Report on Consultations

Appendix C2: REG-EP-013-C2

Rev 5

December 2025

Klarite

1 Introduction

This report on consultations has been prepared to comply with Section 24 of the Offshore Petroleum and Greenhouse Gas Storage (Environment) Regulations 2023. The extensive nature of the consultations makes efficient presentation of the records challenging. To comply with the regulatory guidelines a PDF of the tables has been provided.

Consultations occurred with many individuals on behalf of their employer. These records have been prepared and organised by the relevant employer except when the individual indicated that they wish to be consulted as a relevant person. When this occurred, all records of correspondence with the individual have been presented collectively in the individuals report.

Please note: Records from last submission are highlighted green. These documents also include consultation records for the Otway Marine Industries Co-Existence Cooperative.

The purpose of each document within this report is as follows:
