reference 24.41).
- On 13 August 2024, Woodside emailed BTAC (SI Report, reference 24.42) about an ILUA, noting:
 - BTAC's preference to advance the review ahead of any EP consultation.
 - Woodside's view that EP consultation could be actioned in parallel and that consultation for each EP commences the date Woodside issues the EP consultation notice.
 - Dates Woodside would be available to meet to discuss the agreement review.
 - Woodside's request for a cost estimate to enable it to raise a purchase order to proceed with meeting.
- Between 21 August 2024 and 5 September 2024, Woodside, BTAC and BTAC's legal representative exchanged emails relating to setting a meeting date and a cost estimate for meeting and to confirm annual payments (SI Report, references 24.43 – 24.53).

Ongoing Engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 9 September 2024, Woodside invited BTAC share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 24.54).
- On 3 October 2024, Woodside invited BTAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 24.55).
- (3, 4) On 15 November 2024, Woodside, BTAC and BTAC’s legal representative met to discuss a variety of items such as the ranger program, heritage agreement and the finalisation of the Sea Country mapping scope (SI Report, reference 24.56).

Ongoing Relationship:

Woodside continues to pursue an ongoing two-way relationship with BTAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) BTAC stated its interests include archaeological sites identified on nearshore islands including the Montebello Islands, Barrow Island and the Mackerel Islands.</p>	<p>(1) Woodside assessment: Given the EMBA for this activity extends to nearshore areas coastally adjacent to the Thalanyji native title determination area, these values may be relevant in the event of an unplanned hydrocarbon release. Woodside will engage with Traditional Custodians whose interests may be affected in the event of a hydrocarbon release, as outlined in Appendix H Woodside response: Woodside has sought to engage BTAC in further assessments of Sea Country values.</p>	<p>(1) Existing controls considered sufficient as described in Section 6.9 and Appendix H.</p>
<p>(2) BTAC has a cultural obligation to care for the environmental values of Sea Country but needed support to articulate these in a format suitable for consultation.</p>	<p>(2) Woodside assessment: Woodside acknowledges BTAC’s advice that it has cultural obligation to care for the environmental values of Sea Country and will support the articulation of these values in a form sufficient for Woodside EPs. Woodside response: Woodside updated relevant sections in the EP to record BTAC’s interests and potential cultural values, assessed the potential</p>	<p>(2) Woodside updated Section 4.9 to record BTAC’s interests and potential cultural values and assessed potential impact on these, including controls, in Section 6.11.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>impact on these and included controls. Woodside agreed to support the articulation and recording of Sea Country values. This offer has been taken up and progress has commenced towards the desired outcome.</p>	
<p>(3) Requested Woodside supports BTAC in obtaining technical advice about risks to Sea Country.</p>	<p>(3) Woodside assessment: In February 2024, BTAC engaged a consultant who is completing a scope of work to inform BTAC of costings for articulating Sea Country values (see (2) above). Woodside considers it beneficial for Thalanyji to have technical advice to ensure the delivery of an outcome that does justice to the work involved to record the Sea Country values. Woodside response: Woodside has offered financial support for technical advice and other support, which has been accepted. The draft Collaboration Agreement (see (5) below) includes technical support for recording of Sea Country values.</p>	<p>(3) Not required.</p>
<p>(4) BTAC noted it was interested in funding for ranger programs, training and employment opportunities</p>	<p>(4) Woodside assessment: Woodside considers value in having rangers on the ground trained up in the highly unlikely event of an oil spill. It would be beneficial to an immediate response in an emergency situation. Woodside response: Woodside has offered to support BTAC to engage in management and emergency response. In January 2024 Woodside provided BTAC with information about a training/employment program.</p>	<p>(4) The Program for Ongoing Engagement with Traditional Custodians (Appendix G) includes consideration of programs to support Indigenous Rangers, and support for Indigenous oil spill response capabilities.</p>
<p>(5)</p>	<p>(5) Woodside assessment: This aligns with Woodside’s Program of Ongoing Engagement with</p>	<p>(5) As identified in Section 7.10 of this EP, Woodside will continue to consult following acceptance of the EP, as</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>BTAC proposed a Consultation Agreement as an appropriate mechanism to provide ongoing feedback to Woodside regarding its activities.</p> <p>This would include cost recovery to assist consultation for NOPSEMA-related matters.</p>	<p>Traditional Custodians and will frame ongoing consultation processes.</p> <p>Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside has drafted a Consultation Agreement between BTAC and Woodside. The agreement was sent to BTAC in February 2024. The agreement includes support for recording and articulation of Sea Country values. Woodside has signed a cost acceptance letter and has informed BTAC it will financially support consultation meetings. Information about costs is also contained in the draft consultation agreement..</p>	<p>required by the implementation strategy as set out in regulation 35(7) of the Environment Regulations. This includes cost recovery.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should further feedback be received, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Based on engagement to date, no additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with BTAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> • Woodside sought direction on BTAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation. • Provided Consultation Information Sheet and Summary Information Sheet developed by Indigenous staff to BTAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity in a digestible, plain English format. • Articulated planned and unplanned environmental risks and impacts, with proposed controls. • Confirmed the purpose of consultation and set out in detail what is being sought through consultation. • Asked for the consultation and information sheets to be distributed to members and individuals. 		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside has provided NOPSEMA's brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan".
- Advised that BTAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with BTAC in October 2023.
- Woodside has addressed and responded to BTAC over 13-months, demonstrating a "reasonable" period of consultation.

Woodside asked BTAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on BTAC's functions, interests or activities.

Yinggarda Aboriginal Corporation (YAC)

YAC is established under the Native Title Act 1993 by the Yinggarda people to represent the Yinggarda people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 19 July 2023, Woodside emailed YAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that YAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 25.1).
- On 26 July 2023, Woodside emailed YAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 25.2).

Summary of information provided and record of consultation for this EP:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 11 October 2023, Woodside emailed YAC advising of the proposed activity (Record of Consultation, reference 1.66) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that YAC and its members may have within the EMBA, information on how YAC would like to engage, and requested that YAC provide information to other individuals as required.
- **(1)** On 13 October 2023, legal practice Banks-Smith and Associates (BSA) emailed Woodside confirming they acted for YAC on NOPSEMA matters. Among other things, they noted, they required an indemnity and hold harmless clause be included in the Framework Agreement to protect against potential exposure to activist litigation (SI Report, reference 25.3).
- On 2 November 2023, Woodside emailed BSA advising they would not agree to the request to indemnify YAC against any court proceedings as a result of consultation they engage in with Woodside on EPs (SI Report, reference 24.4).
- **(1)** On 2 November 2023, BSA emailed Woodside requesting information on the reason for Woodside's position not to include indemnification in the consultation agreement (SI Report, reference 25.5).
- On 18 November 2023, Woodside emailed BSA with further information about why they would not indemnify YAC as requested in the 13 October 2023 email. Woodside explained that it could harm genuine engagement, may promote behaviours in others who may become aware of the indemnity by Woodside, and it would not be good practice to provide an indemnity in relation to the act or omission of other parties that Woodside would not necessarily engage with (SI Report, reference 25.6).
- On 28 December 2023, Woodside emailed YAC following up on the initial email sent on 11 October 2023. Woodside advised YAC the timeframe in which the EP will be submitted and requested the opportunity for consultation (SI Report, reference 25.7). No response has been received.
- On 12 February 2024, Woodside emailed YAC informing YAC that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024. Woodside sent links to NOPSEMA's NOPEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information SI Report, reference 25.8).

Ongoing Engagement:

- **(1)** On 8 March 2024, Woodside emailed YAC (via a legal representative) with a draft consultation agreement for consideration by YAC and an invitation for YAC to propose a schedule of rates and other details relating to engagement (SI Report, reference 25.9). The draft agreement included:
 - Aims of consultation
 - Proposed consultation agreement details
 - A consultation meeting framework
- **(2)** On 12 March 2024, YAC (via legal representative) emailed Woodside with a proposed schedule of rates, indicating they would wait for a response on the proposed schedule of rates before putting the consultation agreement before the YAC Board (SI Report, reference 25.10).

- On 27 March 2024, Woodside emailed YAC (via a legal representative) advising they would follow up the status of Woodside's response (SI Report, reference 25.11).
- (2) On 4 April 2024, Woodside emailed YAC (via a legal representative) advising that Woodside had undertaken a review, providing the Proposed Schedule of Rates for inclusion in the agreement, and asking for the date of the next Board meeting be provided. (SI Report, reference 25.12).
- (2) On 8 April 2024, YAC (via legal representative) emailed Woodside advising the YAC Board would meet next on 9 May 2024, asking if Woodside would fund the cost of the meeting for consultation, how much time Woodside would require, and asking for a list of matters for discussion to enable them to provide a cost estimate for legal fees (SI Report, reference 25.13).
- (2) On 10 May 2024, Woodside emailed YAC (via legal representative) advising Woodside would like to meet with YAC either during or outside of a Board meeting, at YAC's preferred location, that Woodside would cover agreed meeting costs and requesting a cost estimate (SI Report, reference 25.14). Woodside proposed matters for discussion including:
 - EP consultation: overview and EPs current at the time of meeting.
 - Upcoming consultation.
 - Matters Yinggarda would like to discuss.
 - Actions arising and next steps.
 - On 18 July 2024, Woodside met with YAC (SI Report, reference 25.15) to discuss this EP and other unrelated EPs. Matters discussed relating to this EP included:
 - (1) Possibility of setting up workshops to discuss the formalisation of an agreement between Woodside and YAC.
 - (3) Support for education and training including ranger programs and spill response training.
 - (4) Potential impact to marine life. (4) Woodside responded to questions about marine life including turtles, whales, sharks to the satisfaction of YAC and undertook to provide follow up information.
 - (5) YAC's interest in employment/training opportunities.
- On 26 July 2024, Woodside wrote to YAC (SI Report, reference 25.16) to respond to matters including:
- (1) Woodside's commitment to ongoing consultation about EPs and continuing to build relationship with YAC including YAC providing feedback on the consultation framework.
- (3, 5) Woodside said it would look forward to hearing from YAC about YAC's plans for a ranger program and will keep YAC informed about Woodside's consideration of ranger initiatives and training opportunities.
- (4) Woodside has undertaken numerous environmental studies that form part of the EPs and has an ongoing commitment to environmental studies and research some of which are set out on Woodside's website. Woodside also committed to ongoing consultation with YAC in relation to environmental impacts including to marine life.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (4) On 30 August 2024, Woodside mailed YAC the publication Discovering Scott Reef by Dr James Gilmour, Dr Luke Smith, Kylie Cook and Stephen Pincock, and published by Woodside and the Australian Institute of Marine Science in 2013 (SI report, reference 25.17).
- On 2 November 2024, Woodside hosted a stall at the Dampier community Markets. The stall enabled the community to provide input on EPs. Members of YAC participated in discussions about Woodside's activities during the event (Record of Consultation, reference 3.3.12).

Ongoing Relationship

- Woodside continues to pursue an ongoing two-way relationship with YAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) YAC has requested that Woodside enter into a Framework Agreement to set out a process for ongoing consultation.</p>	<p>(1) Woodside assessment: Woodside acknowledges YA’s request to enter into a framework agreement to establish a process for ongoing consultation. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside has provided a draft Framework Agreement for YAC’s consideration. As outlined in the consultation summary below, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to YAC will be for the purpose of ongoing engagement.</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with YAC as part of ongoing engagement (Appendix G). This includes the proposed Framework Agreement which will be applied to ongoing consultation. Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>(2) YAC requested resourcing to engage in ongoing consultation.</p>	<p>(2) Woodside assessment: Woodside supports reasonable requests for resourcing. Woodside response: The proposed agreement outlined in (1), would be an effective mechanism to address resourcing for ongoing consultation.</p>	<p>(2) The Consultation Agreement will support any reasonable requests for funding for the purposes of consultation. No additional measures or controls are required.</p>
<p>(3)</p>	<p>(3)</p>	<p>(3)</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>YAC has enquired about support for education and training including ranger programs, including desire to be involved in local emergency response capability, potentially via an Indigenous Ranger Program. Interested in opportunities for employment/training.</p>	<p>Woodside assessment: Woodside considers value in having rangers on the ground trained up in the highly unlikely event of an oil spill. It would be beneficial to an immediate response in an emergency situation.</p> <p>Woodside response: Woodside looks forward to hearing about YAC's plans for a ranger program and will keep YAC informed about Woodside's consideration of ranger initiatives.</p>	<p>The Program for Ongoing Engagement with Traditional Custodians (Appendix G) includes consideration of programs to support Indigenous Rangers, and support for Indigenous oil spill response capabilities.</p>
<p>(4) YAC queried potential impact to marine life.</p>	<p>(4) Woodside assessment: Woodside accepts that YAC has an interest in potential impacts on marine life.</p> <p>Woodside response: Woodside has undertaken numerous environmental studies that form part of the EPs and has an ongoing commitment to environmental studies and research some of which are set out on Woodside's website. Woodside also committed to ongoing consultation with YAC in relation to environmental impacts including to marine life.</p>	<p>(4) Woodside has considered topics raised by YAC and updated Section 4.9 to record these. These are assessed in Section 6.6, 6.7, 6.8 and 6.10 of the EP with appropriate controls implemented.</p>
<p>(5) YAC expressed interest in employment/training opportunities.</p>	<p>(5) Woodside assessment: Woodside considers value in having rangers on the ground trained up in the highly unlikely event of an oil spill. It would be beneficial to an immediate response in an emergency situation.</p> <p>Woodside response: Woodside said it would look forward to hearing from YAC about YAC's plans for a ranger program and will keep YAC informed about Woodside's consideration of ranger initiatives and training opportunities.</p>	<p>(5) The Program for Ongoing Engagement with Traditional Custodians (Appendix G) includes consideration of programs to support Indigenous Rangers, and support for Indigenous oil spill response capabilities.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be</p>	<p>Based on the engagement to date, no additional measures or controls are required.</p>

	received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	
--	---	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25(1) of the Environment Regulations and consultation with YAC for the purpose of 25(1) is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on YAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to YAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that YAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to YAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked YAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on YAC functions, interests or activities.

Kariyarra Aboriginal Corporation (Kariyarra)

Kariyarra is established under the Native Title Act 1993 by Kariyarra people to represent the Kariyarra people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed Kariyarra NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Kariyarra advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 26.1).
- On 26 July 2023, Woodside emailed Kariyarra Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 26.2).

Summary of information provided and record of consultation for this EP:

- On 22 September 2023, KAC (via legal representative) emailed Woodside attaching a letter and Woodside policy documents (SI Report, reference 26.3). The letter set out the following:
 - (1) Requesting a meeting with KAC at a suitable time with an agreed agenda be arranged, including preparation of "co-management agreement".
 - (1) An agreement which provides the most effective tool for the effective and ongoing consultation by Woodside with KAC.
 - (2) An agreed budget to fund (among other things) preparation of Agreement, meetings, and specialist advice.
 - (3) Noting that KAC asserted sea rights in their native title claim. (Note: Native title was found by the Federal Court not to exist in the sea in the KAC determination).
 - (1) Contact protocols going forward.
- (1) On 28 September 2023, KAC (via legal representative) emailed Woodside a funding request for fees and disbursements, however, did not provide a reasonable basis for the quote (SI Report, reference 26.4).
- On 18 October 2023, Woodside emailed KAC advising of the proposed activity (Record of Consultation, reference 1.67) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that KAC and its members may have within the EMBA, information on how KAC would like to engage, and requested that KAC provide information to other individuals as required.
- (3) Between 20 – 23 October 2023, several emails were exchanged in relation to costs and Woodside reiterated the need for a reasonable quote (SI Report, reference 26.5 – 26.10).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(3)** On 26 October 2023, KAC (via legal representative) emailed Woodside in relation to meeting with KAC about EPs, stating Woodside's proposed cost structure was inadequate and would confer with EDO the Traditional Owners that have taken court action (SI Report, reference 26.11).
- **(3)** On 14 November 2023, KAC (via legal representative) emailed Woodside in relation to costs of consultation meetings noting that they had taken their concerns to the EDO (SI Report, reference 26.12).
- On 22 November, Woodside emailed KAC (via legal representative) reiterating a preparedness to fund consultation for consultation meetings and noting that Woodside were looking at implementing further environmental controls in relation to operations to reduce or remove any potential impact to KAC Sea Country. Woodside said they wished to progress the framework agreement and suggested a full day meeting with KAC. The agreement could set out a protocol for ongoing consultation on EPs where consultation for purposes of developing an EP is closed, and for consultation on development of EPs for new activities (SI Report, reference 26.13).
- **(1)** On 23 November 2023, KAC (via legal representative) emailed Woodside agreeing to Woodside's proposal in the email of 22 November 2023, requesting a draft protocol and suggesting dates for a meeting between KAC and Woodside (SI Report, reference 26.14).
- **(3)** On 23 November 2023, KAC (via legal representative) emailed Woodside seeking costs already incurred by his services to KAC (SI Report, reference 26.15).
- **(3)** On 29 November 2023, KAC (via legal representative) emailed Woodside following a phone conversation with Woodside, confirming a meeting of 5 December 2023 in Karratha with KAC and included quotes for meeting costs (SI Report, reference 26.16).
- **(1)** On 29 November 2023, KAC (via legal representative) emailed Woodside with details of meeting with KAC, request for proposed protocol and suggested Agenda for the meeting (SI Report, reference 26.17).
- **(1, 3)** On 29 November 2023, Woodside emailed KAC (via legal representative) (SI Report, reference 26.18) attaching Woodside's Program of Ongoing Consultation, a revised agenda and suggesting the protocol between KAC and Woodside would set out:
 - How Woodside and KAC would consult, the basic procedure for initial and ongoing consultation in relation to activities
 - Agreement as to how Woodside would provide KAC information.
 - How KAC would provide feedback and how Woodside represents that into submissions.
 - Agreed schedule of rates.
 - How the outputs of the consultations are managed.
- On 29 November 2023, KAC (via legal representative) emailed Woodside with an amended proposed Agenda for the upcoming meeting (SI Report, reference 26.19).
- On 5 December 2023, Woodside and KAC met in Port Hedland (SI Report, reference 26.20). At the meeting Woodside:
 - Presented on an Engagement Protocol.
 - What Woodside plan to do to protect the environment.
 - Presented the regulatory context.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Spoke about the biological studies that are carried out through different times of the year.
- Discussed why Woodside were talking to KAC.
- Displayed the EMBA and how it was developed.
- Showed projects open for ongoing consultation.
- Spoke to what Woodside were seeking to understand from KAC:
 - (3) How could these activities impact your cultural values, interests, and activities - does protecting the environment do enough to protect your cultural values?
 - What are your concerns about the proposed activities and what do you think we should do about them?
 - Is there anything you would like included in the EPs before submission?
 - Is there anyone else Woodside should consult with about the activities?
- (4) KAC asked how Woodside maintain the validity of controls over periods of times, sighting turtles as an example in terms of whether current controls would be sufficient into the future.
 - (4) Woodside noted that there is ongoing monitoring and Woodside would apply its Management of Change and Revision process to address controls.
 - Noted the EPs subject of ongoing consultation, including this EP.
 - Spoke to planned and unplanned risks.
- (2) KAC gave a presentation to Woodside on their Sea Country rights and duties:
 - Accessing Sea Country for fishing, trapping, crabbing catching turtle, hunting dugong, using stingray barbs for spears and collecting shellfish.
 - Visiting offshore islands at low tide.
 - Passing on traditional knowledge to children.
 - Secret habitat tokens.
 - Having duties to look after and protect all of KACs Sea Country.
- (1, 2, 3) KAC outlined their consultation requirements to Woodside:
 - Co-designed and co-managed approach to protecting Sea Country.
 - On-going input into Eps.
 - An agreement with Woodside.
 - Funding for sea rangers.
 - A positive and collaborative relationship.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(1, 3)** On 13 December 2023, KAC (via legal representative) emailed Woodside with outcomes of the 5 December meeting, confirming availability for a workshop in March 2024 and that KAC and Woodside aim to reach agreement on an engagement protocol by mid-2024 (SI Report, reference 26.21).
- **(1, 2, 3)** On 20 December 2023, Woodside emailed KAC (via legal representative) confirming the process for ongoing consultation, noting information to be included in this EP provided by KAC and noting that Woodside looks forward to reaching agreement with KAC on consultation process (SI Report, reference 26.22).
- **(3)** On 20 December 2023, KAC (via legal representative) emailed Woodside noting further information regarding Sea Country features and values KAC wish noted within EPs (SI Report, reference 26.23).
- **(1)** On 20 December 2023, KAC (via legal representative) emailed Woodside acknowledging they looked forward to progressing an agreement in 2024 between KAC and Woodside (SI Report, reference 26.24).
- On 13 January 2024, KAC (via legal representative) emailed Woodside a letter expressing interest in signing a consultation agreement with Woodside. KAC informed Woodside that the letter has been approved for signing by the Corporation Chair and waits for Woodside's response (SI Report, reference 26.25).
- On 22 January 2024, KAC (via legal representative) emailed Woodside following up on previous correspondence (13 January 2024) and again expressing interest in signing a consultation agreement with Woodside (SI Report, reference 26.26).
- **(1)** On 21 February 2024, Woodside emailed KAC (via legal representative) thanking them for their email and attaching a draft consultation agreement letter outlining the objectives, terms and conditions, and proposed consultation schedule with KLC (SI Report, reference 26.27).
- On 21 February 2024, KAC (via legal representative) emailed Woodside requesting a word version of the letter sent on 21 February 2024 (SI Report, reference 26.28).
- On 22 February 2024, Woodside emailed KAC (via legal representative) attaching the requested version of the letter (SI Report, reference 26.29).

Ongoing Engagement:

- **(1)** On 10 March 2024, KAC via legal representative emailed Woodside a draft consultation agreement for Woodside to review (SI Report, reference 26.30).
- **(1)** On 12 March 2024, Woodside emailed KAC via its legal representative to acknowledge receipt of the draft agreement and note it would review and return to KAC in the future (SI Report, reference 26.31).
- **(1)** On 4 April 2024, Woodside emailed KAC via its legal representative advising Woodside had reviewed the draft agreement and provided some amendments for KAC's consideration (SI Report, reference 26.32).
- **(1)** On 4 April 2024, KAC via legal representative emailed Woodside advising the amendments were not acceptable (SI Report, reference 26.33).
- **(1)** On 26 June 2024, Woodside emailed KAC via legal representative to ask if there were further instructions from KAC on the draft agreement and proposed amendments (SI Report, reference 26.34).
- On 3 July 2024, KAC's legal representative emailed Woodside advising that KAC's in house counsel would be contacting Woodside about the proposed agreement and regarding recent Woodside EP consultation emails (SI Report, reference 26.35).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(1) (1)** Between 29 August 2024 and 3 September 2024, Woodside and KAC engaged in phone calls to discuss the opportunity to meet to discuss this EP, and an unrelated EP, EP processes, and opportunities to negotiate a consultation agreement as a separate matter (SI Report, reference 26.36).
- **(1)** On 3 September 2024, Woodside emailed KAC a presentation and the emails sent to KAC previously in relation to this EP, and a separate EP, and noted Woodside would forward information relating to consultation agreement negotiations in a separate email, noting it was understood, including being noted in previous discussions, these were separate matters (SI Report, reference 26.37).
- **(1)** On 3 September 2024, Woodside emailed KAC the draft consultation agreement provided to KAC in February 2024 (SI Report, reference 26.38).
- On 4 September 2024, Woodside met with KAC to present information on this EP and an unrelated EP (SI Report, reference 26.39). KAC requested:
 - Mitigation measures to be put in place for:
 - **(5, 6)** Sea turtle nesting.
 - **(5, 6)** Impacts to food sources.
 - **(5, 6)** Impacts to whale migration and songlines.
 - **(1)** Ongoing consultation with Woodside and that a consultation agreement be agreed.
 - **(7)** Interest in support for ranger program.
 - Woodside noted at this meeting that:
 - **(5, 6)** Similar concerns had been raised in relation to sea turtle nesting, whale migration and food source by other relevant Traditional Owner groups in the Pilbara and subsequently mitigation and avoidance measures had been included within the EPs.
 - **(5, 6)** KAC was invited to review the feedback provided by the other groups in the EP document once its submitted to NOPSEMA. It was reiterated that KAC was welcome to provide further feedback for the life of the EP.
 - **(1, 7)** Discussions were already underway between Woodside and KAC to establish a consultation agreement.
- On 9 September 2024, Woodside invited KAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 26.40).
- On 3 October 2024, Woodside invited KAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 26.41).

Ongoing Relationship

- Woodside continues to pursue an ongoing two-way relationship with KAC on future opportunities to work together.

	received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	
--	---	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Kariyarra for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Kariyarra preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Kariyarra. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that Kariyarra can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Kariyarra over 13-months, demonstrating a “reasonable period” of consultation.

Woodside asked Kariyarra if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.15 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Kariyarra functions, interests or activities.

Wirrawandi Aboriginal Corporation (WAC)

WAC is established under the Native Title Act 1993 by the Mardudhunera and Yaburara people to represent the Mardudhunera and Yaburara people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed WAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that WAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 27.1).
- On 26 July 2023, Woodside emailed WAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 27.2).

Summary of information provided and record of consultation for this EP:

- On 3 October 2023, Woodside emailed WAC advising of the proposed activity (Record of Consultation, reference 1.68) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that WAC and its members may have within the EMBA, information on how WAC would like to engage, and requested that WAC provide information to other individuals as required.
- On 3 October 2023, Woodside and WAC exchanged email correspondence on the logistics of booking a meeting to discuss the environment plan. Woodside offered to meet WAC at a location suitable to them (SI Report, reference 27.3 – 27.6).
- On 20 October 2023, WAC and Woodside met (SI Report, reference 27.7) and discussed:
 - Current EPs and how parties intended to support each other through the process.
 - Woodside's intention to ensure that WAC was adequately consulted on all EPs.
 - WAC's current corporate restructure and the impact of this on ability to engage in consultation.
 - **(1)** WAC's interest in discussing a Framework Agreement once the new CEO was settled in.
- On 24 October 2023, Woodside sent a follow-up email enquiring if WAC had any questions relating to this EP and offering to schedule a consultation session with the members and/or Board of WAC (SI Report, reference 27.8).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 3 November 2023, Woodside emailed WAC following up regarding feedback on this activity and again attaching the Summary Information Sheet (Record of Consultation, reference 1.2) (SI Report, reference 27.9). Woodside advised WAC it could take some additional time to consider the consultation. Woodside asked WAC to advise if it would like to set up a consultation meeting. No response has been received.
- On 19 December 2023, Woodside emailed WAC wishing a happy festive season, thanking WAC for their contributions throughout the year and offering availability for consultation sessions (SI Report, reference 27.10).
- On 19 December 2023, WAC emailed Woodside noting its thanks for Woodside support (SI Report, reference 27.11).

Ongoing Engagement

- **(1)** On 6 March 2024, Woodside emailed WAC a draft consultation framework for consideration relating to EPs and Woodside's ongoing activities, including the aims of consultation, proposed consultation agreement details and a consultation meeting framework. Woodside invites WAC to propose a schedule of rates and other details relating to its engagements (SI Report, reference 27.12).
- On 25 June 2024, WAC attended the Quarter 2 Heritage Meeting in Karratha. Members of WAC participated in discussions about Woodside's activities and unrelated EPs (SI Report, reference 27.13).
- On 16 July 2024, Woodside and WAC held a meeting to discuss (SI Report, reference 27.14):
 - Unrelated EPs. WAC were grateful for Woodside's support and availability to discuss activities in person and raised no immediate concerns.
 - **(2)** Sea mapping opportunities
 - **(3)** Sponsorship opportunities
- On 5 September 2024, Woodside invited WAC to the Quarter 3 Heritage Meeting (SI Report, reference 27.15)
- On 9 September 2024, Woodside invited WAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 27.16).
- On 25 September 2024, Traditional Owner members from WAC attended Woodside's Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 27.17).
- On 30 September 2024, Woodside and WAC held a meeting to discuss (SI Report, reference 27.18):
 - **(4)** Organisational and staffing updates.
 - **(3)** Sponsorship opportunities.
- On 1 October 2024, WAC emailed Woodside an invitation to attend the next WAC Board meeting to provide an overview of Woodside activities. Woodside confirmed availability to consult at WAC's convenience (SI Report, reference 27.19, 27.20).
- On 3 October 2024, Woodside invited WAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 27.21).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 10 October 2024, Woodside hosted the Quarter 3 Heritage Meeting in Roebourne. Woodside provided business and activity updates to WAC during the meeting (SI Report, reference 27.22).
- On 2 November 2024, Woodside hosted a stall at the Dampier community Markets. The stall enabled the community to provide input on EPs. Members of WAC participated in discussions about Woodside's activities during the event (Record of Consultation, reference 3.3.12).

Ongoing Relationship

- Woodside continues to pursue an ongoing two-way relationship with WAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) WAC are interested in developing a Framework Agreement that includes outlining a process for ongoing consultation.</p>	<p>(1) Woodside assessment: Woodside has confirmed and accepts that WAC is seeking to establish a framework agreement for the purposes of ongoing consultation with Woodside. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside will establish a framework agreement with WAC. The agreement would be used to frame ongoing consultation. Sufficient information to allow informed assessment has already been provided by other means, including summary sheets developed by Indigenous staff. Any further engagement with and support offered to WAC will be for the purpose of ongoing engagement. Woodside accepts that WAC has no feedback on the activity at this time.</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with WAC as part of ongoing engagement (Section 7.10 of the EP). This includes continued engagement regarding WAC's proposed Framework Agreement which will be applied to ongoing consultation. This is described further in the Program of Ongoing Engagement with Traditional Custodians, Appendix G. Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>(2) WAC raised the potential of exploring sea mapping opportunities with Woodside.</p>	<p>(2) Woodside assessment: Woodside acknowledges WAC's request for sea mapping opportunities. Woodside does not have plans to conduct regional bathymetric surveys but there are publicly available datasets covering coastal regions.</p>	<p>(2) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside to request a meeting with WAC to find ways to interpret existing data sets to generate information which may be useful to WAC.	
(3) WAC expressed interest in sponsorship/ social investment opportunities.	(3) Woodside assessment: Woodside acknowledges WAC's interest in social investment opportunities. Woodside response: Woodside is continuing to work with WAC regarding sponsorship/social investment opportunities. Woodside considers all funding requests and supports funding within reasonable parameters. Separate from consultation under regulation 25 of the Environment Regulations.	(3) Not required
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Wirrawandi Aboriginal Corporation (WAC) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on WAC's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to WAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that WAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to WAC over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked WAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on WAC functions, interests or activities.

Robe River Kuruma Aboriginal Corporation (RRKAC)

RRKAC is established under the Native Title Act 1993 by the Robe River Kuruma people to represent the Robe River Kuruma people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed RRKAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that RRKAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 28.1).
- On 26 July 2023, Woodside emailed RRKAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 28.2).

Summary of information provided and record of consultation for this EP:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 3 October 2023, Woodside emailed RRKAC advising of the proposed activity (Record of Consultation, reference 1.69) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that RRKAC and its members may have within the EMBA, information on how RRKAC would like to engage, and requested that RRKAC provide information to other individuals as required.
- On 24 October 2023, Woodside sent a follow-up email enquiring if RRKAC had any questions relating to this EP and offering to schedule a consultation session with the members and/or Board of RRKAC (SI Report, reference 28.3). No response has been received.
- On 14 November 2023, Woodside emailed RRKAC following up on the offer for Woodside to provide support to RRKAC for EP consultation (SI Report, reference 28.4).
- On 14 November 2023, RRKAC emailed Woodside advising that it would put Woodside in touch with the most appropriate team member to progress discussions (SI Report, reference 28.5).
- On 16 November 2023, Woodside emailed RRKAC with thanks and advice that Woodside will wait to hear from the nominated individual (SI Report, reference 28.6).
- On 19 December 2023, Woodside emailed RRKAC wishing a happy festive season, thanking RRKAC for their contributions throughout the year and offering availability for consultation sessions (SI Report, reference 28.7).
- On 9 January 2024, Woodside emailed RRKAC following up on this activity and offering an opportunity for discussion. Woodside advised RRKAC of the best contact after 31 January 2024 (SI Report, reference 28.8).
- On 11 January 2024, Woodside and RRKAC (SI Report, reference 28.9), held a telephone discussion:
 - (1) RRKAC have recently employed new personnel, RRKAC noted that once the new employees were settled in, RRKAC would be happy to consult with Woodside on relevant EPs.
 - (2) RRKAC noted that some RRKAC country is on the coast (and would be affected by an oil spill or another such environmental incident), they feel that EMBA's are far too broad, and the areas covered by EMBA's are far too big and unfeasible.

Ongoing Engagement:

- On 20 March 2024, Woodside and RRKAC held an online meeting (SI Report, reference 28.10). During the meeting, Woodside and RRKAC discussed:
 - (1, 2) the purpose of engagement with Traditional Owner groups and PBCs.
 - consultation on EPs.
 - feedback on heritage and cultural values.
 - (1) opportunities for partnering and social investment opportunities for ranger programs.
 - (3) the significance of Sea Country, subsea mapping and Woodside's availability to RRKAC if it would like to pursue this kind of activity.
 - opportunities for future meetings.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 26 March 2024, Woodside emailed RRKAC (SI Report, reference 28.11) to follow up on the meeting and provide a Program of Ongoing Engagement. The email stated that:
 - Reasonable financial support is available for meetings for the purpose of consultation.
 - Woodside is seeking guidance from RRKAC on preferred next steps.
- (3) On 4 July 2024, RRKAC emailed Woodside about various activities unrelated to this EP (SI Report, reference 28.12) stating that Woodside’s activities are complex and controversial, and while in the majority of circumstances, are unlikely to represent a risk to RRKAC Cultural values, it cannot be entirely ruled out. RRKAC stated it is facing issues of resourcing to engage and consult in detail. At a previous meeting, RRKAC raised the possibility of a bathymetric survey of the coastal shelf as a large-scale project with all affected groups, that unites all groups with an interest, asking if Woodside would be prepared to include this in the consultation process.
- (3) On 5 July 2024, Woodside emailed RRKAC (SI Report, reference 28.13) acknowledging the challenges of resourcing and recruiting and advised it Woodside would seek internal advice on RRKAC’s query about a joint/inclusive bathymetric survey and provide advice to RRKAC when possible. In addition, Woodside requested RRKAC advise how best to consult with its members including meeting face-to-face with members and relevant Traditional Owners.
- (3) On 29 July 2024, Woodside emailed RRKAC (SI Report, reference 28.14) regarding bathymetric surveys and suggested that RRKAC and Woodside meet to discuss opportunities to use publicly available data to assist in generating information that might be useful to RRKAC.
- On 9 September 2024, Woodside invited RRKAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 28.15).
- On 3 October 2024, Woodside invited RRKAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 28.16).

Ongoing Relationship

- Woodside continues to pursue an ongoing two-way relationship with RRKAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) It had employed new personnel and would be happy to consult on relevant EPs once they were settled in.</p>	<p>(1) Woodside assessment: RRKAC had new employees starting. Woodside response: Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with RRKAC as part of ongoing engagement (Section 7.10 and Appendix G of the EP).</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(2) In response to a previous activity, RRKAC noted that some RRKAC country is on the coast (and would be affected by an oil spill or another such environmental incident), they feel that EMBA are far too broad, and the areas covered by EMBA are far too big and unfeasible</p>	<p>(3) Woodside assessment: Woodside aligns with industry guidance in developing the EMBA. Many replicate model simulations are completed to understand the potential behaviour of the worst-case release under various wind, wave and current conditions and these are combined to create an overall EMBA. Woodside response: Woodside considers it adopts appropriate controls, as demonstrated in Sections 6.8 and 6.9 of the EP, and Appendix I.</p>	<p>(3) Woodside has addressed oil spill response in Appendix I. Appropriate controls are demonstrated in Sections 6.8 and 6.9. No additional measures or controls are required.</p>
<p>(3) RRKAC raised the potential of a bathymetric survey of the coastline, working with all relevant coastal groups.</p>	<p>(3) Woodside assessment: Woodside does not have plans to conduct regional bathymetric surveys but there are publicly available datasets covering coastal regions. Woodside response: Woodside is seeking a meeting with RRKAC to find ways to interpret existing data sets to generate information which may be useful to RRKAC.</p>	<p>(3) Not required.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls required</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation Robe River Kuruma Aboriginal Corporation (RRKAC) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside sought direction on RRKAC's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to RRKAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that RRKAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to RRKAC over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked RRKAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25(1) of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on RRKAC functions, interests or activities.

Ngarluma Aboriginal Corporation (NAC)

NAC is established under the Native Title Act 1993 by the Ngarluma people to represent the Ngarluma people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed NAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that NAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 29.1).
- On 26 July 2023, Woodside emailed NAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 29.2).
- **(1)** On 18 September 2023, NAC emailed Woodside proposing the establishment of a joint working group to manage the consultation process for Woodside's environmental plans. NAC explained the purpose of the group and noted the positions and roles of the NAC representatives that would be included in the working group. NAC also discussed seeking funding from Woodside to support the formation of this new working group and pointed out key actions moving forward, the timeframe of events and attached a budget summary (SI Report, reference 29.3).
- On 10 October 2023, Woodside emailed NAC approving the proposal in principle and affirming that Woodside is looking forward to ongoing consultation. Woodside stated that some administrative process still needed to be arranged and asked for NAC's availability to schedule a meeting (SI Report, reference 29.4).
- On 19 October 2023, Woodside emailed NAC following up on previous correspondence and asking for a response to the email sent on 10 October 2023 (SI Report, reference 29.5).
- **(1)** On 19 October 2023, NAC emailed Woodside advising NAC would share a draft engagement letter with Woodside soon. NAC also requested for Woodside to share the expected agenda for the upcoming sessions and advise if there were any urgent matters pending (SI Report, reference 29.6).

Summary of information provided and record of consultation for this EP:

- On 2 November 2023, Woodside emailed NAC outlining top priorities and listed future EPs for consultation. Woodside included a link to the Consultation Information Sheet for this activity and requested feedback regarding the activity (SI Report, reference 29.7).
- On 3 November 2023, Woodside emailed NAC with a future EP priority list which included this EP, with a link to the Consultation Information Sheet. Woodside also asked NAC for their availability over the next two weeks (SI Report, reference 29.8).
- **(1)** On 3 November 2023, NAC emailed Woodside advising that the draft engagement protocol would be shared on this date and noting that once executed, operational matters could be addressed in the first working group meeting. NAC also requested an estimation of the timeframe for working through the list (SI Report, reference 29.9).
- **(1)** On 3 November 2023, NAC emailed Woodside a draft engagement protocol letter and stated that they look forward to closing out this matter and scheduling a meeting (SI Report, reference 29.10).
- On 13 November 2023, Woodside emailed NAC acknowledging that Woodside noted that NAC were not available for consultation prior to 25 November 2023, noting that Woodside would respond to the draft engagement protocol as soon as possible (SI Report, reference 29.11).
- **(1)** On 13 November 2023, NAC emailed Woodside noting there were no other urgent EP consultations, noting this EP (among others) had previously been flagged for consultation and requiring the engagement protocol be in place prior to any meetings occurring (SI Report, reference 29.12).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 17 November 2023 Woodside emailed NAC advising of the proposed activity (Record of Consultation, reference 1.70) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that NAC and its members may have within the EMBA, information on how NAC would like to engage, and requested that NAC provide information to other individuals as required.

Quarterly Heritage Meetings:

Woodside convenes a quarterly meeting of Traditional Custodian representatives from the Representative Aboriginal Corporations involved in historical native title claims over the Burrup Peninsula, including NAC. Individual attendees are nominated by their representative Aboriginal Corporations. These meetings are summarised separately in this table.

Ongoing Engagement:

- (1) On 1 March 2024, Woodside emailed NAC a draft consultation framework agreement for review (SI Report reference, 29.13).
- (1) On 26 April 2024, Woodside emailed NAC reminding that Woodside had sent a draft consultation agreement to NAC for review and comment, and requesting a status of the review (SI Report, reference 29.14).
- On 1 August 2024, Woodside emailed NAC, following-up on previous emails about the draft consultation agreement (SI Report, reference 29.15).
- On 5 September 2024, Woodside emailed NAC a reminder about the Quarter 3 Heritage Meeting (SI Report, reference 29.16).
- On 9 September 2024, Woodside invited NAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 29.17).
- On 25 September 2024, Traditional Owner members from NAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 29.18).
- On 3 October 2024, Woodside invited NAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 29.19).
- On 10 October 2024, Woodside hosted the Quarter 3 Heritage Meeting in Roebourne. Woodside provided business and activity updates to NAC during the meeting (SI Report, reference 29.20).
- On 23 October 2024, Traditional Owner members from NAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 29.21).

Ongoing Relationship

- Woodside continues to pursue an ongoing two-way relationship with NAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
---	--	-------------------------------

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(1) NAC proposed establishing a Joint Working Group to engage in meetings with Woodside for ongoing consultation. NAC noted it had they have capacity issues and require resourcing to cover costs of meeting.</p>	<p>(1) Woodside assessment: Woodside acknowledges NAC proposal to establish a Joint Working Group for ongoing consultation. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside will establish an agreement with NAC to work with the NAC Working Group. The agreement and Working Group would be used to frame ongoing consultation during the life of the EP. Sufficient information to allow informed assessment has already been provided by other means, including summary sheets developed by Indigenous staff.</p>	<p>(1) Existing controls considered sufficient as described in Section 6 and 7.</p>
<p>While feedback has been received, there are objections or claims.</p>	<p>Woodside accepts that NAC has no feedback on this activity at this time. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (See Section 7.1.16 of this EP.</p>	<p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NAC through ongoing engagement and continue to progress with establishing a framework agreement as part of Woodside's Program of Ongoing Engagement with Traditional Custodians (Appendix G). No additional measure or controls required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> • Woodside sought direction on NAC's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation. • Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to NAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format. • Confirmed the purpose of consultation and set out in detail what is being sought through consultation. 		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that NAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to NAC over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked NAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25(1) of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NAC functions, interests or activities.

Yindjibarndi Aboriginal Corporation

YAC is established under the Native Title Act 1993 by the Yindjibarndi people to represent the Yindjibarndi people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- **(1)** On 6 and 7 July 2023, Woodside called Yindjibarndi who reiterated they would prefer that comments come from coastal Aboriginal Corporations and not themselves (SI Report, reference 30.1 – 30.2).
- On 18 July 2023, Woodside emailed Yindjibarndi NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Yindjibarndi advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 30.3). No response was received to this email.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 26 July 2023, Woodside emailed Yindjibarndi Woodside’s planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 30.4).
- **(2)** On 1 August 2023, Yindjibarndi emailed Woodside acknowledging 26 July 2023 email, and advising that NYFL would manage Oil and Gas matters on behalf of Yindjibarndi (SI Report, reference 30.5). **(1, 2)** Woodside noted this response for ongoing engagement with Yindjibarndi.

Summary of information provided and record of consultation for this EP:

- On 19 October 2023, Woodside emailed Yindjibarndi (via NYFL) of the proposed activity (Record of Consultation, reference 1.71) and provided a Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Yindjibarndi and its members may have within the EMBA, information on how Yindjibarndi would like to engage, and requested that Yindjibarndi provide information to other individuals as required.
- On 9 January 2024, Woodside emailed YAC via NYFL to request a meeting to discuss Ngujima-Yin & Pyrenees Projects or any other EPS deemed relevant to the NYFL and YAC community (SI Report, reference 30.6).

Ongoing Engagement:

- On 9 September 2024, Woodside invited YAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 30.7).
- On 25 September 2024, Traditional Owner members from YAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 30.8).
- On 3 October 2024, Woodside invited YAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners (SI Report, reference 30.9).
- On 23 October 2024, Traditional Owner members from YAC attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 30.10)
- On 2 November 2024, Woodside hosted a stall at the Dampier community Markets. The stall enabled the community to provide input on EPs. Members of YAC participated in discussions about Woodside's activities during the event (Record of Consultation, reference 3.3.12).

See NYFL on behalf of Yindjibarndi below for record of further engagement.

Ongoing Relationship:

- Woodside continues to pursue an ongoing two-way relationship with Yindjibarndi on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1) Yindjibarndi expressed that they would prefer that Traditional Owner groups with land and sea adjacent	(1) Woodside assessment: Woodside accepts Yindjibarndi’s right to be represented at its own choosing.	(1) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>to and within the precinct of the projects provide comment.</p>	<p>Woodside response: Woodside will engage with NYFL on behalf of Yindjibarndi for ongoing consultation related to this activity.</p>	
<p>(2) Yindjibarndi has instructed Woodside that it will be represented by NYFL in ongoing discussion about EPs.</p>	<p>(2) Woodside assessment: Woodside notes that Yindjibarndi has instructed that it will be represented by NYFL in ongoing discussions about EPs. Woodside response: Woodside will engage with NYFL on behalf of Yindjibarndi for ongoing consultation related to this activity, separate from consultation under regulation 25 of the Environment Regulations. Woodside accepts that Yindjibarndi/NYFL has no feedback on this activity at this time.</p>	<p>(2) Future correspondence will be sent through NYFL. Existing controls considered sufficient as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NYFL through ongoing engagement and continue to progress with establishing a framework agreement as part of Woodside's Program of Ongoing Engagement with Traditional Custodians (Appendix G).</p>
<p>During consultation engagement related to this activity and others since October 2023, Yindjibarndi/NYFL has provided no feedback, questions or objections to the activity.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measurements or controls required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation Yindjibarndi Aboriginal Corporation (YAC) for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> • Woodside sought direction on Yindjibarndi's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation. • Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to Yindjibarndi. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format. • Articulated planned and unplanned environmental risks and impacts, with proposed controls. 		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Confirmed the purpose of consultation and set out in detail what was being sought through consultation.
- Asked for the information and request for feedback be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan".
- Advised that Yindjibarndi can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with Yindjibarndi in October 2023. Woodside has responded to Yindjibarndi over 13 months, demonstrating a "reasonable period" of consultation.

Woodside asked Yindjibarndi if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Yindjibarndi functions, interests, or activities.

Malgana Aboriginal Corporation (Malgana)

Malgana is established under the Native Title Act 1993 by the Malgana people to represent the Malgana people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 19 July 2023, Woodside emailed Malgana NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Malgana advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 31.1).
- On 26 July 2023, Woodside emailed Malgana Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 31.2).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1) On 1 August 2023, Malgana emailed Woodside with thanks for information requested about another activity noting that Malgana was looking to get an environmental consultant to provide advice to their Board, noting they were seeking quotes and would come back to Woodside for cost approval (SI Report, reference 31.3). (1) Woodside noted this response.

Summary of information provided and record of consultation for this EP:

- On 11 October 2023, Woodside emailed Malgana advising of the proposed activity (Record of Consultation, reference 1.73) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Malgana and its members may have within the EMBA, information on how Malgana would like to engage, and requested that Malgana provide information to other individuals as required.
- On 20 October 2023, Woodside emailed an alternate contact at Malgana (the registered contact person), requesting feedback/further information about activities that Malgana had previously been notified about by Woodside and offered assistance to Malgana for consultation if required. Woodside re-attached earlier emails and requested the information be forwarded to any members and other individuals or groups who may have interests (SI Report, reference 31.4).
- On 26 October 2023, Woodside attempted to call Malgana on the phone number listed on the website of the Office of the Registrar of Indigenous Corporations (ORIC) but the number was not connected. Woodside emailed Malgana following up on the proposed activities and requesting feedback and re-iterating an offer of assistance if required by Malgana about the activities (SI Report, reference 31.5).
- On 2 November 2023, Woodside again emailed Malgana following up on proposed activities and requesting feedback (SI Report, reference 31.6).
- On 2 February 2024, Woodside emailed Malgana referencing previous emails sent by Woodside in October and November 2023 about this activity. Woodside informed Malgana that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with Malgana at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments received post 23 February 2024 (SI Report, reference 31.7).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Nanda on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) During previous consultation in relation to separate activities Malgana noted that their funding was restricted for these types of engagement and requested funding support, including an environmental consultant to advise the Board.</p>	<p>(1) Woodside assessment: Woodside acknowledges Malgana’s funding is restricted for these types of engagements, and that Malagna has requested funding support, including an environmental consultant to advise the Board. Woodside response: Woodside supports ongoing engagement and have responded to Malgana’s</p>	<p>(1) Although consultation for the purpose of regulation 25(1) of the Environment Regulations is complete, Woodside will continue to engage with Malgana through ongoing engagement and continue to progress with establishing a framework agreement as part of Woodside’s Program of Ongoing Engagement with Traditional Custodians (Appendix</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>advice about the limitations on their resources. Woodside has offered to support Malgana in correspondence including support for environmental expertise supplying names of organisation that Malgana may want to consider conducting the work, however these offers have not yet been taken up yet.</p> <p>Woodside has assessed the Program of Ongoing Engagement with Traditional Custodians will support ongoing consultation with Malgana and address appropriate support for resourcing, separate from consultation under regulation 25 of the Environment Regulations. Sufficient information to allow informed assessment has already been provided by other means, including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members.</p>	<p>G). This includes addressing Malgana’s resourcing issue for ongoing consultation via a Framework Agreement.</p> <p>Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Based on the engagement to date, no additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Malgana for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Malgana’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.
- Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to Malgana. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Confirmed the purpose of consultation and set out in detail what was being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan".
- Advised that Malgana can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with Malgana in October 2023. Woodside has addressed and responded to Malgana over 13 months, demonstrating a "reasonable" period of consultation.
- Woodside asked Malgana if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Malgana's functions, interests or activities.

Wanparta Aboriginal Corporation

Wanparta is established under the Native Title Act 1993 by the Ngarla people to represent the Ngarla people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed Wanparta NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Wanparta advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 32.1).
- On 26 July 2023, Woodside emailed Wanparta Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 32.2).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(1)** On 31 August 2023, Woodside met with the Wanparta Board on another activity, at that meeting Wanparta stated their sea country values noting that water and the ocean was extremely important to them, and they had a responsibility to look after ocean and lore. They noted the bream, octopus, stingray and kestrel as totemic species.

Summary of information provided and record of consultation for this EP:

- On 4 October 2023, Woodside phoned Wanparta to check in and consult on upcoming matters (SI Report, reference 32.3).
- On 4 October 2023, Woodside emailed Wanparta following up with a summary of the previous phone call (SI Report, reference 32.4). The outcomes of the phone discussion were:
 - **(2)** Wanparta's interest in a Wanparta Ranger program and EP funding.
 - **(2)** Wanparta's interest in a Karratha Gas Plant visit, as well as possible school visits and Perth Office visits.
 - Wanparta's request for updates on EPs unrelated to this one.
 - Woodside's query into Wanparta's thoughts on a formal authorisation/consent/endorsement process regarding future EPs.
- On 5 October 2023, Woodside emailed Wanparta advising of the proposed activity (Record of Consultation, reference 1.72) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that Wanparta and its members may have within the EMBA, information on how Wanparta would like to engage, and requested that Wanparta provide information to other individuals as required.
- **(3)** On 6 October 2023, Wanparta emailed Woodside thanking them for the previous summary email (5 October 2023) and stated that it will bring all the 4 October 2023 items to the Board for further consideration and would revert shortly after (SI Report, reference 32.5).
- On 7 November 2023, Woodside emailed Wanparta following up previous correspondence (6 October 2023) and to check if there was any further information Wanparta would like from Woodside regarding this EP (SI Report, reference 32.6). No response was received.

Ongoing engagement:

- **(4)** On 13 November 2023, Wanparta emailed Woodside requesting funding to assist with ongoing consideration of Woodside EPs. Wanparta noted the consultation meeting to be held between Wanparta and Woodside in February 2023 (SI Report, reference 32.7).
- **(4)** On 22 November, Woodside acknowledged Wanparta's requests and agreed to seek out available options for funding (SI Report, reference 32.8).
- From 24 - 28 November 2023, Woodside and Wanparta exchanged emails seeking availability for a phone call (SI Report, reference 32.9 – 32.12).
- **(4)** On 30 November 2023, Wanparta emailed Woodside in relation to a financial matter unrelated to this EP, also suggesting a date for a directors' meeting for the purposes of ongoing consultation across EPs in Karratha on 23 February 2023 (SI Report, reference 32.13).
- **(2, 3)** On 24 April 2024, Woodside met with Wanparta at Murujuga. Woodside presented an overview of EPs and ongoing consultation in 2024, and provided information on another activity, Aboriginal employment, and ranger programs. Wanparta informed Woodside that there were no issues following the discussion (SI Report, reference 32.14).
- On 6 May 2024, Wanparta emailed Woodside following the meeting on 24 April 2024 (SI Report, reference 32.15). Matters relevant to this EP include:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1) The Ngarla People have a deep spiritual connection to Sea Country.
- (1) The Ngarla peoples' totem species – the octopus, stingray, spiny bream fish and kestrel are of great significance.
- (1) The protection and management of marine life and healthy ocean plays a significant role in their lore, culture and customs.
- (1) On 30 May 2024, Woodside emailed Wanparta thanking for the opportunity to meet the Board and acknowledges and supports the significance of the Ngarla's People totem species, the continue protection and management of marine life, and their right to practice lore, culture and custom (SI Report, reference 32.16).

Ongoing relationship

- Woodside continues to pursue an ongoing two-way relationship with Wanparta on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Wanparta stated that water and the ocean were extremely important to them, and they had a responsibility to look after ocean and lore. They noted the bream, octopus, stingray and kestrel as totemic species.</p>	<p>(1) Woodside assessed Wanparta's interest in water and the species described to represent potential cultural values.</p>	<p>(1) Woodside updated Section 4.9 to record WAC's interests and potential cultural values and assessed potential impact on these, including controls, in Section 6 and 7. Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on environment plans. This is described further in the Program of Ongoing Engagement with Traditional Custodians (Appendix G). This includes continued engagement regarding the proposed Framework Agreement which will be applied to ongoing consultation.</p>
<p>(2) Wanparta expressed interest in a range of social investment opportunities including a ranger program. Wanparta stated their interest in ongoing engagement with Woodside. Wanparta are currently discussing these issues at Board level.</p>	<p>(2) Woodside assessment: Woodside acknowledges Wanparta's interest in social investment opportunities, including a ranger program, as well as Wanparta's interest in engaging in an ongoing engagement framework. Woodside response: Woodside is continuing to work with Wanparta regarding social investment opportunities. Woodside considers all funding requests and supports funding within reasonable parameters. Separate from consultation under</p>	<p>(2) Woodside updated Section 4.9 to record WAC's interests and potential cultural values and assessed potential impact on these, including controls, in Section 6 and 7. Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on environment plans. This is described further in the Program of Ongoing Engagement with Traditional Custodians (Appendix G).</p>

	<p>opportunities. Woodside considers all funding requests and supports funding within reasonable parameters. Separate from consultation under regulation 25 of the Environment Regulations, Woodside has commenced discussion with Wanparta about a framework agreement for ongoing engagement. Wanparta intended to discuss the proposal with their Board during their meeting in October. Woodside will follow up on a response and seek to reach a Framework Agreement during early 2024. The Framework Agreement is an effective mechanism for social investment opportunities, including for the ranger program. Sufficient information to allow informed assessment has already been provided by other means, including summary sheets developed by Indigenous staff, a face-to-face meeting with appropriate material (pictures, maps, video) and project attendance allowing opportunity to ask questions and seek further understanding.</p>	
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Wanparta Aboriginal Corporation for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Wanparta’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Wanparta. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that Wanparta can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside has provided Wanparta Aboriginal Corporation with the opportunity to provide feedback over 13 months, demonstrating a "reasonable" period of consultation.
- Woodside asked Wanparta Aboriginal Corporation if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Wanparta Aboriginal Corporation's functions, interests or activities.

Nanda Aboriginal Corporation

Nanda is established under the Native Title Act 1993 by the Nanda people to represent the Nanda people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 273 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Historical Engagement:

- On 21 July 2023, Woodside emailed Nanda NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Nanda advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 33.1).
- On 25 July 2023, Woodside emailed Nanda (via YMAC) Woodside's planned Program of Ongoing Engagement with Traditional Custodians.

Summary of information provided and record of consultation for this EP:

- On 23 October 2023, Woodside emailed Nanda (via YMAC) advising of the proposed activity (Record of Consultation, reference 1.78) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website). The email requested information on the interests that Nanda and its members may have within the EMBA, information on how Nanda would like to engage, and requested that Nanda provide information to other individuals as required.
- On 13 November 2023, Woodside emailed YMAC noting that the previous email had included the Consultation Information Sheet, not the Summary Information Sheet. Woodside attached a copy of the Summary Information Sheet (SI Report, reference 33.2).
- On 14 December 2023, Woodside emailed YMAC attaching the Program of Ongoing Consultation and advising that Woodside would like to progress negotiations on consultation frameworks with groups represented by YMAC (including Nanda) (SI Report, reference 33.3). Woodside proposed the protocol would include (among other things):
 - The procedures Woodside would follow when a submission required consultation.
 - Initial and ongoing consultation in relation to activities.
 - Agreement as to how Woodside would provide Nanda with the information Nanda required to make free, prior and informed decisions about Woodside's Environmental Plans.
 - Agreement as to how Nanda would provide feedback and how that could best be represented in EPs.
 - On an agreed schedule of rates for Nanda's participation in consultation.
 - How to manage the outputs of the consultations.
- On 21 December 2023, Woodside emailed Nanda (via YMAC) providing a list of Woodside's upcoming activities as requested (SI Report, reference 33.4).

Ongoing Engagement:

- On 28 February 2024, Woodside emailed Nanda (via YMAC) a draft consultation agreement for consideration, which sets out the aims of the proposed consultation, agreement details and a consultation meeting framework. Woodside invited Nanda (via YMAC) to propose a schedule of rates and other details relating to Woodside's engagements (SI Report, reference 33.5).
- (1) On 29 February 2024, Nanda (via YMAC) emailed Woodside acknowledging receipt of the email and agreement, and would provide a response (SI Report, reference 33.6).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(1)** On 27 June 2024, Woodside emailed Nanda (via YMAC) seeking an update on the status of YMAC’s review of the consultation framework agreement provided on 25 February 2024, which incorporates Nanda, Nyangumarta Warrarn Aboriginal Corporation, and Nganhurra Thanardi Garrbu Aboriginal Corporation (SI Report, reference 33.7).
- **(1)** On 28 June 2024, Nanda (via YMAC) emailed Woodside acknowledging that progress had been made to plan for consultation and Nanda was keen to progress the agreement in partnership with Woodside (SU Report, reference 33.8). Nanda (via YMAC) requested a Word version of the draft constitution agreement, and informed that it was in the process of proposing dates for woodside to meet with NTGAC and Nanda Board of Directors to discuss:
 - Finalising the agreement
 - Establishing a meeting schedule, as per the agreement.
 - Discussing upcoming Woodside EPs.
- **(1)** On 1 July 2024, Woodside emailed Nanda (via YMAC), providing a Word version of the agreement and acknowledging that YMAC would provide available dates for Nanda and NTGAC Board meetings (SI Report, reference 33.9).
- On 10 July 2024, Nanda (via YMAC) emailed Woodside confirming receipt of the Word version of draft agreement, and would provide amendments for Woodside’s review, as well as providing a date for a Board meeting (SI Report, reference 33.10).

Ongoing Relationship:

- Woodside continues to pursue an ongoing two-way relationship with Nanda on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) Nanda via YMAC to develop first draft of a Consultation Agreement.</p>	<p>(1) Woodside assessment: Woodside is supportive of a consultation agreement and has a commitment to ongoing consultation with Traditional Custodians for the life of an EP. Woodside response: Separate from consultation for this activity under regulation 25 of the Environment Regulations, Woodside has sent a draft agreement to Nanda via YMAC. This would be used to frame ongoing consultation to occur as part of Woodside’s commitment to consultation post regulation 25 of the Environment Regulations. The draft agreement is under review by NTGAC/YMAC.</p>	<p>(1) Woodside is implementing a program to actively support Traditional Custodians’ capacity for ongoing engagement and consultation on EPs (Appendix G). This includes continued engagement regarding Nanda and Woodside’s proposed draft Consultation Agreement and potential opportunities for alignment with NTGAC’s Strategic Plan. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to consult following acceptance of the EP, as required by the implementation strategy as set out in regulation 35(7) of the Environment Regulations.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside accepts that Nanda has no feedback on the activity at this time.</p> <p>Woodside has assessed the Program of Ongoing Engagement with Traditional Custodians will support ongoing consultation with Nanda and address appropriate support for resourcing, separate from consultation under regulation 25 of the Environment Regulations, Sufficient information to allow informed assessment has already been provided by other means, including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>Although consultation for the purpose of regulation 25 of the Environment Regulations, Woodside will continue to engage with Nanda as part of ongoing engagement (Section 7.10 of the EP).</p> <p>No additional measures or control required.</p>
--	--	---

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Nanda Aboriginal Corporation for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Nanda's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Nanda. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan."

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Advised that Nanda can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Nanda over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked Nanda if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Nanda functions, interests or activities.

Gogolanyngor Aboriginal Corporation (GAC)

GAC is established under the Native Title Act 1993 by the Jabirr Jabirr/Ngumbarl and Bindunbur people to represent the Jabirr Jabirr/Ngumbarl and Bindunbur people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed GAC NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that GAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 34.1).
- On 26 July 2023, Woodside emailed GAC Woodside’s planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 34.2).

Summary of information provided and record of consultation for this EP:

- On 6 October 2023, Woodside emailed GAC advising of the proposed activity (Record of Consultation, reference 1.79) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that GAC and its members may have within the EMBA, information on how GAC would like to engage, and requested that GAC provide

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

information to other individuals as required. The email requested information on the interests that GAC and its members may have within the EMBA. Woodside also suggested a lunch meeting in Broome the following week.

- (1) On 7 October 2023, GAC responded thanking Woodside for its email and confirming it would be available to meet in Broome the following week (SI Report, reference 34.3).
- (1) On 7 October 2023, Woodside thanked GAC for its email and confirmed it would try to line up a meeting in Broome (SI Report, reference 34.4).
- On 18 October 2023, Woodside emailed GAC to follow up if there were any questions regarding the EP and requested a suitable time to call (SI Report, reference 34.5).
- (2) On 19 October 2023, GAC emailed Woodside and confirmed it had briefly seen the consultation material and would follow up (SI Report, reference 34.6). No response has been received.
- (2) On 3 November 2023, Woodside emailed GAC following up on previous correspondence and requesting to meet in person in Broome the following week (SI Report, reference 34.7). No response has been received.

Ongoing Relationship:

- Woodside continues to pursue an ongoing two-way relationship with GAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) GAC advised it was available to meet Woodside in Broome.</p>	<p>(1) Woodside assessment: Woodside noted GAC’s interest in a meeting. Woodside response: Woodside proposed several potential dates to meet with GAC in November.</p>	<p>(1) Not required.</p>
<p>(2) GAC confirmed it had received the consultation information but has not provided feedback, objections to date or claims in response to the information provided since consultation commenced in October 2023.</p>	<p>(2) Woodside assessment: Woodside accepts that GAC has no current feedback on the activity at this time. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with GAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the</p>	<p>(2) Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with GAC as part of ongoing engagement (Section 7.10 of the EP).</p>

	purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to GAC will be for the purpose of ongoing engagement.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with GAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on GAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to GAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that GAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Woodside has addressed and responded to GAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked GAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on GAC functions, interests or activities.

Nimanburr Aboriginal Corporation

Nimanburr is established under the Native Title Act 1993 by the Nimanburr people to represent the Nimanburr people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement:

- On 18 July 2023, Woodside emailed KLC on behalf of Nimanburr NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that Nimanburr advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 35.1).
- On 6 October 2023, Woodside phoned Nimanburr who invited them to visit their community on the 10 October 2023 (SI Report, reference 35.2).
- On 6 October 2023, KLC emailed Woodside with a formal invitation to meet and present at their Nimanburr Director’s meeting on the 13 October 2023 (SI Report, reference 35.3).

Summary of information provided and record of consultation for this EP:

- On 10 October 2023, Woodside met with Nimanburr in person on Country and hand delivered the below documents and explained the proposed activity (SI Report, reference 35.4). At this meeting Woodside also:
 - Provided a Consultation Information Sheet and explained the proposed activity.
 - Explained the EMBA and how it was developed.
 - Asked if there were any cultural values, they wished to share with Woodside, noting that information could be kept confidential.
 - Asked if there were any relevant persons that Woodside should consult with to which Nimanburr replied; no.
 - **(1, 1)** Asked if Nimanburr had any further questions or concerns for this EP, to which Nimanburr replied; no.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Confirmed that Nimanburr would like to be consulted on a quarterly basis about Woodside activities with consultation to take place out on Nimanburr community.

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Nimanburr on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) Nimanburr advised it had no questions or concerns for the EP.</p>	<p>(1) Woodside assessment: Woodside accepts that Nimanburr has no feedback or concerns for this EP. Woodside response: Woodside accepts that Nimanburr has no feedback or concerns for this EP. Sufficient information to allow informed assessment has already been provided including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members, and a face-to-face meeting on 10 October 2023.</p>	<p>(1) Existing controls considered sufficient as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with Nimanburr as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Nimanburr for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Nimanburr’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Nimanburr. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that Nimanburr can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Nimanburr over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked Nimanburr if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25(1) of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Nimanburr functions, interests or activities.

Nyul Nyul PBC Aboriginal Corporation (NNAC)

NNAC is established under the Native Title Act 1993 by the Nyul Nyul people to represent the Nyul Nyul people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 20 July 2023, Woodside emailed NNAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that NNAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 36.1).

Summary of information provided and record of consultation for this EP:

- On 6 October 2023, Woodside emailed NNAC advising of the proposed activity (Record of Consultation, reference 1.97) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that NNAC and its members may have within the EMBA, information on how NNAC would like to engage, and requested that NNAC provide information to other individuals as required.
- On 26 October 2023, Woodside emailed NNAC/KLC requesting an opportunity to meet with NNAC and consult on EPs, informing that they were happy to pay reasonable sitting costs (SI Report, reference 36.2).
- (1) On 26 October 2023, NNAC/KLC emailed Woodside thanking them for their email and informed Woodside that the NNAC Board would like to meet for a consultation workshop (SI Report, reference 36.3).
- (1) On 1 November 2023, Woodside emailed NNAC/KLC and responded that they would be happy to coordinate and fund the consultation workshop and requested a 3–4-hour time slot (SI Report, reference 36.4).
- (1) On 6 November 2023, NNAC/KLC emailed Woodside informing that they would seek confirmation from NNAC, but that Woodside should expect a meeting date suggesting February 2024 (SI Report, reference 36.5).

Ongoing Relationship:

Woodside continues to pursue an ongoing two-way relationship with NNAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) NNAC proposed a meeting date suggesting February 2024 to discuss Environment Plans, in response to Woodside's requests to meet and offer to pay reasonable meeting costs.</p> <p>While feedback has been received, there were no objections or claims.</p>	<p>(1) Woodside assessment: Woodside acknowledges NNAC's request to meet and discuss EPs, and offer to pay reasonable meeting costs.</p> <p>Woodside response: Sufficient information to allow informed assessment has already been provided including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members. Woodside looks forward to continuing engagement with NNAC in February</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NNAC as part of ongoing engagement (Section 7.10 of the EP).</p> <p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>No additional measures or controls required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>2024 and will pay reasonable costs as offered to NNAC.</p> <p>Woodside accepts that NNAC has no feedback on the activity at this time.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	
--	---	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NNAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on NNAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to NNAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that NNAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Woodside has addressed and responded to NNAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked NNAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NNAC functions, interests or activities.

Karajarri Traditional Lands Association (Aboriginal Corporation) (KTLA)

KTLA is established under the Native Title Act 1993 by the Karajarri people to represent the Karajarri people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 24 July 2023, Woodside emailed KTLA NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that KTLA advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 37.1).
- On 26 July 2023, Woodside emailed KTLA Woodside’s planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 37.2).

Summary of information provided and record of consultation for this EP:

- On 2 October 2023, Woodside emailed KTLA advising of the proposed activity (Record of Consultation, reference 1.81) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that KTLA and its members may have within the EMBA, information on how KTLA would like to engage, and requested that KTLA provide information to other individuals as required.
- On 13 October 2023, Woodside sent a follow up email seeking to confirm the best contact person at KTLA as Woodside had not received a response to its initial email (SI Report, reference 37.3). A copy of the initial email was attached.
- On 14 November 2023, Woodside sent a follow up email enquiring if there is any further information needed and attached a copy of the Environment Plan Summary sheet. Woodside also requested for the opportunity to meet (SI Report, reference 37.4).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 23 January 2024, Woodside emailed KTLA informed KTLA that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside offered to meet with KTLA at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 37.5).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with KTLA on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback objections or claims received despite follow-up.	Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with KTLA (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to KTLA will be for the purpose of ongoing engagement. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with KTLA as part of ongoing engagement (Section 7.10 of the EP). Existing controls considered sufficient, as described in Section 6 and 7. No additional measures or controls required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with KTLA for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on KTLA’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to KTLA. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that KTLA can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to KTLA over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked KTLA if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on KTLA functions, interests or activities.

Nyangumarta Warrarn Aboriginal Corporation (NWAC)

NWAC is established under the Native Title Act 1993 by the Nyangumarta people to represent the Nyangumarta people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed NWAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that NWAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 38.1).
- On 26 July 2023, Woodside emailed NWAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 38.2).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of information provided and record of consultation for this EP:

- On 2 October 2023, Woodside emailed NWAC advising of the proposed activity (Record of Consultation, reference 1.83) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that NWAC and its members may have within the EMBA, information on how NWAC would like to engage, and requested that NWAC provide information to other individuals as required.
- On 11 October 2023, Woodside emailed seeking an alternative NWAC contact to arrange a meeting (SI Report, reference 38.3).
- On 12 October 2023, Woodside phoned NWAC's Operations Manager but there was no answer.
- On 18 October 2023, Woodside emailed an alternative YMAC contact seeking an opportunity to speak to the contact person for NWAC (SI Report, reference 38.4).
- On 18 October 2023, NWAC sent a mobile text message asking Woodside to call back on the 19 October 2023.
- On 19 October 2023, Woodside phoned NWAC. Both parties have committed to future engagements.
- On 19 October 2023, Woodside emailed NWAC with a request for a cost estimation and offered to meet at a time and place that was suitable to NWAC (SI Report, reference 38.5). No response has been received.
- On 24 November 2023, Woodside emailed NWAC (via YMAC) introducing themselves and submitted a set of questions requesting their response in an effort to enhance their relationship. Woodside queried best contact details regarding consultation matters (SI Report, reference 38.6).
- On 24 November 2023, NWAC (via YMAC) emailed Woodside their communications protocol. NWAC noted additional expenses would be involved and committed to preparing a budget for Woodside's consideration (SI Report, reference 38.7).
- On 27 November 2023, Woodside emailed NWAC (via YMAC) thanking them for their response and re-iterating that Woodside would meet at the place and time suitable to NWAC (SI Report, reference 38.8).
- On 11 December 2023, Woodside met with NWAC (SI Report, reference 38.9), Woodside:
 - Described the EP framework, referring to the Offshore Petroleum and Greenhouse Gas Storage Act (Environment) Regulations, NOPSEMA's role as regulator and general contents of EPs.
 - Displayed a map of activities open for feedback to be discussed in the meeting and provided a list of other upcoming activities open for consultation.
 - Woodside provided an overview of this activity, explaining that these were floating vessels and not permanent rigs.
 - Woodside explained the difference between crude, gas and condensate.
 - Described the types of vessels involved.
 - Described planned and unplanned environmental risks and impacts in accordance with tables provided in the Information Sheets for the activities, emphasising that unplanned risks are not expected to occur and are unlikely.
 - Displayed and spoke to the EMBA and how they are developed.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Stated that Woodside wanted to understand how the functions, activities, or interests of NWAC and the people it represents may be impacted by any of those activities.
- Specifically asked the following:
 - How could these activities impact your cultural values, interests, and activities - does protecting the environment do enough to protect your cultural values?
 - What are your concerns about the proposed activities and what do you think we should do about them?
 - Is there anything you would like included in the EPs before submission?
 - Is there anyone else Woodside should consult with about the activities?
 - (1) NWAC asked what it would mean if a spill reached Eighty Mile Beach. Woodside responded that they would bring other subject experts to future meetings.
 - (2) Senior Elder said she would like to speak with other Elders following this meeting.
 - (3) NWAC said they believe future meetings would be required.
 - Woodside advised that it would continue to take feedback from NWAC for the life of the EP.
- On 11 December 2023, Woodside emailed NWAC (via YMAC) thanking them for the meeting and sharing contact details (SI Report, reference 38.10).
- (1, 2) On 11 December 2023, Woodside emailed NWAC (via YMAC) thanking them for their availability to attend Woodside's presentation. Woodside provided a copy of the presentation given at the meeting and followed up on key topics discussed in the meeting and offered to provide further information regarding the activity (SI Report, reference 38.11).
- (4) On 14 December 2023, Woodside emailed YMAC attaching the Program of Ongoing Consultation and advised that Woodside wanted to progress negotiations on consultation frameworks with groups represented by YMAC (including NWAC) (SI Report, reference 38.12). Woodside proposed the protocol would include (among other things):
 - The procedures Woodside will follow when a submission requires consultation.
 - Initial and ongoing consultation in relation to activities.
 - Agreement as to how Woodside will provide NWAC with the information NWAC requires to make free, prior and informed decisions about Woodside's EPs.
 - Agreement as to how NWAC will provide feedback and how that can best be represented in EPs.
 - (5) An agreed schedule of rates for NWAC's participation in consultation.
 - How the outputs of the consultations will be managed.

Ongoing Engagement:

- (4) On 13 February 2024, Woodside emailed NWAC (via YMAC) seeking opportunities for EP consultations for upcoming activities in first half of 2024 (SI Report, reference 38.13).

- (4) On 28 February 2024, Woodside emailed NWAC (via YMAC) draft consultation agreements for consideration that include aims of consultation, proposed consultation agreement details and a consultation meeting framework. (5) Woodside invites YMAC to propose a schedule of rates and other details relating to its engagements (SI Report, reference 38.14).
- On 27 June 2024, Woodside emailed NWAC to seek an update if NWAC’s review of the consultation agreement (SI Report, reference 38.15).
- On 10 July 2024, NWAC (via YMAC) confirmed receipt of the draft agreement. NWAC confirmed it will provide comment on the draft agreement and suggested a meeting with Woodside (SI Report, reference 38.16).
- Between 3 and 23 October 2024, Woodside and NWAC exchanged email correspondence regarding the details of the meeting (SI Report, reference 38.16, 38.17, 38.18, 38.19, 38.20, 38.21, 38.22, 38.23, 38.24).
- (3) On 24 October 2024, Woodside met with the NWAC Board at the YMAC office to provide an overview of Woodside’s activities and discuss unrelated EPs (SI Report, reference 38.25). Discussions included:
 - Woodside noted its openness to discussing ways PBCs can develop their Ranger Programs through training opportunities.
 - Woodside sought feedback on the most effective way to consult with NWAC
 - (6) NWAC discussed the impacts of migrating birds, whales, turtles and vegetation.
 - (6) Woodside acknowledged and reiterated the importance of ongoing consultation to ensure Traditional Owners are up to date with Woodside’s activities
- Woodside continues to pursue an ongoing two-way relationship with NWAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) NWAC asked what would happen if an oil spill reached Eighty Mile Beach.</p>	<p>(1) Woodside assessment: Woodside acknowledged NWAC’s query about an oil spill reaching Eighty Mile Beach. Woodside response: Woodside noted that they would bring subject experts to future meetings.</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>(2) NWAC Elder advised she would speak to other Elders about the information and NWAC said that further meetings should take place.</p>	<p>(2) Woodside assessment: Woodside acknowledges that Elders will need to be consulted after the meetings. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations. Woodside supports ongoing</p>	<p>(2) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NWAC as part of ongoing engagement (Section 7.10 of the EP). and continue to progress with establishing a Framework Agreement as part of Woodside’s Program of Ongoing Engagement with Traditional Custodians</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	engagement with NWAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to NWAC will be for the purpose of ongoing engagement.	(Appendix G). This includes resourcing NWAC for any reasonable request via the Framework Agreement.
(3) NWAC has requested further meetings with Woodside.	(3) Woodside assessment: Woodside engages in ongoing consultation throughout the life of an EP. This consultation can take the form of meetings. Woodside Response: Woodside has provided NWAC with a draft consultation agreement which includes proposed consultation agreement details and a consultation meeting framework.	(3) Not required.
(4) NWAC has provided Woodside with a Communications Protocol.	(4) Woodside assessment: An agreement with NWAC aligns with Woodside's Program of Ongoing Engagement with Traditional Custodians and will frame ongoing consultation processes. Woodside response: Woodside will finalise the draft agreement with NWAC which was sent to NWAC via YMAC in February 2024. It will be used to frame ongoing consultation during the life of EPs.	(4) Woodside's program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on EPs is currently being implemented. The draft agreement with NWAC (among other things) will set out the process for ongoing engagement. This is described further in the Program of Ongoing Engagement with Traditional Custodians, (Appendix G). Woodside will continue to consult following acceptance of the EP, as set out in Section 7.10 of the EP. No additional measures or controls are required.
(5) NWAC has sought funding for expenses relating to communications/consultation.	(5) Woodside assessment: The draft consultation agreement would be an effective mechanism to address resourcing for ongoing consultation.	(5) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside supports reasonable requests for resourcing. Woodside has invited NWAC via YMAC to propose a schedule of rates and other details as part of the draft consultation agreement.	
(6) NWAC discussed the impacts to migrating birds, whales, turtles and vegetation.	(6) Woodside assessment: Woodside has developed response plans to mitigate or avoid impacts on birds and marine mammals in the highly unlikely event of a hydrocarbon response. Woodside response: Woodside advised the impact on animals depended on the timing, duration and extent of a spill. Response options included tracking, protective barriers, shoreline clean-up techniques, prevention of contact with wildlife and rehabilitation of wildlife where contact occurs, and long-term monitoring of species and sites after a spill.	(6) The potential environmental impacts of planned and unplanned activities are assessed in Section 6.6, 6.7 and 6.8 of this EP.
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NWAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on NWAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to NWAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that NWAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to NWAC over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked NWAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NWAC functions, interests or activities.

Nyangumarta Karajarri Aboriginal Corporation (NKAC)

NKAC is established under the Native Title Act 1993 by the Nyangumarta and Karajarri people to represent the Nyangumarta and Karajarri people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 24 July 2023, Woodside emailed NKAC/KLC NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that NKAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 39.1).
- On 26 July 2023, Woodside emailed NKAC/KLC Woodside’s planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 39.2).

Summary of information provided and record of consultation for this EP:

- On 13 October 2023, Woodside emailed NKAC (via KLC) advising of the proposed activity (Record of Consultation, reference 1.84) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website). The email requested information on the interests that KLC and its members may have within the EMBA, information on how KLC would like to engage, and requested that KLC provide information to other individuals as required.
- On 18 October 2023, Woodside emailed NKAC (via KLC) confirming if the email sent from Woodside on 13 October 2023, had been received and passed along to Nyangumarta Karajarri Aboriginal Corporation (SI Report, reference 39.3).
- On 26 October 2023, KLC (representing NKAC) emailed Woodside to confirm receipt of emails and stated that they would pass on relevant information. KLC did note that turnaround times could be timely and delayed due to several factors (SI Report, reference 39.4).
- On 27 October 2023, Woodside emailed KLC asking for advice on forwarding a meeting request on to NKAC (SI Report, reference 39.5).
- On 23 January 2024, Woodside emailed NKAC (via KLC) advising that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside offered to meet with NKAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 39.6).
- On 23 January 2024, KLC (representing NKAC) emailed Woodside to confirm receipt of emails and stated they would pass on relevant information. KLC noted that turnaround times could be timely and delayed due to several factors (SI Report, reference 39.7).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with NKAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
NKAC has not provided feedback, objections to date or claims in response to the information provided since consultation commenced in October 2023. KLC, representing NKAC, has confirmed receipt of materials and has passed on to relevant persons. No feedback objections or claims received despite follow-up.	Woodside accepts that NKAC has no feedback on the activity at this time. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with NKAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NKAC as part of ongoing engagement (Section 7.10 of the EP). No additional measures or controls required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to NKAC will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	
--	---	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NKAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on NKAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to NKAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that NKAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Woodside has addressed and responded to NKAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked NKAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25(1) of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NKAC functions, interests or activities.

Yawuru Native Title Holders Aboriginal Corporation (Yawuru)

Yawuru is established under the Native Title Act 1993 by the Yawuru people to represent the Yawuru people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed Yawuru (NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that Yawuru advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 40.1).

Summary of information provided and record of consultation for this EP:

- On 19 October 2023, Woodside emailed Yawuru advising of the proposed activity (Record of Consultation, reference 1.85) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Yawuru and its members may have within the EMBA, information on how Yawuru would like to engage, and requested that Yawuru provide information to other individuals as required.
- On 24 January 2024, Woodside sent a follow up email to Yawuru informing them that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with Yawuru at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 40.2).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Yawuru on future opportunities to work together.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>No feedback objections or claims received despite follow-up.</p>	<p>Woodside accepts that Yawuru has no feedback on the activity at this time.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with Yawuru (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to Yawuru will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with Yawuru as part of ongoing engagement (Section 7.10 of the EP).</p> <p>No additional measure or controls required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Yawuru for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Yawuru's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Yawuru. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that Yawuru can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Yawuru over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked Yawuru if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Yawuru functions, interests or activities.

Esperance Tjaltjraak Native Title Aboriginal Corporation (ETNTAC)

Summary of information provided and record of consultation for this EP:

- On 3 October 2023, Woodside emailed ETNTAC advising of the proposed activity (Record of Consultation, reference 1.86) and provided a Summary Information Sheet (including a link to the detailed information sheet on Woodside's website). The email requested information on the interests that ETNTAC and its members may have within the EMBA. Woodside also provided a link to NOPSEMA's brochure "Consultation on offshore petroleum environment plans" alongside NOPSEMA's contact details.
- On 3 October 2023, ETNTAC emailed Woodside to confirm receipt of the email and noted the link to the detailed Consultation Information Sheet wasn't allowing access (SI Report, reference 41.1).
- On 3 October 2023, Woodside responded with a new link for the detailed Consultation Information Sheet (SI Report, reference 41.2).
- On 3 October 2023, ETNTAC responded thanking Woodside for the link (SI Report, reference 41.3) and asked:
 - **(1)** Woodside to summarise why it was seeking to engage with ETNTAC regarding the project.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (2) Why the limit of potential impact is Ravensthorpe and whether this is based on the potential impacts to coastal areas from a release of hydrocarbons as far east as Ravensthorpe, or another factor impacting inland areas as well.
- On 3 October 2023, Woodside responded (SI Report, reference 41.4) and:
 - (1, 2) Explained the methodology behind the EMBA and that the coast of Esperance falls within the catchment area.
 - (1) Provided some common Questions and Answers regarding what constitutes a relevant person and how an EMBA is determined. Woodside noted that following a Federal Court decision, it now consults much more broadly and consults with persons based on potential impacts from an unplanned event rather than planned impacts of a proposed offshore activity.
 - Provided direction and a link to the NOPSEMA website for further information on consultation guidelines and oil spilling modelling.
- On 24 October 2023, Woodside sent a follow-up email enquiring if ETNTAC had any questions relating to this EP and offered consultation sessions with the members and/or Board of ETNTAC (SI Report, reference 41.5). No response has been received.
- On 8 December 2023, Woodside emailed ETNTAC following up on previous correspondence and offering opportunity for consultation sessions with members and/or Board of ETNT during the festive period (SI Report, reference 41.6).
- On 19 December 2023, Woodside emailed ETNTAC wishing a happy festive season, thanking ETNTAC for their contributions throughout the year and offering availability for consultation sessions (SI Report, reference 41.7).
- On 22 December, ETNTAC emailed Woodside apologising for the lack of communication and advising Woodside of when to expect future correspondence from ETNTAC (SI Report, reference 41.8).
- On 9 January 2024, Woodside emailed ETNTAC following up on previous correspondence offering to meet and discuss the EP. Woodside included contact information of the best contact person following 31 January 2024 (SI Report, reference 41.9).
- On 2 February 2024, Woodside emailed ETNTAC links to NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information (SI Report, reference 41.10). The email informed ETNTAC that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside offered to meet with ETNTAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024.

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with ETNTAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1) ETNTAC sought clarification on why woodside was consulting with ETNTAC.	(1) Woodside assessment: Woodside acknowledges ETNTAC needs information about why it is relevant to this activity.	(1) Existing controls considered sufficient, as described in Section 6 and 7.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside provided a written response advising ETNTAC of the methodology behind the EMBA, which for this EP includes the coast of Esperance, and confirmed that based on a Federal Court decision, Woodside now consults more broadly with persons based on potential impacts from an unplanned event rather than planned impacts of a proposed offshore activity. Woodside also provided some further Q&As about the development of the EMBA.</p> <p>Woodside accepts that ETNTAC has no further feedback at this time.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with ETNTAC (Section 7.10). 	any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	
--	---	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with ETNTAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on ETNTAC’s preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to ETNTAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan.
- Advised that ETNTAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to ETNTAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked ETNTAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on ETNTAC functions, interests or activities.

Kunin (Native Title) Aboriginal Corporation (Kunin)

Kunin (Native Title) Aboriginal Corporation is established under the Native Title Act 1993 by the Yawuru people to represent the Djugan and Yawuru people in the northern Yawuru claim area known as Kunin (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed Kunin (via Yawuru AC) NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that Yawuru advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 42.1).

Summary of information provided and record of consultation for this EP:

- On 19 October 2023, Woodside emailed Kunin (via Yawuru AC) advising of the proposed activity (Record of Consultation, reference 1.93) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that Kunin and its members may have within the EMBA, information on how Kunin would like to engage, and requested that Kunin provide information to other individuals as required.
- Kunin members are fully represented within Yawuru.

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with WGAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objects or claims received despite follow-up.	Woodside accepts that Kunin/Yawuru AC has no feedback on the activity. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with Kunin/Yawuru AC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with Kunin/Yawuru AC as part of ongoing engagement (Section 7.10 of the EP). No additional measures or control are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>regulation 25 of the Environment Regulations is complete. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	
--	--	--

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Kunin for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Kunin preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to Kunin. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Confirmed the purpose of consultation and set out in detail what was being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” and Guideline “Guideline: Consultation in the course of preparing an environment plan”.
- Advised that Kunin can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Consultation Information Sheet publicly available on the Woodside website since September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).

- Woodside commenced consultation with Kunin in October 2023. Woodside has addressed and responded to Kunin over 13 months, demonstrating a “reasonable” period of consultation.
- Woodside asked Kunin if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Kunin's functions, interests or activities.

Bundi Yamatji Aboriginal Corporation (BYAC)

BYAC is established under the Native Title Act 1993 by the Bundi Yamatji people to represent the Bundi Yamatji people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Summary of information provided and record of consultation for this EP:

- On 11 October 2023, Woodside sent two emails to BYAC advising of the proposed activity (Record of Consultation, reference 1.87) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that BYAC and its members may have within the EMBA, information on how BYAC would like to engage, and requested that BYAC provide information to other individuals as required (SI Report, reference 43.1).
- (1) On 1 November 2023, BYAC emailed Woodside thanking it for the information and advising there was no need for BYAC to provide a response in relation to connections to the area, noting that if any particular area was impacted by oil or spills then there would be a need to consult with BYAC (SI Report, reference 43.2).
- On 2 February 2024, Woodside emailed BYAC links to NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also informed BYAC that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside asked if BYAC would like to provide further feedback and gave contact information for direct feedback. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 43.3).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with BYAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
---	--	-------------------------------

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(1) BYAC advised it had no need to respond regarding this activity. BYAC advised that if there were spills or oil impacting BYAC's area of interest then BYAC should be consulted.</p>	<p>(1) Woodside assessment: Woodside accepts BYAC's feedback. Woodside response: In line with the Oil Pollution First Strike Plan, in the highly unlikely event a hydrocarbon release was to impact BYAC's area of interest, Woodside will contact BYAC. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with BYAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to BYAC will be for the purpose of ongoing engagement.</p>	<p>(1) The Oil Spill First Strike Plan (Appendix I) includes a requirement to contact Traditional Owners who may be affected by a spill. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with BYAC as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>While feedback has been received, there were no objections of claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Based on the engagement to date, no additional measures or controls are required.</p>

Outcome of consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Bundi Yamatji AC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Consultation Information Sheet publicly available on the Woodside website since September 2023.
- Provided Consultation Information Sheet and Summary Information Sheet to BYAC on 11 October 2023 based on their functions, interests or activities. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity in a digestible, plain English format.
- Woodside sought direction on BYAC's preferred method of consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals.
- Woodside has provided NOPSEMA's brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan".
- Advised that BYAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to BYAC over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked BYAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on BYAC functions, interests or activities.

Gnaala Karla Booja Aboriginal Corporation (GKB)

Summary of information provided and record of consultation for this EP:

- On 11 October 2023, Woodside emailed GKB advising of the proposed activity (Record of Consultation, reference 1.88) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that GKB and its members may have within the EMBA, information on how GKB would like to engage, and requested that GKB provide information to other individuals as required.
- On 27 October 2023, Woodside emailed GKB following up on the 11 October 2023 email, offering to meet and asking whether any further information was required and whether there were any other individuals or groups that Woodside should consult with (SI Report, reference 44.1). No response has been received.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 7 December 2023, Woodside received a letter from GKB (SI Report, reference 44.2) stating:
 - (1) Woodside should inform GKB as soon as possible once an unplanned event occurs.
 - (2) Woodside to update GKB on the progress of the Ngujima-Yin operations.
 - (2) GKB will inform Woodside if there are matters relating to the operations that GKB believe Woodside should know.
 - (3) There are no additional matters that GKB wishes to provide in response to the EP.
- (1, 2, 3) On 2 February 2024, Woodside emailed GKB NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email acknowledged that Woodside would keep GKB up to date on this activity and that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 44.3).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with GKB on future opportunities.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>GKB has given the following feedback:</p> <p>(1) They should be informed as soon as possible following an unplanned event.</p>	<p>(1) Woodside assessment Woodside acknowledges that GKB should be informed as soon as possible following an unplanned event.</p> <p>Woodside assessment: In line with the Oil Pollution First Strike Plan, in the highly unlikely event a hydrocarbon release was to impact GKB's area of interest, Woodside would contact GKB.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with GKB (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to GKB will be for the purpose of ongoing engagement.</p>	<p>(1) The Oil Spill Response First Strike Plan (Appendix I) includes a requirement to notify Traditional Owners who may be affected by a spill.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(2) They should be kept up to date with activity on this EP. They will make Woodside aware of any matters that affect GKB arising from the activity.</p>	<p>(2) Woodside assessment: Woodside acknowledges GKB's requirement to be regularly updated about the activity and i commitment to informing Woodside about relevant matters. Woodside response: Woodside will keep GKB informed about progress on the activity and will accept all feedback as part of ongoing engagement.</p>	<p>(2) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with GKB as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>(3) They currently have no further matters to relate to Woodside about this activity.</p>	<p>(3) Woodside assessment: Woodside accepts the feedback from GKB. Woodside response: Woodside will keep GKB informed about progress on the activity and will accept all feedback as part of ongoing engagement.</p>	<p>(3) Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>While feedback has been received, there were no objections of claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Based on the engagement to date, no additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with GKB for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on GKB'S preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to GKB. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that GKB can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to GKB over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked GKB if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by Regulation 25, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on GKB functions, interests or activities.

Karri Karrak Aboriginal Corporation (KKAC)

Summary of information provided and record of consultation for this EP:

- On 11 October 2023, Woodside emailed KKAC advising of the proposed activity (Record of Consultation, reference 1.89) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that KKAC and its members may have within the EMBA, information on how KKAC would like to engage, and requested that KKAC provide information to other individuals as required.
- On 12 October 2023, KKAC emailed Woodside noting they would call to discuss arrangements for feedback (SI Report, reference 45.1).
- On 14 October 2023, KKAC telephoned Woodside inviting them to attend a meeting with the KKAC Cultural Advice Committee on 18 October 2023.
- On 18 October 2023, Woodside met with the KKAC Cultural Advice Committee comprised of senior knowledge holders (SI Report, reference 45.2), Woodside:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Described the EP framework, referring to the Offshore Petroleum and Greenhouse Gas Storage Act (Environment) Regulations, NOPSEMA's role as regulator and general contents of EPs.
- Displayed a map of activities open for feedback to be discussed in the meeting and provided a list of other upcoming activities open for consultation.
- Woodside provided an overview of this activity.
- Described planned and unplanned environmental risks and impacts in accordance with tables provided in the Information Sheets for the activities, emphasising that unplanned risks are not expected to occur and are unlikely.
- Displayed and spoke to the EMBA and how they are developed.
- Stated that Woodside wanted to understand how the functions, activities, or interests of KKAC and the people it represents may be impacted by any of those activities.
- Specifically asked the following:
 - How could these activities impact your cultural values, interests, and activities - does protecting the environment do enough to protect your cultural values?
 - What are your concerns about the proposed activities and what do you think we should do about them?
 - Is there anything you would like included in the EPs before submission?
 - Is there anyone else Woodside should consult with about the activities?
- KKAC said:
 - **(1)** They expected to be kept informed about the activities.
 - **(2)** That Woodside should advise KKAC in the case of an unplanned event arising from the activities.
 - **(3)** That KKAC would prefer their rangers to be prepared for, and included, in a response to an unplanned event within the area of their Indigenous Land Use Agreement.
- Woodside advised that they take feedback from KKAC for the life of the EP.
- **(1, 2, 3)** On 26 October 2023, Woodside emailed KKAC following up on the meeting of 18 October, confirming outcomes and seeking to understand if KKAC would like to meet further (SI Report, reference 45.3).
- On 29 October 2023, KKAC emailed Woodside acknowledging receipt of the meeting overview and indicating that an invoice would be sent shortly (SI Report, reference 45.4).
- On 2 February 2024, Woodside emailed KKAC informing them the opportunity for consultation closes on 23 February 2024 (SI Report, reference 45.5). Woodside also attached links to NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. Woodside noted they would keep KKAC informed of progress on this activity, they noted that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>Ongoing Engagement:</p> <ul style="list-style-type: none"> Woodside continues to pursue an ongoing two-way relationship with KKAC on future opportunities to work together. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Woodside keeps KKAC informed of progress on the activity.</p>	<p>(1) Woodside assessment: Woodside acknowledges KKAC's requirement to be informed about the activity's progress. Woodside response: Woodside has undertaken to keep KKAC informed about progress on the activity. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with KKAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to KKAC will be for the purpose of ongoing engagement. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with KKAC as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>(2) Woodside as soon as reasonably practical advises KKAC in the case of an unplanned event arising from the activities.</p>	<p>(2) Woodside assessment: Woodside acknowledges KKAC's requirement to be informed in the case of an unplanned event. Woodside response: In line with the Oil Pollution First Strike Plan, in the highly unlikely event a</p>	<p>(2) The Oil Spill Response First Strike Plan (Appendix I) includes a requirement to notify Traditional Owners who may be affected by a spill.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	hydrocarbon release was to impact KKAC's area of interest, Woodside will contact KKAC.	
(3) Their rangers be prepared for, and included, in a response to an unplanned event within the area of their Indigenous Land Use Agreement.	(3) Woodside assessment: Woodside considers value in having rangers on the ground, trained up in the highly unlikely event of a spill. It would be beneficial to an immediate response in an emergency situation. Woodside response: Woodside will continue to discuss ranger programs in line with Woodside's Program for Ongoing Engagement.	(3) Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on environment plans. This is described further in the Program of Ongoing Engagement with Traditional Custodians (Appendix G).
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate Woodside will apply its Management of Change and Revision process (See Section 7.1.16 of the EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with KKAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on KKAC's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to KKAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan."

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Advised that KKAC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to KKAC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked KKAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.
- Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).
- Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on KKAC functions, interests or activities.

Wagyl Kaip Southern Noongar Aboriginal Corporation (Wagyl Kaip)

Summary of information provided and record of consultation for this EP:

- On 31 October 2023, Woodside emailed Wagyl Kaip advising of the proposed activity (Record of Consultation, reference 1.90) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Wagyl Kaip and its members may have within the EMBA, information on how Wagyl Kaip would like to engage, and requested that Wagyl Kaip provide information to other individuals as required.
- On 7 November 2023, Woodside emailed Wagyl Kaip following up on the 31 October 2023 email, offering to meet and asking whether any further information was required and whether there were any other individuals or groups that Woodside should consult with (SI Report, reference 46.1). No response was received.
- On 22 December 2023, Woodside phoned Wagyl Kaip and left a message asking for a return call.
- On 22 December 2023, Woodside sent a follow up email requesting the opportunity to meet and answer any questions regarding the EP that Wagyl Kaip may have (SI Report, reference 46.2).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1) On 8 January 2024, Wagyl Kaip emailed Woodside advising the EP will have no effect on Wagyl Kaip Aboriginal Corporation heritage or cultural values (SI Report, reference 46.3). (1) Woodside acknowledged the response in the EP.
- Ongoing Engagement:**
- Woodside continues to pursue an ongoing two-way relationship with Wagyl Kaip on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Wagyl Kaip has provided feedback stating the proposed activity will have no effect on Wagyl Kaip Aboriginal Corporation heritage or cultural values.</p>	<p>(1) Woodside assessment: Woodside accepts that Wagyl Kaip's feedback on the activity at this time. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with Wagyl Kaip (Section 7.12.3.1).</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with Wagyl Kaip as part of ongoing engagement (Section 7.13.3.1 of the EP).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate Woodside will apply its Management of Change and Revision process (See Section 7.1.16 of the EP).</p>	<p>No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Wagyl Kaip for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:

Sufficient Information:

- Woodside sought direction on Wagyl Kaip's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation.
- Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Wagyl Kaip. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Confirmed the purpose of consultation and set out in detail what is being sought through consultation.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.

- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that Wagyl Kaip can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Wagyl Kaip over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked Wagyl Kaip if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Wagyl Kaip functions, interests or activities.

Whadjuk Aboriginal Corporation

Summary of information provided and record of consultation for this EP:

- On 9 October 2023, Woodside telephoned Whadjuk AC advising them that Woodside would be sending consultation information regarding this EP, requesting that they review the information and respond with any feedback.
- On 9 October 2023, Woodside emailed Whadjuk AC advising of the proposed activity (Record of Consultation, reference 1.91) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that Whadjuk AC and its members may have within the EMBA, information on how Whadjuk AC would like to engage, and requested that Whadjuk AC provide information to other individuals as required.
- On 7 November 2023, Woodside emailed Whadjuk AC requesting any feedback regarding this activity and offering to meet with Whadjuk (SI Report, reference 67.1). No response was received.

Ongoing Engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<ul style="list-style-type: none"> Woodside continues to pursue an ongoing two-way relationship with Whadjuk AC on future opportunities to work together. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with Whadjuk as part of ongoing engagement (Section 7.10 of the EP). No additional measure or control are required.
Outcomes of Consultation		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Whadjuk AC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> Woodside sought direction on Whadjuk AC preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation. Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Whadjuk AC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format. Confirmed the purpose of consultation and set out in detail what is being sought through consultation. Articulated planned and unplanned environmental risks and impacts, with proposed controls. Asked for the consultation and information sheets to be distributed to members and individuals as required. Provided NOPSEMA’s Brochure “Consultation on offshore petroleum environment plans” Advised that Whadjuk AC can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations). <p>Reasonable Period:</p> <ul style="list-style-type: none"> Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River

Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.

- Woodside has addressed and responded to Whadjuk AC over 13 months, demonstrating a “reasonable period” of consultation.
- Woodside asked Whadjuk AC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Whadjuk AC functions, interests or activities.

Yued Aboriginal Corporation (Yued)

Summary of information provided and record of consultation for this EP:

- On 6 October 2023, Woodside met with Yued regarding other matters and advised Yued that Woodside would be sending Yued consultation information for this Environment Plan. Yued noted they had previously been consulted regarding another Woodside EP.
- On 9 October 2023, Woodside emailed Yued advising of the proposed activity (Record of Consultation, reference 1.92) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Yued and its members may have within the EMBA, information on how Yued would like to engage, and requested that Yued provide information to other individuals as required.
- (1) On 13 October 2023, Yued responded requesting maps overlaying the extent of oil spill modelling and the Yued ILUA area (SI Report, reference 47.1).
- (1) On 18 October 2023, Woodside emailed Yued providing the requested map and offering to meet or answer any questions (SI Report, reference 47.2).
- On 8 November 2023, Woodside emailed Yued offering the opportunity for feedback (SI Report, reference 47.3).
- (2) On 9 November 2023, Yued emailed Woodside advising that at present they had no feedback, and there did not appear to be any adverse impacts in the Yued area (SI Report, reference 47.4). Yued advised that they would endeavour to contact Woodside after their election cycle.
- (2) On 10 November 2023, Woodside emailed Yued thanking them for the response and advising Woodside would take feedback at any time as part of Woodside’s approach to ongoing consultation (SI Report, reference 47.5).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Yued on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Yued requested maps overlaying the extent of oil spill modelling and the Yued ILUA area.</p>	<p>(1) Woodside assessment: Woodside acknowledged that Yued required further information. Woodside response: Woodside provided Yued with relevant mapping.</p>	<p>(1) Not required.</p>
<p>(2) Yued advised that they have no feedback on this activity, and they would endeavour to contact Woodside after their election cycle.</p>	<p>(2) Woodside assessment: Woodside accepts that Yued has no feedback on the activity at this time. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with Yued (Section 7.12.3.1).</p>	<p>(2) Not required.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Yued Aboriginal Corporation for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> • Woodside sought direction on Yued's preferred method of consultation. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 consultation. • Provided Consultation Information Sheets and Summary Information Sheets developed by Indigenous staff to Yued. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format. • Confirmed the purpose of consultation and set out in detail what is being sought through consultation. 		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that Yued can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Woodside has addressed and responded to Yued over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked Yued if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on Yued functions, interests or activities.

Native Title Representative Bodies

Yamatji Marlpa Aboriginal Corporation (YMAC)

YMAC is the Native Title Representative Body (NTRB) for the Yamatji and Pilbara regions. NTRBs exist to provide assistance to native title claimants and holders in regard to their Native Title rights.

Historical engagement:

- On 13 March 2023, Woodside emailed YMAC as to whether YMAC considers itself a 'relevant person' under regulation 25 of the Environment Regulations for the purposes of consultation on EPs and, if so, whether that relevance is limited to a facilitation function in its capacity as a representative of Traditional Owner groups/corporations that overlap or adjacent to the environment that may be affected (EMBA) of a particular activity.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 15 March 2023, Woodside emailed YMAC to request a response as to whether YMAC considers itself a 'relevant person' under relevant sections of the Environment Regulations for the purposes of consultation in EPs.
- **(1)** On 20 March 2023, YMAC replied to confirm that in its view it is a 'relevant person' under regulation 25(1) of the Environment Regulations for the purposes of consultation on EPs only in relation to its facilitation and coordination function as a Native Title Representative Body under applicable federal legislation. YMAC does not intend to provide substantive comment on the content of EPs.
- On 20 March 2023, Woodside emailed YMAC to thank it for its reply and to advise that that this assessment would be included in Woodside's EPs.
- On 20 March 2023, YMAC emailed Woodside confirming that they agree to their advice being included in reporting (YMAC is the representative for NTGAC and Nanda Aboriginal Corporation and was the representative for Yinggarda Aboriginal Corporation until April 2023).
- **(2)** On 12 June 2023, YMAC emailed Woodside on behalf of itself and its clients. The email attached:
 - A proposal to fund in-house expertise to support consultations and administration of the consultation framework.
 - A draft consultation framework.
- On 12 June 2023, Woodside emailed YMAC, thanking them for the documents and informing them that Woodside would respond shortly.
- On 25 July 2023, Woodside emailed YMAC:
 - Agreeing in principle to the draft consultation framework and funding proposal but seeking further discussion on details.
 - Stating that Woodside is open to considering an industry funded position at YMAC to support the work they are facilitating.
 - Attaching Woodside's Program for Ongoing Engagement with Traditional Custodians.
 - Seeking a meeting with YMAC in relation to the draft consultation framework at YMAC's earliest convenience.

Summary of information provided and record of consultation for this EP:

- On 23 October 2023, Woodside emailed YMAC advising of the proposed activity (Record of Consultation, reference 1.109) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website). The email requested information on the interests that YMAC and its members may have within the EMBA, information on how YMAC would like to engage, and requested that YMAC provide information to other individuals as required.
- On 13 November 2023, Woodside emailed YMAC noting that the previous email had included the Consultation Information Sheet, not the Summary Information Sheet. Woodside attached a copy of the Summary Information Sheet.
- On 14 December 2023, Woodside emailed YMAC re-attaching the Program of Ongoing Consultation and advising that Woodside would like to progress negotiations on consultation frameworks with groups represented by YMAC. Woodside proposed the protocol would include (among other things):
 - The procedures Woodside will follow when a submission requires consultation.
 - Initial and ongoing consultation in relation to activities.
 - Agreement as to how Woodside will provide the information groups requires to make free, prior and informed decisions about Woodside's EPs.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Agreement as to how groups will provide feedback and how that can best be represented in EPs.
- An agreed schedule of rates for groups participation in consultation.
- How to manage the outputs of the consultations.
- On 21 December 2023, Woodside emailed YMAC providing a list of upcoming activities as requested by YMAC.

Ongoing Engagement:

- (2) On 28 February 2024, Woodside emailed YMAC with a letter setting out the draft terms of an agreement between groups YMAC represents and Woodside (SI Report, reference 48.13). The agreement (among other things) included the following topics:
 - Sufficient Information
 - Reasonable Period.
 - Provision of Information.
 - Objection or claims.
 - Publications
 - Cost and termination.
- On 29 February 2024, YMAC emailed Woodside acknowledging receipt of the information (SI Report, reference 48.14).
- (2) On 27 June 2024, Woodside emailed YMAC seeking an update on the status of YMAC's review of the Consultation Framework Agreement, provided to the organisation on 25 February 2024 (SI Report, reference 48.15). The agreement would be utilised by Nanda Aboriginal Corporation (NAC), Nyangumarta Warrarn Aboriginal Corporation (NWAC) and NTGAC.
- (2) On 28 June 2024, YMAC emailed Woodside on behalf of NTGAC and NAC acknowledging the progress made on the plan for consultation and provision of a draft consultation agreement (SI Report, reference 48.16). YMAC requested a Word version of the agreement and advised that it is negotiating dates for NTGAC and NAC Boards to meet with Woodside to discuss and finalise the agreement, receive project reports and set a meeting schedule. YMAC also submitted a legal cost estimate for Woodside's consideration.
- (2) On 1 July 2024, Woodside emailed YMAC the Word versions of the draft consultation agreement and approved the cost estimate proposed. Woodside stated it looked forward to receiving dates to meet with NTGAC and NAC Boards (SI Report, reference 48.17).
- (2) On 10 July 2024, YMAC emailed Woodside confirming receipt of the draft agreement to edit with proposed amendments and a date to meet (SI Report, reference 48.18).
- On 9 September 2024, Woodside invited YMAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 48.19).
- On 3 October 2024, Woodside invited YMAC to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 48.20).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) YMAC has provided feedback that in its view it is a 'relevant person' under regulation 25(1) of the Environment Regulations for the purposes of consultation on EPs only in relation to its facilitation and coordination function as a Native Title Representative Body under applicable federal legislation and does not intend to provide substantive comment on the content of EPs.</p>	<p>(1) Woodside accepts YMAC's feedback that it is a relevant person only in relation to its facilitation and coordination function as a representative body. Woodside has consulted with YMAC in relation to its facilitation and coordination function as a Native Title Representative Body under applicable federal legislation, and it has responded that it does not intend to provide substantive comment on the content of EPs.</p>	<p>(1) Not required.</p>
<p>(2) YMAC has provided feedback that it is seeking an industry funded position to support consultations for this and other activities. YMAC has provided a draft consultation framework to assist the consultation process.</p>	<p>(2) Woodside has assessed the Program of Ongoing Engagement with Traditional Custodians will support ongoing consultation with YMAC and/or the groups it represents. This can address appropriate support for resourcing, separate from consultation under regulation 25 of the Environment Regulations. Sufficient information to allow informed assessment has already been provided by other means. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>(2) Woodside will continue to engage with YMAC in relation to its request for an industry funded position and has put a proposal to YMAC in December 2023 for a Framework Agreement. This is described further in the Program of Ongoing Engagement with Traditional Custodians, (Appendix G).</p>
<p>(1) YMAC has provided feedback that in its view it is a 'relevant person' under regulation 25 of the Environment Regulations for the purposes of consultation on EPs only in relation to its facilitation and coordination function as a Native Title</p>	<p>(1) Woodside assessment: Woodside accepts YMAC's feedback that it is a relevant person only in relations to its facilitation and coordination function as a representative body.</p>	<p>(1) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>Representative Body under applicable federal legislation and does not intend to provide substantive comment on the content of EPs.</p>	<p>Woodside response: Woodside has consulted with YMAC in relation to its facilitation and coordination as a Native Title Representative Body under applicable federal legislation and has accepted YMAC’s advice that it does not intend to provide substantive comment on the content of EPs.</p>	
<p>(2) YMAC has provided feedback that it is seeking an industry funded position to support consultations for this and other activities. YMAC has provided a draft consultation framework to assist the consultation process.</p>	<p>(2) Woodside assessment: Woodside has assessed that its Program of Ongoing Engagement with Traditional Custodians will support ongoing consultation with YMAC and/or the groups it represents. Woodside response: In February 2024, Woodside sent a draft framework agreement to YMAC as the representative of NTGAC and two other groups. The agreement would frame ongoing consultation, address appropriate support for resourcing, separate from consultation under regulation 25 of the Environment Regulations.</p>	<p>(2) Woodside will continue to engage with YMAC in relation to its request for an industry funded position and put a proposal to YMAC in December 2023 for a Framework Agreement, and in February 2024 sent the draft terms of agreement between NTGAC and two other groups represented by YMAC and Woodside. This is described further in the Program of Ongoing Engagement with Traditional Custodians (Appendix G).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>No additional measures or controls are required.</p>

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with YMAC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. YMAC has indicated that it will not provide substantiative comment on EPs:

Sufficient Information:

- Woodside sought direction on YMAC’s preferred method of consultation. This resulted in meetings being coordinated at location of YMAC’s choosing, with YMAC nominated representatives. These meetings included Woodside presenting information in a format and style that was readily accessible and appropriate.
- Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to YMAC. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.

Reasonable Period:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with YMAC in August 2023. Woodside has addressed and responded to YMAC over 15 months, demonstrating a “reasonable period” of consultation.
- Woodside asked YMAC if it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on YMAC functions, interests or activities.

Kimberley Land Council (KLC)

KLC is the Native Title Representative Body for the Kimberley region of Western Australia. As such, they are not a Prescribed or Registered Native Title Body Corporate but exist to assist native title claimants and holders.

Historical engagement:

- (1) On 16 February 2023, Woodside emailed KLC following a telephone discussion about EP consultations confirming that the KLC don't wish to be consulted on EPs but will facilitate consultation with PBC's that they support.
- (2) On 11 May 2023, Woodside spoke with KLC to discuss a workshop for spill response training for rangers that would include other industry members and Traditional Custodian groups. KLC stated they were very interested in this and would test with relevant groups to see availability.
- (2) On 23 June 2023, Woodside spoke to KLC at the NOPSEMA Summit. KLC confirmed they were still interested in the ranger workshop but would be unavailable for a couple of weeks.

Summary of information provided and record of consultation for this EP:

- On 19 October 2023, Woodside emailed KLC advising of the proposed activity (Record of Consultation, reference 1.77 and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that KLC and its members may have within the EMBA, information on how KLC would like to engage, and requested that KLC provide information to other individuals as required.
- (1) From 25 October to 2 November 2023, Woodside exchanged email correspondence with KLC wanting to get the best point of contact for Wunjina-Wungurr AC, Wilinggin AC, Wunambal Gaambera AC and Dambimangari ACs and members for Woodside to provide updates and information regarding upcoming EPs.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside has been engaging with KLC on behalf of its represented groups as described in relevant sections above.

Ongoing relationship:

- Woodside continues to pursue an ongoing two-way relationship with KLC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) The KLC has previously stated they do not want to be consulted but will facilitate consultations with relevant PBCs.</p>	<p>(1) Woodside response: Woodside accepts that KLC has no feedback for this activity. Woodside assessment: KLC is the Native Title Representative Body for the Kimberley regions of Western Australia. As such, they are not a Prescribed or Registered Native Title Body Corporate representing the cultural rights of a Traditional Custodian Community but exist to assist native title claimants and holders. Woodside has consulted with KLC in relation to its facilitation and coordination function as a Native Title Representative Body under applicable federal legislation. The KLC was formed in 1978 by Kimberley Aboriginal people as a political land rights organisation and are now the peak Indigenous body in the Kimberley region working with Aboriginal people to secure native title, conduct conservation and land management activities and develop cultural business enterprises. Woodside has consulted with relevant PBCs, facilitated by KLC.</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>(2) The KLC has previously stated they are seeking support for regional ranger programs and oil spill response training.</p>	<p>(2) Woodside response: Woodside notes that KLC is seeking support for regional ranger programs and oil spill response training. Woodside assessment: Woodside has an ongoing engagement with KLC to explore models for ranger spill response.</p>	<p>(2) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with KLC through ongoing engagement and continue engaging with KLC in relation to its request for a ranger workshop, as described in Section 7.10.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with KLC for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically:</p> <p>Sufficient Information:</p> <ul style="list-style-type: none"> • Woodside sought direction on KLC’s preferred method of consultation. Self-identified First Nations Groups

Ngarluma Yindjibarndi Foundation Ltd (NYFL)

Ngarluma Yindjibarndi Foundation Ltd (NYFL) was created to act as Trustee for the Trust under the Northwest Shelf Agreement 1998 struck between the Ngarluma and Yindjibarndi registered Native Title claimants, the NWS JVs and Woodside, prior to the resolution of the Ngarluma and Yindjibarndi Native Title claim. Its purpose is to carry on the business of enterprise development, investment and social welfare.

Historical engagement:

- (1) On 29 June 2023, in relation to other activities, NYFL confirmed they considered themselves a 'relevant person' and noted they were looking to agree on the next steps in agreeing appropriate consultation frameworks in relation to oil and gas activities (SI Report, reference 68.1).
- (2) On 10 July 2023, in relation to other activities, NYFL stated that they would not consult on any activities as they were waiting for the First Nations Sea Country Summit at which a national framework for consultation between industry and First Nations be resolved before they consulted on Environment Plans (SI Report, reference 68.2). NYFL stated that they did not agree with the facilitators record of the NOPSEMA Summit, particularly that there would be parallel ongoing consultation in relation to current EPs prior to the proposed National Summit of Indigenous Groups and Traditional Owners. The national Summit took place in November 2023.
- (2) On 19 July 2023, Woodside emailed NYFL NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information (SI Report, reference 68.3). This email also reiterated Woodside's request that NYFL advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult. No response was received to this email.
- (1) On 26 July 2023, Woodside emailed NYFL Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 68.4).
- (3) On 26 July 2023, NYFL emailed Woodside in response to Woodside's planned Program of Ongoing Engagement with Traditional Custodians, noting it was a good start particularly with the inclusion of Traditional Owner feedback and indicating that assistance with resourcing and internal capacity would be required. NYFL noted their expectations about resourcing as a relevant person (SI Report, 68.5).

Summary of information provided and record of consultation for this EP:

- On 19 October 2023, Woodside emailed NYFL regarding the proposed activity (Record of Consultation, reference 1.71) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that NYFL and its members may have within the EMBA, information on how NYFL would like to engage, and requested that NYFL provide information to other individuals as required.
- (4) On 27 October 2023, NYFL provided NYFL's position statement regarding industry consultation which was a change of position from its advice on 29 June 2023 (SI Report, reference 68.6). NYFL noted that it expects an updated proposal regarding consultation to be provided by Woodside. NYFL advised that it does not have the capacity to respond adequately to EPs or other consultation material sent by proponents nor did it feel the process results in a fair representation of Traditional Owner interests.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- **(4)** On 3 November 2023, Woodside responded to NYFL stating that Woodside would respond regarding the concerns raised on in the 27 October email. Woodside offered to meet to discuss short term solutions (SI Report, reference 68.7).
- On 7 November 2023, Woodside emailed NYFL offering to meet to discuss the issues raised, after the National Sea Country Summit taking place on 6-8 November. Woodside offered to meet the week of 20th November (SI Report, 68.8).
- **(4)** On 19 November 2023, NYFL emailed Woodside, stating that they were awaiting an updated consultation framework from Woodside and were not able to meet as they didn't have resources to apply to developing a framework but looked forward to providing feedback on an updated framework (SI Report, reference 68.9).
- On 20 November 2023, Woodside emailed NYFL acknowledging their email of 19 November 2023 (SI Report, 68.10).
- On 4 December 2023, Woodside emailed NYFL (SI Report, reference 68.11):
 - seeking clarification about changes in recent correspondence, noting that NYFL had indicated on several occasion over a number of months that they wished to await outcomes of the First Nations Sea Country Summit in Darwin and would be involved in the development of the National First Nations Led Framework on consultation.
 - Woodside indicated that they had requested to meet face to face with NYFL in November as Woodside wanted to understand NYFL's expectations and discuss the outcomes of the Summit.
 - Woodside also wanted to discuss the strategic sponsorship funding request noting they required a business case to understand what NYFL was suggesting and how it would align with NYFL's strategic objectives.
- On 6 December 2023, NYFL emailed Woodside noting that (SI Report, 68.12):
 - At the meeting of 30 August 2023 there was discussion about challenges and proposed solutions to progress EP consultation.
 - **(4)** NYFL operate in a resource-constrained environment.
 - A proposal to NYFL responding to issues raised at the above meeting was expected.
 - **(2)** The Summit had been referred to as a potential useful resource for developing an updated framework.
 - **(3)** NYFL had agreed to progress the Program of Ongoing Engagement with Traditional Custodians.
 - Social investment and capacity building funding should remain separate to consultation regarding EPs and other environment and heritage matters.
- **(3)** On 14 December 2023, Woodside emailed NYFL, following up on previous emails about consultation on EPs, acknowledging NYFL's resource constraints and limitations that can be allocated to consultation on the EPs (SI Report, 68.13). Woodside proposed/noted the following to support consultation activities that would provide NYFL with the ability to engage and provide input and feedback:
 - Woodside intends engaging a senior Ngarluma person in an advisory/liaison capacity, which will include facilitating consultation with NYFL members in relation to EPs.
 - A consultation framework on EPs which includes:
 - Agreement between Woodside and NYFL to consult in a meaningful and genuine manner.
 - The procedures Woodside will follow when a submission requires consultation.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Initial and ongoing consultation in relation to relevant Woodside EPs and the senior Ngarluma person's role in facilitating those consultations.
- Agreement as to how Woodside will provide NYFL with the information NYFL requires to make free, prior and informed decisions about Woodside's EPs.
- Agreement as to how NYFL will provide feedback and how that can best represent NYFL's feedback to NOPSEMA or other relevant organisations.
- An agreed schedule of rates for NYFL's participation in consultation regarding Woodside's EPs.
- How to manage the outputs of consultation.
- Agreement on an approach to minimise duplication of consultation activities conducted with NAC, Yindjibarndi and NYFL.
- An EP Consultation Working Group with representation from Woodside and NYFL.
- Suggested further discussion on the proposal at the NYFL/Woodside Quarterly meeting on 19 December 2023.

NYFL is also consulted through its membership on the Karratha Community Liaison Group (KCLG) and the Quarterly Heritage Group.

Ongoing Engagement:

- (3) On 6 March 2024, Woodside emailed NYFL a letter (SI Report, reference 68.14) setting out the draft terms of an agreement between NYFL and Woodside, the agreement (among other things) included the following topics:
 - Sufficient Information
 - Reasonable Period.
 - Provision of Information.
 - Objection or claims.
 - Publications
 - Cost and termination.
- (3) On 14 March 2024, NYFL emailed Woodside acknowledging receipt of the proposed agreement (SI Report, reference 68.15).
- (3) On 19 March 2024, NYFL emailed Woodside attaching a quote to review the agreement sent to NYFL on 6 March 2024 (SI Report, reference 68.16).
- (3) On 5 April 2024, NYFL emailed Woodside noting it had previously responded to Woodside on 6 March 2024 and noted that Woodside had not responded to its quote to progress a consultation agreement (SI Report, reference 68.17).
- (3) On 12 April 2024, NYFL emailed Woodside requesting a response about EP consultation going forward (SI Report, reference 68.18).
- On 12 April 2024, Woodside emailed NYFL acknowledging it had not responded and would respond to NYFL within the week (SI Report, reference 68.19).
- On 17 April 2024, NYFL emailed Woodside noting it was attending to sorry business and as per cultural protocols would require time within the community and engagement would be delayed until appropriate to re-commence (SI Report, reference 68.20).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (3) On 10 May 2024, Woodside emailed NYFL a response to its request for funding to undertake a review of Woodside’s draft consultation agreement and stated that Woodside found the NYFL cost excessive for review of a simple agreement and reiterated its commitment to covering reasonable costs for EP consultation (SI Report, reference 68.21).
- (3) On 17 June 2024, NYFL emailed Woodside acknowledging receipt of the activity’s record of consultation and responded in a letter (SI Report, reference 68.22), which outlined the following: In the letter NYFL noted:
 - Woodside had declined to provide funding requested by NYFL to review a proposed consultation agreement.
 - That NYFL maintained that an interim Consultation Agreement remained the appropriate mechanism for consultation between Woodside and NYFL.
 - NYFL is seeking progress of the estimate of costs for the proposed consultation agreement.
- (3) On 3 July 2024, Woodside emailed NYFL acknowledging the issues raised in the letter dated 17 June 2024. Woodside reassured NYFL that it was fully committed to consulting with NYFL’s members and relevant Traditional Owners and would like to arrange a meeting to discuss how Woodside can work with the organisation to effectively engage in consultation and discuss other matters (SI Report, reference 68.23).
- (3) On 3 July 2024, NYFL emailed Woodside advising that it has provided Woodside with an estimate of costs to review and progress Woodside’s proposed consultation agreement (SI Report, reference 68.24).
- On 9 September 2024, Woodside invited NYFL to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 25 September 2024 (SI Report, reference 50.25).
- On 25 September 2024, Traditional Owner members from NYFL attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 50.26).
- On 3 October 2024, Woodside invited NYFL to share stories and receive updates from Woodside at its Monthly Community Luncheon for Traditional Owners to be held in Roebourne on 23 October 2024 (SI Report, reference 50.27).
- On 23 October 2024, Traditional Owner members from NYFL attended Woodside’s Monthly Community Luncheon for Traditional Owners held in Roebourne. During the lunch Woodside requested feedback from all attendees about EPs and provided information about the consultation process (SI Report, reference 50.28).
- Between 21 October 2024 and 15 November 2024, NYFL and Woodside exchanged emails to discuss the consultation agreement as well as other items not relevant to this EP (SI Report, reference 50.29, 50.30, 50.31, 50.32, 50.33, 50.34, 50.35).
- On 20 November 2024, Woodside and NYFL met to progress the Draft Consultation Agreement (SI Report, reference 50.36).

Ongoing relationship:

- Woodside continues to pursue an ongoing two-way relationship with NYFL on future opportunities.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1)	(1)	(1)

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>NYFL self-identified and advised Woodside they are a relevant person for activities.</p>	<p>Woodside assessment: Woodside acknowledges NYFL is a self-identified representative and are a relevant person for activities.</p> <p>Woodside response: Woodside has responded to NYFL's self-identification and consulted with them as a relevant person. NYFL was created to act as Trustee for the Northwest Shelf Agreement 1998. NYFL's membership is made up of Ngarluma people and Yindjibarndi people, membership is not open to any person who is not accepted as Ngarluma or Yindjibarndi. Woodside has also consulted with Ngarluma and Yindjibarndi Aboriginal Corporations individually. Ngarluma and Yindjibarndi Aboriginal Corporations were appointed by the Federal Court, at the request of the Ngarluma and Yindjibarndi common law native title holders as PBCs to represent the communal interests of the Ngarluma and Yindjibarndi people respectively. Ngarluma and Yindjibarndi Aboriginal Corporations are representative of all Ngarluma and Yindjibarndi people regardless of membership.</p>	<p>NYFL has been consulted with in accordance with the methodology described in Section 5 of the EP.</p>
<p>(2) NYFL wished to pause consultation on activities until after the First Nations National Summit was held and a framework for consultation developed. NYFL noted they were working with First Nations Organisations and representative Bodies to develop a framework for consultation. This has not yet been proposed to Woodside. The summit took place in Darwin in November 2023.</p>	<p>(2) Woodside response: Woodside did not consider the proposal that consultation be paused until the proposed First Nations National Summit was reasonable.</p> <p>Woodside response: Woodside continued to offer to meet to progress discussions with NYFL, a meeting was held on 30 August 2023 and further meetings were proposed by Woodside over the following months during September to December but were not taken up. Separate from consultation under regulation 25 of the Environment Regulations, Woodside is open to engaging with a joint First Nations framework for consultation, however, notes that this is not required to undertake and/or complete consultation while preparing this EP. The framework could be used to frame ongoing consultation. Sufficient information to allow informed assessment has already been provided by other means, including summary sheets developed by Indigenous</p>	<p>(2) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	staff. Woodside has an existing engagement framework in place with NYFL via the Quarterly Heritage Group which enables regular communication about Woodside activities.	
(3) NYFL have noted they operate in a restrained resource environment.	(3) Woodside response: Woodside acknowledges that NYFL operates in a restrained resource environment. Woodside assessment: Woodside assesses that the proposed Framework Agreement would be an effective mechanism to address resourcing for ongoing consultation. Woodside supports reasonable requests for resourcing.	(3) The proposed Framework Agreement will address appropriate NYFL resourcing.
(4) NYFL have acknowledged they support an agreement to enable a process of consultation. They have previously indicated they were working with other organisations to develop a consultation framework, more recently they have indicated they are waiting on Woodside to put forward a proposal.	(4) Woodside response: Woodside acknowledges NYFL's support for an agreement to enable a process of consultation. NYFL had on several occasions informed Woodside they were working with other organisations to develop a consultation framework which would inform both Traditional Owners and Industry. Recently NYFL indicated that they are waiting on Woodside to put forward a proposal. Woodside assessment: Woodside has put the framework of a proposal to NYFL and expect discussions with NYFL to settle the proposal in early 2024.	(4) Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on environment plans. This is described further in the Program of Ongoing Engagement with Traditional Custodians, (Appendix G). This includes continued engagement regarding the proposed Framework Agreement which would be applied to ongoing consultation for this activity.
While feedback has been received, there were no objections of claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Based on the engagement to date, no additional measures or controls are required.
Outcomes of Consultation		
Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with NYFL for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.5 of the EP. Specifically: Sufficient Information:		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Sought direction on NYFL's preferred method of consultation. NYFL requested consultation material suitable for Traditional Custodian audience, which was developed and provided. As sufficient information and a reasonable period have been provided (see below), any meetings would be considered as ongoing engagement post regulation 25 of the Environment Regulations consultation.
- Provided Consultation Information Sheet and Consultation Summary Sheets developed by Indigenous staff to NYFL. These set out details of the proposed activity, the location of the activity, the timing of the activity as well as the potential risks and impacts of the activity with controls in a digestible, plain English format.
- Articulated planned and unplanned environmental risks and impacts, with proposed controls.
- Confirmed purpose of consultation and set out in detail what is being sought through consultation.
- Asked for the consultation and information sheets to be distributed to members and individuals as required.
- Provided NOPSEMA's Brochure "Consultation on offshore petroleum environment plans" and Guideline "Guideline: Consultation in the course of preparing an environment plan.
- Advised that NYFL can request that particular information provided in the consultation not be published (to align with regulation 25(4) of the Environment Regulations).

Reasonable Period:

- Woodside published advertisements in national, state, and relevant local newspapers including, the North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023).
- Woodside commenced consultation with NYFL in October 2023. Woodside has responded to NYFL over 13 months, demonstrating a "reasonable period" of consultation.
- Woodside asked NYFL it was aware of any other Traditional Custodian groups or individuals with whom Woodside should consult. None were identified.

Woodside engages in ongoing consultation, beyond that required by regulation 25 of the Environment Regulations, throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).

Woodside considers the measures and controls described in this EP address the potential impact from the proposed activity on NYFL functions, interests, or activities.

Local government and community representative groups or organisations

Shire of Exmouth

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 September 2023, Woodside emailed Shire of Exmouth advising of the proposed activity (Record of Consultation, reference 1.18) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to Shire of Exmouth following up on the proposed activity (Record of Consultation, reference 2.1). 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
<p>Outcomes of Consultation</p> <p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Shire of Exmouth for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. Consultation Information provided to Shire of Exmouth on 15 September 2023 based on their functions, interests or activities. Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. Woodside has sent a follow up email seeking feedback on the proposed activities. Woodside has provided Shire of Exmouth with the opportunity to provide feedback over a 15-month period. 		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Shire of Ashburton

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed Shire of Ashburton advising of the proposed activity (Record of Consultation, reference 1.17) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 2 October 2023, Shire of Ashburton responded thanking Woodside for its correspondence and noting its support of the significant contribution the oil and gas sector makes to the community (SI Report, reference 51.1). The Shire asked for consideration of the following comments:
 - **(1)** The Shire confirmed it had no objections to the proposed activities.
 - **(2)** The Shire expects that Woodside will identify, manage and mitigate all possible impacts and risks in line with relevant regulatory frameworks.
 - **(3)** The Aboriginal Cultural Heritage Inquiry System (ACHIS) should be consulted to ensure site of significance are not impacted without consents.
 - **(4)** The Shire requires Woodside to brief the Shire's Local and District Emergency Management Committee's on its planned responses to such events before any activities commence.
 - **(5)** Asks that Woodside has communicated with appropriate emergency management agencies at either/or National, State, District and Local levels on potential hazards and risks around the activity; collaboration and/or cooperation on risk mitigation; considered impacted areas response capacity and capability and sustainability of response activities and escalation triggers.
 - **(6)** The Shire anticipates that Woodside has undertaken their own emergency management planning to mitigate risk and recover from a risk related incident, has engaged with external emergency management agencies to ensure emergency management plans are aligned with outcomes to respond and/or recovery from the incident.
 - **(7)** The Shire anticipates that Woodside has engaged with the community regarding what may happen in areas that are affected by the proposed activities.
 - The Shire proposes that Woodside consider the Shire-operated Pilbara Regional Waste Management Facility (PRWMF) for its decommissioning, recycling and waste disposal purposes.
 - **(8)** The Shire appreciated the opportunity to comment on the proposed activities and requests that Woodside provide the Shire with further updates as the proposal progresses.
- On 6 November 2023, Woodside responded thanking Shire of Ashburton for its feedback (SI Report, reference 51.2) and noted:
 - **(1)** The Shire had no objections to the proposed activities.
 - **(2)** That Woodside was required to manage environmental impacts and risks to the environment that may be affected (EMBA) by its proposed activities to As Low As Reasonably Practicable (ALARP) and to an acceptable level, as required by the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Environment Regulations), through the implementation of the EP. Woodside's proposed EPs will be submitted to the National Offshore Petroleum Safety Environmental Management Authority (NOPSEMA) for assessment and acceptance.
 - **(3)** Woodside routinely utilised the Department of Planning, Land and Heritage Aboriginal Cultural Heritage Inquiry System as part of the EP development process and includes the results of these inquiry system searches as an appendix to each EP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (4) Woodside was looking forward to presenting to the Shire at its Local and District Emergency Management Committee (LEMC) on 21 November 2023 on its approach to managing a hydrocarbon release in the highly unlikely event this occurs. Woodside confirmed it would welcome questions regarding this EP during the presentation. Woodside also sought to clarify the Shire’s request to provide a briefing prior to activities commencing as this would potentially mean Woodside is providing frequent briefings on the same issue.
- (5) Woodside had an Oil Pollution First Strike Plan in place for all EPs which details potential impacts, notifications and response mitigations that may be executed to manage an emergency event.
- (6) In the course of developing EPs, Woodside developed oil spill preparedness and response positions tailor for individual projects, and consults with the relevant external emergency management agencies.
- (7) Woodside consulted relevant persons in the course of preparing an EP in accordance with regulation 11A (now regulation 25)of the Environment Regulations, and as per Woodside’s ongoing consultation approach, feedback and comments received from relevant persons continue to be assessed and responded to, as required, throughout the life of an EP.
- Woodside noted the Shire’s interest in ongoing local content opportunities and aims to work with local business through employment and contracting opportunities, where practical, to create and building community capacity and capability.
- (8) Woodside would continue to provide the Shire with significant updates when relevant.
- On 14 November 2023, Shire of Ashburton responded (SI Report, reference 51.3) and, regarding Woodside’s query seeking clarification on LEMC briefing requirements, confirmed:
 - (9) Woodside is not required to give a briefing on its response capability every time it undertakes an activity that has a risk of a hydrocarbon release.
 - (10) It is proposed that Woodside, when operating in an area, provides a briefing that covers its program of activities over a period of time, which can be determined by Woodside’s own assessment of the need and liaising with the relevant LEMC/DEMC.
 - (11) The word briefing should not be confused with advising stakeholders of any assessed high-risk activity where it is appropriate to inform those who may be impacted or involved in a response or recovery process.
- On 21 November 2023, Woodside presented at the Shire of Ashburton LEMC meeting (SI Report, reference 51.4) and provided:
 - An overview of proposed activities relevant to the Shire including this EP.
 - An outline of the consultation approach and explanation of the EMBA as a modelling process of the broadest extent a diesel could spread based on a number of conditions.
 - Details of the oil spill response approach in the highly unlikely event of a hydrocarbon spill.
 - Woodside’s key steps when activating an oil spill response plan.
 - Shire of Ashburton thanked Woodside for presenting to the committee and no questions or concerns were raised.
- On 22 November 2023, Woodside responded thanking the Shire for its email from 14 November 2023 (SI Report, reference 51.5) and confirmed:
 - (9) It noted the Shire’s advice that it was not required to provide a briefing on its response capability every time it undertakes an activity that has a risk of a hydrocarbon release.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (10) It accepted the Shire’s proposal to provide briefings that cover its program of activities over a period of time, as determined by Woodside’s own assessment of need and in liaison with the relevant LEMC.
- (11) It will provide notifications to relevant stakeholders if required as per Woodside’s oil spill response arrangements.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1) No objections to the proposed activity.	(1) Woodside assessment: Woodside notes the Shire has no objections. Woodside response: Woodside acknowledged that the Shire of Ashburton had no objections to the activity.	(1) Not required.
(2) Identifying, managing and mitigating all possible impacts and risks.	(2) Woodside assessment: Woodside has assessed environmental impacts and risks as well as mitigation and management measures in the EP. Woodside response: Woodside confirmed it was required to manage environmental impacts and risks to the environment by the proposed activities to As Low As Reasonably Practicable (ALARP), as per the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Environment Regulations).	(2) Existing controls considered sufficient as described in Sections 6 and 7 of this EP.
(3) Consulting the ACHIS.	(3) Woodside assessment: Woodside has utilised the Department of Planning, Land and Heritage Aboriginal Cultural Heritage Inquiry System for this EP. Woodside response: Woodside advised it routinely utilised the Department of Planning, Land and Heritage Aboriginal Cultural Heritage Inquiry System as part of the EP development.	(3) A search of DPLH’s Aboriginal Cultural Heritage Inquiry System was undertaken for this EP (see Appendix G).
(4) Briefing the Shire’s Local and District Emergency Management Committee before activities commence.	(4) Woodside assessment: Woodside agrees there is merit in briefing the LEMC given its role and function.	(4) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside advised it was looking forward to presenting to the Shire of Ashburton’s LEMC meeting on 21 November 2023 regarding its approach to managing a hydrocarbon release in the highly unlikely event this occurred, and would be happy to take questions regarding this EP during the presentation. However, Woodside sought clarification on the frequency of briefings and whether they were needed for each activity. On 21 November 2023, Woodside presented at the Shire of Ashburton’s LEMC on oil spill responses.</p>	
<p>(5) Ensuring Woodside is communicating with appropriate national and state emergency management agencies.</p>	<p>(5) Woodside assessment: Woodside’s oil spill preparedness and response plans for this EP include communication with appropriate agencies. Woodside response: Woodside confirmed it had an Oil Pollution First Strike Plan in place for this EP which detailed potential impacts, notifications and response mitigations that may be executed to manage an emergency event.</p>	<p>(5) In the course of developing this EP, Woodside has developed oil spill preparedness and response positions and an Oil Pollution First Strike Plan (see Appendix H and I of this EP).</p>
<p>(6) Assuming Woodside has emergency management planning in place.</p>	<p>(6) Woodside assessment: Woodside has developed oil spill preparedness and first response plans for this EP. Woodside response: Woodside confirmed that in the course of developing EPs, it developed oil spill preparedness and response positions tailored for individual projects. Woodside consults with the relevant external management agencies to ensure all emergency management plans are aligned with effective outcomes.</p>	<p>(6) In the course of developing this EP, Woodside has developed oil spill preparedness and response positions and an Oil Pollution First Strike Plan (see Appendix H and I of this EP).</p>
<p>(7) Woodside has engaged with the community.</p>	<p>(7) Woodside assessment: Woodside has consulted relevant persons whose functions, interests or activities may be impacted by the activity, in line with regulation 25 of the Environment Regulations. Woodside response: Woodside advised it consulted relevant persons in the course of preparing an EP, and as per Woodside’s ongoing consultation approach, feedback and</p>	<p>(7) Woodside complies with regulation 25 of the Environment Regulations and consults relevant persons in the course of developing an EP, as described in Section 5.3 of this EP. Woodside also engages in ongoing consultation throughout the life of an EP as described in Section 7.10 of the EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	comments from relevant persons continued to be assessed and responded to, as required, throughout the life of an EP.	
(8) Provide updates as activities progress.	(8) Woodside assessment: Woodside will provide the Shire with significant updates with respect to the activity, as appropriate. Woodside response: Woodside confirmed it would continue to provide the Shire with significant updates with respect to the proposed activities when relevant.	(8) Woodside will provide notification of significant change to relevant persons as referenced in Section 7.10 of the EP.
(9) Amended its advice regarding the timing of briefings to the LEMC.	(9) Woodside assessment: Woodside accepts the LEMC's updated advice regarding briefing requirements. Woodside response: Woodside noted the Shire's advice regarding the frequency of briefings to the LEMC.	(9) Not required.
(10) Proposed Woodside give briefings that cover its program of activities over a period of time.	(10) Woodside assessment: Woodside accepts the Shire's proposal for Woodside to deliver briefings that cover its program of activities in an area over a period of time. Woodside response: Woodside confirmed it accepted the Shire's proposal to deliver briefings that cover its program of activities in an area over a period of time.	(10) Not required.
(11) Clarified the need for stakeholders to be advised of any assessed high-risk activity.	(11) Woodside assessment: Woodside will notify relevant stakeholders if required. Woodside response: Woodside confirmed it would notify relevant stakeholders if required as per Woodside's oil spill response arrangements.	(11) The Oil Pollution First Strike Plan (Appendix I) for this EP includes a requirement to notify stakeholders who may be affected by a spill.
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Shire of Ashburton for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers on 13 September 2023 advising of the proposed activities and requesting feedback.
- Consultation Information provided to Shire of Ashburton on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has addressed and responded to Shire of Ashburton over a 15-month period.

City of Karratha

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside emailed City of Karratha advising of the proposed activity (Record of Consultation, reference 1.19) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to City of Karratha following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with City of Karratha for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to City of Karratha on 15 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided City of Karratha with the opportunity to provide feedback over a 15-month period.

Shire of Carnarvon

Summary of information provided and record of consultation:

- On 13 September 2023, Woodside emailed Shire of Carnarvon advising of the proposed activity (Record of Consultation, reference 1.4) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Shire of Carnarvon following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Shire of Carnarvon for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Shire of Carnarvon on 13 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has provided Shire of Carnarvon with the opportunity to provide feedback over a 15-month period.

Shire of Broome

Summary of information provided and record of consultation:

- On 18 September 2023, Woodside emailed Shire of Broome advising of the proposed activity (Record of Consultation, reference 1.21) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 22 September 2023, Shire of Broome responded to Woodside (SI Report, reference 52.1) and:
 - (1) Confirmed it had no comment on the proposal due to the significant distance from Broome.
 - (2) Noted it looked forward to receiving referrals related to proposals closer to Broome.
- On 5 October 2023, Woodside responding thanking Shire of Broome for its email (SI Report, reference 52.2). Woodside
 - (1) Noted Shire of Broome had no comment on the environment plan.
 - (2) Confirmed it would continue to consult the Shire on activities closer to Broome.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
(1) Due to the distance from Broome, it had no comment on the proposal.	(1) Woodside assessment: Woodside accepts that Shire of Broome has no comments due to the distance from the Operational Area.	(1) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside noted the Shire of Broome had no comments on the proposal.	
(2) It looked forward to receiving referrals related to proposals closer to Broome.	(2) Woodside assessment: Woodside will continue to consult Shire of Broome where it is identified as a relevant person. Woodside response: Woodside confirmed it would continue to consult Shire of Broome on proposals closer to Broome.	(2) Not required.
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
Outcomes of Consultation		
<p>Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Shire of Broome for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:</p> <ul style="list-style-type: none"> • Consultation Information Sheet publicly available on the Woodside website since 12 September 2023. • Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback. • Consultation Information provided to Shire of Broome on 18 September 2023 based on their functions, interests or activities. • Woodside has provided a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. • Woodside has addressed and responded to Shire of Broome over a 15-month period.

Shire of Shark Bay

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed Shire of Shark Bay advising of the proposed activity (Record of Consultation, reference 1.29) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Shire of Shark Bay following up on the proposed activities (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 17 October 2023, Woodside met with the Shire of Shark Bay during a community information session in Denham.
 - (1) The discussion with the Shire included:
 - Woodside explaining the purpose of consultation for EPs.
 - Woodside noting that consultation is based on the EMBA and no activities are planned in Shark Bay.
 - Woodside providing an overview of activities including this EP.
 - (2) The Shire advised it would provide a list of other potentially relevant persons to consult.
- On 18 October 2023, the Shire of Shark Bay emailed Woodside thanking it for the meeting (SI Report, reference 53.1). The Shire:
 - (2) Recommended a list of contacts in Shark Bay who might be interested in providing feedback on the proposed activity and expressed an interest in setting up a meeting with interested contacts in the future. Woodside has sent consultation information to these contacts.
 - (3) Provided advice on the best consultation channels for the broader Shark Bay community.
 - (4) Advised that as a local government, Shire of Shark Bay could not post Woodside content on its website but could share graphics containing consultation information on its Facebook page on behalf of Woodside.
- On 20 October 2023, Woodside sent an email thanking Shire of Shark Bay for the meeting (SI Report, reference 53.2) and:
 - (2) Confirmed it would consult the stakeholders recommended by the Shire.
 - (3) Thanked the Shire for its advice on the best consultation methods for reaching the broader community.
 - (1) Provided information, including links to the Consultation Information Sheet, for this EP and a separate Woodside EP which the Shire had shown interest in.
 - (1) Explained the environment that may be affected (EMBA) and how it affected the Shire of Shark Bay for this EP and the separate Woodside EP.
 - (1) Confirmed Woodside looked forward to meeting with the Shire in the future.
- On 31 October 2023, Woodside sent an email to three Shire of Shark Bay representatives providing another overview of the proposed activity (Record of Consultation, reference 1.60).
- On 15 December 2023, Woodside sent a reminder email to three Shire of Shark Bay representatives following up on the proposed activity (Record of Consultation, reference 2.19) and provided a link to the Consultation Information Sheet on Woodside's website.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) Explanation of Woodside's consultation process, the activities of associated with this EP, and the EMBA.</p>	<p>(1) Woodside assessment: Woodside welcomes engagement with the Shire of Shark Bay which has been assessed as a relevant person for this EP. Woodside response: Woodside provided an explanation of the EP, EMBA and consultation process during a discussion with Shire of Shark Bay during a community information session. Woodside had previously provided consultation information to the Shire via email, and, following the information session, Woodside sent consultation information to additional Shire representatives.</p>	<p>(1) Not required.</p>
<p>(2) Provided Woodside with a list of contacts who may be interested in providing feedback on the activities proposed in this EP.</p>	<p>(1) Woodside assessment: Woodside reviewed the Shire of Shark Bay's feedback regarding potentially relevant persons for this EP and provided consultation information to those stakeholders. Woodside response: Woodside confirmed it would provide consultation information to the stakeholders recommended by Shire of Shark Bay.</p>	<p>(1) Woodside updated its Assessment of Relevance (see Appendix F, Table 1) to include the stakeholders Shire of Shark Bay identified as potentially relevant.</p>
<p>(2) Provided advice on consultation channels for Shark Bay.</p>	<p>(2) Woodside assessment: Woodside notes Shire of Shark Bay's advice on consultation channels for the community and will consider incorporating this approach into future EPs where relevant. Woodside response: Woodside thanked Shire of Shark Bay for its advice on the best consultation channels for the broader community.</p>	<p>(2) Not required.</p>
<p>(3) Advised it could share Woodside consultation graphics on its Facebook page.</p>	<p>(3) Woodside assessment: Woodside notes the Shire of Shark Bay can share information on its Facebook page on behalf of Woodside.</p>	<p>(3) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside noted the Shire of Shark Bay's advice regarding sharing consultation information on Facebook on behalf of Woodside.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

Woodside has discharged its obligations for consultation under regulation 25 of the Environment Regulations and consultation with Shire of Shark Bay for the purpose of regulation 25 is complete. Sufficient information and a reasonable period have been provided, as described in Section 5.4 of the EP. Specifically:

- Consultation Information Sheet publicly available on the Woodside website since 12 September 2023.
- Woodside published advertisements in a national, state and relevant local newspapers including The Australian, The West Australian, NT News, Pilbara News, North West Telegraph, Midwest Times, Manjimup-Bridgetown Times, Kalgoorlie Miner (13 September 2023), Broome Advertiser, South Western Times, Kimberley Echo, Albany Advertiser, Countryman, Narrogin Observer, Great Southern Herald, Harvey Waroona Reporter (14 September 2023) and Augusta Margaret River Times, Busselton Dunsborough Times, Geraldton Guardian (15 September 2023), Koori Mail (20 September 2023) and National Indigenous Times (26 September 2023) advising of the proposed activities and requesting feedback.
- Consultation Information provided to Shire of Shark Bay on 19 September 2023 based on their functions, interests or activities.
- Woodside has provided a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- Woodside has sent a follow up email seeking feedback on the proposed activities.
- Woodside has addressed and responded to Shire of Shark Bay over a 15-month period.

Shire of Christmas Island

Summary of information provided and record of consultation:

- On 19 September 2023, Woodside emailed Shire of Christmas Island advising of the proposed activity (Record of Consultation, reference 1.29) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 16 October 2023, Woodside sent a reminder email to Shire of Christmas Island following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.
- On 25 October 2023, Woodside emailed Shire of Christmas Island to provide details for its contact for First Nations Peoples and seek contact details for the Christmas Island Malay Peoples (SI Report, reference 54.1).
- On 2 November 2023, Woodside sent a follow-up email regarding contacts for the Christmas Island Malay Peoples and explaining its intention to provide an overview of Woodside Energy and its projects to the community and broader Shire (SI Report, reference 54.2).
- On 3 November 2023, Woodside had a phone call with Shire of Christmas Island to discuss consultation opportunities (SI Report, reference 54.3). During the discussion:
 - Woodside provided an overview of role responsibilities and points of contact with First Nations communities and Corporations in WA and NT.
 - Woodside discussed the recent changes to consultation and engagement as a result of the Santos Tiwi Island matter.
 - The Shire provided history and context about the island and Shire roles.
 - **(1)** The Shire noted it was unaware of prior correspondence regarding this EP.
 - Woodside explained the process for determining the EMBA for this EP and confirmed why Christmas Island had been consulted.
 - **(2)** The Shire noted it appreciated and supported Woodside's methodology for identifying and including First Nations stakeholder input.
 - **(3)** The Shire identified other Malay and Chinese contacts that Woodside should consider including in future engagements where relevant.
 - **(4)** The Shire welcomed the opportunity for a potential meeting with Woodside on Christmas Island and provided information about flight availability.
- On 3 November 2023, Woodside sent an email in follow-up to the phone call (SI Report, reference 54.4). Woodside noted:
 - **(1)** It wanted to ensure Shire of Christmas Island had an opportunity to hear about Woodside Energy projects in the region and to take feedback.
 - **(2)** It appreciated the engagement with the Shire and its support for Woodside's methodology.
 - **(3)** Its approach to consultation in line with Regulation 25 including changes in relation to First Nations groups following recent court matters.
 - **(4)** Potential opportunities to meet with Shire of Christmas Island during November or December.
- On 3 November 2023, Shire of Christmas Island responded thanking Woodside for its email (SI Report, reference 54.5) and:
 - **(4)** Provided information about flight availability to Christmas Island during December for a potential meeting.
 - **(1)** Advised it had checked previous correspondence between Woodside and Christmas Island and noted a series of emails for licenced fishers about a separate Woodside drilling project earlier in 2023.
- On 6 November 2023, Woodside responded thanking Shire of Christmas Island for its email and advised it was also looking to organise a consultation session with Cocos (Keeling) Islands (SI Report, reference 54.6).
- On 6 November 2023, the Shire of Christmas Island responded and confirmed flights were available from Christmas Island to Cocos (Keeling) Islands (SI Report, reference 54.7).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 15 December 2023, Woodside emailed Shire of Christmas Island Fisheries Management Committee (FMC) advising of the proposed activity (Record of Consultation, reference 1.102) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 9 January 2024, Woodside sent a reminder email to the FMC following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside's website.
- On 19 January 2024, the FMC responded thanking Woodside for the opportunity to provide feedback (SI Report, reference 54.8). The FMC:
 - **(5)** Stated its experience of emergency communications in the external Indian Ocean Territories (IOTs) during times of widespread natural disasters that impacted the WA coastline and IOTs simultaneously was less than satisfactory, and advised it would like to submit to Woodside that dedicated communication, care and mitigation plans needed to be committed to for Christmas Island and the neighbouring Cocos (Keeling) Islands.
 - **(6)** Noted that while the mainland had a larger population and potentially greater economic impact from a significant failure at the facility, the livelihoods of residents in the external territories also needed careful consideration, and the recent 2022 declaration of the Christmas Island and Cocos (Keeling) Islands Marine Parks further underscored the importance of addressing the unique concerns and circumstances of the external territories. The FMC further stated it would welcome a dedicated emergency plan from Woodside for the IOT territories of Christmas Island and Cocos (Keeling) Islands and would like to underline the dramatic effect on life on the islands in the event their waters sustained effects from an unwanted event at the Woodside facilities. The FMC asked that mitigation plans be discussed and workshoped with relevant stakeholders in the Commonwealth, local government and emergency services in the IOTs to ensure a planned response was on file.
- On 5 February 2024, Woodside phoned the Shire of Christmas Island following up on discussions regarding a potential meeting (SI Report, reference 54.9). The Shire advised that it had provided written feedback via its FMC. Woodside thanked the Shire and confirmed it would respond to the Shire via its FMC.
- On 12 February 2024, Woodside responded thanking the FMC for its correspondence and for seeking clarification on oil spill responses (SI Report, reference 54.10). Woodside:
 - **(5)** Confirmed its process for oil spill response planning included the following steps:
 - Assess the credible spill risk for the activity.
 - Establish areas that may be contacted by an oil spill based on the outputs of computer simulation modelling, which use credible spill information together with weather and oceanographic data.
 - Select appropriate oil spill response clean-up methods for the credible spill event.
 - Develop an activity-specific Oil Pollution First Strike Plan to set out the steps to take if an oil spill does occur.
 - Regularly test, train and assure the First Strike Plan.
 - **(5)** Advised that for Ngujima-Yin operations, the computer oil spill simulation modelling predicted a minimum contact time at Christmas Island of 44 days in the event of a highly unlikely oil spill. This was considered to be a significant lead time to mount appropriate spill response measures.
 - **(5)** Noted that while oil spill response within the IOTs fell under the jurisdiction of AMSA, Woodside would make resources available to the response effort via oil spill response contractors and that Woodside maintained an equipment stockpile and trained staff on the mainland that could be deployed if required during a spill event.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (6) Advised that Woodside, together with other Australian energy companies, had developed a suite of site-specific ‘tactical response plans’ (TRPs) which were shared across the industry. Woodside noted:
 - The plans provided information on suitable clean-up equipment required closest stockpiles, local infrastructure, specific sensitivities, and other pertinent information to improve efficiency during a spill.
 - As a result of FMC’s feedback, Woodside had sought advice from an oil spill contractor on the development of a TRP appropriate for Christmas Island and understood a request had also been made for the contractor to develop a TRP for Cocos (Keeling) Islands.
 - Woodside would provide an update to FMC once it had received information from the oil spill contractor on an appropriate way forward for the Christmas Island TRP and may seek inputs for the TRP’s development.
- (6) Advised that further to the proposed TRPs for Christmas and Cocos (Keeling) Islands, it could add a relevant contact for Christmas and Cocos (Keeling) Islands into the notifications table within the First Strike Plan for this activity, which would ensure timely notifications were made to relevant parties if a spill event occurred that risked contacting Christmas and Cocos (Keeling) Islands. Woodside asked that if this would be considered useful, the FMC provide relevant contact information.
- (2, 3) Sought additional advice on whether further consultation with Christmas Island’s Malay community was requested. Woodside noted that a member of its First Nations Engagement team had received advice that the point of contact for the Malay community and the FMC were the same.
- On 11 June 2024, Woodside emailed the Shire’s FMC and attached a copy of the newly developed TRP for Christmas Island ((SI Report, reference 54.11). Woodside:
 - (6) Recapped that Woodside, together with other Australian energy companies, had a suite of site-specific ‘tactical response plans’ (TRPs) which were shared across the industry.
 - (6) Advised that as a result of the FMC’s feedback, Woodside had approached the oil spill contractor and a TRP had now been developed for Christmas Island.
 - (6) Provided an overview of the contents of the TRP and confirmed a copy of the TRP was also attached.
 - Noted that it understood the oil spill contractor had also been approached regarding the development of a TRP for Cocos (Keeling) Islands.
- On 11 June 2024, Shire of Christmas Island responding thanking Woodside for forwarding the TRP for Christmas Island (SI Report, reference 54.12). The Shire:
 - (7) Suggested an update to the Area Description and Site Location details in the TRP, based on:
 - The Minister for Environment gazetted the Christmas Island Marine National Park in 2022, and while the draft management plan was still to finalised, zones had been determined.
 - The current Area Description only included the terrestrial national park and should be updated to include the marine park.
- On 14 June 2024, Woodside responded thanking the Shire for its feedback (SI Report, reference 44.13). Woodside:
 - (7) Confirmed it had updated the TRP to include the marine national park in the area description and site location sections.
 - (7) Attached a copy of the updated TRP.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (7) On 14 June 2024, Shire of Christmas Island responded to confirm it had received the update (SI Report, reference 44.14). (7) Woodside noted the Shire had received the updated version of the TRP.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) The Shire advised it was unaware of Woodside consultation correspondence related to this EP prior to the phone call from Woodside on 3 November 2023, but had seen a series of emails for fishery licence holders regarding a separate Woodside EP earlier in 2023.</p>	<p>(1) Woodside assessment: Woodside has provided sufficient information to Shire of Christmas Island in line with regulation 25(2) of the Environment Regulations but notes the Shire's preference for phone or face-to-face consultation in future. Woodside response: Woodside noted Shire of Christmas Island's feedback that it had not seen the email correspondence regarding this EP and that the Shire appreciated Woodside's phone call regarding the proposed activity and welcomed the opportunity to meet in-person to discuss Woodside Energy projects.</p>	<p>(1) Not required.</p>
<p>(2) Noted it appreciated and supported Woodside's methodology for identifying and including First Nations stakeholder input.</p>	<p>(2) Woodside assessment: Woodside welcomes engagement with the Shire and First Nations groups on Christmas Island. Woodside response: Woodside noted the Shire's support for its methodology and efforts in identifying and seeking input from First Nations stakeholders.</p>	<p>(2) Not required.</p>
<p>(3) Identified Malay and Chinese communities on Christmas Island that Woodside should consider engaging for future EPs.</p>	<p>(3) Woodside assessment: Woodside complies with regulation 25 of the Environment Regulations in regard to the consultation process. For this EP, the Malay community of Christmas Island had been assessed as not a relevant person based on its functions, interests or activities, although Woodside chose to seek to contact the community at its discretion in line with Section 5.3.4.</p>	<p>(3) Woodside has assessed the relevancy of the Malay community of Christmas Island in Appendix F, Table 1 of the EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside response: Woodside noted the Shire's advice regarding Malay and Chinese communities on Christmas Island who may be interested in providing feedback on Woodside activities in the future and advised it would consider the additional stakeholders during relevancy assessments for future EPs. As part of ongoing consultation, Woodside advised it would also continue to consult following acceptance of this EP.</p>	
<p>(4) Welcomed the opportunity for a potential meeting with Woodside and provided information about flight schedules and bookings.</p>	<p>(4) Woodside assessment: Woodside welcomes the opportunity to consult with the Shire regarding Woodside activities, and accepts feedback throughout the life of an EP. Woodside response: Woodside confirmed it would like to ensure Christmas Island had an opportunity to hear about Woodside Energy projects and would work towards dates for a potential meeting.</p>	<p>(4) As identified in Section 7.10 of this EP, Woodside will continue to consult following acceptance of the EP, as required by the implementation strategy as set out regulation 22(15) of the Environment Regulations.</p>
<p>(5) The Shire's Fishing Management Committee (FMC) provided feedback and described its experience of emergency communications during natural disasters as less than satisfactory and advised it would like to submit to Woodside that dedicated communication, care and mitigation plans needed to be committed to for Christmas and Cocos (Keeling) Islands.</p>	<p>(5) Woodside assessment: Woodside's hydrocarbon release simulation modelling predicts a minimum contact time at Christmas Island of 44 days which provides a significant lead time to mount appropriate spill response measures. Woodside response: Woodside assessed the feedback from the FMC and provided an explanation of its process for oil spill response planning. Woodside advised that in the highly unlikely event of an oil spill, simulation modelling predicted a minimum contact time at Christmas Island of 44 days, which was considered to be significant lead time to mount appropriate spill response measures. Woodside noted that while oil spill response in the IOTs fell under the jurisdiction of AMSA, Woodside would make resources available to the response effort. Woodside confirmed it maintained an equipment stockpile and trained staff on the mainland that could be deployed if required.</p>	<p>(5) Woodside's process for identifying potential response options for hydrocarbon release scenarios is described in the OSPRMA (Appendix H).</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(6) The FMC also noted that the livelihoods of residents in the external territories needed careful and unique consideration and stated it would welcome a dedicated emergency plan from Woodside for Christmas and Cocos (Keeling) Islands.</p>	<p>(6) Woodside assessment: Woodside sought advice from an oil spill contractor on the development of a response plan for Christmas Island and the plan has now been developed. Woodside response: As a result of FMC’s feedback, Woodside confirmed it would seek advice from an oil spill response contractor on the development of a TRP for Christmas Island, and understands a TRP is also being developed for Cocos (Keeling) Islands. Woodside advised it would provide an update to the FMC once it received information on an appropriate way forward for the Christmas Island TRP. In June 2024, Woodside forwarded a copy of the newly developed TRP to the FMC. Woodside also advised it could include relevant contacts in its First Strike Plan, and for Christmas Island to provide contact information if this would be useful.</p>	<p>(6) At FMC’s discretion, Woodside will include a relevant Christmas Island contact in the notification table for the Oil Pollution First Strike Plan for this activity (Appendix I).</p>
<p>(7) Requested an update to the Christmas Island TRP to include the recently gazetted marine national park in the area description.</p>	<p>(7) Woodside assessment: Woodside agrees it is important to update the area description in the TRP to include the marine national park. Woodside response: Woodside confirmed it had updated the area description and site location sections of the TRP to include the marine national park. Woodside provided a copy of the updated TRP to the Shire.</p>	<p>(7) Not required.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>

TABLE 3: Engagement Report with Persons or Organisations Assessed as Not Relevant

Commonwealth, Western Australian and Northern Territory Government Departments of Agencies – Marine

Department of Foreign Affairs and Trade (DFAT)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 13 September 2023, Woodside emailed DFAT advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to DFAT following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside’s website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
<p>Outcomes of Consultation</p> <p>While DFAT is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for DFAT to provide feedback during the consultation process.</p>		

Northern Territory Department of Industry, Tourism and Trade (DITT) - NT Fisheries

<p>Summary of information provided and record of consultation:</p>

<ul style="list-style-type: none"> On 22 September 2023, Woodside emailed NT Fisheries advising of the proposed activity (Record of Consultation, reference 1.39) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to NT Fisheries following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Woodside has assessed the potential for interaction with Northern Territory managed commercial fisheries in Section 4.10.1 of this EP. No additional measures or controls are required.
Outcomes of Consultation		
While NT Fisheries is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for NT Fisheries to provide feedback during the consultation process.		

Northern Territory Department of Infrastructure, Planning and Logistics (DIPL) – Marine Safety

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 December 2023, Woodside emailed DIPL – Marine Safety advising of the proposed activity (Record of Consultation, reference 1.101) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 9 January 2024, Woodside sent a reminder email to DIPL – Marine Safety following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
Outcomes of Consultation		
While DIPL – Marine Safety is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for DIPL – Marine Safety to provide feedback during the consultation process.		

Port of Cocos (Keeling) Islands

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 18 December 2023, Woodside emailed Port of Cocos (Keeling) Islands advising of the proposed activity (Record of Consultation, reference 1.106) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 12 January 2024, Woodside sent a reminder email to Port of Cocos (Keeling) Islands following up on the proposed activity (Record of Consultation, reference 2.21) and included a link to the Consultation Information Sheet on Woodside’s website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
Outcomes of Consultation		
While Port of Cocos (Keeling) Islands is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Port of Cocos (Keeling) Islands to provide feedback during the consultation process.		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Commonwealth, Western Australian and Northern Territory Government Departments or Agencies – Environment

Northern Territory Department of Industry, Tourism and Trade (DITT) – Aquatic Biosecurity

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 22 September 2023, Woodside emailed DITT – Aquatic Biosecurity, advising of the proposed activity (Record of Consultation, reference 1.101) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 19 January 2024, Woodside sent a reminder email to DITT – Aquatic Biosecurity following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.
<p>Outcomes of Consultation</p> <p>While DITT – Aquatic Biosecurity is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for DITT – Aquatic Biosecurity to provide feedback during the consultation process.</p>		

Northern Territory Department of Environment, Parks and Water Security (DEPWS)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 22 September 2023, Woodside emailed DEPWS advising of the proposed activity (Record of Consultation, reference 1.40) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>.
--

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 16 October 2023, Woodside sent a reminder email to DEPWS following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional measures or controls are required.

Outcomes of Consultation

While DEPWS is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for DEPWS to provide feedback during the consultation process.

Northern Territory Environment Protection Authority (NTEPA)

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside emailed NTEPA advising of the proposed activity (Record of Consultation, reference 1.40) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to NTEPA following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where	No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	
Outcomes of Consultation		
While NTEPA is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for NTEPA to provide feedback during the consultation process.		

Northern Territory Department of Territory Families, Housing and Communities (TFHC) – Heritage Branch

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 December 2023, Woodside emailed TFHC – Heritage Branch advising of the proposed activity (Record of Consultation, reference 1.101) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 9 January 2024, Woodside sent a reminder email to TFHC – Heritage Branch following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside’s website. (1) On 10 January 2024, TFHC – Heritage Branch emailed Woodside asking for clarification on whether any works would occur within Northern Territory waters (SI Report, reference 55.1). On 12 January 2024, Woodside responded thanking TFHC – Heritage Branch for its email (SI Report, reference 55.2). Woodside: <ul style="list-style-type: none"> (1) Advised that the Operational Area for the EP was near Exmouth in Western Australia and therefore no planned activities would occur in NT waters. (1) Following changes to Commonwealth EP consultation, Woodside was now consulting persons or organisations in the EMBA. The (original) EMBA for this EP extended into NT waters. (1) Provided a close-up map showing where the original EMBA extended into NT waters (SI Report, reference 55.3). On 15 January 2024, TFHC – Heritage Branch responded thanking Woodside for highlighting where the EMBA extended into NT waters (SI Report, reference 55.4). TFHC – Heritage Branch: <ul style="list-style-type: none"> (2) Noted that Woodside’s report made no comment on the potential impact of hydrocarbon release for underwater cultural heritage (UCH) and that it appeared the impact would only affect marine life. If correct, TFHC – Heritage Branch had no further comments at this time. On 7 February 2024, Woodside responded thanking TFHC – Heritage Branch for its response regarding the potential impact of hydrocarbon release on UCH (SI Report, reference 55.5). Woodside advised:

- (2) In the highly unlikely event of a hydrocarbon release, Woodside’s Oil Pollution First Strike Plan included a requirement to contact relevant persons throughout the response period.
- (2) Woodside has an Unexpected Finds Procedure within the EP which describes the actions to take should potential UCH be discovered during activities. This included engaging a maritime archaeologist to assess the potential UCH and, if confirmed, informing relevant stakeholders such as Traditional Custodians, DCCEEW and the WA Museum.
- (2) Woodside is aware there are numerous known shipwrecks within the EMBA for the EP, including both protected and more recent shipwrecks. However, the EMBA does not overlap any shipwrecks currently listed on the Australian National Shipwreck Database within NT waters, with the closest shipwreck in NT waters identified as the Editha, 98km to the south-east of the EMBA.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) TFHC – Heritage Branch asked for clarification on whether any works would occur in NT waters.</p>	<p>(1) Woodside assessment: No planned activities will occur in NT waters. Woodside response: Woodside confirmed to TFCH – Heritage Branch that there were no planned activities in NT waters, however it had been consulted because the EMBA for the EP extended into NT waters.</p>	<p>(1) Not required.</p>
<p>(2) TFHC – Heritage Branch noted that if there were no potential impacts of a hydrocarbon release on UCH, it had no further comments at this time.</p>	<p>(2) Woodside assessment: The EMBA for this EP does not overlap any known shipwrecks within NT waters. Woodside response: Woodside advised the EMBA for the EP did not overlap any known shipwrecks within NT waters. In the unlikely event of a hydrocarbon release, Woodside’s Oil Pollution First Strike Plan included a requirement to notify relevant persons, and Woodside had an Unexpected Finds Procedure which describes the actions to take should potential UCH be discovered during activities.</p>	<p>(2) The potential environmental impacts of planned and unplanned activities are assessed in Section 6.6, 6.7 and 6.8 of this EP. Woodside’s Unexpected Finds Procedure for Underwater Cultural Heritage is described in Section 7.5.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback</p>	<p>No additional measures or controls are required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	
<p>Outcomes of consultation</p>		
<p>While TFHC – Heritage Branch is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for TFHC – Heritage Branch to provide feedback during the consultation process.</p>		

Commonwealth, Western Australian and Northern Territory Government Departments or Agencies – Industry

Northern Territory Department of Industry, Tourism and Trade (DITT) – Mining and Energy

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 22 September 2023, Woodside emailed DITT – Mining and Energy, advising of the proposed activity (Record of Consultation, reference 1.40) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to DITT – Mining and Energy following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside’s website. (1) On 30 October 2023, DITT – Mining and Energy thanked Woodside for its email and advised it had no comment (SI Report, reference 56.1). (1) On 31 October 2023, Woodside responded thanking DITT – Mining and Energy for its email and noted it had no comment (SI Report, reference 56.2). On 15 December 2023, Woodside emailed DITT – Mining and Energy to confirm whether its feedback encompassed the Aquatic Biosecurity arm of DITT (SI Report, reference 56.3). (2) On 15 December 2023, DITT – Mining and Energy advised that Woodside should consult Aquatic Biosecurity separately (SI Report, reference 56.4). (2) On 15 December 2023, Woodside thanked DITT – Mining and Energy for the advice and confirmed it would contact the Aquatic Biosecurity division (SI Report, reference 56.5).

Commonwealth Commercial fisheries and representative bodies

Northern Prawn Fishery

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 22 September 2023, Woodside emailed Northern Prawn Fishery advising of the proposed activity (Record of Consultation, reference 1.37) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to Northern Prawn Fishery following up on the proposed activity (Record of Consultation, reference 2.3) and included a link to the Consultation Information Sheet on Woodside's website. (1) On 18 October 2023, a licence holder from the Northern Prawn Fishery responded asking to be removed from Woodside's mailing list (SI Report, reference 57.1). (1) On 24 November 2023, Woodside responded thanking the licence holder for their email and confirming they had been removed from the mailing list (SI Report, reference 57.2). 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
(1) A licence holder from Northern Prawn Fishery asked to be removed from Woodside's mailing list.	(1) Woodside assessment: Woodside respects that consultation is voluntary. Woodside response: Woodside confirmed it had removed the licence holder from the mailing list.	(1) Not required.
While feedback has been received, there were no objections or claims.	Woodside has consulted AFMA, DAFF - Fisheries, CFA, Northern Prawn Fishery Industry Pty Ltd, and relevant individual licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Outcomes of Consultation

While Northern Prawn Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Northern Prawn Fishery to provide feedback during the consultation process.

Cocos (Keeling) Islands Marine Aquarium Fishery

Summary of information provided and record of consultation:

- On 3 October 2023, Woodside sent a letter to Cocos (Keeling) Islands Marine Aquarium Fishery advising of the proposed activity (Record of Consultation, reference 1.53) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 24 October 2023, Woodside sent a reminder letter to Cocos (Keeling) Islands Marine Aquarium Fishery following up on the proposed activity (Record of Consultation, reference 2.10) and included a QR code link to the Consultation Information Sheet on Woodside’s website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside has consulted AFMA, DAFF - Fisheries, CFA, DITRDCA and individual relevant licence holders. Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Commonwealth managed commercial fisheries in Section 4.10.1 of this EP. Woodside has implemented a consultation program to advise relevant persons of the PAP and provide opportunity to raise objections or claims, as referenced as PS 1.4 in this EP. No additional measures or controls are required.

Outcomes of Consultation

While Cocos (Keeling) Islands Marine Aquarium Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Cocos (Keeling) Islands Marine Aquarium Fishery to provide feedback during the consultation process.

	appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	
Outcomes of consultation		
While Northern Territory Demersal Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Northern Territory Demersal Fishery to provide feedback during the consultation process.		

Northern Territory Mud Crab Fishery

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside sent a letter to Northern Territory Mud Crab Fishery advising of the proposed activity (Record of Consultation, reference 1.42) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder letter to Northern Territory Mud Crab Fishery following up on the proposed activity (Record of Consultation, reference 2.5) and included a QR code link to the Consultation Information Sheet on Woodside's website.
- On 20 October 2023, a licence holder from the Northern Territory Mud Crab Fishery responded thanking Woodside for the opportunity to be consulted (SI Report, reference 58.1). It explained its business undertakings related to Sea Country activities and enquired about:
 - (1) The process of reporting accidental waste discharged into the environment.
 - (2) The process for reporting damage to sea life on the sea floor, such as giant clams and any other protected or endangered species.
 - (3) Opportunities for local Aboriginal sea rangers to work on the activities associated with this EP or other activities.
 - (4) Opportunities for the licence holder to work with Woodside on any activities.
- On 17 November 2023, Woodside responded and thanked the licence holder for its feedback (SI Report, reference 58.2). Woodside:
 - (1) Advised that activities that occurred under this EP had requirements for reporting to NOPSEMA which included accidental waste discharged to the environment. The Environment Regulations specified when and what Woodside would need to report depending on the severity of the incident. There may also be requirements for reporting to other regulators that Woodside would follow, for example, to the Australian Maritime Safety Authority.
 - (2) Advised that activities associated with this EP were located where the sea floor was predominantly soft, sandy seabed and sea life such as giant clams and other protected or endangered species were not known to occur. However, if the activities described in the EP resulted in the unintentional death of or injury to a fauna species listed as Threatened or Migratory, and the activity was not authorised by a permit, this would be reported to the Department of Climate Change, Energy, Environment and Water

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (3, 4) Noted the Aboriginal Sea Company’s interest in opportunities for local Aboriginal sea rangers and broader opportunities between Woodside and the Traditional Owners and advised Woodside was currently looking to work through both the Northern Land Council and Tiwi Land Council.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1) The process for reporting the discharge of accidental waste.	(1) Woodside assessment: Woodside complies with NOPSEMA’s reporting requirements. Woodside response: Woodside provided information on the process for reporting accidental waste discharged into the environment.	(1) Existing controls considered sufficient as described in Sections 6 and 7 of the EP.
(2) The process for reporting damage to the sea life on the sea floor.	(2) Woodside assessment: Woodside complies with NOPSEMA’s reporting requirements. Woodside response: Woodside provided information on the sea floor where the activities associated with this EP are located, and on the process for reporting the unintentional death of or injury to a fauna species listed as Threatened or Migratory.	(2) Existing controls considered sufficient as described in Sections 6 and 7 of the EP.
(3) Opportunities for local Aboriginal sea rangers on the activity.	(3) Woodside assessment: Woodside notes ASC’s interest in opportunities for local Aboriginal sea rangers. Woodside response: Woodside advised it was currently looking to work through both the Northern Land Council and Tiwi Land Council and was open to further discussion with ASC.	(3) Not required.
(4) Opportunities for the licence holder to work with Woodside on broader activities.	(4) Woodside assessment: Woodside notes ASC’s interest in broader opportunities between Woodside and Traditional Owners. Woodside response: Woodside advised it was currently looking to work through both the Northern	(4) Not required.

	Land Council and Tiwi Land Council and was open to further discussion with ASC.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Northern Territory managed commercial fisheries in Section 4.10.1 of this EP. No additional measures or controls are required.
Outcomes of consultation		
While Northern Territory Mud Crab Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Northern Territory Mud Crab Fishery to provide feedback during the consultation process.		

Northern Territory Mollusc Fishery

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 22 September 2023, Woodside sent a letter to Northern Territory Mollusc Fishery advising of the proposed activity (Record of Consultation, reference 1.42) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder letter to Northern Territory Mollusc Fishery following up on the proposed activity (Record of Consultation, reference 2.5). 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Northern Territory managed commercial fisheries in Section 4.10.1 of this EP. No additional measures or controls are required.
Outcomes of consultation		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

While Northern Territory Mollusc Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Northern Territory Mollusc Fishery to provide feedback during the consultation process.

Northern Territory Aquaculture Fishery

Summary of information provided and record of consultation:

- On 22 September 2023, Woodside sent a letter to Northern Territory Aquaculture Fishery advising of the proposed activity (Record of Consultation, reference 1.42) and provided a Consultation Information Sheet and a link to NOPSEMA’s brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder letter to Northern Territory Aquaculture Fishery following up on the proposed activity (Record of Consultation, reference 2.5) and included a QR code link to the Consultation Information Sheet on Woodside’s website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	Woodside has assessed the potential for interaction with Northern Territory managed commercial fisheries in Section 4.10.1 of this EP. No additional measures or controls are required.

Outcomes of consultation

While Northern Territory Aquaculture Fishery is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Northern Territory Aquaculture Fishery to provide feedback during the consultation process.

Recreational marine users and representative bodies

Shark Bay recreational marine users

Summary of information provided and record of consultation:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<ul style="list-style-type: none"> On 18 October 2023, in an email to Woodside, Shire of Shark Bay identified Shark Bay marine, dive and charter operators that may be potentially relevant persons for this EP (SI Report, reference 53.1). On 31 October 2023, Woodside emailed the Shark Bay marine users advising of the proposed activities (Record of Consultation, reference 1.62) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 15 December 2023, Woodside sent a reminder email to Shark Bay marine users following up on the proposed activity (Record of Consultation 2.19) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While Shark Bay Recreational Marine Users is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shark Bay Recreational Marine Users to provide feedback during the consultation process.		

Amateur Fishermen's Association of the NT

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 December 2023, Woodside emailed Amateur Fishermen's Association of the NT advising of the proposed activity (Record of Consultation, reference 1.100) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 9 January 2024, Woodside sent a reminder email to Amateur Fishermen's Association of the NT following up on the proposed activity (Record of Consultation, reference 2.20) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While Amateur Fishermen’s Association of the NT is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Amateur Fishermen’s Association of the NT to provide feedback during the consultation process.		

Northern Territory Guided Fishing Industry Association (NTGFIA)

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 18 December 2023, Woodside telephoned NTGFIA advising of the proposed activity and seeking guidance on whether it was necessary to consult individual operators (SI Report, reference 48.1). On 18 December 2023, Woodside emailed NTGFIA with further information about the proposed activity (Record of Consultation, reference 1.104) and provided a Consultation Information Sheet, a close-up map of where the original EMBA extended into NT waters (Record of Consultation, reference 1.105), and a link to NOPSEMA’s brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 20 December 2023, NTGFIA responded thanking Woodside for the email (SI Report, reference 48.2). NTGFIA: <ul style="list-style-type: none"> (1) Noted that given the very limited portion of NT waters impacted and the unlikelihood of its members operating in those areas, it had no comment at this time. On 21 December 2023, Woodside responded thanking NTGFIA for its feedback (SI Report, reference 48.3). Woodside: <ul style="list-style-type: none"> (1) Noted the unlikelihood of members operating in those areas and that the NTGFIA therefore had no comment at this time. (1) Advised that on that basis, Woodside would not consult individual operators for this activity. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
(1)	(1)	(1) Not required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>NTGFIA advised that due to the limited portion of NT waters impacted and the unlikelihood of its members operating in those areas, it had no comment at this time.</p>	<p>Woodside assessment: Woodside accepts that NTGFIA has no comment on the proposed activity and, due to the unlikelihood of its members operating within the EMBA, Woodside has not consulted individual charter operators.</p> <p>Woodside response: Woodside acknowledged that NTGFIA had no comment and it was unlikely its members would operate within the EMBA. On that basis, Woodside advised it would not consult individual operators.</p>	
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of consultation</p>		
<p>While NTGFIA is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for NTGFIA to provide feedback during the consultation process.</p>		

Titleholders and Operators

Eni Australia

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Eni Australia advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 16 October 2023, Woodside sent a reminder email to Eni Australia following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of Consultation

While Eni Australia is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Eni Australia to provide feedback during the consultation process.

Vermilion Oil & Gas

Summary of information provided and record of consultation:

- On 14 September 2023, Woodside emailed Vermilion Oil & Gas advising of the proposed activity (Record of Consultation, reference 1.5) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a reminder email to Vermilion Oil & Gas following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has	No additional measures or controls are required.

Wanjina-Wunggurr (Native Title) Aboriginal Corporation (WWNAC)

WWAC is established under the Native Title Act 1993 by the Wanjina and Wunggurr people to represent the Wanjina and Wunggurr people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 19 July 2023, Woodside emailed WWAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that WWAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 61.1).

Summary of information provided and record of consultation for this EP:

- On 2 October 2023, Woodside emailed WWAC advising of the proposed activity (Record of Consultation, reference 1.80) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that WWAC and its members may have within the EMBA, information on how WWAC would like to engage, and requested that WWAC provide information to other individuals as required.
- On 13 October 2023, Woodside sent an email to the Kimberley Land Council (KLC) on behalf of WWAC enquiring about the best contact person at WWAC as Woodside had not received a response from its initial email (SI Report, reference 61.2). A copy of the initial email was attached.
- On 25 October 2023, Woodside emailed KLC enquiring if the KLC was the best point of contact (SI Report, reference 61.3).
- On 26 October 2023, KLC responded thanking Woodside for its email and confirmed Woodside had sent the information to the correct email address for WWAC. KLC noted that Corporation responses could be somewhat delayed or timely due to various factors including opportunities for meetings and discussions, cultural or other corporation commitments and obligations, governance considerations, and more, and that it trusted someone would be in touch in due course (SI Report, reference 61.4).
- On 30 October 2023, KLC responded to Woodside's email from 25 October 2023 and provided a link to the Office of the Registrar of Indigenous Corporations (ORIC) (SI Report, reference 61.5).
- On 2 November 2023, Woodside emailed KLC thanking them for their response and informing them that they had exhausted all contacts listed on ORIC which is why they contacted KLC. Woodside also noted that it appreciated this time of the year was very busy and was understanding why making contact with PBCs may be difficult (SI Report, reference 61.6).
- On 2 November 2023, KLC emailed Woodside confirming that they would pass on Woodside's email to WWAC (SI Report, reference 61.7).
- On 23 January 2024, Woodside emailed WWAC about this activity and informed WWAC that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside offered to meet with WWAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 61.8).

Ongoing Engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<ul style="list-style-type: none"> Woodside continues to pursue an ongoing two-way relationship with KTLA on future opportunities to work together. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>No feedback objections or claims received despite follow-up.</p>	<p>Woodside accepts that WWAC has no feedback on the activity at this time.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with WWAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to WWAC will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with WWAC as part of ongoing engagement (Section 7.10 of the EP).</p> <p>No additional measures or controls required.</p>
<p>Outcomes of Consultation</p>		
<p>While WWAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Mayala Inninalang Aboriginal Corporation (MIAC)

MIAC is established under the Native Title Act 1993 by the Mayala people to represent the Mayala people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Kimberley Land Council (KLC) is the nominated Representative of MIAC.

- On 19 July 2023, Woodside emailed KLC to request they forward an email from Woodside to MIAC about guidelines and policies released by NOPSEMA (SI Report, reference 62.1).
- On 19 July 2023, Woodside emailed MIAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that MIAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 62.2).
- On 8 August 2023, MIAC (via NOPSEMA) emailed Woodside (SI Report, reference 62.3) enclosing a letter relating to among other things:
 - Culturally appropriate consultation processes,
 - Information that will support free, prior and informed consent.
 - **(1)** Financial support to bring together the right people to ensure appropriate consultations.

Summary of information provided and record of consultation for this EP:

- On 13 October 2023, Woodside emailed MIAC advising of the proposed activity (Record of Consultation, reference 1.82) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that MIAC and its members may have within the EMBA, information on how MIAC would like to engage, and requested that MIAC provide information to other individuals as required.
- On 16 October 2023, Woodside emailed MIAC introducing a new Woodside focal point and offering the opportunity for feedback by meeting in person with the Board and members (SI Report, reference 62.4).
- On 18 October 2023, Woodside emailed KLC asking if previous correspondence had been received and passed on to MIAC (SI Report, reference 62.5).
- On 26 October 2023, KLC emailed Woodside advising that their email had been forwarded to the relevant corporation (SI Report, reference 62.6).
- **(1)** On 27 October 2023, Woodside emailed MIAC following up on previous emails, informing MIAC that Woodside would cover meeting costs including flights and accommodation if they wished to meet in Perth. Alternatively, Woodside suggested an online Teams meeting if that was the preferred method of consultation (SI Report, reference 62.7). No response has been received.
- On 23 January 2024, Woodside emailed MIAC to inform them that consultation prior to being submitted to NOPSEMA would close for this EP on 23 February 2024. Woodside offered to meet with MIAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 62.8).
- On 23 January 2024, KLC emailed Woodside advising that the contact person for MIAC had forwarded on Woodside's email to the PBC (SI Report, reference 62.9).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with MIAC on future opportunities to work together.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) In the 8 August 2023 letter regarding consultation on another activity, MIAC stated that they are not funded and required financial support for ongoing consultation.</p>	<p>(1) Woodside assessment: Woodside supports reasonable funding for costs associated with consultation. Woodside assessment: Woodside has responded to MIAC's financial requests in the 8 August 2023 letter and have offered financial support for ongoing consultation on 27 October 2023, which has not yet been taken up by MIAC. Sufficient information to allow informed assessment on this activity has been provided, including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members.</p>	<p>(1) Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to consult with MIAC as part of ongoing engagement (Section 7.10 of the EP). Existing controls considered sufficient, as described in Section 6 and 7.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls required.</p>
<p>Outcomes of Consultation</p>		
<p>While MIAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Dambimangari Aboriginal Corporation (DAC)

DAC is established under the Native Title Act 1993 by the Dambimangari people to represent the Dambimangari people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 18 July 2023, Woodside emailed DAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that DAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 63.1).

Summary of information provided and record of consultation for this EP:

- On 2 October 2023, Woodside emailed DAC advising of the proposed activity (Record of Consultation, reference 1.76) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested information on the interests that DAC and its members may have within the EMBA, information on how DAC would like to engage, and requested that DAC provide information to other individuals as required.
- On 13 October 2023 Woodside phoned DAC's general landline but there was no answer. Woodside left a message for the CEO.
- On 16 October 2023, Woodside emailed DAC providing information about Woodside's consultation along the coastline of Western Australia, Northern Territory and Victoria and enquiring about the opportunity to connect with the Board in the near future (SI Report, reference 63.2).
- On 18 October 2023, Woodside emailed DAC's deputy CEO introducing the Woodside focal point and asking to listen to any feedback on Woodside activities (SI Report, reference 63.3).
- On 25 October 2023, Woodside emailed KLC seeking the most recent contact details for DAC (SI Report, reference 63.4).
- On 30 October 2023, KLC emailed Woodside acknowledging Woodside's previous email and advising Woodside that the ORIC website would have the relevant contact details (SI Report, reference 63.5).
- On 2 November 2023, Woodside emailed KLC, notifying KLC that Woodside had previously tried all available contacts listed on ORIC site. Woodside advised that they would be interested to meet members and were flexible with meeting dates and logistics (SI Report, reference 63.6).
- On 2 November, KLC emailed Woodside stating they would pass Woodside's email onto their contacts at the relevant organisations (SI Report, reference 63.7).
- On 8 November 2023, Woodside emailed the DAC CEO requesting the opportunity for a 'meet & greet', highlighting the purpose for the meeting was to explain the current EPs as they related to the Dambimangari Traditional Owners (SI Report, reference 63.8). Woodside attached an offer to meet document alongside the relevant EP to the email.
- On 8 November 2023, Woodside visited the DAC offices in Derby in person to meet and greet and seek feedback on EPs (SI Report, reference 63.9). The activity was discussed, and the purpose of consultation was communicated to DAC. Woodside gave an overview of the EMBA and provided the link to NOPSEMA regarding First Nations engagement. Woodside asked if DAC had any questions or would like to provide feedback and if there was anyone else, they should speak to or to speak with to make introductions. Woodside was advised that the DAC CEO was the best person to organise further contact. DAC provided a contact for a ranger project and gave the CEO contact details.
- On 11 November 2023, Woodside wrote to DAC requesting a meeting with the CEO and Board, at a time, date and location of DAC's choosing. Woodside offered to pay reasonable costs for the meeting (SI Report, reference 63.10). No response has been received.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 23 January 2024, Woodside emailed DAC following up on previous attempts to consult and meet with DAC about this activity (SI Report, reference 63.11). Woodside informed DAC that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with DAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024.

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with DAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback objections or claims received despite follow-up.	<p>Woodside accepts that DAC has no feedback on the activity at this time.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with DAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to DAC will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with DAC as part of ongoing engagement (Section 7.10 of the EP).</p> <p>No additional measures or controls required.</p>

Outcomes of Consultation

While DAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Bardi and Jawi Niimidiman Aboriginal Corporation (BJNAC)

BJNAC is established under the Native Title Act 1993 by the Bardi and Jawi People to represent the Bardi and Jawi people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- **(1)** On 14 April 2023, BJNAC emailed Woodside, advising that that BJNAC would be unable to engage with Woodside on a goodwill basis via attending and coordinating meetings, or with general correspondence and requested that Woodside factor in the values that are outlined in BJNAC's Joint Management Plan for the Park, into Woodside's EP plan for projects. BJNAC noted that there may be cases where BJNAC will simply want to make Woodside aware of the Bardi and Jawi Marine Park and will be requesting that Woodside factor in the values that are outlined in the Joint Management Plan for the Park, into Woodside's EP plan for projects. In other cases, BJNAC may want to respond with more detailed information if a project is likely to have a greater effect on Bardi and Jawi Sea Country. BJNAC stated that it will provide Woodside with a resourcing protocol within 28 days and objected to Woodside progressing matters with the PBC or making a submission to NOPSEMA (SI Report, reference 64.1).
- **(2)** On 5 June 2023, BJNAC emailed Woodside a draft resourcing protocol for consideration and stated it would await comments from Woodside (SI Report, reference 64.2).
- **(2)** On 18 July 2023, Woodside emailed BJNAC thanking them for the draft protocol and restated Woodside's objectives for consultation (SI Report, reference 64.3). In the email, Woodside included a summary sheet for another activity unrelated to this EP along with NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that BJNAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult.
- **(3)** On 8 August 2023, BJNAC (via NOPSEMA) emailed Woodside (SI Report, reference 64.4) enclosing a letter relating to among other things:
 - Culturally appropriate consultation processes,
 - Information that will support free, prior and informed consent.
 - **(2)** Financial support to bring together the right people to ensure appropriate consultations.
- **(1, 3)** On 13 October 2023, Woodside met face-to-face with BJNAC in a meeting on implementing an engagement framework (SI Report, reference 64.5). A framework draft was reviewed, and edits proposed. It was agreed that both parties were on the same page for ongoing consultation. BJNAC commended Woodside for how they engage and consult with First Nations peoples. BJNAC's preferred methods of consultation, including the use of animated videos, were discussed with suggestions agreed to by both parties.

Summary of information provided and record of consultation for this EP:

- On 23 November 2023, Woodside emailed BJNAC advising of the proposed activity (Record of Consultation, reference 1.99) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside's website) as well as a summary overview fact sheet. The email requested

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

information on the interests that BJNAC and its members may have within the EMBA, information on how BJNAC would like to engage, and requested that BJNAC provide information to other individuals as required.

- On 23 November 2023, Woodside telephoned BJNAC, there was no answer.
- **(2, 3)** On 14 December 2023, Woodside emailed BJNAC Woodside's planned Program of Ongoing Engagement with Traditional Custodians (SI Report, reference 64.6). Woodside noted that Woodside's contracting team had not settled the Agreement Protocol yet but noted the following inclusions:
 - Agreement between Woodside and BJNAC and as representatives of the Bardi Jawi people (together "BJNAC") to consult in a meaningful and genuine manner.
 - The basic procedure Woodside will follow when a submission requires consultation – notification and invitation to meet.
 - Initial and ongoing consultation in relation to activities.
 - Agreement as to how Woodside will provide BJNAC the information BJNAC requires to make a free, prior and informed decisions.
 - Agreement as to how BJNAC will provide feedback and how we can best represent BJNAC's feedback in our submissions.
 - An agreed schedule of rates.
 - How the outputs of the consultation are managed.
- On 15 December 2023, emails were exchanged between Woodside and BJNAC seeking a date to meet (SI Report, reference 64.7 – 64.8).
- On 18 January 2024, emails were exchanged between Woodside and BJNAC seeking a time to meet. 25 January 2024 was discussed and agreed between BJNAC and Woodside (SI Report, reference 64.9 – 64.11).
- **(4)** On 25 January 2024, BJNAC emailed and sent a letter to Woodside (SI Report, reference 64.12) making the following points (among others):
 - Will seek technical advice about the activities proposed in the EP.
 - Will seek advice on potential environmental implications of the activity in the EP.
 - Advice on potential impact on cultural heritage and rights under law and custom.
 - Consideration of reports which contain the above advice.
 - Funding requirement to allow for the above undertakings by relevant experts.
- **(4)** On 2 February 2023, Woodside emailed BJNAC confirming a meeting for the week of 5 February 2024 and offering to pay costs (SI Report, reference 64.13).
- On 2 February 2024, BJNAC emailed Woodside confirming availability and responding that they did not require costs to be paid to meet at this time (SI Report, reference 64.14).
- **(5)** On 5 February 2024, Woodside met with BJNAC's, Executive Officer who confirmed that BJNAC had no issues with this activity and no comments to make.
- **(5)** On 8 February 2024, BJNAC emailed Woodside stating they do not see themselves being affected. BJNAC requested that Woodside consult with them in the event changes occur to the oil spill scenario (SI Report, reference 64.15).
- **(5)** On 9 February 2024, Woodside emailed BJNAC acknowledging response to previous email (SI Report, reference 64.16).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Ongoing Engagement:

- (3) On 28 February 2024, Woodside emailed BJNAC with a letter (SI Report, reference 64.17) setting out the draft terms of a consultation agreement between BJNAC and Woodside, the agreement (among other things) included the following topics:
 - Sufficient Information
 - Reasonable Period.
 - Provision of Information
 - Objection or claims
 - Publication
 - (2) Arrangements regarding reasonable costs and expenses
 - How the agreement may be terminated
- (3) On 4 April 2024, Woodside emailed BJNAC enquiring if BJNAC had reviewed the draft consultation agreement sent on 28 February 2024 (SI Report, reference 64.18).
- (3) On 15 April 2024, BJNAC emailed Woodside advising it would respond to the draft consultation agreement by the end of the week (SI Report, reference 64.19)
- (3) On 23 April 2024, Woodside phoned BJNAC to confirm an earlier arranged meeting with the BJNAC Board on 2 May. BJNAC informed Woodside that it would be unable to meet until the consultation agreement was in place (SI Report, reference 64.20).
- (2,3) On 3 May 2024, BJNAC emailed Woodside a draft protocol which included a Schedule of Rates and Consultation Schedule (SI Report, reference 64.21).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with BJNAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) BJNAC previously advised it has values that are outlined in the Joint Management Plan for the Bardi and Jawi Marine Park, which it may require to be noted in particular Eps.</p>	<p>(1) Woodside assessment: Woodside accepts BJNAC’s feedback regarding the values outlined in the Joint Management Plan for the Bardi Jawi Gaarra Marine Park. Woodside response: Woodside has updated the EP to reflect BJNAC’s interests in the Bardi Jawi Gaarra Marine Park, whilst noting that the Marine Park falls outside the EMBA for this EP.</p>	<p>(1) Woodside has updated Section 7.6 of the EP to reflect BJNAC’s feedback and note that the Bardi Jawi Gaarra Marine Park falls outside the EMBA for this EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(2) BJNAC has requested that Woodside enter into a resourcing protocol. BJNAC has set out conditions it requires for ongoing engagement.</p>	<p>(2) Woodside assessment: Woodside supports reasonable requests for funding to aid consultation activities. Woodside response: Woodside is committed to resourcing BJNAC through an agreed resourcing protocol as part of ongoing consultation as required by the implementation strategy as set out regulation 22(15) of the Environment Regulations. Request by BJNAC to fund independent experts would also be agreed through the resourcing protocol.</p>	<p>(2) As identified in Sections 6 and 7 of this EP, Woodside will continue to consult following acceptance of the EP, as required by the implementation strategy as set out in regulation 22(15) of the Environment Regulations and continue to progress with establishing a framework agreement as part of Woodside's Program of Ongoing Engagement with Traditional Custodians (Appendix G).</p>
<p>(3) BJNAC supports implementing an engagement framework. The framework would include preferred methods of consultation</p>	<p>(3) Woodside assessment: Woodside is committed to culturally appropriate consultation processes. Woodside response: Woodside provided BJNAC with a draft consultation agreement in February 2024. The agreement would be used to frame ongoing consultation. Sufficient information to allow informed assessment has already been provided by other means, including Consultation Information Sheets and a Summary Information Sheet developed by Indigenous staff members.</p>	<p>3) Woodside is implementing a program to actively support Traditional Custodians' capacity for ongoing engagement and consultation on environment plans. This is described further in the Program of Ongoing Engagement with Traditional Custodians, (Appendix G).</p>
<p>(4) BJNAC advised it would seek technical advice on the proposed activity and advice on potential environmental and cultural heritage implications. BJNAC seeks funding from Woodside for this.</p>	<p>(4) Woodside assessment: Woodside acknowledges BJNAC plans to seek technical advice on the proposed activity and advice on potential environmental and cultural heritage implications. Woodside response: The draft consultation agreement includes arrangements regarding reasonable costs and expenses.</p>	<p>Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(5) BJNAC confirmed it had no issues or comments to make about this activity.</p>	<p>(5) Woodside assessment: Woodside accepts BJNAC has no issues or comments to make about this activity. Woodside response: Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of the EP).</p>	<p>(5) As identified in Sections 6 and 7 of this EP, Woodside will continue to consult following acceptance of the EP, as required by the implementation strategy as set out in regulation 22(15) of the Environment Regulations and continue to progress with establishing a framework agreement as part of Woodside's Program of Ongoing Engagement with Traditional Custodians (Appendix G).</p>
<p>Woodside addressed objections and claims as noted above.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>While BJNAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Balanggarra Aboriginal Corporation (BAC)

BAC is established under the Native Title Act 1993 by the Balanggarra People to represent the Balanggarra People (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed BAC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information (SI Report, reference 65.1). This email also reiterated Woodside's request that BAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of information provided and record of consultation for this EP:

- On 2 October 2023, Woodside emailed BAC advising of the proposed activity (Record of Consultation, reference 1.75) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that BAC and its members may have within the EMBA, information on how BAC would like to engage, and requested that BAC provide information to other individuals as required.
- On 13 October 2023, Woodside phoned BAC to make contact. No response was received.
- On 13 October 2023, Woodside contacted BAC via an alternative email address to seek advice on making contact with the BAC Board or contact person (SI Report, reference 65.2).
- On 25 October 2023, Woodside phoned BAC via the registered number listed on ORIC. Call was taken but Woodside was informed that this was not the correct number for BAC.
- On 25 October 2023, Woodside emailed the Kimberley Land Council enquiring about the best method of contact for the Balanggarra Aboriginal Corporation. No response was received.
- On 2 November 2023, Woodside sent a follow up email to Balanggarra Aboriginal Corporation providing information about the proposed activity, enquiring about the best point of contact, confirming if any further information is required regarding this EP, and advising Woodside is available to meet as suits the CEO and Board of Directors. No response was received.
- On 23 November 2023, Woodside emailed BAC requesting an opportunity to make introductions, answer any questions and listen to feedback. No response has been received.
- On 23 January 2024, Woodside emailed BAC informing them that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with them at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 65.3).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with BAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow up.	Woodside accepts that BAC has no feedback on the activity at this time. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with BAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with BAC as part of ongoing engagement (Section 7.10 of the EP).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to BAC will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional Measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>While BAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Ngadju Native Title Aboriginal Corporation (Ngadju)

Summary of information provided and record of consultation for this EP:

- On 16 October 2023, Woodside emailed Ngadju advising of the proposed activity (Record of Consultation, reference 1.74) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Ngadju and its members may have within the EMBA, information on how Ngadju would like to engage, and requested that Ngadju provide information to other individuals as required.
- On 20 October 2023, Woodside phoned Ngadju and left a message asking for its call to be returned.
- On 20 October 2023, Ngadju returned Woodside’s phone call.
- On 20 October 2023, in follow-up to the phone call, Woodside emailed a different representative from Ngadju, advising of the proposed activity and again provided the Summary Information Sheet and links to detailed information sheets. Woodside also provided a link to NOPSEMA’s Consultation Brochure as well as their contact details (SI Report, reference 66.1).
- On 31 October 2023, Woodside sent a follow up email asking whether Ngadju would like any further information on the environment plan and advising it was available to meet in Perth on 2 November 2023 or 8 November 2023 (SI Report, reference 66.2). No response was received.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 7 December 2023, Woodside sent a follow up email asking whether Ngadju would like any further information on the environment plan and advising there was availability to meet in Perth on 11 December 2023 (SI Report, reference 66.3). No response was received.
- On 19 December 2023, Woodside emailed Ngadju wishing them a safe festive season and offered assistance on the environment plan (SI Report, reference 66.4).
- On 25 January 2024, Woodside phoned Ngadju corporation and left a message requesting a return call, no response was received.
- On 2 February 2024, Woodside emailed Ngadju NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that Ngadju advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 66.5).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Ngadju on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>No feedback, objects or claims received despite follow-up.</p>	<p>Woodside accepts that Ngadju has no feedback on the activity at this time.</p> <p>Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with Ngadju (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to Ngadju will be for the purpose of ongoing engagement.</p> <p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Existing controls considered sufficient, as described in Section 6 and 7.</p> <p>Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with NNTAC as part of ongoing engagement (Section 7.10 of the EP).</p> <p>No additional measures or control are required.</p>

Outcomes of Consultation

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

While Ngadju is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.

Yawoorroong Miriuwung Gajerrong Yirrgb Noong Dawang (MG Corp)

MG Corp is established under the Native Title Act 1993 by the Miriuwung and Gajerrong people to represent the Miriuwung and Gajerrong people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical engagement:

- On 18 July 2023, Woodside emailed MG Corp NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that MG Corp advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 68.1).

Summary of information provided and record of consultation for this EP:

- On 15 September 2023, Woodside emailed MG Corp an agenda and presentation in advance of a meeting planned for 18 September to discuss unrelated activities as well as this activity (SI Report, reference 68.2).
- On 18 September 2023, Woodside met with the MG Corp Chair and Directors and presented on this activity along with others (SI Report, reference 68.3).
Woodside:
 - Described the EP framework, referring to the Offshore Petroleum and Greenhouse Gas Storage Act (Environment) Regulations, NOPSEMA's role as regulator and general contents of EPs.
 - Displayed a map of the EMBA and discussed how the EMBA is developed.
 - Gave an overview of the activity.
 - Specifically, Woodside asked the following:
 - How could these activities impact your cultural values, interests, and activities - does protecting the environment do enough to protect your cultural values?
 - What are your concerns about the proposed activities and what do you think we should do about them?
 - Is there anything you would like included in the EPs before submission?
 - Is there anyone else Woodside should consult with about the activities?
 - MG Corp noted:
 - **(1)** That native title exists on Lacrosse Island and is closer to shore in relation to impacts from this activity.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- (1) There are registered sites on Lacrosse Island to be aware of.
- (2) That Balanggarra should be involved in future discussions. (2) Woodside said that they had made attempts to contact Balanggarra.
- Woodside responded at the meeting:
 - (1) Woodside acknowledged MG Corp advice that Native title exists on Lacrosse Island and there are registered sites on the island, and informed MG Corp that Lacrosse Island did not fall in the EMBA for this activity.
- On 13 October 2023, Woodside emailed MG Corp advising of the proposed activity (Record of Consultation, reference 1.114) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that MG Corp and its members may have within the EMBA, information on how MG Corp would like to engage, and requested that MG Corp provide information to other individuals as required.
- On 1 November 2023, Woodside emailed MG Corp following up on the activity summary sheets and asking if there was any feedback or further information required (SI Report, reference 68.4). No response was received.
- On 25 January 2024, Woodside phoned MG Corp and was advised to send an email. Woodside emailed MG Corp following up on this activity, re-attaching the Summary Information sheet sent in October 2023, and offering to provide further information if required. Woodside stated they would submit this EP to NOPSEMA in February 2024, re-iterating feedback from MG Corp is open for the life of the EP (SI Report, reference 68.5).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with MG Corp on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) MG Corp advised Woodside that Native title exists on Lacrosse Island and is closer to shore in terms of impacts, as well as there are registered sites on the island.</p>	<p>(1) Woodside assessment: Woodside acknowledges MG Corp advice that Native title exists on Lacrosse Island and there are registered sites on the island. Woodside response: Woodside informed MG Corp that Lacrosse Island did not fall in the EMBA for this activity.</p>	<p>(1) Not required.</p>
<p>(2) Balanggarra should be involved in future discussions.</p>	<p>(2) Woodside assessment: Woodside acknowledges MG Corp advice that Balanggarra should be involved in future discussions. Woodside response: Woodside has made a number of attempts to contact Balanggarra</p>	<p>(2) Not required.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	regarding this activity. To date no response has been received.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.5.1 of this EP).	No additional measures or controls are required.
Outcomes of Consultation		
While MG Corp is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.		

Mirning Traditional Lands Aboriginal Corporation RNTBC (MTLAC)

MTLAC is established under the Native Title Act 1993 by the Mirning people to represent the Mirning people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Summary of information provided and record of consultation for this EP:

- On 4 October 2023, Woodside emailed MTLAC advising of the proposed activity (Record of Consultation, reference 1.95) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that MTLAC and its members may have within the EMBA, information on how MTLAC would like to engage, and requested that MTLAC provide information to other individuals as required.
- On 24 October 2023, Woodside emailed MTLAC following up on the activity (SI Report, reference 69.1). No response was received.
- On 8 December, Woodside sent a follow up email offering to answer any questions relating to the proposed EPs. Woodside advised of their availability to schedule a consultation session (SI Report, reference 69.2).
- On 19 December 2023, Woodside emailed MTLAC thanking them for their contributions throughout the year and offering opportunity for consultation regarding Woodside projects (SI Report, reference 69.3).
- On 9 January 2024, Woodside emailed MTLAC following up on previous correspondence and offering the opportunity to meet via MTLAC’s preferred method of consultation (SI Report, reference 69.4).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 9 January 2024, MTLAC emailed Woodside advising acceptance of a meeting, enquiring the purpose of the meeting and requesting a date suitable to Woodside (SI Report, reference 69.5).
- On 10 January 2024, Woodside emailed MTLAC informing them of the aim of the meeting and advising a calendar invite would be sent out later that day (SI Report, reference 69.6).
- **(1)** On 22 January 2024, Woodside met with MTLAC (SI Report, reference 69.7), Woodside:
 - Described the EP framework, referring to the Offshore Petroleum and Greenhouse Gas Storage Act (Environment) Regulations, NOPSEMA's role as regulator and general contents of EPs.
 - Displayed a map of the EMBA and discussed how the EMBA is developed.
 - Gave an overview of the activity including that woodside will continue to produce crude oil.
 - Spoke about routine inspections, monitoring maintenance and repairs associated with the subsea infrastructure.
 - Described planned and unplanned environmental risks and impacts in accordance with tables provided in the Information Sheets for the activities, emphasising that unplanned risks are not expected to occur and are unlikely.
 - Specifically, Woodside asked the following:
 - How could these activities impact your cultural values, interests, and activities - does protecting the environment do enough to protect your cultural values?
 - What are your concerns about the proposed activities and what do you think we should do about them?
 - Is there anything you would like included in the EPs before submission?
 - Is there anyone else Woodside should consult with about the activities?
 - Advised that Woodside will continue to take feedback from MTLAC for the life of the EP.
 - Discussed ranger programs and initiatives that Woodside has partnered on.
 - MTLAC noted:
 - **(1)** That due to the location of the activity it was unlikely that Mirning country would be impacted.
 - Discussion on cultural heritage and Sea Country mapping took place and Woodside noted that there would be an opportunity to talk further on Sea Country mapping.
- **(1)** On 31 January 2024, Woodside emailed MTLAC thanking them for the meeting that occurred on 22 January 2024. Woodside noted that it was unclear if they would need to consult with MTLAC on future environment plans and attached Woodside's program of ongoing consultation (SI Report, reference 69.8).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with MTLAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) During face-to-face engagement on this activity, MTLAC noted that due to the location of the activity it was unlikely that Mirning country would be impacted.</p>	<p>(1) Woodside assessment: Woodside accepts that MTLAC's feedback that due to the location of the activity it was unlikely Mirning country would be impacted. Woodside response: Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with MTLAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to MTLAC will be for the purpose of ongoing engagement.</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with MTLAC as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or control are required.</p>
<p>Outcomes of Consultation</p>		
<p>While MTLAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Wilinggin Aboriginal Corporation (Wilinggin)

Wilinggin Aboriginal Corporation is established under the Native Title Act 1993 by the Ngarinyin people to represent the Ngarinyin people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Controlled Ref No: V0000AH0500

Revision: 2

Page 466 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Historical engagement:

- On 18 July 2023, Woodside emailed KLC NOPSEMA’s Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside’s request that KLC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 70.1).

Summary of information provided and record of consultation for this EP:

- On 13 October 2023, Woodside emailed Wilinggin advising of the proposed activity (Record of Consultation, reference 1.94) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that Wilinggin and its members may have within the EMBA, information on how Wilinggin would like to engage, and requested that Wilinggin provide information to other individuals as required.
- On 25 October 2023, Woodside emailed KLC introducing themselves and querying the best point of contact for Wilinggin (along with some other PBC’s) (SI Report, reference 70.2).
- On 30 October 2023, KLC responded to Woodside’s email advising Woodside of the appropriate contact details for Wilinggin (SI Report, reference 70.3).
- On 2 November 2023, Woodside emailed KLC thanking them for providing the best contact details in their email on 30 October 2023 and explained how Woodside had tried all available contacts provided to them by KLC. Woodside also stated that they were flexible and will support Wilinggin’s preferred method of consultation (dates and locations) (SI Report, reference 70.4).
- On 2 November 2023, KLC emailed Woodside confirming email receipts and affirmed that they would pass onto relevant persons (SI Report, reference 70.5).
- On 2 November 2023, Woodside emailed Wilinggin introducing themselves and enquiring the best point of contact. Woodside also queried if there was availability for a meeting or if any follow up information was required for this activity (SI Report, reference 70.6).
- On 16 November 2023, Woodside sent a follow up email to Wilinggin enquiring the best contact to reach the Chief Executive Officer for the Wilinggin Aboriginal Corporation. Woodside also offered the opportunity to meet and discuss Woodside activities with the Wilinggin Aboriginal Corporation (SI Report, reference 70.7).
- On 24 November 2023, Woodside emailed Wilinggin requesting the opportunity to meet and answer any questions relating to the EP. Woodside again provided the Summary Information Sheets that were originally sent in October 2023 and asked whether Wilinggin had any feedback on the activity, noting that consultation was open for the life of the EP (SI Report, reference 70.8).
- On 23 January 2024, Woodside emailed Wilinggin to inform Wilinggin that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with Wilinggin at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments post 23 February 2024 (SI Report, reference 70.9).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with Wilinggin on future opportunities to work together.

<p>Outcomes of Consultation</p>		
<p>While Wilinggin is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Wunambal Gaambera Aboriginal Corporation (WGAC)

WGAC is established under the Native Title Act 1993 by the Wunambal Gaambera people to represent the Wunambal Gaambera people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values.

Historical Engagement

- On 18 July 2023, Woodside emailed WGAC/KLC NOPSEMA's Consultation Guidelines, Consultation Brochure, and Draft Policy for Managing Gender-Restricted Information. This email also reiterated Woodside's request that WGAC advise Woodside of any other Traditional Custodian groups or individuals with whom Woodside should consult (SI Report, reference 71.1).

Summary of information provided and record of consultation for this EP:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 2 October 2023, Woodside emailed WGAC advising of the proposed activity (Record of Consultation, reference 1.96) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that WGAC and its members may have within the EMBA, information on how WGAC would like to engage, and requested that WGAC provide information to other individuals as required. On 18 October 2023, Woodside emailed WGAC to identify the best contact details regarding consultation matters.
- On 18 October 2023, Woodside emailed WGAC seeking points of contact for consultation (SI Report, reference 71.2).
- On 18 October 2023, WGAC emailed Woodside with contact details (SI Report, reference 71.3).
- On 18 October 2023, Woodside emailed WGAC seeking to meet with the WGAC Board to provide information and seek feedback on Woodside activities (SI Report, reference 71.4).
- On 15 November 2023, Woodside emailed WGAC following up on previous correspondence and again requesting an opportunity to discuss current activities (SI Report, reference 71.5).
- On 23 November 2023, Woodside emailed WGAC offering a meet and greet to discuss potential funding of future arrangements for meetings and talk through the EP process (SI Report, reference 71.6).
- On 23 January 2024, Woodside emailed to inform WGAC that consultation prior to being submitted to NOPSEMA will close for this EP on 23 February 2024. Woodside offered to meet with WGAC at their preferred place and time. Woodside re-iterated that consultation was ongoing for the life of the plan and Woodside would assess and respond to any feedback and comments received post 23 February 2024 (SI Report, reference 71.7).

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with WGAC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objects or claims received despite follow-up.	Woodside accepts that WGAC has no feedback on the activity at this time. Separate from consultation under regulation 25 of the Environment Regulations, Woodside supports ongoing engagement with WGAC (Section 7.10). As outlined in the consultation summary above, sufficient information and a reasonable period have been provided to demonstrate that consultation for the purpose of regulation 25 of the Environment Regulations is complete. Any further engagement with and support offered to WGAC will be for the purpose of ongoing engagement.	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with WGAC as part of ongoing engagement (Section 7.10 of the EP). No additional measures or controls are required.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	
<p>Outcomes of Consultation</p>		
<p>While WGAC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Daly River Port Keats Aboriginal Land Trust (DRPKALT)

DRPKALT holds land on behalf of the Traditional Owners from each estate in the Thamarrurr Region of the Northern Territory. Under Thamarrurr, all land-owning groups have traditional rights and responsibilities over their land.

<p>Summary of information provided and record of consultation for this EP:</p> <ul style="list-style-type: none"> On 18 December 2023, Woodside emailed DRPKALT via Northern Land Council (NLC) advising of the proposed activity (Record of Consultation, reference 1.110) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that DRPKALT and its members may have within the EMBA, information on how DRPKALT would like to engage, and requested that DRPKALT provide information to other individuals as required. On 11 January 2024, Woodside phoned the Thamarrurr Development Corporation seeking to contact DRPKALT. On 11 January 2024, Woodside emailed the consultation information (sent on 18 December 2023 via NLC) directly to DRPKALT. Woodside advised it was happy to discuss the EP further on the phone or during a meeting in person while in the Northern Territory (SI Report, reference 72.1). On 12 January 2024, Woodside phoned Thamarrurr Development Corporation to follow up on its email however there was no answer. (1) On 12 January 2024, Woodside phoned the ranger team Manager, who confirmed they were the correct person to speak with regarding EPs. The Manager advised they had looked at the summary sheet for this EP and that they were not concerned as it did not go near DRPKALT Country (SI Report, reference 72.2). (1) Woodside acknowledges this feedback in the EP. <p>Ongoing Engagement:</p> <ul style="list-style-type: none"> Woodside continues to pursue an ongoing two-way relationship with DRPKALT on future opportunities to work together.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) DRPKALT confirmed it had reviewed the consultation information and did not have concerns due to the location of the activities which is not near their Country.</p>	<p>(1) Woodside response: Woodside accepts DRPKALT has no specific feedback on this activity. Woodside assessment: Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with LAC as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>Based on the engagement to date, no additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>While DRPKALT is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.</p>		

Larrakia Development Corporation (LDC)

LDC is incorporated under ASIC and is led by the Traditional Owner group of Darwin, the Larrakia people.

Summary of information provided and record of consultation for this EP:

- On 15 November 2023, Woodside telephoned Larrakia Nation seeking the appropriate body to consult with. Woodside were directed to LDC.
- On 17 November 2023, LDC telephoned Woodside providing an email address for contact purposes.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 15 December 2023, Woodside emailed LDC advising of the proposed activity (Record of Consultation, reference 1.111) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that LDC and its members may have within the EMBA, information on how LDC would like to engage, and requested that LDC provide information to other individuals as required.
- On 24 January 2024, Woodside phoned LDC to follow up on the consultation material. LDC advised it had no real concerns but would have another look at the summary information sheet (SI Report, reference 73.1).
- **(1)** On 29 January 2024, LDC emailed Woodside to confirm that if the EMBA was as per the map, it was not LDC Country, and therefore activities would not affect LDC unless operations included Darwin and the Greater Darwin Region (SI Report, reference 73.2). **(1)** Woodside noted the feedback in the EP.

Ongoing Engagement:

- Woodside continues to pursue an ongoing two-way relationship with LDC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) LDC advised that based on the location of EMBA, the proposed activities would not affect Larrakia.</p>	<p>(1) Woodside response Woodside noted that the EMBA did not reach LDC Country and therefore they had no concerns. Woodside assessment: Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>(1) Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with LDC as part of ongoing engagement (Section 7.10 of the EP).</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>

Outcomes of Consultation

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

While LDC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.

Top End (Default) Aboriginal Corporation (TE(D)AC)

TE(D)AC is established under the Native Title Act 1993 by a large number of determinations to represent the Bardi people (defined broadly by reference to descent from the set of ancestors who were known to have a continuous and unbroken connection as the Traditional Custodians at the time of European colonisation) and represent their communal interests including, among other things, management and protection of cultural values. For more information of the groups search the National Native Title Tribunal Register. (<http://www.nntt.gov.au/searchRegApps/NativeTitleRegisters/Pages/Search-National-Native-Title-Register.aspx>)

Summary of information provided and record of consultation for this EP:

- On 25 October 2023, Woodside emailed TE(D)AC via NLC requesting an opportunity to meet, as Woodside was travelling to the Northern Territory (SI Report, reference 74.1).
- Between 12- 29 November 2023, Woodside and TE(D)AC via NLC exchanged emails in an attempt to schedule a meeting that would work best for both parties (SI Report, reference 74.2 – 74.7).
- On 18 December 2023, Woodside emailed TE(D)AC via NLC advising of the proposed activity (Record of Consultation, reference 1.112) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that TE(D)AC and its members may have within the EMBA, information on how TE(D)AC would like to engage and requested that TE(D)AC provide information to other individuals as required.
- On 17 January 2024, Woodside emailed TE(D)AC via NLC advising of the extended response time. Woodside re-iterated that comments can be made throughout the life of the environment plan. Woodside offered to pay reasonable consultation fees to EMBA relevant Aboriginal Corporations (SI Report, reference 74.8).
- On 18 January 2024, TE(D)AC via NLC emailed Woodside confirming receipt of the email and advising they will be in touch soon (SI Report, reference 74.9). No response has been received.

Ongoing Relationship:

- Woodside continues to pursue an ongoing two-way relationship with TE(D)AC on future opportunities to work together.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objects or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	to engage with TE(D)AC as part of ongoing engagement (Section 7.10 of the EP). No additional measures or controls are required.
Outcomes of Consultation		
While TE(D)AC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.		

Native Title Representative Bodies

Northern Land Council (NLC)

NLC is the Native Title Representative Body for the northern region of the Northern Territory – including the Tiwi Islands and Groote Eylandt. As such, they are not a Prescribed or Registered Native Title Body Corporate but exist to assist native title claimants and holders.

<p>Summary of information provided and record of consultation for this EP:</p> <ul style="list-style-type: none"> On 16 August 2023, Woodside and NLC exchanged email correspondence attempting to set up a time and date to meet (SI Report, reference 75.1 – 675.3). On 12 September 2023, Woodside and NLC exchanged correspondence planning the best suitable time for both parties to set up a virtual meeting (SI Report, reference 75.4 – 75.6). On 13 September 2023, Woodside had a teams meeting with NLC to speak generally about processes for informing relevant corporations through the NLC. Woodside emailed NLC thanking them for the advice provided in the meeting earlier that day (SI Report, reference 75.7). On 15 November 2023, Woodside phoned NLC and left a message asking for its call to be returned. (1) On 18 December 2023, Woodside emailed NLC advising of the proposed activity (Record of Consultation, reference 1.113) and provided a simplified Consultation Information Sheet (including a link to the detailed information sheet on Woodside’s website) as well as a summary overview fact sheet. The email requested information on the interests that NLC and its members may have within the EMBA, information on how NLC would like to engage, and requested that NLC provide information to other individuals as required. On 17 January 2024, Woodside sent a follow up email to NLC about the proposed activity. Woodside advised NLC that comments can be made over the life of the EP and offered to pay reasonable fees to consult with relevant corporations (SI Report, reference 75.8). On 18 January 2024, NLC emailed Woodside confirming receipt of Woodside’s previous email and advising the information provided will be reviewed (SI Report, reference 75.9). On 18 January 2024, Woodside emailed NLC thanking them for their response (SI Report, reference 75.10).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<ul style="list-style-type: none"> On 6 February 2024, NLC emailed Woodside apologising for the delay in response and provided the best contact moving forward (SI Report, 75.11). On 7 February 2024, Woodside emailed NLC thanking them for their response and reached out to the new contact. No response has been received (SI Report, reference 75.12). <p>Ongoing Engagement:</p> <ul style="list-style-type: none"> On 23 February 2024, Woodside telephoned NLC to discuss activities. Woodside provided contact details for a return call. No response was received (SI Report, 75.13). Woodside continues to pursue an ongoing two-way relationship with NLC on future opportunities to work together. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objects or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted (including any relevant new information on cultural values), it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	Existing controls considered sufficient, as described in Section 6 and 7. Although consultation for the purpose of regulation 25 of the Environment Regulations is complete, Woodside will continue to engage with LAC as part of ongoing engagement (Section 7.10 of the EP). No additional measures or controls are required.
Outcomes of Consultation		
While NLC is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Walalakoo to provide feedback during the consultation process.		

Local government and elected Parliamentary representatives, community groups or organisations

Town of Port Hedland

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 15 September 2023, Woodside emailed Town of Port Hedland advising of the proposed activity (Record of Consultation, reference 1.20) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to Town of Port Hedland following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website.

While Shire of Wyndham-East Kimberley is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shire of Wyndham-East Kimberley to provide feedback during the consultation process.

Shire of Derby/West Kimberley

Summary of information provided and record of consultation:

- On 18 September 2023, Woodside emailed Shire of Derby/West Kimberley advising of the proposed activity (Record of Consultation, reference 1.24) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 16 October 2023, Woodside sent a follow-up email to the Shire of Derby/West Kimberley (Record of Consultation, reference 2.1 and included a link to the Consultation Information Sheet on Woodside's website)
- On 24 October 2023, Shire of Derby/West Kimberley responded (SI Report, reference 76.1) and:
 - (1) Confirmed it had no specific feedback regarding the unlikely oil spill impacts.
 - (2) Advised it expected to be notified as part of any oil spill response needed.
- (1, 2) On 03 November 2023, Woodside responded thanking Shire of Derby/West Kimberley for its feedback and confirming that in the highly unlikely event a hydrocarbon release was to enter the Shire's area of responsibility, Woodside would at that time contact the Shire with respect to response arrangements (SI Report, reference 76.2).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
(1) No specific feedback regarding unlikely oil spill impacts.	(1) Woodside assessment: Woodside accepts that the Shire of Derby/West Kimberley has no feedback. Woodside response: Woodside noted Shire of Derby/West Kimberley had no specific feedback on the activity.	(1) Not required.
(2) Expected to be notified as part of any oil spill response needed.	(2) Woodside assessment: Woodside will notify relevant stakeholders in the highly unlikely event of a hydrocarbon release.	(2) The Oil Pollution First Strike Plan (Appendix I) includes a requirement to notify stakeholders who may be affected by a spill.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

	Woodside response: Woodside confirmed that in line with the Oil Pollution First Strike Plan, in the highly unlikely event a hydrocarbon release was to enter the Shire's area of responsibility, Woodside would at that time contact the Shire with respect to response arrangements.	
While feedback has been received, there were no objections or claims.	Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).	No additional controls or inclusions required.
Outcomes of Consultation		
While Shire of Derby-West Kimberley is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shire of Derby-West Kimberley to provide feedback during the consultation process.		

Shire of East Pilbara

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 02 October 2023, Woodside emailed Shire of East Pilbara advising of the proposed activity (Record of Consultation, reference 1.52) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 24 October 2023, Woodside sent a reminder email to Shire of East Pilbara following up on the proposed activity (Record of Consultation, reference 2.8). 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of Consultation		
This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

While Shire of East Pilbara is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shire of East Pilbara to provide feedback during the consultation process.

Shire of Cocos (Keeling) Islands

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside telephoned the Shire of Cocos (Keeling) Islands seeking details for the best person to contact regarding consultation with the Cocos Island Malays. Woodside was advised the Shire CEO was the best person to speak to, however they were on leave.
- On 21 September 2023, Woodside emailed Shire of Cocos (Keeling) Islands advising of the proposed activity (Record of Consultation, reference 1.36) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure *Consultation on offshore petroleum environment plans: Information for the community*.
- On 4 October 2023, Woodside telephoned Shire of Cocos (Keeling) Islands following up on the 15 September 2023 phone call regarding the Cocos Malays.
- On 4 October 2023, Woodside emailed the Shire CEO to provide information on this EP and to request feedback on interests/concerns (SI Report, reference 77.1).
- On 18 October 2023, Woodside sent a reminder email to Shire of Cocos (Keeling) Islands following up on the proposed activity (Record of Consultation, reference 2.2) and included a link to the Consultation Information Sheet on Woodside's website.
- On 24 October 2023, Woodside sent a follow-up email and reconfirmed its offer to conduct a consultation meeting or to provide additional project information (SI Report, reference 77.2).
- On 3 November 2023, Woodside telephoned Shire of Cocos (Keeling) Islands to confirm if the Cocos Island Malays considered themselves relevant persons as defined by NOPSEMA. The Shire CEO advised:
 - (1) The Commonwealth does not currently recognise the Cocos Malays as First Nations peoples, but the Shire CEO would speak to the Shire President and respond to Woodside via email. Woodside advised that if Cocos Malays did not wish to be consulted for this EP, they were welcome to contact Woodside in the future.
- (2) On 6 November 2023, the Shire emailed Woodside to confirm that as mapping showed the Cocos (Keeling) Islands may, while highly unlikely, be impacted by hydrocarbon release, it would like to have a roundtable discussion – preferably on-site but at a minimum online - with the Cocos Malays, Parks Australia, and the council, to fully understand the EMBA (SI Report, reference 77.3).
- (2) On 6 November 2023, Woodside emailed the Shire and acknowledged the request for a meeting (SI Report, reference 77.4). Woodside enquired about availability and preferred dates/times over the following weeks and confirmed it would discuss logistics for the meeting, with a face-to-face meeting preferred if possible.
- On 7 November 2023, Woodside emailed the Shire noting it had spoken to the travel advisor on the island and proposing potential meeting dates in late November or early December, or February if the 2023 dates did not align with the Shire's schedule (SI Report, reference 77.5).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 14 November 2023, Woodside emailed to follow up on potential dates for a meeting (SI Report, reference 77.6).
- On 5 February 2024, Woodside telephoned Shire of Cocos (Keeling) Islands to organise arrangements for an online meeting on 15 February 2024 (SI R.
- On 15 February 2024, Woodside met with Shire of Cocos (Keeling) Islands via MS Teams (SI Report, reference 77.7). Woodside provided information about three EPs including this one and described how the original EMBA was developed and why it extended to the Cocos (Keeling) Islands. During the meeting:
 - (3) The Shire noted it appreciated Woodside’s consultation and the explanation of the EMBA, and had no comments or concerns specific to this EP.
 - (3) Woodside thanked the Shire for its feedback on consultation and noted it had no concerns on this EP.
 - The Shire advised many groups on the island had strong interests in environmental matters and suggested a further meeting with additional Shire representatives regarding Woodside activities. Woodside and the Shire agreed to arrange another meeting to address this.
 - Woodside advised that it welcomed feedback throughout the life of an EP.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
<p>(1) The Shire advised that the Commonwealth did not recognise the Cocos Malays as First Nations peoples, but the Shire would advise if the Cocos Malays wished to be consulted for this EP.</p>	<p>(1) Woodside assessment: Although the Cocos Malays have not been assessed as relevant for this EP, Woodside chose to attempt to contact the Cocos Malays to invite feedback for this EP. Woodside response: Woodside noted the Shire’s advice that the Commonwealth did not recognise the Cocos Malays as First Nations peoples, but advised that should the Cocos Malays consider themselves to be relevant persons as defined by NOPSEMA, they were welcome to contact Woodside in the future.</p>	<p>(1) Woodside engages in ongoing consultation with relevant persons as described in Section 7.10 of the EP.</p>
<p>(2) The Shire confirmed that while highly unlikely, the Cocos Island could be impacted by a hydrocarbon release, it would like a consultation meeting with Woodside.</p>	<p>(2) Woodside assessment: Woodside welcomes engagement with the Shire of Cocos Island. Woodside response: Woodside acknowledged the Shire’s request for a meeting. Woodside proposed potential meeting dates in November and December, and advised the meeting could be pushed back until February if the 2023 dates didn’t align. The meeting took place on 15 February 2024.</p>	<p>(2) Woodside engages in ongoing consultation with relevant persons as described in Section 7.10 of the EP.</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

<p>(3) Following a Teams meeting between Woodside and the Shire, the Shire thanked Woodside for its explanation of the EMBA and how it related to the Shire. The Shire had no specific comments or concerns on this EP.</p>	<p>(3) Woodside assessment: Woodside accepts that the Shire has no specific comments or concerns regarding this EP. Woodside response: Woodside thanked the Shire for its feedback and noted the Shire had no specific comments or concerns regarding this EP.</p>	<p>(3) Woodside engages in ongoing consultation with relevant persons as described in Section 7.10 of the EP.</p>
<p>While feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of Consultation</p>		
<p>While Shire of Cocos (Keeling) Islands is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shire of Wyndham-East Kimberley to provide feedback during the consultation process.</p>		

Shire of Dundas

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 21 September 2023, Woodside emailed Shire of Dundas advising of the proposed activity (Record of Consultation, reference 1.36) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 18 October 2023, Woodside sent a reminder email to Shire of Dundas following up on the proposed activity (Record of Consultation, reference 2.2) and included a link to the Consultation Information Sheet on Woodside's website. 		
<p>Summary of Feedback, Objection or Claim</p>	<p>Assessment of Merits of Feedback, Objection or Claim and Woodside's response</p>	<p>Inclusion in Environment Plan</p>

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of Consultation		
While Shire of Dundas is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Shire of Dundas to provide feedback during the consultation process.		

Port Hedland Chamber of Commerce and Industry

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 18 September 2023, Woodside emailed Port Hedland Chamber of Commerce and Industry advising of the proposed activity (Record of Consultation, reference 1.27) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to Port Hedland Chamber of Commerce and Industry following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of Consultation		
While Port Hedland Chamber of Commerce and Industry is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Port Hedland Chamber of Commerce and Industry to provide feedback during the consultation process.

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While Wula Gula Nyinda Eco Cultural Tours is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Wula Gula Nyinda Eco Cultural Tours to provide feedback during the consultation process.		

Shark Bay Coastal Tours

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 18 October 2023, in an email to Woodside, Shire of Shark Bay identified Shark Bay Coastal Tours as a potentially relevant person for this EP (SI Report, reference 53.1). On 31 October 2023, Woodside emailed Shark Bay Coastal Tours advising of the proposed activities (Record of Consultation, reference 1.62) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 15 December 2023, Woodside sent a reminder email to Shark Bay Coastal Tours following up on the proposed activity (Record of Consultation, reference 2.19) and provided a link to the Consultation Information Sheet on Woodside's website.

Cocos Island Malay Community

Summary of information provided and record of consultation:

- On 15 September 2023, Woodside telephoned the Shire of Cocos (Keeling) Islands seeking how best to engage with the Cocos Island Malay Community.
- On 4 October 2023, Woodside telephoned the Shire following up on the phone call with regards to contacting the Cocos Island Malay Community.
- On 4 October 2023, Woodside emailed the Shire advising that it was seeking to establish Woodside’s relationship with the Cocos Island Traditional Owner group, the Cocos Malays (SI Report, reference 78.1).
- On 24 October 2023, Woodside emailed the Shire and offered to conduct a consultation meeting or provide additional information to the Cocos Island Malay Community (SI Report, reference 78.2).
- On 3 November, Woodside phoned the Shire to ask whether the Cocos Malays considered themselves relevant persons.
- On 6 November 2023, the Shire emailed Woodside and advised it would like to organise a meeting with Woodside and it would be good to include the Cocos Malay community (SI Report, reference 78.3).
- On 15 February 2024, Woodside held an online meeting with the Shire of Cocos (Keeling) Islands, in which the Shire confirmed it would like to arrange a further meeting regarding general Woodside activities with other Shire representatives including members of the Malay community (SI Report, reference 78.4).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.

Outcomes of consultation

While Cocos Island Malay Community is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Cocos Island Malay Community to provide feedback during the consultation process.

Malay Association of Christmas Island

Summary of information provided and record of consultation:

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- On 25 October 2023, in an email to the Shire of Christmas Island, Woodside sought contact details for the Malay Association of Christmas Island (SI Report, reference 79.1).
- On 2 November 2023, Woodside sent a follow-up email regarding contacts for the Malay Association of Christmas Island and explaining its intention to provide an overview of Woodside Energy and its projects to the community and broader Shire (SI Report, reference 79.2).
- On 3 November 2023, Woodside had a phone call with Shire of Christmas Island to discuss consultation opportunities (SI Report, reference 79.3). During the discussion:
 - The Shire noted it appreciated and supported Woodside’s methodology for identifying and including First Nations stakeholder input.
 - The Shire identified other Malay contacts that Woodside should consider including in future engagements where relevant.
- On 5 February 2024, Woodside phoned the Shire of Christmas Island following up on whether the Malay community wished to meet (SI Report, reference 79.4). The Shire advised the best point of contact for the Malay Association of Christmas Island and noted it was the same contact who had provided feedback to Woodside via the Shire’s Fisheries Management Committee (FMC).
- On 12 February 2024, in an email to the FMC on separate feedback, Woodside noted that it was aware the FMC contact was also the best contact for the Malay association, and enquired as to whether consultation was requested with the Malay community (SI Report, reference 79.5).

Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside’s response	Inclusion in Environment Plan
No feedback, objections or claims receive despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No feedback, objections or claims received.
Outcomes of consultation		
While Malay Association of Christmas Island is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for Malay Association of Christmas Island to provide feedback during the consultation process.

Research institutes and local conservation groups or organisations

Australian Institute of Marine Science (AIMS)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 13 September 2023, Woodside emailed AIMS advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. (1) On 28 September 2023, AIMS responded thanking Woodside for its email and confirming no AIMS activities were impacted by the ongoing venture (SI Report, reference 80.1). (1) On 02 October 2023, Woodside responded thanking AIMS for its email (SI Report, reference 80.2). 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
<p>(1) AIMS advised none of its activities were impacted by the ongoing venture.</p>	<p>(1) Woodside assessment: Woodside notes that none of AIMS' activities will be impacted. Woodside response: Woodside noted AIMS' advice that none of its activities would be impacted by the ongoing operations related to this EP.</p>	<p>(1) Not required.</p>
<p>Whilst feedback has been received, there were no objections or claims.</p>	<p>Woodside engages in ongoing consultation throughout the life of an EP. Woodside notes that further feedback may be received as part of ongoing consultation. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).</p>	<p>No additional measures or controls are required.</p>
<p>Outcomes of consultation</p>		
<p>While AIMS is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for AIMS to provide feedback during the consultation process.</p>		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

University of Western Australia (UWA)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 13 September 2023, Woodside emailed UWA advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to UWA following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
<p>Outcomes of consultation</p> <p>While UWA is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for UWA to provide feedback during the consultation process.</p>		

Western Australian Marine Science Institution (WAMSI)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 13 September 2023, Woodside emailed WAMSI advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to WAMSI following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While WAMSI is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for WAMSI to provide feedback during the consultation process.		

Commonwealth Scientific and Industrial Research Organisation (CSIRO)

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 13 September 2023, Woodside emailed CSIRO advising of the proposed activity (Record of Consultation, reference 1.3) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 16 October 2023, Woodside sent a reminder email to CSIRO following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While CSIRO is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for CSIRO to provide feedback during the consultation process.		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Other non-government groups or organisations

350 Australia (350A)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 26 September 2023, Woodside emailed 350A advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to 350A following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
<p>Outcomes of consultation</p> <p>While 350A is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for 350A to provide feedback during the consultation process.</p>		

Greenpeace Australia Pacific (GAP)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 26 September 2023, Woodside emailed GAP advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to GAP following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While GAP is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for GAP to provide feedback during the consultation process.		

Australia Conservation Foundation (ACF)

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 26 September 2023, Woodside emailed ACF advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to ACF following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While ACF is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for ACF to provide feedback during the consultation process.		

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Australian Marine Conservation Society (AMCS)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 26 September 2023, Woodside emailed AMCS advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to AMCS following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
<p>Outcomes of consultation</p> <p>While AMCS is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for AMCS to provide feedback during the consultation process.</p>		

Conservation Council of Western Australia (CCWA)

<p>Summary of information provided and record of consultation:</p> <ul style="list-style-type: none"> On 26 September 2023, Woodside emailed CCWA advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to CCWA following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While CCWA is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for CCWA to provide feedback during the consultation process.		

Sea Shepherd Australia (SSA)

Summary of information provided and record of consultation:		
<ul style="list-style-type: none"> On 26 September 2023, Woodside emailed SSA advising of the proposed activity (Record of Consultation, reference 1.44) and provided a Consultation Information Sheet and a link to NOPSEMA's brochure <i>Consultation on offshore petroleum environment plans: Information for the community</i>. On 17 October 2023, Woodside sent a reminder email to SSA following up on the proposed activity (Record of Consultation, reference 2.1) and included a link to the Consultation Information Sheet on Woodside's website. 		
Summary of Feedback, Objection or Claim	Assessment of Merits of Feedback, Objection or Claim and Woodside's response	Inclusion in Environment Plan
No feedback, objections or claims received despite follow-up.	Woodside engages in ongoing consultation throughout the life of an EP. Should feedback be received after the EP has been accepted, it will be assessed and, where appropriate, Woodside will apply its Management of Change and Revision process (see Section 7.1.16 of this EP).	No additional measures or controls are required.
Outcomes of consultation		
While SSA is not a relevant person under regulation 25 of the Environment Regulations, Woodside considers it has still provided sufficient information and a reasonable period outside of regulatory requirements for SSA to provide feedback during the consultation process.

1. INITIAL CONSULTATION

1.1 Consultation Information Sheet

NGUJIMA-YIN FLOATING PRODUCTION STORAGE AND OFFLOADING FACILITY OPERATIONS AND PYRENEES FACILITY OPERATIONS ENVIRONMENT PLANS

CARNARVON BASIN, NORTH-WEST AUSTRALIA

Woodside consults relevant persons in the course of preparing an environment plan (EP) to notify them, obtain their input and to assist Woodside to confirm current measures or identify additional measures, if any, that may be taken to lessen or avoid potential adverse effects of the proposed activity on the environment. This is the intended outcome of consultation.

Woodside's aim is to ensure activities are carried out in a manner that is consistent with the principles of ecologically sustainable development (ESD), by which the environmental impacts and risks of the activity are reduced to as low as reasonably practicable (ALARP) and of an acceptable level. Woodside want relevant persons whose functions, interests or activities that may be affected by the proposed activity to have the opportunity to identify themselves and provide feedback on our proposed activity, in accordance with the intended outcome of consultation.

Woodside is consulting for both the:

- Pyrenees Floating Production, Storage and Offloading (FPSO) and associated subsea infrastructure (Pyrenees Facilities) Operations EP; and
- Ngujima-Yin Floating Production, Storage and Offloading (FPSO) and associated subsea infrastructure (Ngujima-Yin Facilities) Operations EP, together as their operations and associated activities are similar, and located 13 km apart in adjacent title areas.

Overview

Woodside will submit a five year revision of the Operations EPs for the Pyrenees and Ngujima-Yin Facilities located in Commonwealth waters, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (regulations).

Operations began in 2008 for the Ngujima-Yin Facilities and 2010 for Pyrenees Facilities.

Activity Overview

Woodside plans to continue producing crude oil at the Pyrenees and Ngujima-Yin Facilities.

The activities that will continue at the Pyrenees and Ngujima-Yin Facilities are:

- Routine oil production, crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSOs with the turret mooring and subsea infrastructure remaining in place.

In addition to the above, the revised Ngujima-Yin Facility EP will also include:

- Production from an additional two wells via a subsea tieback to existing infrastructure and the operation of a new fuel gas flowline. The proposed wells will be located within the Operational Area (Figure 2). The location of the proposed flowline can be seen in Figure 2 and will originate from either the Pyrenees or Macedon field.

Drilling, construction and installation activities associated with the Ngujima-Yin tieback and fuel gas project will be subject to separate future EPs.

Stylised figures showing the existing Pyrenees Facilities are shown in Figure 3. Figure 4 shows the existing Ngujima-Yin Facilities. These figures are not to scale and are for illustration purposes.

Future decommissioning of infrastructure will be subject to separate future EPs.

Vessels

During normal operations, vessels will typically be limited to supply/support vessels and IMMR vessels. The vessel size and type will be dependent on the work scope. Vessels are not planned to anchor/moor on the seabed except in emergency situations. Offtake tankers will be used for offloading operations in both fields. It is anticipated vessels will operate 24 hours per day for the duration of activities.

Location and Operations

The Pyrenees FPSO is located about 45 km north of Exmouth, Western Australia, with the subsea facilities located within the Production Licenses WA-42-L and WA-43-L, and in water depths ranging from approximately 180 to 215 m (Figure 1). The Pyrenees FPSO is connected to the adjacent Macedon gas field located approximately 6 km southeast of the FPSO. The Macedon field is also operated by Woodside, and the connection allows gas to be supplied from the Macedon gas field for fuel gas on the FPSO, or produced via the Macedon subsea infrastructure to the onshore Macedon Gas Plant for domestic gas production.

The Ngujima-Yin FPSO is located about 57 km north of Exmouth, Western Australia, with the subsea facilities located within Production Licenses WA-28-L, WA-59-L and Pipeline License WA-28-PL, in water depths ranging from approximately 340 to 850 m (Figure 2).

Communication with mariners

The locations of the Pyrenees FPSO and the Ngujima-Yin FPSO as well as associated subsea infrastructure are marked on nautical charts. Nautical charts also include a 500 m radius petroleum safety zone (exclusion zone). For the Pyrenees FPSO, this is measured in addition to the FPSO length (260 m), resulting in a 760 m exclusion zone. The Ngujima-Yin FPSO petroleum safety zone is measured from the riser turret mooring at the bow of the vessel. Vessels are not permitted within the exclusion zone without permission. In addition, a 2.5 nm (4.6 km) radius cautionary zone is also marked on nautical charts around both FPSOs.

Assessment

Woodside has undertaken an assessment of the potential impacts and risks to the environment, as well as to relevant persons arising from the planned activities and unplanned events. This assessment considers timing, duration and location of activities and events. A number of mitigation and management measures will be implemented and are summarised in Table 3. Further details will be provided in each EP being revised to manage proposed activities.

In preparing the EPs, our intent is to minimise environmental, social or cultural impacts associated with the proposed activities, and Woodside are seeking any interest or comments you may have to inform our decision making.

- Production from an additional two wells via a subsea tieback to existing infrastructure and the operation of a new fuel gas flowline. The proposed wells will be located within the Operational Area (Figure 2). The location of the proposed flowline can be seen in Figure 2 and will originate from either the Pyrenees or Macedon field.

Drilling, construction and installation activities associated with the Ngujima-Yin tieback and fuel gas project will be subject to separate future EPs.

Stylised figures showing the existing Pyrenees Facilities are shown in Figure 3. Figure 4 shows the existing Ngujima-Yin Facilities. These figures are not to scale and are for illustration purposes.

Future decommissioning of infrastructure will be subject to separate future EPs.

Vessels

During normal operations, vessels will typically be limited to supply/support vessels and IMMR vessels. The vessel size and type will be dependent on the work scope. Vessels are not planned to anchor/moor on the seabed except in emergency situations. Offtake tankers will be used for offloading operations in both fields. It is anticipated vessels will operate 24 hours per day for the duration of activities.

Location and Operations

The Pyrenees FPSO is located about 45 km north of Exmouth, Western Australia, with the subsea facilities located within the Production Licenses WA-42-L and WA-43-L, and in water depths ranging from approximately 180 to 215 m (Figure 1). The Pyrenees FPSO is connected to the adjacent Macedon gas field located approximately 6 km southeast of the FPSO. The Macedon field is also operated by Woodside, and the connection allows gas to be supplied from the Macedon gas field for fuel gas on the FPSO, or produced via the Macedon subsea infrastructure to the onshore Macedon Gas Plant for domestic gas production.

The Ngujima-Yin FPSO is located about 57 km north of Exmouth, Western Australia, with the subsea facilities located within Production Licenses WA-28-L, WA-59-L and Pipeline License WA-28-PL, in water depths ranging from approximately 340 to 850 m (Figure 2).

Communication with mariners

The locations of the Pyrenees FPSO and the Ngujima-Yin FPSO as well as associated subsea infrastructure are marked on nautical charts. Nautical charts also include a 500 m radius petroleum safety zone (exclusion zone). For the Pyrenees FPSO, this is measured in addition to the FPSO length (260 m), resulting in a 760 m exclusion zone. The Ngujima-Yin FPSO petroleum safety zone is measured from the riser turret mooring at the bow of the vessel. Vessels are not permitted within the exclusion zone without permission. In addition, a 2.5 nm (4.6 km) radius cautionary zone is also marked on nautical charts around both FPSOs.

Assessment

Woodside has undertaken an assessment of the potential impacts and risks to the environment, as well as to relevant persons arising from the planned activities and unplanned events. This assessment considers timing, duration and location of activities and events. A number of mitigation and management measures will be implemented and are summarised in Table 3. Further details will be provided in each EP being revised to manage proposed activities.

In preparing the EPs, our intent is to minimise environmental, social or cultural impacts associated with the proposed activities, and Woodside are seeking any interest or comments you may have to inform our decision making.

Environment That May Be Affected (EMBA)

The environment that may be affected (EMBA) is the largest spatial extent where the Pyrenees Facility Operations activities and the Ngujima-Yin Facility Operations activities could potentially have an environmental consequence (direct or indirect). The broadest extent of the EMBA takes into consideration planned and unplanned activities, and for these EPs, is determined by modelling the highly unlikely event of a hydrocarbon release. The worst-case credible spill scenario for these EPs is a release from a loss of well control or a vessel collision with the FPSO with enough force to breach the hull, releasing crude to the environment.

The EMBA does not represent the extent of the predicted impact of the highly unlikely unplanned release of hydrocarbons. Rather, the EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release. This means in the highly unlikely event a hydrocarbon release does occur, the whole EMBA will not be affected - the specific and minimal part of the EMBA that is affected will only be known at the time of the release.

Figure 5 displays the EMBA for the Ngujima-Yin EP and Figure 5 displays the EMBA for the Pyrenees EP.

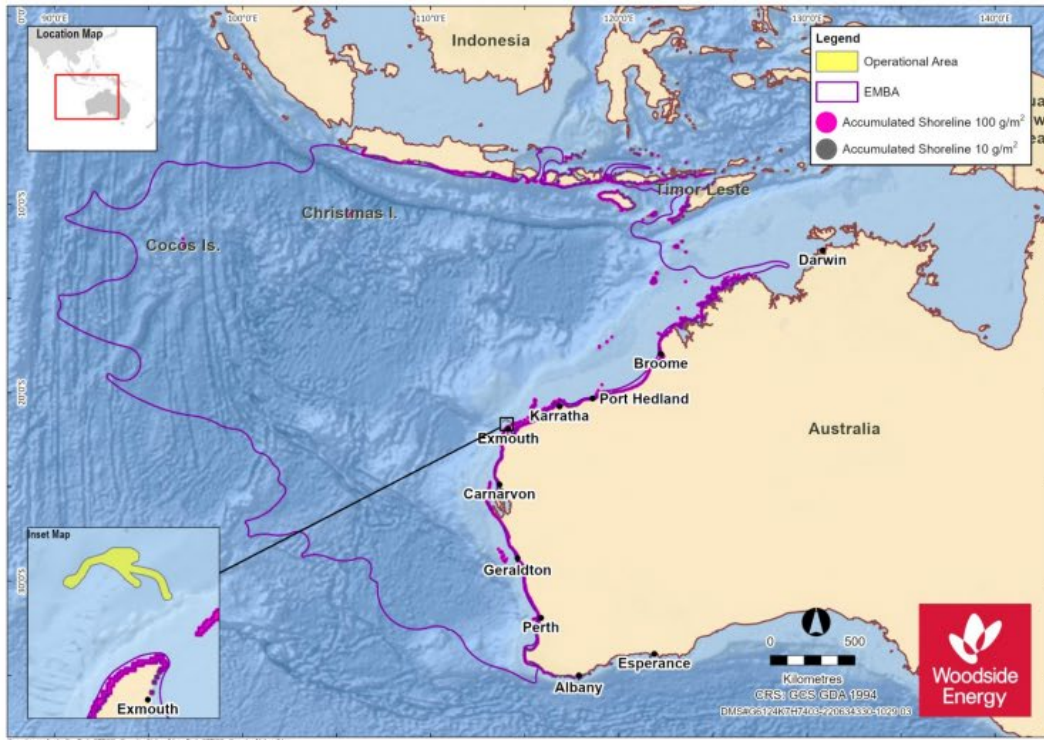

Figure 5. Ngujima-Yin FPSO Operations Environment that May Be Affected (EMBA) by an unplanned hydrocarbon release from an accident/ incident during the Petroleum Activities Program.

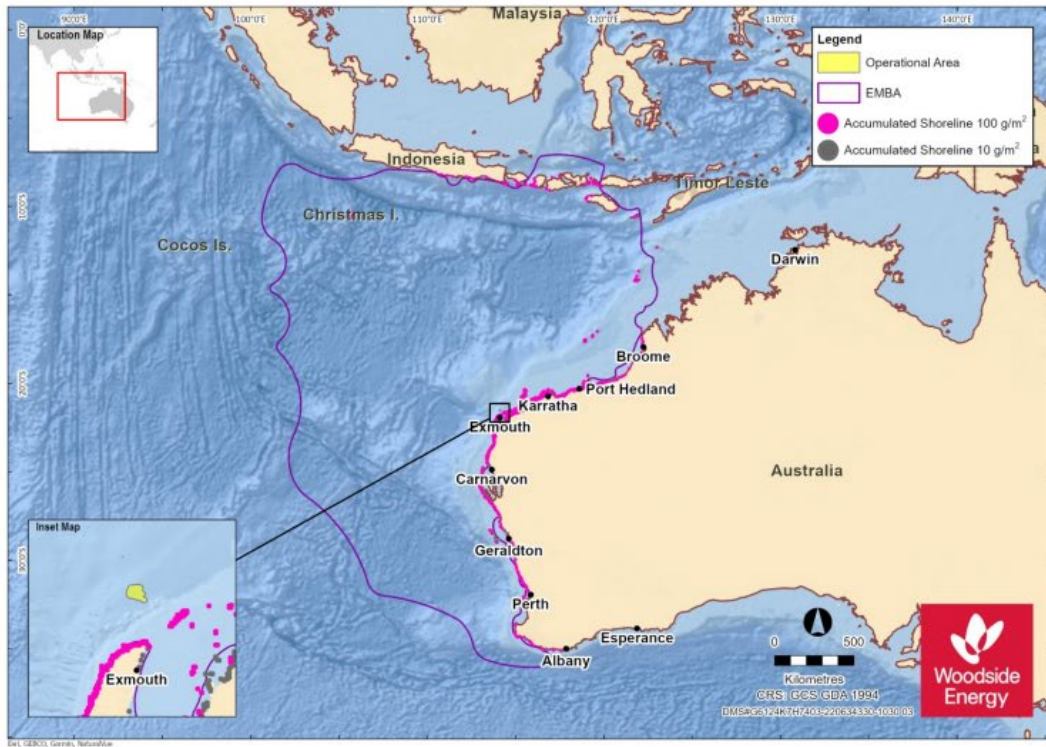

Figure 6. Pyrenees FPSO Operations Environment that May Be Affected (EMBA) by an unplanned hydrocarbon release from an accident/ incident during the Petroleum Activities Program.

Mitigation and management measures

Woodside has undertaken an assessment to identify potential impacts and risks to the environment arising from the Pyrenees and Ngujima-Yin facilities operations activity, including IMMR activities and other contingent activities. A number of mitigation and management measures for the activity are outlined in Table 4. Further details will be provided in the EPs.

Table 4. Summary of key risks and/or impacts and preliminary management measures for the Activity*

Potential Impact/Risk	Description of Source of Potential Impact/Risk	Description of Potential Impacts/ Risks	Proposed Mitigation and/or Management Measure
Planned Activities (Routine and Non-routine)			
Physical Presence: Interaction with other Marine Users, Cultural Values & Heritage	<ul style="list-style-type: none"> The presence of FPSOs, other vessels and subsea infrastructure has the potential to exclude and/or displace other users from the Pyrenees or Ngujima-Yin Petroleum Safety Zone and Operational Areas respectively. Physical presence of project vessels and activities may have potential to impact cultural values and heritage. 	<ul style="list-style-type: none"> Localised displacement of commercial fishing from the Operational Area. Displacement of recreational fishing activity is likely to be low level due to the distance from boating facilities, lack of natural attractions (e.g. reefs or shoals) and water depth of Operational Area. The presence of support vessels could cause temporary disruption to commercial shipping. No recognised shipping lanes overlap the Operational Areas. Tourism and recreation within the Operational Areas is expected to be infrequent due to the lack of emergent features or natural attractions (eg. reefs or shoals) and water depth. 	<ul style="list-style-type: none"> Vessels adhere to regulatory requirements for navigational safety. Maintain a permanent Petroleum Safety Zone around the FPSO. Notify Australian Hydrographic Office (AHO) of locations of new permanent infrastructures to enable update of maritime charts. Consult with relevant persons so that they are informed of the proposed activities. FPSO collision prevention system implemented to alert marine vessels of the facility location. Woodside will actively support the capacity of Traditional Custodians for ongoing engagement and consultation on environment plans, for the purpose of avoiding impacts to cultural heritage values.
Physical Presence: Seabed disturbance	<p>Seabed disturbance may result from the following activities:</p> <ul style="list-style-type: none"> Presence of FPSO, wells and subsea infrastructure (including moorings) modifying marine habitats. Subsea operations, inspection, maintenance and repair activities resulting. Anchoring as required in emergency conditions. 	<ul style="list-style-type: none"> Localised modification of seabed habitat within the Operational area through seabed scouring around subsea infrastructure or formation of artificial reef. The infrastructure provides hard substrate for marine organisms and a fouling community. This may result in local increase biological productivity and diversity within the Operational Area. During IMMR activities, a localised and temporary decline in water quality due to an increase of suspended sediment concentration and sediment deposition may occur. 	<ul style="list-style-type: none"> Monitoring and maintenance of all subsea infrastructure completed as per IMMR process. Any new subsea infrastructure to have an as-left survey completed and location to be recorded.
Routine Light Emissions: Light Emissions from FPSO, Vessel Operations and Operational Flaring	<ul style="list-style-type: none"> The FPSOs, vessels (including IMMR) and Remote Operation Vehicles (ROV) will use external lighting to conduct safe operations. Light emissions from FPSO during flaring. 	<ul style="list-style-type: none"> Light emissions have the potential to temporarily affect fauna such as fish, marine reptiles and seabirds by influencing changes in their behaviour or impacting orientation in close proximity to the FPSOs or vessels. 	<ul style="list-style-type: none"> Lighting limited to the minimum required for navigational and safety requirements, except for emergency events. Flare management through reinjection to reduce flare intensity. Implementation of appropriate measures based on recommendations of the National Light Pollution Guidelines for Wildlife Including Marine Turtles, Seabirds and Migratory Shorebirds.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Potential Impact/Risk	Description of Source of Potential Impact/Risk	Description of Potential Impacts/Risks	Proposed Mitigation and/or Management Measure
Routine Acoustic Emissions: Generation of Noise During Routine Operations	<p>Noise generated within the Operational Areas from:</p> <ul style="list-style-type: none"> FPSOs and associated subsea infrastructure; Vessels; Helicopters; and IMMR activities (e.g. ROVs, AUVs, side scan sonar, echo sounder, vessels on DP). 	<ul style="list-style-type: none"> Elevated underwater noise can potentially disturb marine fauna, including marine mammals, turtles, and fish through behavioural effects, masking or interfering with other biologically important sounds (echolocation, vocal communication, signals, and sounds produced by predators or prey) or as direct physical damage. The migration corridor (Biologically Important Area (BIA)) for pygmy blue whales and humpback whales overlaps with a small portion of the Operational Areas and may expose the mammals to underwater noise during seasonal migrations. Given the underwater noise levels and low likelihood of the whales being present in the Operational Area, the potential for impact is considered highly unlikely. 	<ul style="list-style-type: none"> Comply with regulatory requirements for interactions with marine megafauna in attempt to prevent adverse interactions.
Routine and Non-routine Atmospheric and Greenhouse Gas (GHG) Emissions	<ul style="list-style-type: none"> Atmospheric emission and GHG emissions generated through fuel combustion from FPSO, vessels and helicopters, FPSO operational flaring and fugitive emissions (e.g. compressors, generators etc.). 	<ul style="list-style-type: none"> Emissions could result in temporary, localised reductions in air quality in the immediate vicinity. Contribution to GHG emissions. 	<ul style="list-style-type: none"> Comply with regulatory requirements for GHG emissions and reporting. Monitoring, review and optimisation of facility fuel and flaring emissions where possible.
Routine and Non-Routine Discharges: Subsea Operations and Activities	<ul style="list-style-type: none"> Discharge of subsea control fluids from the actuation of valves or during subsea operations and activities. Potential discharge of hydrocarbons or chemicals remaining in subsea pipework and equipment due to subsea intervention works (including pigging) and/or IMMR activities. 	<ul style="list-style-type: none"> Localised, short-term decrease in water quality around the subsea system within Operational Area due to relatively small volumes discharged and rapid dilution of release. Any impacts to fauna should be minor and the potential for bioaccumulation in organisms or accumulation in sediments is considered negligible. The Operational Area overlaps Key Ecological Features (KEFs), namely the Continental Slope Demersal Fish Communities and Canyons Linking the Cuvier Abyssal Plain and the Cape Range Peninsula. Discharges are not likely to have impacts to the ecosystem function of the KEFs. 	<ul style="list-style-type: none"> Marine discharges managed according to regulatory requirements. Chemicals selected with lowest practicable environmental impacts and risks subject to technical constraints and approved through the Woodside chemical assessment process. Subsea infrastructure flushed and isolated where practicable during IMMR activities.
Routine and Non-routine Discharges: Utility Systems and Drains	<ul style="list-style-type: none"> Discharge of sewage, grey water and putrescible waste from FPSOs or vessels to the marine environment. Discharge of deck, bilge and drain water from FPSOs or vessels to marine environment. 	<ul style="list-style-type: none"> Potential slight, short-term, localised ongoing increase in nutrients and oxygen demand around FPSOs and vessels with no lasting effect. Potential slight, short-term, localised ongoing decrease in water quality at discharge location. Discharges are not likely to impact on the overlapping KEFs in the Operational Areas. 	<ul style="list-style-type: none"> Marine discharges managed according to regulatory requirements. Chemicals selected with lowest practicable environmental impacts and risks subject to technical constraints and approved through the Woodside chemical assessment process. Onboard treatment and open / closed draining systems are monitored and maintained.

Potential Impact/Risk	Description of Source of Potential Impact/Risk	Description of Potential Impacts/ Risks	Proposed Mitigation and/or Management Measure
Routine and Non-Routine Discharges: FPSO production waste (Pyrenees only)	<ul style="list-style-type: none"> Discharge of production waste from Pyrenees FPSO (produced water). Note: All produced water from Ngujima-Yin FPSO is reinjected to the reservoir and discharge is not permitted in this EP. 	<ul style="list-style-type: none"> Overboard discharges causing localised changes in water quality may result in potential environmental impacts to biota within the Operational Areas 	<ul style="list-style-type: none"> Marine discharges managed according to regulatory requirements. Continuous measurements and monitoring of Produced Water (PW) Systems. Diversion of PW if measurements exceed acceptable baseline levels. Chemicals selected with lowest practicable environmental impacts and risks subject to technical constraints and approved through the Woodside chemical assessment process. Maximise the reinjection of produced water.

Unplanned Events (Accidents / Incidents)

Unplanned Hydrocarbon or Chemical Release: Hydrocarbon release during Bunkering / Refuelling and Chemical release during transfer, storage, and use	<ul style="list-style-type: none"> Accidental spill of hydrocarbons (diesel) to the marine environment during bunkering / refuelling. Chemical release to marine environment during transfer, storage and use. 	<ul style="list-style-type: none"> Potential to cause localised and temporary changes to water quality from a marine diesel or chemical spill. Marine diesel is a relatively volatile, nonpersistent hydrocarbon with up to approximately 40% evaporating within the first 24 hours for a surface spill. Potential impacts across the EMBA may include injury/mortality to seabirds, fish, plankton, marine mammals and marine reptiles. Mortality of larger fauna is not expected to occur. No impacts to KEFs are expected, as these KEFs are mainly benthic and will therefore not be affected by a small surface release. 	<ul style="list-style-type: none"> Vessels compliant with regulatory guidelines for safe operations including bunkering / refuelling and emergency response. Chemicals selected with lowest practicable environmental impacts and risks subject to technical constraints and approved through the Woodside chemical assessment process. Safe storage of chemicals with spill clean-up equipment available. Equipment for bunkering / refuelling regularly inspected / maintained and replaced as required. Reporting of unplanned releases.
Unplanned Hydrocarbon Release: Loss of Hazardous and Non-Hazardous Waste / Equipment	<ul style="list-style-type: none"> Incorrect disposal or accidental discharge of non-hazardous and hazardous waste / equipment from FPSOs or vessels to the marine environment. 	<ul style="list-style-type: none"> The potential impacts of waste accidentally discharged to the marine environment include localised direct pollution and contamination of the environment, and secondary impacts potentially leading to injury and/or death to marine fauna (e.g. entanglement or ingestion). The temporary or permanent loss of waste materials/equipment into the marine environment is not likely to have a significant environmental impact, based on the location of the Operational Area, the types, size and frequency of waste that could occur and species present. 	<ul style="list-style-type: none"> Compliance with regulatory requirements for the prevention of marine pollution and handling of hazardous wastes (i.e. Marine Orders 95 and 94). Compliance with Waste Management Plans for the storage, handling and transportation of wastes. Attempted recovery of dropped waste objects where safe and practicable.

Potential Impact/Risk	Description of Source of Potential Impact/Risk	Description of Potential Impacts/Risks	Proposed Mitigation and/or Management Measure
Physical Presence (Unplanned): Vessel Collision with Marine Fauna	<ul style="list-style-type: none"> Vessel movements have the potential to result in collisions between the vessel (hull and propellers) and marine fauna. 	<ul style="list-style-type: none"> Vessel interaction presents a potential threat to marine mammals, marine reptiles and fish, sharks and rays. Whilst a portion of both Operational Areas overlap the pygmy blue whale and humpback whale migration BIAs, this overlap represents a very small proportion of the BIA. Given the slow speeds at which project vessels generally operate, interactions with whales are considered unlikely. Whale shark presence in the Operational Areas is likely during their migrations to and from Ningaloo Reef. Whale sharks are only expected in the area for short durations and their presence would be migratory. The Pyrenees Operational Area overlaps BIAs for sensitive turtle areas but given the water depth and absence of potential for nesting, turtles are likely to only use the area infrequently for transit. Vessel activities are unlikely to result in a consequence greater than short-term disruption to fauna, with no expected impact on critical habitat. 	<ul style="list-style-type: none"> Comply with regulatory requirements for interactions (e.g., EPBC Regulations 2000 – Part 8 Division 8.1) with marine fauna to reduce the likelihood of a collision occurring.
Physical Presence (Unplanned): Introduction of Invasive Marine Species (IMS)	<ul style="list-style-type: none"> Vessels transiting to the Operational Area may be subject to marine fouling whereby organisms attach to the vessel hull. Organisms can also be drawn into ballast tanks during onboarding of ballast water. IMS can also be present as biofouling on subsea structures. 	<ul style="list-style-type: none"> Transfer of IMS from infected vessels to the Operational Areas and establishment on the seafloor or subsea infrastructure is not likely due to the deep offshore waters which are not conducive to the settlement and establishment of IMS. There is potential for IMS to transfer from infected vessels and attach to FPSO or turret. Risk is considered remote that IMS will secondarily transfer from the FPSO or turret to another vessel given the offshore open ocean environment. 	<ul style="list-style-type: none"> Ballast water and biofouling will be managed according to regulatory requirements, including the Australian Ballast Water Management Requirements, and the Australian Biofouling Management Requirements, as applicable. Woodside's IMS risk assessment process applied to project vessels and immersible equipment entering the Operational Areas. Inspection of FPSOs by IMS Inspector prior to return from international sail away.
Unplanned Hydrocarbon Release: Subsea Infrastructure	<ul style="list-style-type: none"> Accidental release of hydrocarbons resulting from loss of containment of subsea infrastructure. 	<p>Potential significant impacts to marine environment including:</p> <ul style="list-style-type: none"> Long-term impacts to sensitive nearshore areas of offshore islands and coastal shorelines. Disruption to marine fauna, including protected species. Potential interference with or displacement of other sea users including fisheries and tourism and recreation. 	<ul style="list-style-type: none"> Compliance with Offshore Petroleum and Greenhouse Gas Storage (Safety) Regulations 2009: Accepted Safety Case. The Subsea Infrastructure design includes a range of measures that specifically aid in minimising the risk of external damage. Woodside management system implemented during operations to maintain infrastructure integrity, communication systems and safety instrumented systems to an acceptable standard. Implemented Emergency Response and Spill Management Plans and maintained environmental response equipment. Maintain a permanent Petroleum Safety Zone around FPSO. Reporting of unplanned releases.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Potential Impact/Risk	Description of Source of Potential Impact/Risk	Description of Potential Impacts/Risks	Proposed Mitigation and/or Management Measure
Unplanned Discharges: Loss of Well Containment	<ul style="list-style-type: none"> Accidental release of hydrocarbons to the marine environment due to loss of well containment. 	<ul style="list-style-type: none"> Long-term impacts to sensitive nearshore areas of offshore islands and coastal shorelines. Disruption to marine fauna, including protected species. Potential interference with or displacement of other sea users including fisheries, tourism and recreation. 	<ul style="list-style-type: none"> Compliance with Offshore Petroleum and Greenhouse Gas Storage (Resource Management and Administration) Regulations 2011: WOMP, which describes the well design and barriers to be used to prevent a loss of well control and to Offshore Petroleum and Greenhouse Gas Storage (Safety) Regulations 2009: Accepted Safety Case. Implemented Emergency Response and Spill Management Plans and maintained environmental response equipment. Maintain Well Safety Instrumented Systems to detect and act on events that have potential to cause a hydrocarbon event. Reporting of unplanned releases.
Unplanned Hydrocarbon Release: Vessel Collision	<ul style="list-style-type: none"> Vessel collision involving a project vessel or third-party vessel, resulting in the release of marine diesel fuel if the collision has enough force to penetrate the vessel hull in the exact fuel location. 	<ul style="list-style-type: none"> In the highly unlikely event of a vessel collision it may cause a release of hydrocarbons, impacts to water quality and marine ecosystems could occur. Marine diesel is a relatively volatile, nonpersistent hydrocarbon with up to approximately 40% evaporating within the first 24 hours for a surface spill. Potential impacts to sensitive nearshore areas of offshore islands and coastal shorelines. Potential disruption to marine fauna, including protected species. Potential interference with or displacement of other sea users including fisheries, tourism and recreation. 	<ul style="list-style-type: none"> Compliance with regulatory requirements for safe vessel operations (i.e. Marine Orders 21, 27 and 30). Maintain a permanent Petroleum Safety Zone around FPSO. Management plans for simultaneous operations in place when working in vicinity of other Woodside operations / activities. Implemented Emergency Response and Spill Management Plans and maintained environmental response equipment. Reporting of unplanned releases.
Unplanned Hydrocarbon Release: Turret Operations	<ul style="list-style-type: none"> Release of hydrocarbons from turret operations, including spill from failure to connect / disconnect from turret, failure of mooring system, accidental leaks from storage and equipment, including ROVs. 	<ul style="list-style-type: none"> Potential localised decline in water quality caused by accidental pollution/contamination. 	<ul style="list-style-type: none"> Implemented Turret Mooring System Connect and Disconnect Procedure. Monitor the mooring system to identify potential issues with a mooring line. Management of wells in accordance with Well Integrity Management System to prevent loss of well control and associated overpressure of turret equipment. Implemented Emergency Response and Spill Management Plans and maintained environmental response equipment. Reporting of unplanned releases.

Maintain a permanent Petroleum Safety Zone around FPSO. Maintenance of facility as per Performance Standard requirements. Implemented Emergency Response and Spill Management Plans and maintained environmental response equipment. Reporting of unplanned releases.

**These mitigation and management measures are subject to change through the consultation and subsequent assessment process and may not represent content in the publicly available EP or in the final plan once accepted.*

Feedback

Woodside consults relevant persons in the course of preparing Environment Plans to notify them of the activity and to obtain relevant feedback to inform its planning for proposed petroleum activities in the region.

If you would like to comment on the proposed activities outlined in this information sheet, or would like additional information, please contact Woodside before **27 October 2023** via:

E: Feedback@woodside.com

Toll free: 1800 442 977

You can subscribe on our website to receive Consultation Information Sheets for proposed activities:

www.woodside.com/sustainability/consultation-activities.

Please note that stakeholder feedback will be communicated to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) as required under legislation. Woodside will communicate any material changes to the proposed activity to affected stakeholders as they arise.

Please note that your feedback and our response will be included in our Environment Plan for the proposed activity, which will be submitted to NOPSEMA for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth) and support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the Environment Plan in order for this information to remain confidential to NOPSEMA.

CONSULTATION

SUMMARY INFORMATION SHEET

September 2023

NGUJIMA-YIN FLOATING PRODUCTION STORAGE AND OFFLOADING FACILITY OPERATIONS AND PYRENEES FACILITY OPERATIONS ENVIRONMENT PLANS

CARNARVON BASIN, NORTH-WEST AUSTRALIA

When preparing an environment plan (EP), Woodside needs to notify relevant persons and obtain their input. This helps confirm current measures or identify additional measures, that may need to be taken to lessen or avoid potential adverse effects of the proposed activity on the environment. Woodside wants to give relevant persons whose functions, interests or activities may be affected by the proposed activity the opportunity to identify themselves and provide feedback on our proposed activity.

This summary information sheet provides a high-level overview of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees FPSO Operations environment plans. Further details, including an assessment of the potential impacts and risks to the environment, as well as mitigation and management measures, are available within the Ngujima-Yin Floating Production Storage and Offloading Facility Operations and Pyrenees Facility Operations Environment Plan Consultation Information Sheet (September 2023) which can be found at:

www.woodside.com/sustainability/consultation-activities

Overview

Woodside plans to submit a five-year revision of the Operations EPs for the Pyrenees and the Ngujima-Yin FPSO facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The Pyrenees FPSO and associated production infrastructure is located in water depths ranging from -180 m to 215 m, in Commonwealth waters around 45 km north of Exmouth, Western Australia. Crude oil is produced on the Pyrenees FPSO from the Ravensworth, Crosby, Stickle, Tanglehead, Wild Bull and Moondyne reservoirs.

The Ngujima-Yin FPSO and associated production infrastructure is located in water depths ranging from -340 m to 850 m, in Commonwealth waters around 57 km north of Exmouth, Western Australia. Crude oil is produced on the Ngujima-Yin FPSO from the Vincent reservoir and the Greater Enfield development, which includes the Norton-over-Laverda, Laverda Canyon Reservoir and Cimatti fields.

Crude oil from both operations will be offloaded using Offtake Tankers. Other activities that will occur include surveys, inspection, maintenance, monitoring and repair activities, and other contingent activities.

Maps showing the location of the activities are provided below.

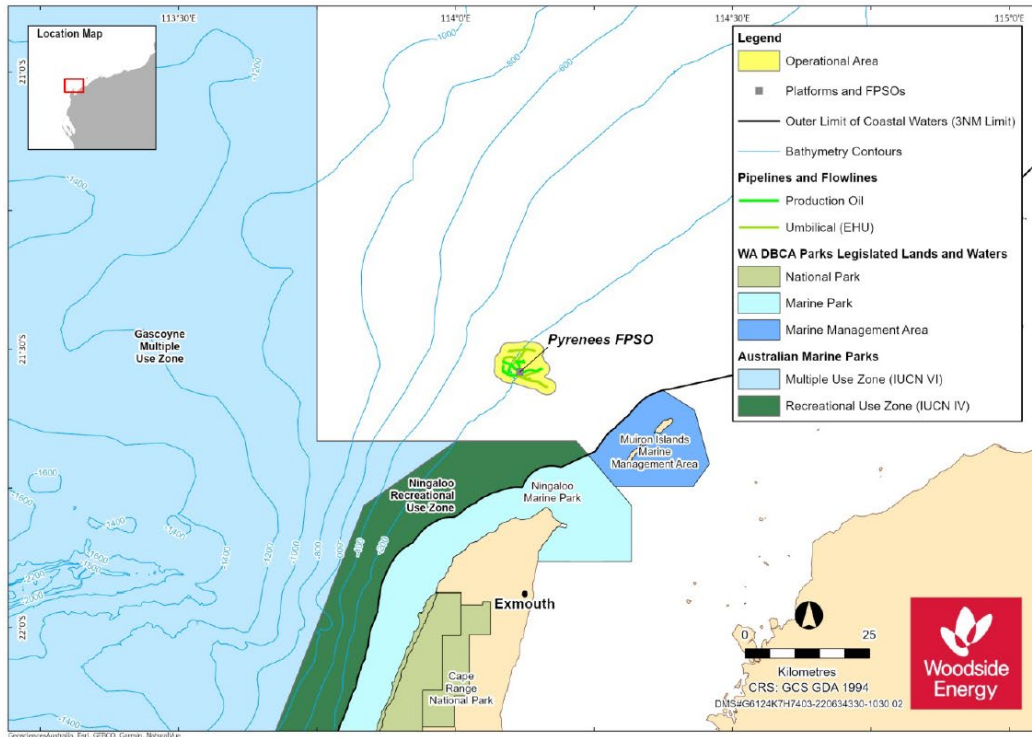

Figure 1. Pyrenees FPSO Location and Operational Area

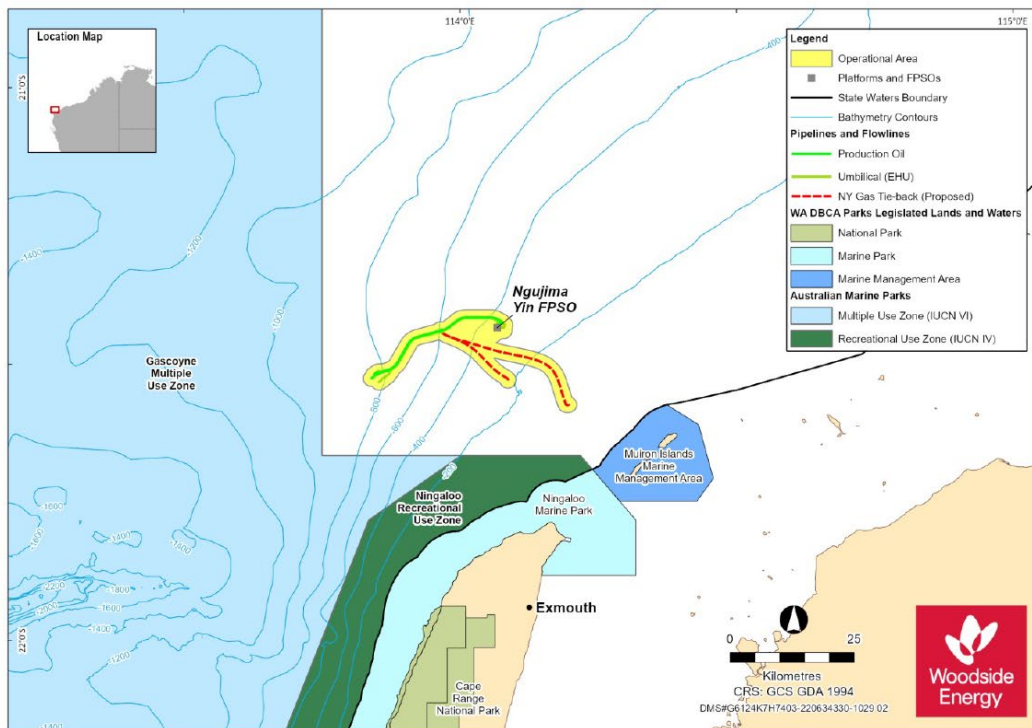

Figure 2. Ngujima-Yin FPSO Location and Operational Area

Work Method

Key features of the Floating Production Storage and Offloading (FPSO) facilities include:

- Floating hull with integrated storage tanks.
- Connected to the seabed and subsea production system through turret mooring system which includes risers, umbilicals and chain mooring systems illustrated schematically in Figure 3 and 4.
- Above the water there will be supporting processing systems and equipment, flare systems, utilities, cranes, laydown and storage areas, utility buildings, living quarters and helideck.
- The FPSO provides oil processing to make the oil suitable for offloading to an Offtake Tanker.

- For Ngujima-Yin, two potential future development activities may include production from an additional two wells via a subsea tieback to existing subsea infrastructure and the operation of a new fuel gas flowline. Drilling, construction and installation activities associated with the tieback and fuel gas project will be subject to separate future EPs.

During normal operations, vessels will typically be limited to supply/support vessels and Inspection, Monitoring, Maintenance and Repair (IMMR) vessels. Offtake tankers will be used for offloading operations in both fields. It is anticipated vessels will operate 24 hours per day for the duration of activities.

Summary of key activities includes:

- Routine production operations involve the offloading of crude oil to Offtake Tankers.
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.
- Other activities include surveys, inspection, maintenance, monitoring, and repair (IMMR) activities on the FPSO and subsea infrastructure, and other contingent activities.

Environment That May Be Affected (EMBA)

The environment that may be affected (EMBA) is the largest spatial extent where the Pyrenees Floating Production, Storage and Offloading (FPSO) Operations and the Ngujima-Yin FPSO Operations' activities could potentially have an environmental consequence (direct or indirect). The broadest extent of the EMBA takes into consideration planned and unplanned activities, and for these EPs, is determined by modelling the highly unlikely event of a hydrocarbon release. The worst-case credible spill scenario for these EPs is a release from a loss of well control or a vessel collision with the FPSO with enough force to breach the hull, releasing crude to the environment.

The EMBA does not represent the extent of the predicted impact of the highly unlikely unplanned release of hydrocarbons. Rather, the EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release. This means in the highly unlikely event a hydrocarbon release does occur, the whole EMBA will not be affected - the specific and minimal part of the EMBA that is affected will only be known at the time of the release.

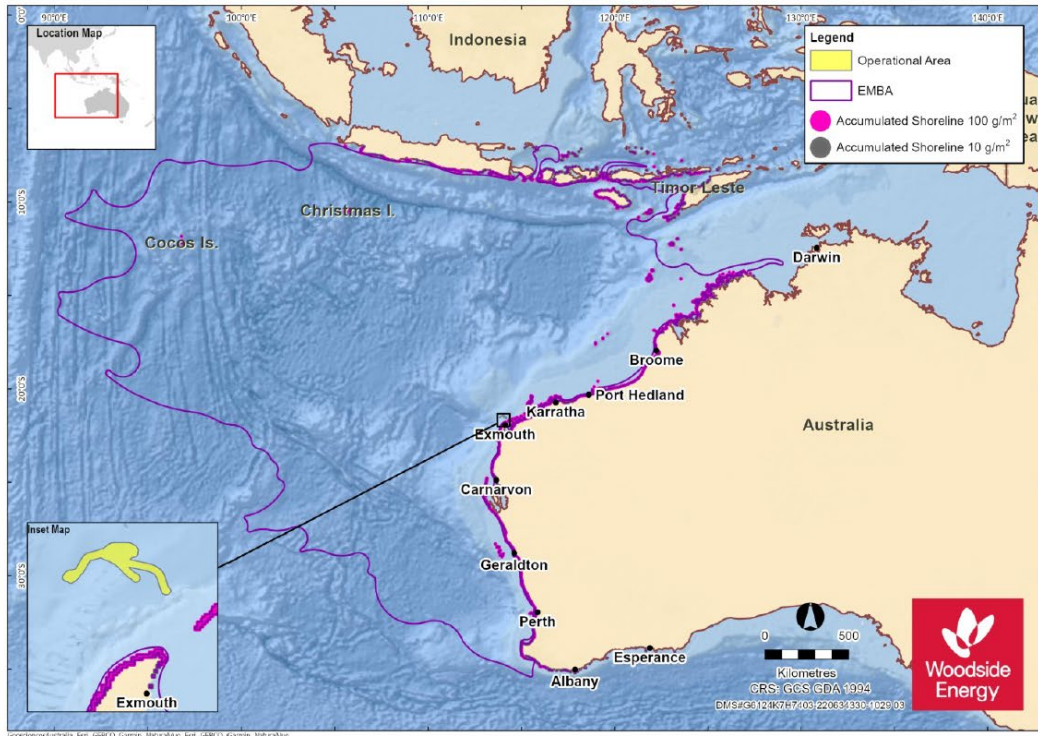

Figure 4. Ngujima-Yin FPSO Operations Environment that May Be Affected (EMBA) by an unplanned hydrocarbon release from an accident/incident during the Petroleum Activities Program.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

1.3 Email sent to Australian Border Force (ABF), Department of Foreign Affairs and Trade (DFAT), Department of Transport (DoT), Ningaloo Coast World Heritage Advisory Committee (NCWHAC), Department of Biodiversity, Conservation and Attractions (DBCA), Department of Industry, Science and Resources (DISR), Department of Mines, Industry Regulation and Safety (DMIRS), Australian Energy Producers (AEP) (Formerly Australian Petroleum Production and Exploration Association), University of Western Australia (UWA), Western Australian Marine Science Institution (WAMSI), Australian Institute of Marine Science (AIMS), Commonwealth Scientific and Industrial Research Organisation (CSIRO) - 13 September 2023

Dear Stakeholder,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the

Page 529 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled Consultation on offshore petroleum environment plans – Information for the Community to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.4 Email sent to Shire of Carnarvon (13 September 2023)

Dear Shire of Carnarvon,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

Dear Titleholder,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be

Uncontrolled when printed. Refer to electronic version for most up to date information.

affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.6 Email sent to Exmouth Recreational Marine Users, Karratha Recreational Marine Users, Christmas Island Recreational Marine Users, Recfishwest, Marine Tourism Association, WA Game Fishing Association – 14 September 2023

Dear Stakeholder,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Exclusionary / Cautionary Zones

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 541 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

The locations of the Pyrenees FPSO, Ngujima-Yin FPSO and associated subsea infrastructure, are marked on nautical charts. Nautical charts also include a 500 m radius petroleum safety zone (exclusion zone) around the FPSOs.

For the Pyrenees FPSO, this is measured in addition to the FPSO length (260 m), resulting in a 760 m exclusion zone. For the Ngujima-Yin FPSO this radius is measured from the riser turret mooring at the bow of the vessel. Vessels may not enter the exclusion zones without permission from the FPSOs. In addition, a 2.5 nm (4.6 km) radius Cautionary Zone is also marked on nautical charts around both FPSOs.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.7 Email sent to Department of Defence (DoD) (15 September 2023)

Dear Department of Defence,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth) (Environment Regulations).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

1.9 Email sent to Department of Climate Change, Energy, the Environment and Water (DCCEE) (15 September 2023)

Dear Department of Climate Change, Energy, the Environment and Water,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.10 Email sent to Western Australian Museum (15 September 2023)

Dear Western Australian Museum,

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 553 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). **Also attached is a list of shipwrecks in State waters within the EMBA.** You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.11 Email sent to Department of Planning, Lands and Heritage (DPLH) (15 September 2023)

Dear DPLH

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.12 Email sent to Chevron Australia Osaka Gas Gorgon, Tokyo Gas Gorgon, JERA Gorgon (15 September 2023)

Dear Chevron,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

We would be grateful if you could please forward this consultation information to your Joint Venture participants Osaka Gas Gorgon, Tokyo Gas Gorgon and JERA Gorgon for feedback.

Feedback

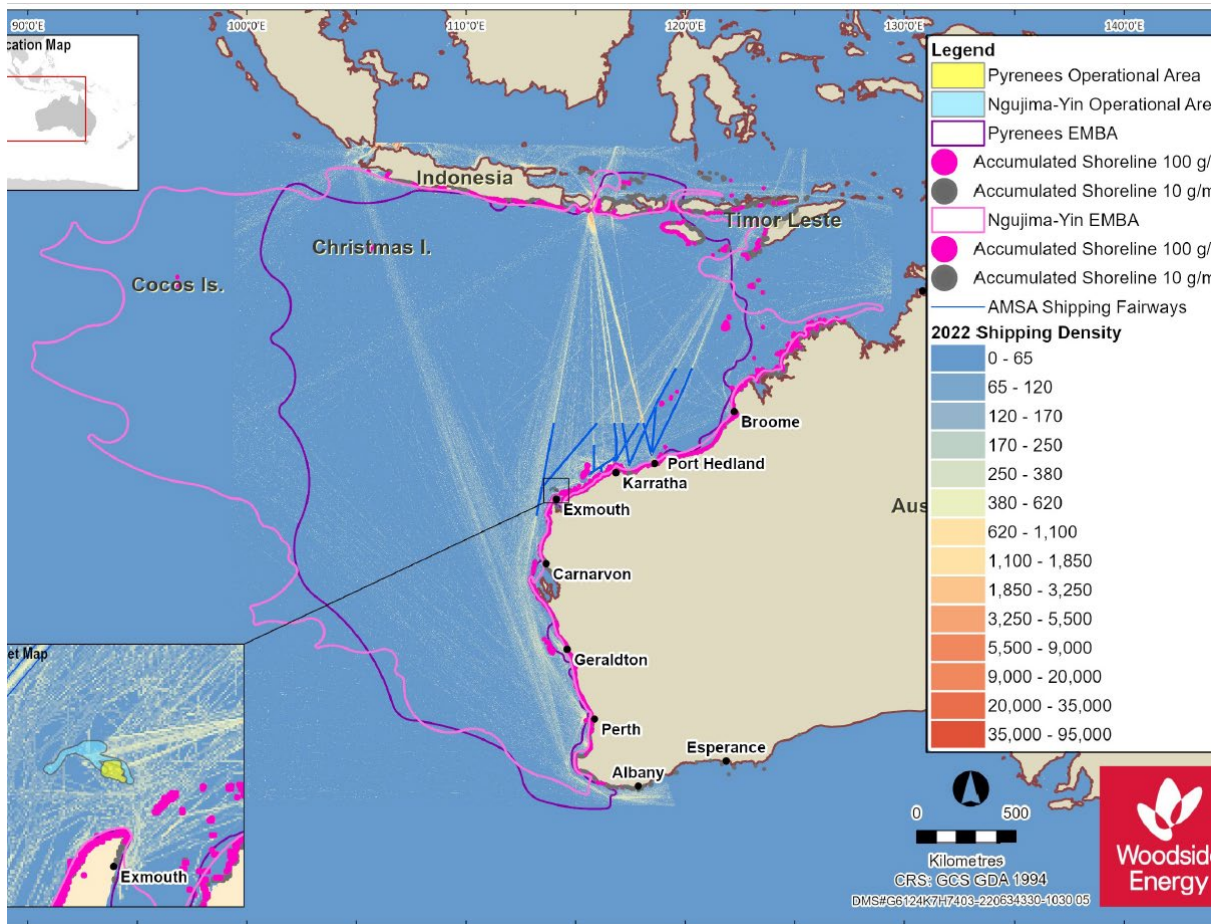

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.13 Shipping lane map sent to AHO and AMSA

1.14 Email sent to Australian Hydrographic Office (AHO), Australian Maritime Safety Authority (AMSA) – Marine Safety (15 September 2023)

Dear AHO / AMSA

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). **A shipping lane map is also attached. A GIS Shape File will be emailed to you separately.** You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.15 Email sent to Australian Maritime Safety Authority (AMSA) – Marine Pollution (15 September 2023)

Dear [Individual 4]

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled *Consultation on offshore petroleum environment plans – Information for the Community* to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.16 Email sent to Onslow Chamber of Commerce and Industry (15 September 2023)

Dear [Individual 5]

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Overview

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities,
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled [Consultation on offshore petroleum environment plans – Information for the Community](#) to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.17 Email sent to Shire of Ashburton (15 September 2023)

Dear Shire of Ashburton,

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 578 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled [Consultation on offshore petroleum environment plans – Information for the Community](#) to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.18 Email sent to Shire of Exmouth (15 September 2023)

Dear [Individual 6],

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 582 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.

The EMBA represents the merged area of many possible paths a highly unlikely hydrocarbon release could travel depending on the weather and ocean conditions at the time of the release and is created by overlaying the hundreds of individual computer simulated hypothetical spills.

A **Consultation Information Sheet** is attached, which provides additional background on the proposed activities, including summaries of potential key impacts and risks, and associated management measures. These are also available on our [website](#). You can also choose to receive updates on our consultation activities by subscribing [here](#).

Feedback

If you have feedback specific to the proposed activities described under the proposed EPs, we would welcome your feedback at Feedback@woodside.com.au or 1800 442 977 by **27 October 2023**.

Your feedback and our response will be included in our EPs, which will be submitted to the National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) for acceptance in accordance with the *Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009* (Cth). Your feedback may also be used to support other regulatory processes associated with the planned activities (which may or may not be confidential).

Please let us know if your feedback for this activity is sensitive and we will make this known to NOPSEMA upon submission of the EPs, in order for this information to remain confidential to NOPSEMA.

The National Offshore Petroleum Safety and Environmental Management Authority (NOPSEMA) has published a brochure entitled [Consultation on offshore petroleum environment plans – Information for the Community](#) to help community members understand consultation requirements for Commonwealth EPs and how to participate in consultation.

1.19 Email to City of Karratha (15 September 2023)

Dear [Individual 7] and [Individual 8],

Woodside is planning to submit five-year revisions of the Ngujima-Yin Floating Production Storage and Offloading (FPSO) Facility Operations and Pyrenees Facility Operations Environment Plans (EPs):

- The Ngujima-Yin FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 57 km north of Exmouth, Western Australia, within Production Licences WA-28-L and WA-59-L, and pipeline licence WA-28-PL.
- The Pyrenees FPSO and associated subsea infrastructure is located in Commonwealth waters approximately 45 km north of Exmouth, Western Australia, within Production Licences WA-42-L and WA-43-L.

Overview

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

Controlled Ref No: V0000AH0500

Revision: 2

Page 586 of 979

Uncontrolled when printed. Refer to electronic version for most up to date information.

Both EPs are being revised and resubmitted for the continued production of crude oil via existing subsea infrastructure to the FPSOs, in accordance with the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2009 (Cth) (Environment Regulations).

Woodside plans to continue producing crude oil at the Ngujima-Yin and Pyrenees facilities. Operations began in 2008 for Ngujima-Yin and 2010 for Pyrenees.

The activities that will continue at both FPSOs are:

- Routine oil production, including crude oil offloading and associated activities;
- Routine inspection, monitoring, maintenance and repair (IMMR) of the FPSOs and associated subsea infrastructure; and
- Disconnection and sail-away of the FPSO with the turret mooring and subsea infrastructure remaining in place.

Environment that May Be Affected (EMBA)

Following recent changes to Commonwealth EP consultation requirements, Woodside is now consulting persons or organisations who are located within the environment that may be affected (EMBA) by a proposed petroleum activity. The EMBA is the largest spatial extent where unplanned events could potentially have an environmental consequence.

For these EPs, broadest extent of the EMBA has been determined by modelling the highly unlikely event of a hydrocarbon release from activities within the scope the EP 100-200 times (to account for the variation in environmental conditions throughout the year). The worst-case credible hydrocarbon spill scenario for these EPs is a release of crude oil to the environment either as a result of a loss of well control, or a vessel collision with the FPSO with enough force to breach the hull.
